(中文簡譯文)

先機環球基金

年度報告及經查核財務報表截至2021年12月31日止之會計年度

先機環球基金

為依據經修訂之2011年歐洲共同體(可轉讓證券集體投資計畫)條例及2013年中央銀行(監督與執行)法(第48(1)條)2019年(可轉讓證券集體投資計畫)條例之授權,於愛爾蘭成立之可變資本有限責任投資公司,係一子基金間責任分離之傘型基金

(註冊編號271517)

本年度報告得翻譯成其他語言。任何該等翻譯應為英文版本之直接翻譯。如任何譯本中之用語或詞彙之涵義有任何不一致或模糊之處,應以英文版本為準。任何與本年度報告中所用詞彙有關之爭議應以愛爾蘭法律為準據法並依愛爾蘭法律解釋之。

致先機環球基金成員之獨立查核報告

財務報表查核報告

意見

本所已查核列載於第 156 頁至第 319 頁中先機環球基金(下稱「公司」)迄 2021 年 12 月 31 日止會計年度之財務報表英文版,包括營運報表、財務狀況表、參與可贖回股東之淨資產變動報表及相關附註(含附註 3 所載之重要會計政策摘要說明)。編製該等財務報表所適用之財務報導架構係愛爾蘭法律以及適用於英國及愛爾蘭共和國之財務報告準則 FRS 102。

本所認為,前揭財務報表:

- 係就公司於2021年12月31日之資產、負債與財務狀況,以及該會計年度
 終了時參與可贖回股東之淨資產增加,提供真實且公允之看法;
- 已依適用於英國及愛爾蘭共和國之財務報告準則 FRS 102 為適當之編製;及
- 已依2014年公司法及2011年歐洲共同體(可轉讓證券集體投資計畫)條例及2019年中央銀行(監督與執行)法(第48(1)條)2015年(可轉讓證券集體投資計畫)條例之規定為適當之編製。

查核意見之基礎

本所依據國際審計準則(愛爾蘭)(下稱「ISAs(愛爾蘭)」)及相關法律執行查核工作。本所基於前開準則所負之責任於本查核報告之「會計師查核財務報表之責任」一節中有進一步說明。依據本所於愛爾蘭查核財務報表時之相關道德規範,包括愛爾蘭審計及會計監察局(下稱「IAASA」)頒布之職業道德準則,本所與公司保持超然獨立,且本所業已依據前述道德規範履行本所之其他職業道德責任。

本所相信,本所已取得足夠及適切之查核證據,可作為本所查核意見之基礎。本所對於繼續經營無任何報告。

倘本所所做成之結論係使用繼續經營會計基礎並不恰當,或有未揭露之重大不確定因素可能會對自財務報表核可日起至少十二個月期間使用該基礎抱持重大 疑慮,則本所應向 台端報告。在這方面,本所無任何報告。

其他資訊

董事必須對年度報告所揭示之其他資訊以及財務報表負責。其他資訊包括董事報告、通訊錄、一般資訊、存託機構報告、投資顧問報告、投資組合、重要買進與賣出(未查核)、總費用比率(未查核)、基金績效(未查核)、會計年度期間重要事件(未查核)、財務狀況表日期後事件(未查核)及補充資訊(未查核)中所涵蓋之資訊。本所對財務報表之查核意見並未涵蓋前揭其他資訊,故不對該等資訊表示查核意見或任何形式之認證結論(除下文明確陳述者外)。

本所之責任在於閱讀前揭其他資訊,並在此過程中依據本所之財務報表查核工作,考量前揭資訊是否與財務報表或與本所於查核過程中所瞭解之情況有重大不實表達或有重大出入。在僅以前項工作為基礎之情形下,本所並未發現其他資訊中有任何重大不實表達。

在僅以本所對其他資訊所進行之工作為基礎之情形下,本所謹報告如下:

- 本所並未發現董事報告或其他隨附資訊有重大不實表達;
- 本所認為董事報告所述資訊與財務報表相符;
- 本所認為董事報告已依據2014年公司法編製。

針對2014年公司法所規定之其他事項表示意見

本所已獲得本所認為查核所必須之所有資料與說明。

本所認為公司之會計紀錄足以對財務報表進行立即且適當之查核,財務報表亦與會計記錄相符。

本所應報告之例外事項

依 2014 年公司法規定,如依本所意見,董事薪酬及交易並未依公司法第 305 條 至第 312 條規定為揭露者,本所應向台端報告。在這方面,本所無任何報告。

各自之責任及使用上之限制

董事對財務報表之責任

如第 17 頁董事責任報告所詳述,董事之責任包括:編製財務報表,並就該等報表已作出真實且公允之反映一事取得確信;維持與財務報表編製有關之必要內部控制,以確保財務報表未存有因詐欺或錯誤所造成之重大不實表達。

編製財務報表時,董事應負責評估公司繼續經營之能力,在適用情況下揭露與繼續經營相關之事項,以及採用繼續經營會計基礎,除非其意圖清算公司或停止營運,或別無其他實際可行之替代方案。

會計師查核財務報表之責任

本所查核財務報表之目的,係對財務報表整體是否存在因詐欺或錯誤所造成之重大不實表達取得合理確信,並出具包含查核意見在內之查核報告。合理確信係高度確信,但並不保證依照 ISAs(愛爾蘭)執行之查核工作必能偵察出財務報表存在之重大不實表達。不實表達可能肇因於詐欺或錯誤,倘可合理預期到個別或彙總之不實表達將影響到使用者依據財務報表所作之經濟決策,則該等不實表達將被視為重大。

有關本所責任之更完整說明,請參考 IAASA 網站,網址 https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description _of_auditors_responsiblities_for_audit.pdf.。

本所查核工作之目的及本所負責之對象

本報告依 2014 年公司法第 391 條規定係僅為公司全體成員編製,本所已進行查核工作以便能向公司成員說明本所必須在查核報告內向其說明的事項,非為其他目的。在法律許可之最大範圍內,本所就查核工作、本報告或出具本意見,對公司及公司全體成員以外之任何其他人,不接受亦不承擔任何責任。

General Information

Structure

Jupiter Asset Management Series Plc (the "Company") is an umbrella fund with segregated liability between Sub-Funds established as an open-ended investment company with variable capital, incorporated on 2 September 1997, organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014, the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, as amended (the "Regulations") and has been authorised by the Central Bank of Ireland ("Central Bank") as a UCITS within the meaning of the Regulations.

The share capital of the Company shall at all times equal the Net Asset Value ("NAV"). The authorised share capital of the Company is EUR 38,082 represented by 30,000 Subscriber Shares of no par value and 500,000,000,000 redeemable participating shares of no par value. The Company has repurchased all but one of the Subscriber Shares.

Additional information

On 27 September 2021, the following sub-fund changed its name as set out below:

New Sub-Fund Name	Old Sub-Fund Name
Jupiter Emerging Market Debt Income Fund	Jupiter Local Currency Emerging Market Debt Fund

On 1 July 2020, Jupiter Fund Management plc ("Jupiter") completed the acquisition of Merian Global Investors Limited. The entire issued share capital of Merian Global Investors Limited was acquired by Jupiter Fund Management plc. As a result, the Merian Group is now a wholly-owned subsidiary of Jupiter. On 15 February 2021, the following sub-funds changed their names as set out below:

New Sub-Fund Name	Old Sub-Fund Name

Investment Objectives of the Sub-Funds

Jupiter China Equity Fund

The investment objective of the Jupiter China Equity Fund is to seek to achieve long-term capital appreciation by investing in a well-diversified portfolio of equity securities issued by companies with either the predominant part of their assets in, or the predominant part of their revenues derived from, the People's Republic of China, Hong Kong and/or Taiwan that are listed, traded or dealt in on Regulated Markets in the People's Republic of China, Hong Kong, Taiwan, the United States of America ("US"), Singapore, Korea, Thailand and Malaysia or in a member state of the Organisation for Economic Co-Operation and Development ("OECD"). The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter Merian World Equity Fund

The investment objective of the Jupiter Merian World Equity Fund is to seek to achieve asset growth through investment in a well-diversified portfolio of securities of issuers worldwide. It is not proposed to concentrate investments in any one geographical region, industry or sector. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter Pacific Equity Fund

The investment objective of the Jupiter Pacific Equity Fund is to seek to achieve asset growth through investment in a well-diversified portfolio of securities of Pacific region issuers or of issuers established outside the Pacific region which have a predominant proportion of their assets or business operations in the Pacific region. It is not proposed to concentrate investments in any one industry or sector. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Merian European Equity Fund

The investment objective of the Merian European Equity Fund is to seek to achieve asset growth through investment in a well-diversified portfolio of securities of European issuers, of issuers established outside Europe which have a predominant proportion of their assets or business operations in Europe, or of securities listed or having a listing on a European exchange. It is not proposed to concentrate investments in any one industry or sector. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter Merian US Equity Income Fund

The investment objective of the Jupiter Merian US Equity Income Fund is to seek to achieve asset growth through investment in a diversified portfolio of equity and equity-related securities. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter Merian North American Equity Fund (IRL)

The investment objective of the Jupiter Merian North American Equity Fund (IRL) is to seek to achieve long term capital growth through the active management of a diversified portfolio invested primarily in North American stock markets. It is not proposed to concentrate investments in any one industry or sector. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Investment Objectives of the Sub-Funds (continued)

Merian Global Dynamic Bond Fund

The investment objective of the Merian Global Dynamic Bond Fund is to seek to maximise total return consistent with preservation of capital and prudent investment management. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter Emerging Market Debt Fund

The investment objective of the Jupiter Emerging Market Debt Fund is to seek to achieve asset growth through investment in a well-diversified portfolio of fixed and variable rate debt securities issued in emerging markets. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter Global Emerging Markets Focus Fund

The investment objective of the Jupiter Global Emerging Markets Focus Fund is to seek to achieve asset growth through investment in a well-diversified portfolio of equity securities of issuers in the emerging markets or of issuers established outside of the emerging markets, which have a predominant proportion of their assets or business operations in the emerging markets and which are listed, traded or dealt in on a Regulated Market worldwide. It is not proposed to concentrate investments in any one industry or sector. The Sub-Fund takes sustainability risk and ESG characteristics into account as part of its selection process. It promotes environmental and social characteristics on an ongoing basis within the scope of Article 8 of SFDR. The environmental and social characteristics selected for this Sub-Fund include the promotion of the transition to a low carbon economy and the pursuit of a positive stakeholder agenda. For further sustainability information please refer to the information contained in the Sub-Fund's Supplement to the Prospectus and to the Jupiter Group website, https://www.jupiteram.com.

