霸菱德國增長基金

截至 2018 年 5 月 15 日止年度之年度報告及經查核簽證之財務報表

(財報第 41 頁)

致德國增長基金單位持有人之獨立查核人報告

對財務報表查核之報告

意見

本事務所認為霸菱德國增長基金（下稱「本信託基金」）之財務報表（下稱「財務報表」）：

- 就本信託基金截至 2018 年 5 月 15 日之財務狀況及該年度計劃資產之淨收益及淨資本所得，提供真實且公允之看法；且
- 已依英國一般公認會計實務（英國會計準則，包括 FRS 102「英國及愛爾蘭共和國所適用之財務報導準則」及適用法律）、英國許可基金建議常規說明、集合投資計畫手冊及信託契約為適當之編製。

本事務所已查核財務報表，含年度報告及經查核簽證之財務報表在內（「年度報告」），包括：截至 2018 年 5 月 15 日止之資產負債表；總收益表；及該年度之單位持有人淨資產變動表；分配表；會計政策；及財務報表之附註，包含重大會計政策之描述。

意見基礎

本事務所依據國際查核準則（英國）（下稱「ISAs（英國）」）及適用法律進行查核。有關本事務所於 ISAs（英國）下所應負之責任，本事務所報告中查核人查核財務報表之責任乙節有更進一步之說明。本事務所相信，本事務所已取得足夠並適合之查核證據作為提供意見之基礎。

獨立性

依據與本事務所查核財務報表有關之英國道德規範，包括 FRC 之道德標準，本事務所對本信託基金維持獨立性，且本事務所業依據該等規定履行其他道德責任。

持續經營之結論

針對下述 ISAs（英國）要求本事務所應報告之情形，本事務所並無應報告之事項：

- 基金管理機構於編制財務報表所使用之持續經營會計基礎係不恰當的；或
- 基金管理機構未於財務報表中揭露任何已發現的重大不確定事項，該不確定性可能會對本信託基金自財務報表授權發布之日起算至少 12 個月的期間內，繼續採用持續經營會計基礎之能力產生重大懷疑。

然而，由於並非所有未來事件或狀況皆得預測，此說明並非本信託基金繼續持續

(節譯文僅供參考，與原文相較不盡完整或有歧異，如有疑義應以英文本為準)

經營之能力之保證。

報告其他資訊

其他資訊包括年度報告中除了財務報表以及本事務所查核人報告以外的所有資訊。基金管理機構應對其他之資訊負責。本事務所針對財務報表之意見並不包括其他資訊，因此，本事務所對其不表示查核意見，且除於本報告另有明示之範圍外，本事務所對其不為任何形式之保證。

針對本事務所對財務報表之查核，本事務所之責任係閱讀其他資訊，並在此過程中考量其他資訊是否與財務報表或本事務所於查核中所得知者有重大不一致，亦或是否存在重大錯誤陳述。若本事務所發現明顯重大之不一致或重大錯誤陳述，本事務所應執程序以確定係財務報表之重大錯誤陳述或係其他資訊之重大錯誤陳述。若基於本事務所已執行之工作，本事務所做出在其他資訊有重大錯誤陳述之結論，則本事務所應報告該事實。基於該等責任，本事務所並無應報告之事項。

基金管理機構之報告

本事務所認為，財務報表編製年度之基金管理機構報告所載資訊與財務報表一致。

對財務報表與查核之責任

基金管理機構對財務報表之責任

基金管理機構應負責依據所適用架構編製財務報表，並滿意其所提供真實及公允之看法，詳如第 33 頁基金管理機構之責任報告所述。基金管理機構亦應負責其認為必要之內部控制，俾利財務報告之編製不會涉及重大錯誤陳述，無論係基於詐欺或錯誤。

於編製財務報告時，除了基金管理機構有意結束或終止本信託基金，或者無實際之替代方案而必須如此外，基金管理機構應負責評估本信託基金繼續持續經營之能力，適時揭露與持續經營相關之事項，並採用持續經營會計基礎。

查核人查核財務報表之責任

本事務所之目標在於取得與整體財務報表是否無重大錯誤陳述(無論係基於詐欺或錯誤)之合理確信，並發布包含本事務所意見之查核報告。合理確信雖屬高程度之信心，但並不能保證依據 ISAs (英國) 所進行的查核總能發現重大錯誤陳述之存在。錯誤可能係因欺詐或錯誤而生，倘可合理預期錯誤陳述(單獨或整體)將影響讀者根據該等財務報表所作出之經濟決定，則該錯誤陳述將視為重大。

(節譯文僅供參考，與原文相較不盡完整或有歧異，如有疑義應以英文本為準)

有關本事務所對財務報表之查核所應負之責任，英國財務報導委員會之網站 www.frc.org.uk/auditorsresponsibilities 有更進一步之說明。此說明為本事務所查核報告之一部分。

本報告之使用

依集合投資計畫手冊第 4.5.12 項規定，本報告（含意見書）僅為本信託基金全體單位持有人編製，非為其他目的。除經本事務所事前書面明示同意外，本事務所出具本意見並未構成其他目的、或對其他被提示本報告之人、或可能持有本報告之人接受或承擔責任。

其他應報告事項

本事務所對於依集合投資計畫手冊所要求事項之意見

本事務所認為，本事務所已獲得為本次查核之目的所必要之所有資料與說明。

集合投資計畫手冊例外事項報告

依集合投資計畫手冊，本事務所被要求就以下情形報告本事務所之意見，是否：

- 未適當保存會計紀錄；或
- 財務報表與會計紀錄及收益不一致。

本事務所無須因此義務而為例外報告。

Introduction

Baring Fund Managers Limited (the “Manager”) has delegated its day-to-day investment management responsibilities in relation to the Barings German Growth Trust (the “Trust”) to Baring Asset Management Limited (the “Investment Manager”), which is authorised and regulated by the Financial Conduct Authority (“FCA”).