Merian Asian Equity Income Fund

The investment objective of the Merian Asian Equity Income Fund is to seek to achieve a total return through a combination of income and capital growth. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter Emerging Market Debt Income Fund

The investment objective of the Jupiter Emerging Market Debt Income Fund is to seek to achieve total return through investment in a well-diversified portfolio of fixed and variable rate debt securities issued in the emerging markets worldwide and which are primarily denominated in the local currency of the issuer. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter UK Alpha Fund (IRL)

The investment objective of the Jupiter UK Alpha Fund (IRL) is to seek to achieve capital appreciation. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter UK Smaller Companies Focus Fund

The investment objective of the Jupiter UK Smaller Companies Focus Fund aims to provide capital growth from investing primarily in an equity portfolio of UK smaller companies. Smaller companies are defined for this purpose as those companies which are quoted on a Regulated Market and which have a market capitalisation no greater than the largest company in the Numis Smaller Companies Index at the time of initial investment. The Numis Smaller Companies Index is designed to monitor the performance of the smaller companies sector. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Investment Objectives of the Sub-Funds (continued)

Jupiter UK Dynamic Equity Fund

The investment objective of the Jupiter UK Dynamic Equity Fund is to achieve capital appreciation by taking long and short positions principally in UK equities outside of the FTSE 100 Index. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter Merian Global Equity Absolute Return Fund

The investment objective of the Jupiter Merian Global Equity Absolute Return Fund is capital appreciation while closely controlling risk. In addition, the Sub-Fund intends to deliver absolute returns that have a low correlation with equity and bond markets. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter Strategic Absolute Return Bond Fund

The investment objective of the Jupiter Strategic Absolute Return Bond Fund is to seek to deliver positive total returns on a rolling twelve month basis with stable levels of volatility uncorrelated to bond and equity market conditions. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter Europe (ex UK) Smaller Companies Fund

The investment objective of the Jupiter Europe (ex UK) Smaller Companies Fund is to achieve long term capital growth through investing primarily in an equity portfolio of smaller companies incorporated in Europe (excluding the United Kingdom) or of companies incorporated outside of Europe (excluding the United Kingdom) which have a predominant proportion of their assets and/or business operations in Europe (excluding the United Kingdom). The Sub-Fund takes sustainability risk and ESG characteristics into account as part of its selection process. It promotes environmental and social characteristics on an ongoing basis within the scope of Article 8 of SFDR. The environmental and social characteristics selected for this Sub-Fund include the promotion of the transition to a low carbon economy and the pursuit of a positive stakeholder agenda. For further sustainability information please refer to the information contained in the Sub-Fund's Supplement to the Prospectus and to the Jupiter Group website, https://www.jupiteram.com.

Jupiter Merian Global Equity Income Fund (IRL)

The investment objective of the Jupiter Merian Global Equity Income Fund (IRL) is to seek to achieve a total return through a combination of income and capital growth. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter Gold & Silver Fund

The investment objective of the Jupiter Gold & Silver Fund is to seek to achieve a total return by investing predominantly in listed equities. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Jupiter UK Specialist Equity Fund

The investment objective of the Jupiter UK Specialist Equity Fund is to seek to achieve capital appreciation by taking long and short positions mainly in UK equities outside the FTSE 100 Index, whilst seeking to deliver absolute returns in all market conditions. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Investment Objectives of the Sub-Funds (continued)

Jupiter Financials Contingent Capital Fund

The investment objective of the Jupiter Financials Contingent Capital Fund is to seek to achieve a total return through a combination of income and capital growth from a portfolio of primarily fixed and variable rate debt securities issued by financial institutions with minimum capital requirements, such as insurers and banks. The Sub-Fund does not fall within the scope of Regulation (EU) 2020/852 of the European Parliament and of the Council on the establishment of a framework to facilitate sustainable investment. Further to this, the investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Distribution Policy

Distributions to holders of Redeemable Participating Shares are recorded in the Statement of Operations as finance costs. Distributions paid and proposed during the financial years ended 31 December 2021 and 31 December 2020 with respect to certain Share Classes are outlined in Note 10. All of the other Sub-Funds' income and capital gains were reinvested in accordance with the investment objectives and policies of the Sub-Funds.

The Company will declare a dividend in respect of the Classes of Shares of the Sub-Funds as set out in the Prospectus of the Company. For all Classes of Shares that are not distributing, the Sub-Fund's income and capital gains will be reinvested in accordance with the investment objectives and investment policies of the Sub-Fund.

Fixed Distribution Share Classes

The Directors at their absolute discretion, have the power to issue Classes of Shares that offer a fixed distribution ("Fixed Distribution Share Classes"). Where the Directors have determined that a Share Class in any Fund is to constitute a Fixed Distribution Share Class it will have the "(F)" designation after its name.

Where such Share Classes are offered in the Supplement for the relevant Sub-Fund, the Directors intend to pay a fixed distribution of income or gains.

The Directors will periodically review the Fixed Distribution Share Classes and reserve the right to make changes, for example if the investment income after expenses is higher than the target fixed distribution the Directors may declare the higher amount to be distributed. Equally the Directors may deem it is appropriate to declare a dividend lower than the target fixed distribution.

Where in the interest of the Shareholders, especially where the generation of income has a higher priority than capital growth or the generation of income and capital growth have equal priority, a portion or all of the fees and expenses attributable to the Fixed Distribution Share Classes may be charged against the capital of such Shares instead of against income where necessary in order to ensure there is sufficient income to meet the fixed distribution payments.

Dilution Adjustment

On any Dealing Day the Directors may determine when there are net inflows into a Sub-Fund or net outflows from a Sub-Fund to apply a dilution adjustment to the dealing Net Asset Value per Share so that the price of a Share in the Sub-Fund is above or below that which would have resulted from a latest available market valuation. This adjustment is intended to pass the estimated costs of underlying investment activity of the Sub-Fund to the active Shareholders by adjusting the Net Asset Value of the relevant classes of Shares and thus to protect the Sub-Fund's long-term Shareholders from costs associated with ongoing subscription and redemption activity. These costs may include dealing charges, commissions and the effects of dealing at prices other than the middle market price. The price of each Class of Share in a Sub-Fund will be calculated separately but any dilution adjustment will affect the price of Shares of each Class in a Sub-Fund in an identical manner.

Investment Risks

An investment in any Sub-Fund involves investment risks, including possible loss of the amount invested. Moreover, there can be no assurance that a Sub-Fund will achieve its investment objective.

Taxation

As an investment undertaking within the meaning of Section 739(B) of the Taxes Consolidation Act 1997, as amended, the Company is generally exempt from Irish tax on its income and gains and the Company will not be required to account for any tax in respect of Shareholders who are not Irish residents or exempt Irish residents provided that the signed necessary declarations are in place. The Company may be required to account for tax in respect of Shareholders who are Irish residents. Shareholders who are not Irish residents and have made the required declaration of non-residence will not be liable to Irish tax on income from their Shares or gains made on the disposal of their Shares, provided the Shares are not attributable to an Irish branch or agency of such shareholder. No stamp duty or other tax is generally payable in Ireland on the subscription, issue, holding, redemption, conversion or transfer of Shares.

Selling Restrictions

The Shares may not be purchased or held by US persons unless pursuant to an exemption under applicable US law and may not be offered or sold in any jurisdiction in which such offer or sale is not lawful or in which the person making such offer or sale is not qualified to do so or to anyone to whom it is unlawful to make such an offer or sale.

Dealing Days

A Dealing Day in respect of all of the Sub-Funds means every Business Day (as defined for each Sub-Fund in the Prospectus) or such other days as the Directors may determine provided that there shall be at least one Dealing Day each fortnight.

Subscriptions and Repurchases

Certain Share Classes have minimum initial investment, minimum subsequent investment and minimum holding requirements which are disclosed in the Prospectus.

An initial charge may be payable to the Company on subscriptions for certain Share Classes. A contingent deferred sales charge may be payable to the Company on the subscription price for certain Shares, with the amount of the contingent deferred sales charge payable dependent on the length of time between the date the Shares were purchased and their repurchase. The following table outlines these charges:

Class of Shares:	Initial Charge:	Contingen		lles charge a ription price	s a percentag paid	je of the
			Years	since purch	ase	
		0 - 1	1 - 2	2 - 3	3 - 4	4+
		Years	Years	Years	Years	Years
Class B Shares	Nil	4.00%	3.00%	2.00%	1.00%	Nil
Class C Shares	Up to 1.00% of the Net Asset Value per Share	1.00%	Nil	Nil	Nil	Nil
Class C2 Shares	Up to 0.50% of the Net Asset Value per Share	2.00%	1.00%	Nil	Nil	Nil

The other Share Classes are not in scope for these charges.

Directors' Report

The Directors submit their annual report together with the audited financial statements of Jupiter Asset Management Series Plc (the "Company") for the financial year ended 31 December 2021.

On 15 February 2021 the Company changed name from Merian Global Investors Series Plc to Jupiter Asset Management Series Plc.

Principal Activities

The principal activity of the Company is the collective investment in transferable securities and/or other liquid financial assets. As at 31 December 2021, the Company consisted of 21 Sub-Funds (the "Sub-Funds") which are in operation at financial year end (2020: 21).

Business Review, Results and Future Development

A more comprehensive overview of the Company's investment activities and the analysis of the Company's key performance indicator ('KPIs'), such as the performance of the relevant Sub-Funds is detailed in the Investment Advisers' and Investment Managers' Reports.

The results for the financial year are set out in the Statement of Operations and the assets and liabilities are set out in the Statement of Financial Position. Details of the Company's share capital and changes during the financial year under review are disclosed in the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders. Significant shareholders are disclosed in Note 5.

The Company intends to continue promoting and generating interest in its business in the future.

Jupiter Asset Management (Europe) Limited ("JAMEL")* ("the Manager") is authorised by the Central Bank to act as a UCITS management company pursuant to the Regulations and an Alternative Investment Fund Manager ("AIFM") pursuant to the European Communities (Alternative Investment Fund Managers) Regulations, 2013, as amended. The appointment of the Manager ensured that the Company has an EU domiciled fund management company, thereby avoiding issues around the Company continuing to market within the EEA on a cross-border basis by the Manager once the United Kingdom left the EU.

While the full impact of Brexit may not be known yet, to date the Company has not seen a significant impact from the United Kingdom leaving the EU. The United Kingdom leaving the EU still carries an element of uncertainty and with that comes an element of risk. As Directors of the Company, we maintain that Europe is a core market for distribution of the Sub-Funds and will remain so.

There is a risk with any political developments that occur, and the Manager and Investment Manager continuously monitors all political situations and specifically any financial instrument holdings in affected countries. Political developments affecting market confidence may result in outflows of assets from investment portfolios, which could include asset portfolios held by the Sub-Funds of the Company. Russian hostilities in the Ukraine is being monitored closely to understand the possible impacts of the actions taken by Russia and the likely effects on portfolios. The Company has minimal exposure to Russia and the Ukraine and therefore has no material concerns but continues to closely monitor the situation and any resulting market impacts. Political uprest brings uncertainty and unpredictability in the financial services market, and therefore brings risk of significant currency fluctuations and otherwise adverse effects on consumer confidence for the foreseeable future.

Dividends

Distributions paid and proposed during the financial years ended 31 December 2021 and 31 December 2020 are detailed in Note 10.

Principal Risks, Risk Management Objectives and Policies

The main risks arising from the Company's financial instruments are market risk (including market price risk, interest rate risk and currency risk), liquidity risk and credit risk. In order to manage such risks the Company shall comply with the investment restrictions and diversification limits provided for in the Prospectus and the UCITS Regulations. Details of the principal risks, risk management objectives and policies associated with investment in the Company are listed in Note 11.

Securities Financing Transactions Regulation

Securities Financing Transactions Regulation (Regulation (EU) 2015/2365) ("SFTR") disclosures have been included in the Supplemental Information (unaudited) to the annual financial statements.

Principal Material Changes

- Jupiter Global Emerging Markets Focus Fund and Jupiter Europe (ex UK) Smaller Companies Fund transitioned from Article 6 to Article 8 under Regulation (EU) 2019/2088 of the European Parliament and of the Council. This transition resulted in these two subfunds' investment objectives now taking sustainability risk and ESG characteristics into account as part of its selection process as described in more detail in the Prospectus.

^{*} On 15 February 2021, the Manager's name changed from Merian Global Investors (Europe) Limited to Jupiter Asset Management (Europe) Limited.

Principal Material Changes (continued)

- Changes to the performance fee methodology for the applicable performance fee sub-funds in line with ESMA Performance Fee guidelines. This includes providing for the crystallisation of performance fees on shareholders' redemptions in order to ensure the equal treatment of shareholders and providing that performance fees shall be calculated with reference to an adjusted average number of shares in issue during the relevant performance period, to take account of an adjustment for reductions in the number of shares resulting from redemptions which have led to a performance fee crystallisation.
- Changes to the composition of the boards of the Manager and the Company.
- Effective 1 January 2022, in response to the discontinuance of certain interest rate benchmarks (including London Interbank Offered Rate ("LIBOR") from the end of December 2021, the hurdle rates for certain CHF and Euro Share Classes will be amended as follows:

Sub-Fund	Class CCY	Current Hurdle Rate	New Hurdle Rate
Jupiter Merian Global Equity Absolute	CHF	3 month Swiss franc (CHF) LIBOR	Swiss Average Overnight
Return Fund		interest rate	Rate
Jupiter UK Specialist Equity Fund	EUR	Euro overnight Index Average Rate	Euro short-term rate (€ STR)
Jupiter Strategic Absolute Return Bond Fund	EUR	Euro overnight Index Average Rate	Euro short-term rate (€ STR)

Events During the Financial Year

The significant events during the financial year are detailed on pages 374 to 375.

Subsequent Events

Hurdle Rate

Effective 1 January 2022, new hurdle rates were implemented in response to certain interest rate benchmarks from the end of December 2021 as detailed above in the 'Principal Material Changes' section.

Share Class Launch

The following Share Classes launched

Date	Sub-Fund name	Share Class name
14 January 2022	Jupiter Global Emerging Markets Focus Fund	Class N (USD)
24 February 2022	Jupiter Financials Contingent Capital Fund	Class F (USD)

Russia's war on Ukraine

On 24 February 2022, Russian forces invaded Ukraine, resulting in what is considered the biggest attack by one state on another in Europe since second World War. Russian military aggression against Ukraine brings with it financial sanctions and unprecedented measures with the aim of significantly weakening Russia's economic base, in the hope to curtail its ability to wage war. Such events and world financial, economic and trade responses result in turbulent financial markets.

The Company has minimal exposure to Russia, Ukraine and Belarus. At the time the conflict began, only one Sub-Fund had a direct immaterial Russian holding. The Manager and Investment Manager are closely monitoring the situation and the impact on markets of Russia's invasion of Ukraine and the effects on portfolios. These events have brought uncertainty and unpredictability to financial markets, including the risk of significant currency fluctuations, higher inflation, and an adverse effect on consumer confidence for the foreseeable future.

There is risk with any political developments that occur, and the Manager and Investment Manager continuously monitor all political situations and specifically any financial instrument holdings in affected countries. Political developments affecting market confidence may result in outflows of assets from investment portfolios, which could include asset portfolios held by the Sub-Funds of the Company.

There have been no other material events affecting the Sub-Funds subsequent to 31 December 2021, which require amendment to or disclosure in, these financial statements.

Employees

There were no employees of the Company during the financial year under review or during the prior financial year.

Segregated Liability of Sub-Funds

The Company is an umbrella fund with segregated liability between Sub-Funds.

Directors

The Directors of the Company during the year ended 31 December 2021 were:

	Nationality
Bronwyn Wright	Irish
Tom Murray	Irish
Adrian Waters (resigned on 1 September 2021)	Irish
Jasveer Singh	British

The Articles of Association do not stipulate a retirement age for Directors and do not provide for retirement of Directors by rotation.

All of the Directors have served for the entire financial year except for Adrian Waters who resigned on 1 September 2021. Directors' remuneration paid and payable during the financial years ended 31 December 2021 and 31 December 2020 are detailed in Note 5. All expenses paid to Directors were non-taxable in line with Section 305 of the Companies Act 2014. Jasveer Singh, as employee of Jupiter Asset Management Limited, was not entitled to receive a Director's fee or other compensation in connection with his role as a Director of the Company.

Directors' and Company Secretary's Interests in Shares and Contracts

All Directors and the Company Secretary who held office at 31 December 2021 and at 31 December 2020 had no interest in the share capital of the Company or group undertakings of the Company at any time during the year however Jasveer Singh through his employment and its compensation structures holds shares in Jupiter Fund Management plc.

Transactions Involving Directors

The Board of Directors are not aware of any contracts or arrangements of any significance in relation to the business of the Company in which the Directors had any interest as defined in Section 329 of the Companies Act 2014 at any time during the financial year ended 31 December 2021 (2020: Nil).

As at 31 December 2021, Jasveer Singh is an employee of Jupiter Asset Management Limited. (2020: Jasveer Singh).

Corporate Governance Code

The Company has adopted in full the voluntary Code of Corporate Governance ("the Corporate Governance Code") for Collective Investment Schemes and Management Companies issued by the Irish Funds ("IF"), the text of which is available from the IF website, www.irishfunds.ie. The Company has been in compliance with the Corporate Governance Code during the financial year ended 31 December 2021.

Connected Person Transactions

In accordance with the requirements of the Central Bank UCITS Regulations, any transaction carried out with the Company by its Manager, Depositary, Investment Adviser, Investment Manager and/or associated or group companies of these entities ("connected person") must be carried out as if negotiated at arm's length. Such transactions must be in the best interests of the shareholders. In addition to those transactions, there are also transactions carried out by connected persons on behalf of the Company to which the Directors have no direct access and in respect of which the Directors must rely upon assurances from its delegates that the connected persons carrying out these transactions do carry them out on a similar basis.

The Board of Directors are satisfied that: (i) there are arrangements in place to ensure that the obligations set out in Central Bank of Ireland's UCITS Regulations are applied to all transactions with connected parties; and (ii) transactions with connected parties entered into during the financial year complied with the obligations set out in the UCITS Regulations.

Although not deemed to be related parties under FRS 102 as they do not exercise significant influence over the activities of the Company, UCITS Regulations also deems a "Depositary" and its "associated or group companies" to be related parties to the Company. As such, Citi Depositary Services Ireland Designated Activity Company, the Depositary, and Citibank Europe plc (the "Administrator"), are related parties to the Company. During the financial year, Citi Depositary Services Ireland Designated Activity Company and Citibank Europe plc earned fees for provision of depositary and administration services to the Company as disclosed in Note 9. Citi Depositary Services Ireland Designated Activity Company was selected by the Company to execute certain transactions on behalf of the Sub-Funds, the terms of such transactions were negotiated by the Company and were at normal commercial terms.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with Irish law and FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland.

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company and of its increase in net assets attributable to redeemable participating shareholders for that year. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the Company and enable them to ensure that the financial statements comply with the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company. In this regard they have entrusted the assets of the Company to a trustee for safe-keeping.

They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the Companies Act 2014.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Directors' Compliance Statement

The Directors are responsible for securing the Company's compliance with its "relevant obligations" under section 225 of the Companies Act 2014 (as defined in section 225(1) thereof).

As required under section 225(3), the Directors confirm that:

- a) a compliance policy statement has been drawn up setting out the Company's compliance policies (that, in the Directors' opinion, are appropriate to the Company) with respect to compliance by the Company with its relevant obligations;
- b) appropriate arrangements or structures are in place that, in Directors' opinion, are designed to secure material compliance with the Company's relevant obligations; and
- c) a review has been conducted during the financial year ended 31 December 2021 of the arrangements or structures referred to in paragraph b) above.

Accounting Records

The Directors are responsible for ensuring that adequate accounting records, as outlined in Sections 281 to 285 of the Companies Act 2014, are maintained by the Company. To achieve this, the Directors have appointed the Administrator, which reports to the Board of Directors (the "Board") to ensure that the requirements of Sections 281 to 285 of the Companies Act 2014 are complied with. The adequate accounting records are located at 1 North Wall Quay, Dublin 1.

Audit Information Statement

In accordance with Section 330 of the Companies Act 2014, the Directors hereby confirm that:

- a) so far as the Directors are aware, there is no relevant audit information of which the Company's statutory auditor is unaware; and
- b) the Directors have taken all the steps that ought to have taken as a Director in order to make aware of any relevant audit information and to establish that the Company's statutory auditor is aware of that information.

Audit Committee

The Directors decided to dissolve the audit committee on the basis of the following:

- the nature, scale and complexity of the Company's business range of services and activities undertaken in the course of that business;
- b) the resources available to the Company and the resources and expertise of the various third parties engaged to support the Company and carry out certain functions on its behalf; and
- c) the procedures in place for review, approval and circulation of the audited financial accounts and statements which are appropriate for the Company pursuant to the UCITS Regulations.