As an investor in the Trust, your money is pooled with that of other investors and invested by the Manager in the shares of selected companies in Germany. The objective of the Trust is to achieve long-term capital growth in the German markets. Income (“Inc”) units pay out any revenue generated to the investor, whereas with accumulation (“Acc”) units, any revenue is automatically accumulated within the Trust and reflected in the price of the units. The Trust, therefore, quotes prices for both Inc and Acc units. As with all Trusts managed by the Investment Manager, the risk assumed in this portfolio is carefully monitored.

The Report of the Manager reviews the performance of the Trust against the returns of the stock markets in which it is investing and analyses the investment environment that influenced the performance of the Trust over the year under review. The Manager then gives an outlook for the markets and details how the Trust will be invested in order to take full advantage of the foreseen opportunities. Finally, the Report of the Manager gives details of any revenue generated by the Trust.

Investment objective and policy

The investment objective of the Trust is to achieve long-term capital growth by investing in Germany.

The Trust will seek to achieve its investment objective by investing at least 75% of its total assets directly and indirectly in equities and equity related securities of companies incorporated in, or exercising the predominant part of their economic activity in, Germany, or quoted or traded on the stock exchanges in Germany.

For the remainder of its total assets, the Trust may invest outside of Germany as well as in fixed income and cash.

While the Trust will aim to diversify its investments, allocations to certain industries or sectors may be more than 30% of its total assets depending on the Investment Manager’s assessment at different times.

In order to implement the investment policy, the Trust may gain exposure through American depositary receipts, global depositary receipts and other equity related securities including participation notes, structured notes, equity-linked notes and debt securities convertible into equities. The Trust may also invest in collective investment schemes and other transferable securities. It may also use derivatives including futures, options, swaps, warrants and forward contracts for efficient portfolio management (including hedging).

Please refer to the Prospectus for the full investment objective and policy.

How the Trust is managed

The Investment Manager adopts a “bottom-up” approach to investing in the Trust. This means that the Investment Manager focuses more on the individual merits of a specific company, rather than taking a stance on the outcome of a sector of the market or macroeconomic trends such as interest rate rises. The Manager believes it is possible to find investment opportunities in German companies that, due to technological or market leadership, are growing rapidly, even though they operate in sectors that may not have a favourable outlook. The Manager also believes it is possible to find companies with excellent prospects in strong-performing areas of the market, which have been overlooked by the broader market. This is why the Manager believes it is important to focus on company fundamentals rather than macroeconomic trends.

Risk profile

Please see detailed below the key risks applicable to the Trust:

- Changes in exchange rates between the currency of the Trust and the currencies in which the assets of the Trust are valued can have the effect of increasing or decreasing the value of the Trust and any income generated.
- Country-specific trusts have a narrower focus than those which invest broadly across markets and are therefore considered to be more risky.

Investment objective and policy (continued)

Risk profile (continued)

- Derivative instruments can make a profit or a loss and there is no guarantee that a financial derivative contract will achieve its intended outcome. The use of derivatives can increase the amount by which the Trust's value rises and falls and could expose the Trust to losses that are significantly greater than the cost of the derivative as a relatively small movement may have a larger impact on derivatives than the underlying assets.
- Losses may occur if an organisation through which we buy an asset (such as a bank) fails to meet its obligations.

Please refer to the Prospectus for the full risk profile.

Constitution

The Trust is constituted by a Trust Deed between the Manager and National Westminster Bank Plc (the "Depositary").

Regulatory disclosure

This document has been issued by the Manager, who is authorised and regulated by the FCA.

The Trust is an Authorised Unit Trust Scheme as defined in section 243 of the Financial Services and Markets Act 2000 and has been established as an Undertakings for Collective Investments in Transferable Securities ("UCITS") scheme.

Past performance is no indication of current or future performance. Investment involves risk. The value of any investments and any income generated may go down as well as up and is not guaranteed. Any references in this report to other investments held within the Trust should not be read as a recommendation to the investor to buy and sell the same but are included as illustration only.

Revenue allocations and reports

Annual revenue allocations are made in July (final) of each year, where applicable, and forwarded to unitholders together with tax vouchers. The annual report and financial statements will be forwarded to unitholders with the distribution and, additionally, an interim report and financial statements will be issued each year in January.

Inspection of documents

Copies of the Prospectus, the Key Investor Information Document(s) ("KIID(s)"), and the most recent annual or interim report and financial statements are available to all persons free of charge from the Manager upon request.

Copies of the Prospectus, KIID(s) and annual or interim report and financial statements are also available in French, where applicable.

PricewaterhouseCoopers LLP (the "Independent Auditor") expresses its opinion on the English version of the annual report and financial statements and accepts no responsibility for any translations of those financial statements.

Soft commission arrangements

The Manager and its associates will not receive cash or offer rebates to brokers or dealers in respect of transactions for the Investment Manager. The Investment Manager uses dealing commissions generated on equity transactions to purchase goods and services that relate to the execution of trades or the provision of research for the benefit of the Trust. Execution of transactions will be consistent with best execution standards. The Investment Manager has engaged in such activities during the year.

Soft commission arrangements have been terminated from 2 January 2018.

Barings have agreed to pay research from their own account and, as such, no client or fund will be subject to the soft commission arrangements.

Market timing

Repeatedly purchasing and selling units in the Trust in response to short-term market fluctuations – known as ‘market timing’ – can disrupt the Investment Manager’s investment strategy and increase the Trust’s expenses to the prejudice of all unitholders.

The Trust is not intended for market timing or excessive trading. To deter these activities, the Manager may refuse to accept an application for units from persons that it reasonably believes are engaged in market timing or are otherwise excessive or potentially disruptive to the Trust.

The Manager also reserves the right to redeem units which it reasonably believes have been purchased by unitholders engaged in market timing.

Publication of prices

From 29 August 2017, we will be changing the way in which we publish the prices of units. The prices of units will no longer be published in the Financial Times but will continue to be published on the Barings website at www.baring.com and on the “Daily Fund Prices” page of the Investment Association website at www.theinvestmentassociation.org. You can also obtain prices by telephone by calling +44 (0) 333 300 0372.

Dealing basis

The Manager’s basis for dealing in purchases and sales of the Trust’s units is ‘forward’. This means that the price used for any deal will be calculated at the next valuation point following receipt of the investor’s instruction.

Fees and expenses

The Manager’s periodic charge is calculated on each business day, based on the value of the property of the Trust on the immediately preceding business day, and is paid to the Manager monthly, in arrears, on the first business day of the calendar month immediately following. The current periodic charge for Class GBP Acc, Class GBP Inc, Class EUR Acc, Class EUR Inc, Class A USD Acc, Class A CHF Hedged Acc, Class A RMB Hedged Acc and Class A USD Hedged Acc is 1.50% per annum. For Class I GBP Hedged Acc, Class I GBP Acc, Class I GBP Inc, Class I EUR Acc, Class I EUR Inc and Class I USD Acc the current periodic charge is 0.75% per annum.

Key changes during the year

In compliance with data privacy laws including the General Data Protection Regulation (Regulation (EU) 2016/679), the Barings Investor Privacy Notice is available at www.baring.com where you may obtain a copy, should you require one.

The Trust’s name was changed to align it with the group entity name of Barings, with “Barings” replacing “Baring” in the name; therefore, the Trust has been renamed Barings German Growth Trust.

Regulatory disclosure (continued)

Securities Financing Transaction Regulation (“SFTR”) disclosure

The SFTR applies to the Manager as a UCITS management company and requires the Manager to comply with a series of obligations. In particular, the Manager will be required to provide investors with information on the use of securities financing transactions (“SFTs”) and total return swaps (“TRSs”) by the Trust in all interim and annual reports published from 13 January 2017.

During the year 16 May 2017 to 15 May 2018, the Trust did not enter into SFTs and TRSs. Should this change in the future, annual reports for the Trust will disclose all required information of the use of SFTs and TRSs.

Remuneration

The Manager’s Remuneration Policy ensures that the remuneration arrangements of Manager remuneration “Identified Staff” as defined in “ESMA’s Guidelines on Sound Remuneration Policy under the UCITS directive, ESMA 2013/201” (the “ESMA Guidelines”) (as amended) are:

- (i) consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profile, rules or instruments of incorporation of the Manager or the Trust; and
- (ii) consistent with the Manager’s business strategy, objectives, values and interests and includes measures to avoid conflicts of interest.

The Manager is also subject to the Financial Conduct Authority’s (“FCA’s”) UCITS Remuneration Code (SYSC 19E) and must comply with the UCITS remuneration principles in a way and to the extent that is appropriate to its size and business.

The Manager has appointed Baring Asset Management Limited as the delegate to carry out investment management (the “Investment Manager”). The Investment Manager is authorised in the UK by the FCA.

Remuneration Committee

Due to the size and nature of the Manager, the Board of Directors of the Manager (the “Manager Board”) considers it appropriate to disapply the requirement to appoint a remuneration committee.

The Manager forms part of the Barings Europe Limited group of companies (“Barings”). Barings has appointed two remuneration committees to take remuneration decisions, namely, the Remunerations Committee and the Senior Compensation Committee.

The Remuneration Committees ensures the fair and proportionate application of the remuneration rules and requirements and ensures that the potential conflicts arising from remuneration are managed and mitigated appropriately.

UCITS Remuneration Identified Staff

The Manager must determine its Identified Staff, whose professional activities have a material impact on its risk profile. Identified staff consists of staff whose professional activities have a material impact on the risk profiles of the Manager or the Trust, which includes senior managers, controlled functions and risk takers.

a) Senior Managers and controlled functions

The Manager Board have waived their entitlement to receive a director’s fee from the Manager. The Manager Board were all employees of the Investment Manager during the Trust’s accounting period and were remunerated accordingly.