Auditor

KPMG, Chartered Accountants, have indicated their willingness to continue in office in accordance with Section 383(2) of the Companies Act 2014.

Jupiter Asset Management Series Plc

REPORT OF THE DEPOSITARY TO THE SHAREHOLDERS

We have enquired into the conduct of Jupiter Asset Management Series Plc (the "Company"), for the financial year ended 31 December 2021, in our capacity as Depositary of the Company.

This report including the opinion has been prepared for, and solely for, the shareholders in the Company in accordance with the UCITS Regulations, as amended, and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in the UCITS Regulations, as amended. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's memorandum and articles of association (the "Memorandum and Articles of Association") and the UCITS Regulations , as amended, (the "Regulations"). It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps that we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in the UCITS Regulations, as amended, and to ensure that, in all material respects, the Company has been managed: (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations, and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum and Articles of Association and by the Regulations; and
- (ii) otherwise in accordance with the provisions of the Memorandum and Articles of Association and the Regulations.

Jupiter China Equity Fund

Market Review

2021 was a year of split fortunes for Chinese equity markets, with varied performance across indices. It was a painful year for the offshore market, while onshore markets had a bumper year in relative terms. Throughout the year, the government took a zero-tolerance approach to Covid, implementing mass testing and strict mobility controls. This caused a loss of significant momentum in economic growth, with the economy cooling rapidly in the second half of 2021 after a resilient first half. Even though employment has been robust and exports are at their strongest ever levels, Chinese equities still corrected following their mid-February peak, taking YTD performance into negative territory in Q2, and experienced further falls due to ongoing geopolitical issues. Regulatory reforms heavily hit the education and internet sectors; defaults and the collapse of large property developers led to property market volatility; and power shortages hurt overall manufacturing production and industrial output. More positively, the government also announced several initiatives directed towards ambitious renewables targets, as well as the continued opening up of the financial sectors and support for a significant number of industries like artificial intelligence, electric vehicles, 5G and smart grid.

Performance Review

In terms of sector allocation, the largest positive contributors to the fund's performance were our overweight positions in healthcare, consumer staples and financials, and our underweight exposure to industrials, real estate and IT. The largest detractors were our underweights in utilities, consumer discretionary, energy, materials and communication services.

In terms of individual stock positions, our overweights in NARI Technology, Huazhu Group and Chow Tai Fook contributed the most positively. NARI Technology's strong performance was largely a result of its solid fundamentals, sustainable margins and positive outlook as it benefitted from rising clean energy use. Following a particularly difficult 2020, Huazhu Group outperformed in 2021. Chow Tai Fook also performed strongly on its increasing sales data and brighter earnings outlook. On the negative side, our overweight positions in New Oriental Education, Pop Mart, Jiumaojiu and Gree Electric Appliances detracted the most. Education companies' share prices corrected sharply amid a regulatory reset of "double-reduction" and K12 after-school tutoring; New Oriental Education was hit heavily by the regulations. The government's top-down "Common Prosperity" initiatives have led to profit-taking in Pop Mart. Jiumaojiu suffered from the emergence of new variants and unsatisfactory sales figures, while Gree Electric Appliances was negatively affected by its own restructure as well as wider property market volatility. Regarding style factors, positive active exposure to momentum added value.

Investment Outlook

It was a bit of a rollercoaster ride for Chinese equities in 2021. However, we believe it's important to look through the noise and negative headlines, and to focus on the bigger picture instead. Sharp, indiscriminate sell-offs like these can present attractive opportunities for longer-term investors.

We believe the regulatory crackdown is coming to an end, with "stabilising growth" the main focus in the Politburo meeting, followed by Reserve Requirement Ratio (RRR), a central bank regulation that requires commercial banks to hold a percentage of their deposits in liquid assets, cut from the People's Bank of China (PBOC). It may take some time for policy decisions to work their way into the real economy, but we believe corporate earnings will continue to improve, especially in the second half of the year. On the macro front, we expect to see more supportive monetary policy and proactive fiscal policies, including new policies to encourage investment, as well as initiatives that aim to boost consumption.

Over the longer term, our key investment themes include a focus on "consumption upgrade", as China strives to avoid the middle-income trap and upgrade its value chain; healthcare, which is a long-term growth industry with strong fundamentals given aging population continues in China; and "green investments", which is a key area of focus in the new five year plan. Against this backdrop, we expect the market to alternate between value and growth factors. We believe periods of market decline can provide attractive investment opportunities, especially in high-quality stocks and industry leaders with cheap valuations, stable mid- to long-term earnings, or improving fundamentals.

Investment Managers' Reports

Investment Manager – Jupiter Investment Management Limited

Jupiter Merian World Equity Fund

Market Review

2021 was a volatile year in many respects. However, the stock market, despite a few brief selloffs, finished the year strongly, with S&P 500 index adding 26.9% for the whole twelve months. Market swings were caused by continuous uncertainty about the evolution of the COVID pandemic, constantly changing rules about restrictions, new emerging COVID variants, as well as cheap money and social media herding, leading to mass speculation on stock and cryptocurrency markets. In January, video game retailer GameStop shot up 1,700%, causing uproar from retail as well as professional market participants. In the world of macroeconomics, years of cheap money with near zero interest rates and a generous central bank bond-buying programme eventually led to inflation spiking in 2021, which in return caused further uncertainty and swings in the bond markets as well as in equity and commodity markets. The US Federal Reserve (Fed) has started slowing the pace of its bond-buying programme, however, and it remains unclear how long the Fed will wait before raising interest rates after its bond buying programme ends. There was increasing awareness during 2021 of the importance of climate change and the need to reduce carbon emissions. Achieving 'net zero' will demand a historically unprecedented level of investment, and a thoroughgoing technological overhaul of many industries.

Performance Review

2021 was a year of normalisation, with most of the fund's return drivers working as expected after a period of unfavourable environment for the fund. Most of the fund's stock selection criteria contributed positively over the past year, with only market dynamics being negative. The largest contribution came from our company management stock selection criterion, followed by our sentiment criterion. Our dynamic valuation and sustainable growth criteria also contributed positively. From a regional perspective, most returns came from Europe followed by North America and Asia Pacific. All returns came from stock selection, with sector allocation marginally detracting value from the total in 2021. With multiple return drivers as well as returns stemming from pure stock picking, we believe this demonstrated the favourable, normalised conditions for the fund, leading to a solid year. The fund has also had a positive contribution from our recently implemented research, which led to a more diversified strategy set and thus more diversified fund returns. Since 2020 we have integrated ESG into our investment process. Throughout the year, the fund had the largest weight (allocated by our dynamic weighting scheme) in the company management stock selection criterion, followed by the valuation component of our dynamic valuation criterion (which also includes quality). The fund started the year with near zero exposure to momentum (market trends), and although this gradually increased over the year, the weight is still relatively low, as momentum tends to struggle in periods of high investor uncertainty and low investor risk appetite.

Market Review

2021 was a volatile year in many respects. However, the stock market, despite a few brief selloffs, finished the year strongly, with S&P 500 index adding 26.9% for the whole twelve months. Market swings were caused by continuous uncertainty about the evolution of the COVID pandemic, constantly changing rules about restrictions, new emerging COVID variants, as well as cheap money and social media herding, leading to mass speculation on stock and cryptocurrency markets. In January, video game retailer GameStop shot up 1,700%, causing uproar from retail as well as professional market participants. In the world of macroeconomics, years of cheap money with near zero interest rates and a generous central bank bond-buying programme eventually led to inflation spiking in 2021, which in return caused further uncertainty and swings in the bond markets as well as in equity and commodity markets. The US Federal Reserve (Fed) has started slowing the pace of its bond-buying programme, however, and it remains unclear how long the Fed will wait before raising interest rates after its bond buying programme ends. There was increasing awareness during 2021 of the importance of climate change and the need to reduce carbon emissions. Achieving 'net zero' will demand a historically unprecedented level of investment, and a thoroughgoing technological overhaul of many industries.

Performance Review

In 2021 we saw some normalisation of the fund's return drivers and the fund generally kept pace with its benchmark. This comes after a period of unfavourable environment for the fund. Our company management stock selection criterion contributed the most. The largest negative contribution came from our market dynamics stock selection criterion. Stock selection contributed meaningfully; however, sector allocation mostly offset the positive returns, flattening the total in 2021. Overall, there were signs of normalisation in the environment for systematic strategies, although this did not quite materialise in a meaningful outperformance for the year. The fund has now, however, benefited from our recently implemented research, which led to a more diversified strategy set and thus more diversified fund returns. Throughout the year, the fund had the largest weight (allocated by our dynamic weighting scheme) in the dynamic valuation stock selection criterion, followed by the sentiment criterion. The fund started the year with near zero exposure to momentum (market trends), and although this gradually increased over the year, the weight is still relatively low, as momentum tends to struggle in periods of high investor uncertainty and low investor risk appetite.

Investment Outlook

Investment Manager – Jupiter Investment Management Limited

Merian Global Dynamic Bond Fund

Market Review

The Bloomberg Barclays Global-Aggregate Index (Hedged USD) returned -1.39% over the period. The year started with renewed optimism around the outlook for the global economy for 2021. The emergence of vaccines to combat the Covid 19 virus in Q4 2020 and the beginning of an aggressive rollout of these vaccines across populations, especially in the developed economies of the world, had given investors renewed hope for a strong recovery from the devasting economic effects of the pandemic and the end to widescale restrictions of households and around international travel. Against this more bullish backdrop, governments were still supporting economies through generous fiscal measures and central banks were also running extremely accommodative monetary policies. Added to that the US Federal Reserve (Fed), who had outlined a looser average inflation targeting (AIT) towards the end of 2020, was expected to continue with this policy allowing monetary accommodation to remain looser than in previous recovery cycles. All this added to a very reflationary environment for the global economy in the first half of the year. Inflation expectations, that had been rising since the depths of the crisis in March 2020 continued to move higher into 2021 and bond yields reacted in sympathy with this, seeing US 10yr yields rising to the highest level since the pandemic first broke. However, this reflation trade only lasted into the end of the first quarter and into the middle of the year the continued rise in inflation levels and also the emergence of new, more transmittable variants of Covid 19 created concerns around the economic recovery profile. Bond yields rallied back from their March highs and the US dollar enjoyed an extended period of strength in the second half of the year as speculation around US monetary policy reverted to a more hawkish tilt.