Regulatory disclosure (continued)

UCITS Remuneration Identified Staff (continued)

b) Risk takers

Risk takers as defined by the Manager's Remuneration Policy are as follows:

- i. The Permanent Risk Management Function ("PRMF"): the Manager's PRMF comprises of an Organisational Risk team and an Investment Risk team. The individuals who have material impact on the Trust are included in the disclosure.
- ii. Portfolio Manager: the Portfolio Managers are remunerated by the Investment Manager under an equivalent remuneration regime (the Investment Manager and its subsidiaries are subject to remuneration rules contained in the Capital Requirements Directive ("CRD") and these are considered to be equally as effective as those contained in the UCITS directive).

Remuneration Disclosure

The table below summarises the fixed and variable remuneration paid to Identified Staff (for the financial year ended 31 December 2017) as well as other Barings staff (remunerated by the Investment Manager) that carry out activities for the Manager. The disclosures below show remuneration relevant to the Trust, apportioned using total Barings' Assets Under Management ("AUM").

	Number of beneficiaries	Total fixed remuneration for the period	Total variable remuneration for the period	Total remuneration
Manager's Staff	322	£801,298	£925,316	£1,726,614
Identified Staff	6	£197,639	£388,531	£586,170

Notes:

1. Manager's Staff: this includes all relevant UK staff managing the Manager's funds. Remuneration is apportioned based on the relevant AUM. Other than the Identified Staff noted above, none of the staff are considered senior managers or others whose actions may have a material impact on the risk profile of the Trust.
2. Identified Staff: These are as defined in the Manager's remuneration policy; no direct payments are received by Identified Staff from the Manager.
3. Variable remuneration consists of cash bonuses and deferred awards awarded in the year.
4. The Trust does not pay either performance-related fees or carried interests to any person.

Notice for German investors

Special risks resulting from additional German tax publication requirements in Germany

A foreign investment company such as Baring Fund Managers Limited (the “Manager”) must provide documentation to the German fiscal authorities upon request, e.g. in order to verify the accuracy of the additional German published tax information. German investors will use this for their tax returns. The basis upon which such figures are calculated is open to interpretation and it cannot be guaranteed that the German fiscal authorities will accept the Manager’s calculation methodology in every material respect. In addition, you should be aware that if it transpires that these publications are incorrect, any subsequent correction will, as a general rule, not have retrospective effect and will, as a general rule, only take effect during the current financial year. Consequently, the correction may positively or negatively affect the investors who receive a distribution or an attribution of deemed income distributions in the current financial year.

Information for investors in Switzerland

The Manager has appointed BNP Paribas Securities Services, Succursale de Zurich, Selnaustrasse 16, 8002, Zurich, Switzerland, as representative and paying agent for Switzerland. Units are distributed in Switzerland by BNP Paribas (Switzerland) Limited at the above address. Investors can obtain free of charge the Prospectus, KIID(s), the last annual and interim reports, copies of the Trust Deed (and any amendments thereto) as well as a list of the purchases and sales made on behalf of the Barings German Growth Trust (the “Trust”), in German, from the representative at the above address. Official publications for the Trust are found on the internet at www.fundinfo.com. Unit prices (Net Asset Value with the words “plus commissions”) are published daily on the internet at www.fundinfo.com.

Important information to the performance tables on page 13

The value of an investment can fall as well as rise as a result of market fluctuations and investors may not get back the amount originally invested. Past performance is no indication of current or future performance. The performance data does not take account of the commissions and costs incurred on the issue and redemption of units, nor the effect of the Manager’s preliminary charge.

In conformity with a Guideline of the Swiss Funds Association (“SFA”) dated 16 May 2008, the Manager is providing the below additional information regarding performance.

Total Expense Ratio (“TER”)

Following a Guideline of the Swiss Funds Association (“SFA”) dated 16 May 2008, the Manager is required to publish a Total Expense Ratio (“TER”) for the Trust for the first part of the current accounting year and the second part of the previous accounting year. The TER has been established by Baring Fund Managers Limited and draws upon the data contained in the “Statement of total return” (Manager’s management fee, registration fees, trustee/depositary fees, safe custody charges, audit fees, Financial Conduct Authority (“FCA”) and other regulatory fees and taxation fees as well as any further fees and costs listed in the “Statement of total return” account and which do not form part of the aforementioned categories). It is calculated with reference to these numbers and in conformity with the above guideline.

Taxation

The attention of investors is drawn to the fact that Switzerland and the European Union have entered into a bilateral agreement effective from 1 July 2005 based on which measures have been enacted in Switzerland which correspond to the European Union Taxation of Savings Income Directive. Generally, these measures require tax to be withheld on interest payments made by paying agents to EU residents.

* The Synthetic Risk and Reward Indicator ("SRRRI") is not a measure of the risk of capital loss, but a measure of the Trust's price movement over time; the higher the number, the greater the price movement both up and down. It is based on historical data and is not a reliable indication of the future risk profile of the Trust. The risk category shown is in line with the Key Investor Information Document ("KIID") at year-end, is not guaranteed and may change over time. The risk categories are measured from 1–7 (1 measuring typically lower risk/rewards and 7 measuring typically higher risk/rewards). The lowest category does not mean a risk-free investment. The Trust is classified in the category indicated due to past movements in the Trust's price. There is no capital guarantee. The value of investments and the income from them may go down as well as up and investors may not get back the amount they invest. The SRRRI figures shown have not changed during the year.

Performance

Market returns were positive during the year under review, with the HDAX returning 3.68%, supported by the ongoing economic recovery in Germany. Barings German Growth Trust (the "Trust") outperformed the HDAX over the period, primarily reflecting strong stock selection decisions.

Rheinmetall, the military technology company which is currently the Trust's largest absolute position, was a key contributor to returns over the period as they continue to benefit from an increase in orders and positive newsflow regarding increases in governments' defence spending, which were reflected in positive corporate results. The Trust's holdings in UV technology specialist Dr. Hoenle, electronic payments company Wirecard, IT consultancy company S&T and power tools manufacturer Einhell Germany also performed well as they reported excellent corporate results that were much better than the market had anticipated. The Trust also benefited from not owning Deutsche Bank, Steinhoff International and Deutsche Telekom, which all underperformed over the period.

Slightly offsetting this positive performance, the Trust's holdings in Freenet and Heidelberg Cement underperformed as they remained out of favour with the market; nonetheless, we continue to have confidence in the investment cases for these companies. The Trust also did not hold some index positions which performed well, including Volkswagen and E.ON.

The top ten purchases and sales during the year were as follows:

Purchases	Costs €'000	Sales	Proceeds €'000
Northern Trust Global Funds - Euro Liquidity Fund†	267,008	Northern Trust Global Funds - Euro Liquidity Fund†	276,292

Market outlook

We remain optimistic on the outlook for German equities in the medium to long term. It is looking increasingly unlikely that recent trade tensions will escalate, and political tensions in the Korean Peninsula appear to have lessened, which may lead to a reduction in volatility. There has been a recent softening in leading economic indicators; however, they continue to suggest economic expansion which we expect to be positive for German equities. Furthermore, we are starting to see capacity constraints in many industries. This means that corporates will need to invest, and when this occurs the German machinery makers, who are arguably the best in the world, tend to benefit disproportionately. There are several large absolute positions in the Trust which we believe will benefit from this trend, including technology group Siemens, aeronautical manufacturer Airbus and military technology group Rheinmetall.

Overall, German equities remain less expensive than the wider European market and continue to offer stronger growth potential. Our focus remains on seeking high quality German companies that are reasonably valued, where we continue to find opportunities that meet our investment criteria. Specifically, we seek to invest in companies with credible management, healthy financials and strong earnings growth potential on a five-year horizon.

Responsibilities of the Manager

The Collective Investment Schemes sourcebook (“COLL”) requires Baring Fund Managers Limited (the “Manager”) to prepare financial statements for each annual accounting year which give a true and fair view of the financial affairs of the Barings German Growth Trust (the “Trust”) and of its net expense and net capital gains for the year. In preparing the financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- comply with the disclosure requirements of the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Association (“IA”) in May 2014 (the “IMA SORP 2014”);
- follow generally accepted accounting principles and applicable accounting standards;
- make judgements and estimates that are reasonable and prudent;
- keep proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Trust will continue in operation.

The Manager confirms that it has complied with the above requirements in preparing the financial statements. The Manager is responsible for the management of the Trust in accordance with the Trust Deed, Prospectus and the COLL. The Manager is responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Manager is responsible for the maintenance and integrity of the company’s website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Statement of the Trustee’s Responsibilities and Report of the Trustee to the Unitholders of Barings German Growth Trust (the “Trust”) for the Year Ended 15 May 2018

National Westminster Bank Plc (the “Trustee”) must ensure that the Trust is managed in accordance with the Financial Conduct Authority’s Collective Investment Schemes Sourcebook, the Financial Services and Markets Act 2000, as amended (together the “Regulations”), the Trust Deed and Prospectus (together the “Scheme documents”) as detailed below.

The Trustee must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Trust and its investors.

The Trustee is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Trust in accordance with the Regulations.

The Trustee must ensure that:

- the Trust’s cash flows are properly monitored and that cash of the Trust is booked into the cash accounts in accordance with the Regulations;
- the sale, issue, redemption and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Trust are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Trust’s assets is remitted to the Trust within the usual time limits;
- the Trust’s income is applied in accordance with the Regulations; and
- the instructions of the Authorised Fund Manager (the “AFM”) are carried out (unless they conflict with the Regulations).

The Trustee also has a duty to take reasonable care to ensure that the Trust is managed in accordance with the Regulations and the Scheme documents in relation to the investment and borrowing powers applicable to the Trust.

Statement of the Trustee’s Responsibilities and Report of the Trustee to the Unitholders of Barings German Growth Trust (the “Trust”) for the Year Ended 15 May 2018 (continued)

Having carried out such procedures as we consider necessary to discharge our responsibilities as Trustee of the Trust, it is our opinion, based on the information available to us and the explanations provided, that in all material respects, the Trust, acting through the AFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Trust’s units and the application of the Trust’s income in accordance with the Regulations and the Scheme documents; and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Trust.