Performance Review

The fund had a very strong start to the year with the strategy accurately positioned for the reflation trade that was the dominant theme in the first quarter. We continued to be priced for higher inflation expectations and during this period to be short of duration as the market took at face values the Fed's policy stance of accepting higher inflation levels than it would have during previous cycles. The rapid rise in bond yields during Q1, 10yr US yields rose over 80bps over this period, had run out of steam by the end of March and the fund rotated out of some of that short position and began more heavily weighting towards a short US dollar position which we believed was a key component of a global reflation trade that at least at the time seemed to be the obvious economic answer to the after-effects of the pandemic. The US dollar was weak during Q2, and the fund continued to perform well, delivering by the middle of June a return of nearly +2% for the year. However, it was the key June US Federal reserve meeting that proved to be a turn of fortunes for the fund. At that time we were convinced that the Fed would stick to its previously stated AIT policy despite the continued rise in inflation pricing and the weakness of the dollar at that point (a further impetus to the inflation story). However, they surprised the market with a turn in attitude, signalling concern around the inflation dynamic and an intention to address the inflation question with higher rates at some point probably not too far in the future. This created some negative performance for the fund, but also made the second half of the year devoid of any singular macro-economic theme. In hindsight the key trends were the second half strength of the US dollar and the flattening of yield curves, however the volatility around the recovery, vaccine rollouts and Covid variants made it a very choppy market environment. We generally ran limited levels of risk trying to identify the next major macro theme.

Investment Outlook

2022 has started with the inflation issue and the central bank response in light of these problems as again the central theme. Over the last few weeks central banks around the world, led by the US Federal Reserve, have been under increased pressure to deal with the significant inflation uplift seen by households around the world. US headline inflation has hit the highest level for almost 40 years, posting +7.0% for December 2021. Across all the major economies inflation is the key political and economic subject and central banks are signalling higher rates for 2022 to address the issue all however at significantly varying speeds. The US is now pricing in around four rate hikes by the end of this year from the Fed and although the market expects official inflation prints to be materially lower than the December 2021 number by the end of this year, the key question is how far central banks need to move real rates, that are still significantly negative, to address the inflationary problem. We believe they must go a lot further than the market is expecting. However, we don't believe that this is a serious risk to the global economic recovery or to risk markets (although we may see some elevated volatility in other asset classes). We believe that we will see a balanced uplift to the global economy this year, unlike the experience in 2018, meaning that the US dollar can continue to move lower and along with expectations that China will recover this year as well then interest rates can continue to move higher without endangering the recovery or the level of risk assets.

Investment Manager – Jupiter Investment Management Limited

Jupiter Emerging Market Debt Fund

Market Review

It was a difficult year for emerging markets across the board. Three factors have driven this relative underperformance. Firstly, we've seen tighter policy, both because emerging market central banks are almost universally tightening policy in the face of higher energy and food inflation, and because emerging markets lack the fiscal support of the US and Europe. Secondly, vaccination rates have been much lower. Finally, we have seen idiosyncratic issues: forced deleveraging of Chinese real estate, which caused the Chinese property index to lose more than a third of its value in the second half of the year; politically driven, economically illiterate policy in Turkey; leftist politics in Latin America; and fears of war in Eastern Europe. Against that backdrop, the positive returns generated by emerging market credit and particularly high yield in 2021 show the resilience of the asset class.

Performance Review

The Jupiter Emerging Market Debt Fund (I USD Acc) returned -2.62% in the 12 months under review, underperforming the benchmark, which returned -1.8%. Since we took over the fund's management in July 2020, the fund has returned 7.97% compared to 5.93% for the benchmark.

The key broad drivers of outperformance in the first half of the year were the fund's overweight exposure to high yield bonds versus investment grade bonds, and underweight to duration. On a regional basis, Latin America, the Middle East and Africa drove outperformance, while Europe and Asia were flat. The strategy had a modestly negative return contribution from Asia: our overall underweight performed well, except for our underweight in Sri Lanka, which offset other positions in the first half of the year. Modest short positions in US treasury futures helped protect the portfolio from rising rates.

Moving into the second half of the year, the key driver of outperformance was Latin America, which is home to some of our most solid high yield names. Mexico is benefitting from a rare period of relative political stability, while Brazil is now 60% vaccinated. In particular, Brazilian 2030 government debt and Pemex positioning added value for the fund in the fourth quarter. We added to our Latin American exposure across the board in December.

Asset class performance was dominated by the Chinese real estate sector in the fourth quarter. At the start of December, Chinese real estate had a broad rally, as sentiment improved due to a series of government support measures; however, the course was quickly reversed by idiosyncratic events, including a liquidity crunch in Shimao, formerly an investment grade credit (which we don't hold). The fund was flat in Asia as China losses were nearly all recouped thanks to Sri Lankan sovereign debt. We slightly reduced our exposure to Macau and Indonesia towards the end of the year.

In Europe, our exposure to Russia and Ukraine stabilised towards the end of the year, but was more than offset by our exposure to Turkey, despite being underweight Turkey. We have also hedged around 2% of Russia exposure using CDS across funds. We reduced our Turkey exposure opportunistically as the situation there continued to decline.

The fund modestly outperformed in Africa largely due to Ivory Coast and Senegal sovereign debt. At the end of the year, we took some profits on sovereign debt exposure in Egypt. In the Middle East, bond selection in Bahrain, Qatar and Oman helped drive modest outperformance.

Key detractors for the year versus the benchmark include allocations to select China real estate companies, which were hurt by liquidity-driven volatility across the sector, and an overweight exposure to African sovereigns, notably Ghana, which saw deteriorating performance in the second half of 2021.

Investment Outlook

Despite the unexpected nature of the Russian-Ukraine escalation and the strong general reaction across risk assets, we believe it's important to note the "resilience" of emerging market debt as an asset class. If we look, for example, at the corporate space, while the JPM CEMBI Broad Diversified Index widened 89bps in February, this came mainly from Russia and Ukraine, with the CEMBI Broad ex-Russia and Ukraine Index widening by just 38bps, close to the 40bps widening exhibited by the ICE BoFA Global High Yield Index. This demonstrates how EM debt (both corporate and sovereign bonds) has become a more mature asset class.

Geopolitics could continue to affect returns on a country-by-country basis and clearly remains one of the reasons for the risk premium offered by emerging market debt versus developed market debt. However, large-scale contagion is becoming less and less common, demonstrating the potential value that active management can provide in this space.

Investment Manager – Jupiter Investment Management Limited

Jupiter Global Emerging Markets Focus Fund

Market Review

In 2021 markets continued to be dominated by the COVID-19 pandemic as first the new Delta, then Omicron variants emerged. This had the effect of prolonging the stuttering economic recoveries in many emerging countries. January marked the peak in markets as optimism around new vaccines was bitten by the reality of the scale of the vaccination challenge in the developing world. Ultimately, slower vaccination rollout in the emerging world compared with Europe and the US, would further push out investor expectations of when emerging markets can resume their typical faster economic growth.

The undercurrent of tightening regulations in China, came dramatically to the fore in July, with the banning of private after school tuition, effectively turning former stock market darlings into non-profit enterprises overnight. The internet and ecommerce sectors also came under the spotlight, leading to substantial underperformance from some of the largest companies in emerging markets. Added to the negative cocktail was a central bank determined to tighten monetary policy and a government determined to shake out some of the worst excesses in the property sector – as a result MSCI China declined 22% in GBP, pulling the main MSCI EM index into a -1.64% loss for the year.

Despite the poor overall index return, there were very different pockets of performance below the surface. Taiwan, India, and small and mid-cap names did well. At the sector level, industrial and energy contributed most towards the positive performance, but negative performances from consumer and technology sectors outweighed the overall returns. Brazilian equities fell due to various factors such as the slowdown in mainland China, increasing interest rates, political uncertainty, and the President's response to COVID-19. EMEA was the best performing region in 2021, benefiting from the recovery of energy prices. Latin America mostly struggled as politics dominated in Chile and Peru.

Performance Review

For 2021 the fund gained 5.66% in USD (I share class) versus a negative return of -2.54% for its reference benchmark, generating outperformance of 8.2%. It is pleasing that the fund has managed to grow capital in what proved to be a difficult year for emerging market equities. The main positive contributors to performance over the year were the portfolio's holdings in smaller capitalisation companies such as Aspeed, Transaction Capital, L&T Technology services, Techtronic and JNBY Design. The main detractors from performance over the year were the fund's holdings in Mercado Libre, LG Household & Healthcare, YDUQS, Ping An and Localiza Rent A Car.

The higher exposure to India and Taiwan and relatively lower exposure to China in the portfolio vs the benchmark, was also accretive to performance.

Investment Outlook

Emerging markets lagged their developed market counterparts in 2021, turning in the worst relative performance to global markets since 2013. What might change that and allow some catch up?

First and foremost, if recent market performance has been heavily influenced by the pace of vaccination rollout out and thus proximity to normality (US and Europe outperforming and developing economies lagging), logic would suggest that as the pace of vaccination increases in the emerging world, the gap in market performance can narrow. EM vaccination rates improved rapidly in the latter part of 2021 and the forecast trajectory over the coming months suggest the gap to developed markets is now closing. This is ultimately good news for investment sentiment.

Does the emergence of Omicron change our view? At the time of writing, the evidence from South Africa and the UK suggests a highly transmissible strain but with much lower incidence of serious illness and hospitalisation. It is highly likely a wave of Omicron will hit many of the emerging countries, but hopefully governments will be able to avoid heavy and prolonged lockdowns. Practical reality will force many emerging market governments to have to live with Covid 19 without severe restrictions, and generally they have younger populations that are statistically less at risk from severe symptoms. In a recent interview, Professor Sir Andrew Pollard, who helped develop the Oxford AstraZeneca vaccine and advises the UK government on vaccine strategy, said "It really is not affordable, sustainable or probably even needed to vaccinate everyone on the planet every four to six months. We haven't even managed to vaccinate everyone in Africa with one dose, so we are certainly not going to get to a point where fourth doses for everyone are manageable". Broadly speaking, we think 2022 will see most emerging markets continue their path back to economic normality.

Investment Manager – Jupiter Investment Management Limited

Jupiter Global Emerging Markets Focus Fund (continued)

Investment Outlook (continued)

The one country where Omicron does alter our view is China, as the country's pursuit of a strict zero Covid policy gives it little room to change policy in the face of a highly transmissible strain. Big events in 2022 such as the Winter Olympics and state congress, suggest to us that China is likely to continue with lockdowns, mass testing and strict travel restrictions, which could materially affect consumer confidence. At some point China will have to amend their zero Covid stance, but for now Omicron looks to have postponed that decision.