Independent auditors' report to the Unitholders of Barings German Growth Trust

Report on the audit of the financial statements

Opinion

In our opinion, the Barings German Growth Trust's (the "Trust") financial statements (the "financial statements"):

- give a true and fair view of the financial position of the Trust as at 15 May 2018 and of the net revenue and the net capital gains on its scheme property for the year then ended; and
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law, the Statement of Recommended Practice for UK Authorised Funds, the Collective Investment Schemes sourcebook and the Trust Deed.

We have audited the financial statements, included within the Annual Report and Audited Financial Statements (the "Annual Report"), which comprise: the balance sheet as at 15 May 2018; the statement of total return and the statement of change in net assets attributable to unitholders for the year then ended; the distribution tables; the accounting policies; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Trust in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you when:

- the Manager's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Manager has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Trust's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Trust's ability to continue as a going concern.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The Manager is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Independent auditors' report to the Unitholders of Barings German Growth Trust (continued)

Manager's Report

In our opinion, the information given in the Manager's Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Responsibilities for the financial statements and the audit

Responsibilities of the Manager for the financial statements

As explained more fully in the Responsibilities of the Manager set out on page 33, the Manager is responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The Manager is also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intend to wind up or terminate the Trust, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Trust's unitholders as a body in accordance with paragraph 4.5.12 of the Collective Investment Schemes sourcebook and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Opinion on matter required by the Collective Investment Schemes sourcebook

In our opinion, we have obtained all the information and explanations we consider necessary for the purposes of the audit.

Collective Investment Schemes sourcebook exception reporting

Under the Collective Investment Schemes sourcebook, we are also required to report to you if, in our opinion:

- proper accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Notes to the financial statements

for the year ended 15 May 2018

1. Accounting policies

Basis of accounting

The financial statements have been prepared with the historical cost convention, as modified by the revaluation of investments, and in accordance with UK Generally Accepted Accounting Practice and the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Association (“IA”) in May 2014 (the “IMA SORP 2014”). The financial statements are also in compliance with FRS 102, the Financial Reporting Standard applicable in the UK and Republic of Ireland.

The financial statements have been prepared on a going concern basis.

Basis of valuation of investments

All investments are valued at their fair value as at 12 noon on 15 May 2018. The fair value for non-derivative securities is the bid-market price, excluding any accrued interest.

Foreign exchange

Transactions in foreign currencies are translated at the rate of exchange ruling on the date of the transaction. Where applicable, assets and liabilities denominated in foreign currencies are translated into euro at the rates of exchange ruling at 12 noon on 15 May 2018.

Recognition of revenue

Revenue from quoted equity and non-equity shares is recognised net of attributable tax credits when the security is quoted ex-dividend. Bank interest, interest on debt securities and other revenue are recognised on an accruals basis.

Distributions receivable from Investment Funds are recognised when the shares are priced ex-distribution. Distributions receivable from Investment Funds, excluding any equalisation element, are recognised as revenue.

Treatment of expenses

For accounting purposes, all expenses (other than those relating to the purchase and sale of investments and stamp duty reserve tax) are charged against revenue for the year on an accruals basis.

Taxation

Corporation tax is provided for on an accounting basis, hence deferred tax on short-term timing difference does not arise. Deferred tax assets arising from unutilised expenses are only recognised as they are expected to crystallise. Deferred tax assets and liabilities are not discounted to reflect the time value of money.

Distribution policy

Where applicable, for the Income units (“Inc”), Barings German Growth (the “Trust”) will pay any surplus revenue as a distribution. For Accumulation units (“Acc”), the Trust will retain any surplus revenue for investment in the Trust.

Unclaimed distribution

Distributions which have remained unclaimed by unitholders for over six years are credited to the capital property of the Trust.

Stock dividends

The ordinary element of stocks received in lieu of cash dividends is recognised as revenue of the Trust. Any enhancement above the cash dividend is treated as capital and is non-distributable. As at 15 May 2018, there were no stock dividends on the Trust.

Stock lending revenue

Revenue from stock lending is accounted for net of agent’s fees and commissions and is recognised on an accruals basis. No revenue was generated from stock lending during the year under review.

Special dividends

These are recognised as either revenue or capital depending upon the nature and circumstances of the dividend. Amounts recognised as revenue will form part of Trust’s distribution. Any tax thereon will follow the accounting treatment of the principal amount.

1. Accounting policies (continued)

Dilution Adjustment

Trusts which are single priced may suffer a reduction in value as a result of the costs incurred in the purchase and sale of its underlying investments and the spread between the buying and selling prices of such investments. With a view to countering this, Baring Fund Managers Limited (the "Manager") may require the payment of a dilution adjustment as an addition on their issue or sale by the Manager, or as a deduction on their cancellation or redemption by the Manager.