Secondly, emerging countries have not used 'helicopter' money to the extent we have seen in Europe and the US. We believe the US has likely passed peak stimulus and liquidity provision meaning the momentum of improvement in economic data is about as good as it gets. Developed economies will see a fiscal tightening as furlough schemes are wound down and thoughts turn to how to pay for it all. In contrast, economies in the developing world look to finally be exiting lockdown measures and reopening, in turn helping economic growth and not subject to the same fiscal drag as their developed country peers. Although much has been made of "tapering" as the Fed withdraws its bond purchasing programme, the reality of current account positions and FX reserves for the major emerging markets is vastly superior to that prevailing in 2013. Attractive real yields should help buttress EM currencies.

And lastly, it's worth remembering that as Europe and the US are likely to be tightening monetary and fiscal policy, China will be going in the opposite direction. After a period of tightening monetary conditions heralding a return to relative normality, Chinese authorities started to ease off the brakes once again in late 2021, which, Omicron aside, will be supportive for overall consumption and services into 2022. To be clear we do not expect a large stimulus as the authorities continue to balance short term policy with the longer-term goal of improving the stability of the financial system - and do not be surprised to see China let business defaults increase, including headline grabbing companies such as Evergrande in the property sector. It is likely these bankruptcies will be handled using China's previous play book of 'managed restructuring'.

We are also hopeful that the regulatory overhang is finally clearing for technology related names in China, where there is now substantial upside opportunity for investors willing to take a longer-term view as the core of these businesses are now being valued on extremely attractive multiples.

We believe emerging markets still provide plentiful opportunity for growth, and we continue to seek out those rare, world-class companies best placed to capture it. Nearly all our portfolio companies have seen their resilience and competitive position enhanced through the extraordinary period of the pandemic, either via their own initiatives such as acquisitions, customer wins or new product initiatives or from seeing their competition weaken. We expect that they can continue to compound capital at high rates of return and importantly, in a higher inflation world, exhibit pricing power by largely passing on input cost rises. We continue to believe investing in quality growth companies exposed to and driving secular change will be a rewarding investment strategy.

Merian Asian Equity Income Fund

Market Review

2021 was a volatile year in many respects. However, the stock market, despite a few brief selloffs, finished the year strongly, with S&P 500 index adding 26.9% for the whole twelve months. Market swings were caused by continuous uncertainty about the evolution of the COVID pandemic, constantly changing rules about restrictions, new emerging COVID variants, as well as cheap money and social media herding, leading to mass speculation on stock and cryptocurrency markets. In January, video game retailer GameStop shot up 1,700%, causing uproar from retail as well as professional market participants. In the world of macroeconomics, years of cheap money with near zero interest rates and a generous central bank bond-buying programme eventually led to inflation spiking in 2021, which in return caused further uncertainty and swings in the bond markets as well as in equity and commodity markets. The US Federal Reserve (Fed) has started slowing the pace of its bond-buying programme, however, and it remains unclear how long the Fed will wait before raising interest rates after its bond buying programme ends. There was increasing awareness during 2021 of the importance of climate change and the need to reduce carbon emissions. Achieving 'net zero' will demand a historically unprecedented level of investment, and a thoroughgoing technological overhaul of many industries.

Performance Review

2021 was a year of normalisation, with most of the fund's return drivers working as expected after a period of unfavourable environment for the fund. Most of the fund's stock selection criteria contributed positively over the past year, with only our dynamic valuation stock selection criterion being negative. The largest contribution came from our market dynamics stock selection criterion, followed by our sentiment criterion. Almost all returns came from stock selection, with sector allocation only adding a small amount to the total in 2021. With multiple return drivers as well as return stemming from pure stock picking, we believe this demonstrated the favourable, normalised conditions for the fund, leading to a solid year. The fund has now also benefited from our recently implemented research, which led to a more diversified strategy set and thus more diversified fund returns. Throughout the year, the fund had the largest weight (allocated by our dynamic weighting scheme) in the dynamic valuation stock selection criterion, followed by the sentiment criterion. The fund started the year with small exposure to momentum (market trends), and although this gradually increased over the year, the weight is still relatively low, as momentum tends to struggle in periods of high investor uncertainty and low investor risk appetite.

Investment Outlook

The recent volatility and focus on macroeconomics, especially inflation, is expected to spill over into the new year. It is worth reiterating that the fund strategy does not attempt to predict macroeconomic outcomes or market moves. The strategy focuses on what the market is reflecting and expecting, and the perceptions and risk appetites of market participants and investors. Depending on how the market and investors perceive and react to upcoming macro events, the fund's model will adjust its strategy weights to maximise the expected return of the overall factor set given the current environment. Due to our strong focus on diversification in stock selection criteria, as well as on asset level, risk management and portfolio construction, any volatile market moves should not directly impact the fund's active performance relative to the benchmark (the fund is constrained to aim at being close to beta equal to one), only through different stock selection criteria weights being tilted given the dynamic weighting scheme. A diversified fund would be expected to perform relatively well in a volatile environment, such as the one we are anticipating, whereas predicting macro events and market movements is known to be notoriously difficult even when markets are less volatile.

Investment Manager – Jupiter Investment Management Limited

Jupiter Emerging Market Debt Income Fund

Market review

It was a difficult year for emerging markets across the board. Three factors have driven this relative underperformance. Firstly, we've seen tighter policy, both because EM central banks are almost universally tightening policy in the face of higher energy and food inflation, and because EM lacks the fiscal support of the US and Europe. Secondly, vaccination rates have been much lower. Finally, we have seen idiosyncratic issues: forced deleveraging of Chinese real estate, which caused the Chinese property index to lose more than a third of its value in the second half of the year; politically driven, economically illiterate policy in Turkey; leftist politics in Latin America; and fears of war in Eastern Europe. Against that backdrop, the positive returns generated by EM credit and particularly high yield in 2021 show the resilience of the asset class.

Performance review

The Jupiter Emerging Market Debt Income had a negative return in the 12 months under review, underperforming the benchmark.

The Jupiter Emerging Market Debt Local Currency Fund was repositioned as the Jupiter Emerging Market Debt Income Fund on 27 September 2021. The strategy now invests across emerging market corporate and sovereign debt, with a focus on hard currency bonds.

As the strategy was repositioned into a higher yielding hard currency EMD strategy in September, which was pretty much the top of the market for EM in 2021, its higher yield approach has struggled as a result.

The key driver of outperformance in Q4 was Latin America, which is home to some of our most solid high yield names. Mexico is benefitting from a rare period of relative political stability, while Brazil is now 60% vaccinated. Industrial names like Cydsa in Mexico, CSN and Iochpe in Brazil, and AES in Chile performed well, as did reopening-related names such as Mexico City Airport. Our new position in Mexican restaurant company Alsea also performed well; we like the company for bottom-up fundamental reasons. Exposure to the largest crude oil pipeline in Colombia was also positive for the fund's returns.

Asset class performance was dominated by the Chinese real estate sector in the fourth quarter. We have exposure to the sector, but focus on higher quality issuers in bonds that will be redeemed soon, where our analysis shows there's enough cash to meet payments. We continued to dynamically manage our exposure to the sector during the quarter, and we were more cautiously positioned than many peers through the sell-off. At the start of December, Chinese real estate had a broad rally, as sentiment improved due to a series of government support measures; however, the course was quickly reversed by idiosyncratic events, including a liquidity crunch in Shimao, formerly an investment grade credit (which we don't hold). We didn't chase the rally in the sector at the start of December, as we believed it would remain vulnerable to credit events (as it proved) and instead took profits on some positions that looked expensive.

In Europe, we are underweight Turkey, which benefitted the fund in relative terms, though the banks we chose to hold there did suffer in December. We reduced our Turkish exposure opportunistically as the situation there declined; we remain cautious on the country overall. Elsewhere, while we do not expect Russia to significantly escalate tensions with Ukraine, the ongoing negotiations could continue for some time and we think it is prudent to remain defensive within credit selection. We have also hedged around 2% of our Russian exposure using CDSs.

The fund modestly outperformed in Africa; our holding in a 2025 Angola bond was particularly positive in December. In the Middle East, the rebound of our holding in a Saudi shopping centre, as well as bond selection in Bahrain, Qatar and Oman helped drive modest outperformance, as did our holding in Israeli pharma company Teva, which boosted returns as opiate lawsuits continued to be resolved.

Allocations to select China real estate companies, which were hurt by liquidity-driven volatility across the sector, detracted.

Investment Outlook

2021 was a difficult year for EMD, far from the bullish year that many investors had predicted at the start of 2021, for the reasons outlined above. Nevertheless, resilience remains a key theme in EMD, with the asset class avoiding serious turmoil despite all that went on last year. We believe it continues to provide attractive yields, and still offers a return premium relative to risk. As we head into 2022, we think a lot of the bad news is on the price: our base case is that China stabilises its real estate market as we head towards the party congress in autumn; we don't expect tension to escalate in Ukraine; and we expect inflation worries to start to fade as the world normalises, bringing breathing space to EM countries. With a great relative yield and as one of the last areas of risk with a valuation premium we think EM has room to catch up with developed market debt.

Investment Manager – Jupiter Investment Management Limited

Jupiter UK Alpha Fund (IRL)

Market Review

The FTSE All Share Index returned 18.32%. Economic data suggested that the global economy was recovering from the COVID 19 shock but that bottlenecks in supply chains and labour markets caused by the lingering impact of the virus were pushing up prices and wages. Surging energy prices toward the end of the year added to the inflationary pressure. The persistence of these trends led central banks to adopt a progressively more hawkish stance, bringing forward expectations for interest rate rises and the end of quantitative easing. Though the emergence of the Delta and Omicron waves of COVID 19 in the spring and winter caused some short-term downward pressure, bond yields trended higher over the year. In spite of the difficult operating environment and rising interest rates, the recovery in earnings as the economy rebounded drove equity markets higher.

Performance Review

The fund returned 15.47% (I GBP Accumulation). Electricity generator Drax was the largest contributor to performance, the share moving sharply higher on the back of rising power prices and positive regulatory developments. Gambling group Entain benefitted from strong trading and two bid approaches while St James's Place and software group Sage moved higher on the back of strong results over the year. Miner Glencore outperformed on the back of rising commodity prices while Lloyds and Barclays benefitted from rising interest rates. Detractors to performance included online retailer THG that disappointed the market in terms of business performance and a strategy update. Mining equipment group Weir moved lower on poor trading while travel caterer SSP, hotel group Whitbread and payments processor Fidelity National Services were hit by the new COVID waves.

Over the year we sold out of the position in International Consolidated Airlines to fund the rights issue in SSP which we believe has better prospects to take share and recover from COVID. We added to our positions in luxury goods retailer Burberry and took profits in Pets at Home.

Investment Outlook

Passing the peak of global economic recovery was always going to occur in 2021 however we do not believe a downturn is imminent, albeit we are keeping a close eye on the energy situation producing a material road-bump in activity. Clearly 2021 has also been the year of peak stimulus from governments and central banks, so as markets look into 2022 headwinds will increase. At the very least, it is to be expected that volatility will pick up and progress in equity markets will be more uneven. While retaining our exposure to favoured growth stocks the fund remains weight toward beneficiaries of continuing economic recovery.

Investment Manager – Jupiter Investment Management Limited

Jupiter UK Smaller Companies Focus Fund

Market Review

This year was characterised initially by COVID-19 and then latterly by the wider implications on growth and inflation as we tested the ability of the economy to resuscitate itself. COVID-19 was a lingering narrative, either via recurring second order waves, fears over the next variant or Government interventions. Despite the market somewhat coming to terms with how to value the risk across the year, the volatility and lack of consistent market leadership would remain.

As economies began to reopen, the economic data looked strong, with much hope for a swift recovery. However, it soon became clear that imbalances had been created due to varying consumer demand patterns and global dislocations. Inflation became key, whether it was via supply chain bottlenecks, rising energy prices or wage inflation, the new market debate centred on how transitory these would be. Indeed, the persistence of these trends led central banks to adopt a progressively more hawkish stance, bringing forward expectations for interest rate rises and the end of quantitative easing. This in turn pushed bond yields up, finishing the year with a value thematic leadership.

Performance Review

Against this backdrop the fund was unable to keep pace with the index via a combination of large detractors in e-commerce names and insufficient 'quality growth' or 'value' names. Auction Technology Group was the top performer, following a successful IPO and results across the year. Other key performers were Future (digital magazines) and Alpha FX (a technology driven financial services firm) driven by beating market expectations and an associated re-rating. The main negative contributors were THG (beauty, wellness and retail solutions) and boohoo (online fashion). These suffered initially from the de-rating in perceived COVID-19 winners, then by 'tougher comps' and finally by rising supply chain costs.

Investment Outlook

Inflation really does remain key to both the continued growth outlook and government policy, indeed whether it is transitory or not.

The question of whether it is merely the continuing ripple effects of COVID-19 vs a longer lasting, more systemic impact remains key. Chairman Powell and the US Federal Reserve have given the market some clues as to where they see the debate near term and the need to expedite rate rises. Indeed, the start of 2022 has seen the strongest opening week's value rally in history and the biggest start of the year moves in bond yields for 42 years. How much this impacts the longer-term leadership of the market is still uncertain. Despite some key drivers to inflation being less transitory than initially thought, areas such as supply chains must surely be a case of inflated demand for goods and inefficient allocation of global resources i.e., solvable. Wage inflation, the key factor for macro policy, is potentially another ball game and remains front of mind.

The next question is whether Omicron could spell the end of Covid. The seemingly extreme level of infectiousness has rendered preventative measures such as lockdowns redundant, and as seen in the UK can take hold quickly. Given the seemingly lower virulence and pre-existing defences within populations from vaccines or prior immunity, this perversely may create a path out of COVID. We have tentatively added some travel-sensitive exposure and reopening plays in anticipation of this.

Whilst a few key questions are becoming clearer, the overall trend for sustained thematic leadership is not. Against this backdrop, we have looked to run a balanced portfolio, which has led to some further additions of economic sensitive names more recently, whilst retaining the ability to tilt the fund further as market leadership becomes clearer. The fund enters 2022 without some of the key detractors from the prior year and a renewed confidence in the larger positions.

Investment Manager – Jupiter Investment Management Limited

Jupiter UK Dynamic Equity Fund

Market Review

The COVID-19 pandemic remained the primary driver of financial markets over 2021, as the market grappled with second, third and fourth waves of infection, the roll out of vaccines/therapeutics, and continued non-pharmaceutical interventions to control the pace of infection.

Alongside this, as economies progressively reopened, it became clear that imbalances had been created by the shutdowns and the emergency economic policies put in place to offset them. In short, we saw shortages of materials, products and labour, and consequently inflation rates at their highest levels since the financial crisis.

Policymakers and investors debated the transitory nature of this inflation over the year. Given the importance of bond yields to equity valuations, this meant thematic leadership in equity markets oscillated between shares in high growth, long duration businesses, and 'value', lower growth and short duration businesses. Despite this difficult operating environment, the strong recovery in earnings as the economy rebounded drove equity markets higher.

Performance Review

The fund rose by 6.95% (I GBP Income) compared to a rise of 18.36% in its benchmark, the FTSE 250 Index. From a top-down perspective, the fund weathered the volatility of returns between 'growth' and 'value' styles well. At a stock level, the top three positive contributors were Future (digital magazines), Auction Technology Group (which is an online marketplace for the auction industry, and which we bought on its IPO) and Alpha FX (a foreign exchange broker). The main negative contributors were the fund's holdings in Boohoo and THG which started the year as the two biggest holdings but subsequently fell materially. This was a reversal of 2020, where these two stocks were by far and away the best performers across the year.

The fund added significant exposure to UK domestic 'repair, maintenance and improvement' stocks via the addition of positions in Grafton, Travis Perkins and Dunelm. More cheaply rated stocks such as Reach and Kier were bought whilst more expensively rated stocks like Homeserve, Segro and Blue Prism were sold. THG was sold in full whilst Boohoo was significantly reduced.

Investment Outlook

UK economic output has now returned to pre-pandemic levels, the employment market is strong and consumer savings are high. Against this background we believe rising interest rates should not be an impediment to further market progress. However, the interplay between inflation expectations and the interest rate response is likely to significantly influence the style leadership with volatility between 'growth' and 'value' styles remaining high.

The fund has become more balanced, with growth exposure focused on those stocks we believe can truly deliver rapid profit growth, and generally beat market expectations, and 'value' / cyclical exposure focused on businesses that have robust and durable businesses models, beyond the immediate reopening excitement. The fund enters 2022 without some of the key detractors from the prior year and a renewed confidence in the larger positions.

Jupiter Merian Global Equity Absolute Return Fund

Market Review

2021 was a volatile year in many respects. However, the stock market, despite a few brief selloffs, finished the year strongly, with S&P 500 index adding 26.9% for the whole twelve months. Market swings were caused by continuous uncertainty about the evolution of the COVID pandemic, constantly changing rules about restrictions, new emerging COVID variants, as well as cheap money and social media herding, leading to mass speculation on stock and cryptocurrency markets. In January, video game retailer GameStop shot up 1,700%, causing uproar from retail as well as professional market participants. In the world of macroeconomics, years of cheap money with near zero interest rates and a generous central bank bond-buying programme eventually led to inflation spiking in 2021, which in return caused further uncertainty and swings in the bond markets as well as in equity and commodity markets. The US Federal Reserve (Fed) has started slowing the pace of its bond-buying programme, however, and it remains unclear how long the Fed will wait before raising interest rates after its bond buying programme ends. There was increasing awareness during 2021 of the importance of climate change and the need to reduce carbon emissions. Achieving 'net zero' will demand a historically unprecedented level of investment, and a thoroughgoing technological overhaul of many industries.

Performance Review

2021 was a year of normalisation, with most of the fund's return drivers working as expected after a period of unfavourable environment for the fund. All the fund's stock selection criteria contributed positively and meaningfully over the past year. The largest contributions came from our market dynamics stock selection criterion, followed by our company management criterion and our sentiment criterion. Our dynamic valuation criterion and our sustainable growth criterion also contributed positively. From a regional perspective, most returns came from Asia Pacific, followed by Europe and North America. Both the fund's long and short books contributed meaningfully, with returns from the short book only exceeding those from the long book by a relatively small margin. Almost all returns came from stock selection, with sector allocation only adding a minimal amount to the total in 2021. With multiple return drivers working in both the short and the long book and return stemming from pure stock picking, we believed this demonstrated the favourable, normalised conditions for the fund, leading to a solid year. The fund has also had a positive contribution from our recently implemented research, which led to a more diversified strategy set and thus more diversified fund returns. Throughout the year, the fund had the largest weight (allocated by our dynamic weighting scheme) in the company management stock selection criterion, followed by the valuation component of our dynamic valuation criterion. The fund started the year with near zero exposure to momentum (market trends), and although this gradually increased over the year, the weight is still relatively low, as momentum tends to struggle in periods of high investor uncertainty and low investor risk appetite.

Investment Outlook

The recent volatility and focus on macroeconomics, especially inflation, is expected to spill over into the new year. It is worth reiterating that the fund does not attempt to predict macroeconomic outcomes or market moves. The strategy focuses on what the market is reflecting and expecting, and the perceptions and risk appetites of market participant and investors. Depending on how the market and investors perceive and react to upcoming macro events the fund's model will adjust its strategy weights to maximise the expected return of the overall factor set given the current environment. Due to our strong focus on market neutrality, on diversification in stock selection criteria, as well as on asset level, risk management and portfolio construction, any volatile market moves should not impact the fund directly, only through different stock selection criteria weights being tilted given the dynamic weighting scheme. A diversified market neutral fund would be expected to perform relatively well in a volatile environment, like the one we are expecting, whereas predicting macro and markets is known to be notoriously difficult even when markets are steady.

Investment Manager – Jupiter Investment Management Limited

Jupiter Strategic Absolute Return Bond Fund

Market Review

The Deutsche Bank Fed Funds Effective Rate Total Return Index returned +0.08% over the period. The year started with renewed optimism around the outlook for the global economy for 2021. The emergence of vaccines to combat the Covid 19 virus in Q4 2020 and the beginning of an aggressive rollout of these vaccines across populations, especially in the developed economies of the world, had given investors renewed hope for a strong recovery from the devasting economic effects of the pandemic and the end to widescale restrictions of households and around international travel. Against this more bullish backdrop, governments were still supporting economies through generous fiscal measures and central banks were also running extremely accommodative monetary policies. Added to that the US Federal Reserve (Fed), who had outlined a looser average inflation targeting (AIT) towards the end of 2020, was expected to continue with this policy allowing monetary accommodation to remain looser than in previous recovery cycles. All this added to a very reflationary environment for the global economy in the first half of the year. Inflation expectations, that had been rising since the depths of the crisis in March 2020 continued to move higher into 2021 and bond yields reacted in sympathy with this, seeing US 10yr yields rising to the highest level since the pandemic first broke. However, this reflation trade only lasted into the end of the first quarter and into the middle of the year the continued rise in inflation levels and also the emergence of new, more transmittable variants of Covid 19 created concerns around the economic recovery profile. Bond yields rallied back from their March highs and the US dollar enjoyed an extended period of strength in the second half of the year as speculation around US monetary policy reverted to a more hawkish tilt.