2. Net capital gains

Net capital gains during the year comprise:

	2018 €'000	2017 €'000

	2018 €'000	2017 €'000
a) Analysis of charge in year:		
Overseas withholding tax	1,900	1,442

b) Factors affecting taxation charge of the year:

The tax assessed for the year is higher (15 May 2017: higher) than the standard rate of corporation tax in the UK for an authorised unit trust, which is 20% (15 May 2017: 20%). The differences are explained below:

	2018 €'000	2017 €'000
Net revenue before taxation	6,203	7,080
Corporation tax at 20% (15 May 2017: 20%).	1,241	1,416

c) Deferred tax

Provision at the start of the year	-	-
Deferred tax charge in the year	-	-
Provision at the end of the year	-	-

The Trust has not recognised a total deferred tax asset of €13,650,546 (2017: €11,852,450) arising as a result of having unutilised management expenses. These are not expected to be fully utilised in the foreseeable future unless the nature of the Trust's revenue or capital gains changes.

	<u>8,084</u>	<u>6,068</u>

11. Contingent liabilities

There were no contingent liabilities at the year-end date (15 May 2017: €nil).

12. Equalisation

Equalisation applies only to units purchased during the distribution year (Group 2 units). It is the average amount of net revenue included in the purchase price of all Group 2 units. In the case of Income ("Inc") units, it is refunded as part of a unitholder's first distribution. In the case of Accumulation ("Acc") units, it is automatically reinvested in the relevant trust at the first distribution payment date after the units were purchased. Being a capital repayment, it is not liable to income tax but must be deducted from the cost of units for capital gains tax purposes.

13. Financial instruments

In pursuing its investment objective set out on page 2, the Trust may hold a number of financial instruments. These comprise:

- equity and non-equity shares, fixed income securities, and floating rate securities. These are held in accordance with the Trust's investment objective and policies;
- cash, Investment Funds, liquid resources and short-term debtors and creditors that arise directly from its operations;
- unitholders' funds which represent investors' monies which are invested on their behalf;
- borrowings used to finance investment activity; and
- forward foreign currency contracts, the purpose of which is to manage the currency risk arising from the Trust's investment activities (and related financing).

Notes to the financial statements (continued)

for the year ended 15 May 2018

14. Risks of financial instruments

The risks arising from the Trust's financial instruments are market price, foreign currency, interest rate, liquidity and credit risks. The Manager reviews (and agrees with the Depositary) policies for managing each of these risks and they are summarised below. These policies have remained unchanged since the beginning of the year to which these financial statements relate (15 May 2017: same):

- *Market risk* - arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the Trust might suffer through holding market positions in the face of price movements.

The Manager meets regularly to consider the asset allocation of the portfolio in order to minimise the risk associated with particular countries or industry sectors whilst continuing to follow the investment objective. An individual Trust manager has responsibility for monitoring the existing portfolio selected in accordance with the overall asset allocation parameter described above and seeks to ensure that individual stocks also meet the risk reward profile that is acceptable.

The Manager does not use derivative instruments to hedge the investment portfolio against market risk, as in its opinion the cost of such a process would result in an unacceptable reduction in the potential for capital growth.

Sensitivity analysis

At 15 May 2018, if the price of the investments held by the Trust increased or decreased by 5%, with all other variables held constant, then the net assets attributable to unitholders would increase or decrease by approximately €39.640 million (15 May 2017: €28.930 million).

- *Currency risk* - the revenue and capital value of the Trust's investments can be significantly affected by foreign currency translation movements, as a proportion of the Trust's assets and revenue are denominated in currencies other than euro, which is the Trust's functional currency.

The Manager has identified three principal areas where foreign currency risk could impact the Trust. These are: movement in exchange rates affecting the value of investments, short-term timing differences such as exposure to exchange rate movements during the year between when an investment, purchase or sale is entered into and the date when settlement of the investment occurs, and finally, movements in exchange rates affecting revenue received by the Trust.

At the year-end date, a proportion of the net assets of the Trust were denominated in currencies other than euro with the effect that the balance sheet and total return can be affected by exchange rate movements. These net assets consist of the following:

Currency exposure for the year ended 15 May 2018:

	Portfolio of investments €'000	Net other assets €'000	Total €'000
US dollar	5,451	10	5,461
Sterling	549	4,361	4,910
	6,000	4,371	10,371

Currency exposure for the year ended 15 May 2017:

	Portfolio of investments €'000	Net other assets €'000	Total €'000
US dollar	1,650	10	1,660

	10,054	666	10,720

BARINGS

Notes to the financial statements (continued)

for the year ended 15 May 2018

14. Risks of financial instruments (continued)

Sensitivity analysis

At 15 May 2018, if the value of the euro increased or decreased by 1%, with all other variables held constant, then the net assets attributable to unitholders would increase or decrease by approximately €0.104 million (15 May 2017: €0.107 million).

- *Interest rate risk* - the Trust may invest in both fixed rate and floating rate securities, and any change to the interest rates relevant for particular securities may result in either revenue increasing or decreasing, or the Manager being unable to secure similar returns on the expiry of contracts or the sale of securities. In addition, changes to prevailing rates or changes in expectations of future rates may result in an increase or decrease in the value of the securities held.

In general, if interest rates rise, the revenue potential of the Trust also rises but the value of fixed rate securities will decline (along with certain expenses calculated by reference to the assets of the Trust). A decline in interest rates will in general have the opposite effect.

The interest rate risk profile of financial assets and liabilities consists of the following:

	Floating rate 15/05/2018 €'000	Fixed rate 15/05/2018 €'000	None 15/05/2018 €'000	Total 15/05/2018 €'000
Portfolio	(169)	-	792,815	792,646
Cash at bank	48	-	-	48
Other assets	-	-	6,678	6,678
Liabilities	-	-	(8,797)	(8,797)
	(121)	-	790,696	790,575

	Floating rate 15/05/2017 €'000	Fixed rate 15/05/2017 €'000	None 15/05/2017 €'000	Total 15/05/2017 €'000
Portfolio	(34)	-	578,636	578,602
Cash at bank	2	-	-	2
Other assets	-	-	10,418	10,418
Liabilities	-	-	(6,527)	(6,527)
	(32)	-	582,527	582,495

The floating rate assets and liabilities comprise bank balances and overdrafts, whose rates are determined by reference to the London Interbank Offered Rate ("LIBOR") or an international equivalent borrowing rate.

Sensitivity analysis

The interest bearing assets and liabilities at the year-end are immaterial. Thus, any movement in interest rates would have an insignificant impact on the financial statements for the year ended 15 May 2018 (15 May 2017: same) and no further disclosure has been made.

- *Liquidity risk* - the Trust's assets comprise mainly readily realisable securities, which can be readily sold. The main liability of the Trust is the redemption of any units that investors wish to sell.
- *Credit risk* - certain transactions in securities that the Trust enters into expose it to the risk that the counterparty will not deliver the investment (purchase) or cash (sale) after the Trust has fulfilled its responsibilities. All currency contracts are held with State Street; please see below the details of the notional exposure.

Notes to the financial statements (continued)

for the year ended 15 May 2018

14. Risks of financial instruments (continued)

Sensitivity analysis (continued)

The Trust only buys and sells investments through brokers which have been approved as an acceptable counterparty. In addition, limits are set as to the maximum exposure to any individual broker that may exist at any time; these limits are reviewed regularly. Therefore, the counterparty risk is negligible.

- *Fair value* - there is no material difference between the value of the financial assets and liabilities, as shown in the balance sheet, and their fair value.
- *Derivatives and other financial instruments* - transactions in derivatives, warrants, forward contracts and futures may be used for the purpose of hedging and meeting the investment objectives of the Trust. In pursuing the Trust's objectives, the Manager may make use of a variety of instruments in accordance with the rules. At 15 May 2018, the Trust held open forward currency contracts with State Street. The notional exposure of those currency contracts at that date was €59,434,873 (15 May 2017: €19,937,921).

The Net Asset Value of the Trust may have high volatility due to derivatives and other financial instruments used. Portfolio hedging will generally reduce volatility, whereas taking additional market or securities exposure could increase volatility. In the latter case, the intention is that volatility should not be markedly different from the Trust directly holding the underlying investments.

15. Fair value

The fair value of a financial instrument is the amount for which it could be exchanged between knowledgeable, willing parties in an arm's length transaction. There is no significant difference between the value of the financial assets and liabilities, as shown in the financial statements, and their fair value.

FRS 102 requires the Trust to classify financial instruments measured at fair value into the following hierarchy:

The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

A financial instrument is regarded as quoted in an active market if the quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial assets and financial liabilities that are not traded in an active market is determined by using valuation techniques. The Trust uses a variety of methods and makes assumptions that are based on market conditions existing at the year-end date. The fair value hierarchy has the following levels:

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The above analysis covers any direct transaction costs suffered by the Trust during the year.

In the case of equities and Investment Funds, separately identifiable direct transaction costs (commissions and taxes etc.) are attributable to the Trust's purchase and sale of equity investments. In addition, there may be dealing spread costs (the difference between the buying and selling prices) which will be suffered on purchase and sale transactions which are not separately identifiable and do not form part of the analysis above.

In the case of Investment Funds, there may be potential dealing spread costs applicable to purchases and sales. Additionally, there are indirect transaction costs suffered in those underlying sub-funds throughout the holding period for the instruments which are not separately identifiable and do not form part of the analysis above.

The average portfolio dealing spread is disclosed on page 56. Transaction costs vary depending on the transaction value and market sentiment.

18. Ultimate controlling party and related party transactions

Baring Asset Management Limited (the "Investment Manager") is the immediate parent company of the Manager and also regarded as related party. The Investment Manager's fees and expenses will be paid by the Manager out of its remuneration from the Trust. As at 15 May 2018, the Investment Manager has no direct investment in the Trust (15 May 2017: nil). Amounts due from or to the Investment Manager in respect of share transactions at the balance sheet date are disclosed under Debtors and Other creditors in the Notes to the financial statements.

The Manager exercises control over the Trust and is therefore a related party by virtue of its controlling influence.

Amounts paid during the year or due to the Manager at the balance sheet date are disclosed under Expenses and Other creditors in the Notes to the financial statements.

The Manager acts as principal on all transactions of units in the Trust. The aggregate monies received through the issue and cancellations of units are disclosed in the Statement of Change in Net Assets Attributable to Unitholders and Distributions in the Notes to the Accounts. Amounts due from or to the Manager in respect of unit transactions at the balance sheet date are disclosed under Debtors and Other creditors in the Notes to the financial statements.