Performance Review

The fund had a very strong start to the year with the strategy accurately positioned for the reflation trade that was the dominant theme in the first quarter. We continued to be priced for higher inflation expectations during this period to be short of duration as the market took at face values the Fed's policy stance of accepting higher inflation levels than it would have during previous cycles. The rapid rise in bond yields during Q1, 10yr US yields rose over 80bps over this period, had run out of steam by the end of March and the fund rotated out of some of that short position and began more heavily weighting towards a short US dollar position which we believed was a key component of a global reflation trade that at least at the time seemed to be the obvious economic answer to the after-effects of the pandemic. The US dollar was weak during Q2, and the fund continued to perform well, delivering by the middle of June a return of nearly +2% for the year. However, it was the key June US Federal reserve meeting that proved to be a turn of fortunes for the fund. At that time we were convinced that the Fed would stick to its previously stated AIT policy despite the continued rise in inflation pricing and the weakness of the dollar at that point (a further impetus to the inflation story). However, they surprised the market with a turn in attitude, signalling concern around the inflation dynamic and an intention to address the inflation question with higher rates at some point probably not too far in the future. This created some negative performance for the fund, but also made the second half of the year devoid of any singular macro-economic theme. In hindsight the key trends were the second half strength of the US dollar and the flattening of yield curves, however the volatility around the recovery, vaccine rollouts and Covid variants made it a very choppy market environment. We generally ran limited levels of risk trying to identify the next major macro theme.

Investment Outlook

2022 has started with the inflation issue and the central bank response in light of these problems as again the central theme. Over the last few weeks central banks around the world, led by the US Federal Reserve, have been under increased pressure to deal with the significant inflation uplift seen by households around the world. US headline inflation has hit the highest level for almost 40 years, posting +7.0% for December 2021. Across all the major economies inflation is the key political and economic subject and central banks are signalling higher rates for 2022 to address the issue all however at significantly varying speeds. The US is now pricing in around four rate hikes by the end of this year from the Fed and although the market expects official inflation prints to be materially lower than the December 2021 number by the end of this year, the key question is how far central banks need to move real rates, that are still significantly negative, to address the inflationary problem. We believe they must go a lot further than the market is expecting. However, we don't believe that this is a serious risk to the global economic recovery or to risk markets (although we may see some elevated volatility in other asset classes). We believe that we will see a balanced uplift to the global economy this year, unlike the experience in 2018, meaning that the US dollar can continue to move lower and along with expectations that China will recover this year as well then interest rates can continue to move higher without endangering the recovery or the level of risk assets.

Investment Manager – Jupiter Investment Management Limited

Jupiter Europe (ex UK) Smaller Companies Fund

Market Review

European stocks generated solid returns in the period under review, overcoming periods of increased market volatility. Continued strong economic growth and strong labour markets along with supportive fiscal and monetary policy more than offset concerns around the Covid-19 pandemic, inflation and surging energy prices.

European corporate earnings were solid despite companies reporting supply shortages and higher input costs. There were signs that economic growth in the final quarter was moderating from the robust post-lockdown rebound in the first half of the year. Eurozone composite PMI data in December fell to a nine-month low. The European Central Bank (ECB) updated forecasts to show inflation above its 2% goal for most of 2022, averaging 3.2%, then falling below-target in 2023 and 2024. The ECB has so far been less willing to unwind support for the economy than the US Federal Reserve or the Bank of England.

Equity markets touched a series of record highs throughout the period and posted negative returns for the months of September and November. Markets rebounded in December as data emerged showing vaccine efficacy against the Omicron variant and lower hospitalisations and deaths.

Performance Review

The Jupiter Europe Ex UK Smaller Companies Fund returned 28.58% (L EUR Accumulation) over the 12-month period, outperforming the reference benchmark which returned 23.02%.

The main contributors to this outperformance were Vitrolife and VAT Group, which both saw returns of over 100% for the period. For Vitrolife, strong sales growth driven by demand for their IVF products as well as a strategic and complementary deal for Igenomix completed in the year, resulted in robust earnings growth. VAT Group continued to benefit from an increasingly strong backdrop of semi-capital equipment investment in the face of deep chip shortages experienced across most global industries. IMCD and Fluidra also posted strong returns over the year, returning 88% and 69% respectively as both companies continued to execute well on their medium-term strategies. One of the main detractors to performance was AUTO 1 Group which fell 48.9% over the year, driven by the market's fear of increased competition in the growing channel of digital used car sales. We continue to believe that the investment in their platform as well as their market share in the European car auction market provides them with a competitive advantage.

In the third quarter, the fund increased its weightings in Elis, on the back of increased chance of economies reopening and in Reply, which continues to benefit from the digital revolution of corporate Europe. It trimmed holdings in IMCD and VAT Group following their strong performances. In the fourth quarter, the fund sold its position in Ubisoft and Irish Continental and reduced holdings in Karnov. When we believe the thesis is broken or that a business has strategically invested to worsen its competitive advantage, we look to exit and, in this case, all three have hallmarks of this. Holdings in WAG Payment Solutions, Fluidra and Orpea were increased in the period.

In general, we prefer a lower portfolio turnover and to invest for the long term, believing that company fundamentals are more important than short-term market moves. Going into 2022, the fund remains overweight in sectors such as Information Technology and Healthcare, both of which have seen their prospect strengthened in the medium term by the pandemic, while being underweight in Utilities and Real Estate against its reference benchmark.

Investment Outlook

Our holdings continue to trade their way through this extraordinary period, and overall, we have been impressed by the way their operations have held up. The fund aims to acquire great companies that include focused owner-manager businesses, regional or global leaders in their niche markets and hidden gems, underappreciated and under-researched companies.

The pandemic has accelerated some long-term growth trends. For example, the growth of online banking has had a clear boost from people working from home, governments are bringing forward investments into the green economy and leading companies are accelerating plans to digitalise and automate business processes.

The outlook for Omicron and the pandemic generally is unpredictable though the vaccines appear to be proving effective. Supply bottlenecks and shortages may continue to impact production. The spike in inflation and in oil and gas prices also may continue for some time, and we have passed the point of peak stimulus from governments and central banks, so headwinds may increase in 2022.

We continue to focus on businesses that have the potential to consistently create significant value for shareholders over the long term regardless of short-term headwinds. We seek to buy and hold exceptional franchises with sustainable competitive advantages. We continue to be attracted to companies with long-term structural growth drivers and predictable cashflows and will apply our process to analyse and invest behind these opportunities.

Investment Manager – Jupiter Investment Management Limited

Jupiter Merian Global Equity Income Fund (IRL)

Market Review

2021 was a volatile year in many respects. However, the stock market, despite a few brief selloffs, finished the year strongly, with S&P 500 index adding 26.9% for the whole twelve months. Market swings were caused by continuous uncertainty about the evolution of the COVID pandemic, constantly changing rules about restrictions, new emerging COVID variants, as well as cheap money and social media herding, leading to mass speculation on stock and cryptocurrency markets. In January, video game retailer GameStop shot up 1,700%, causing uproar from retail as well as professional market participants. In the world of macroeconomics, years of cheap money with near zero interest rates and a generous central bank bond-buying programme eventually led to inflation spiking in 2021, which in return caused further uncertainty and swings in the bond markets as well as in equity and commodity markets. The US Federal Reserve (Fed) has started slowing the pace of its bond-buying programme, however, and it remains unclear how long the Fed will wait before raising interest rates after its bond buying programme ends. There was increasing awareness during 2021 of the importance of climate change and the need to reduce carbon emissions. Achieving 'net zero' will demand a historically unprecedented level of investment, and a thoroughgoing technological overhaul of many industries.

Performance Review

In 2021 we saw some normalisation of return drivers. This comes after a period of unfavourable environment for the fund. Our company management stock selection criterion and our sentiment criterion contributed positively. The largest negative contribution came from our market dynamics stock selection criterion. Overall, there were signs of normalisation in the environment for systematic strategies. The fund has now benefited from our recently implemented research, which led to a more diversified strategy set and thus more diversified fund returns. Throughout the year, the fund had the largest weight (allocated by our dynamic weighting scheme) in the dynamic valuation stock selection criterion, followed by the sentiment criterion. The fund started the year with near zero exposure to momentum (market trends), and although this gradually increased over the year, the weight is still relatively low, as momentum tends to struggle in periods of high investor uncertainty and low investor risk appetite.

Investment Outlook

The recent volatility and focus on macroeconomics, especially inflation, is expected to spill over into the new year. It is worth reiterating that the fund strategy does not attempt to predict macroeconomic outcomes or market moves. The strategy focuses on what the market is reflecting and expecting, and the perceptions and risk appetites of market participants and investors. Depending on how the market and investors perceive and react to upcoming macro events, the fund's model will adjust its strategy weights to maximise the expected return of the overall factor set given the current environment. Due to our strong focus on diversification in stock selection criteria, as well as on asset level, risk management and portfolio construction, any volatile market moves should not directly impact the fund's active performance relative to the benchmark (the fund is constrained to aim at being close to beta equal to one), only through different stock selection criteria weights being tilted given the dynamic weighting scheme. A diversified fund would be expected to perform relatively well in a volatile environment, such as the one we are anticipating, whereas predicting macro events and market movements is known to be notoriously difficult even when markets are less volatile.

Jupiter Gold & Silver Fund

Market Review

The calendar year 2021 was without doubt disappointing for the Gold & Silver Fund. Macro conditions were unfavourable, with markets continuing to focus on the forecast of a hawkish future rather than on current inflation. Hawkish versus dovish are the prevailing winds that dominate the return profile of Gold, Silver and the mining equities. It seems counterintuitive to see \$Gold (gold priced in dollars) at \$ 1800/oz with US inflation at 7% and rates at the zero bound, but Gold is the market's measure of future paper money purchasing power, not today's purchasing power. For now, at the medium to long end, investors continue to believe both that the inflation is a passing breeze and also that multiple rate hikes are coming. Both of these are effectively real interest rate positive forward observations/assumptions.

Sentiment remained weak in 2021 in terms of investor interest globally towards the asset class, however there are signs in the activity of Gold and Silver mining companies that indicate a turn is afoot. For the longest time it has been evident that a major wave of merger and acquisition activity would be needed to sterilise the looming issue of reserve depletion in the sector. Towards the end of 2021 we saw merger & acquisition (M&A) activity pick up materially, and we expect to see more of the same this year. Pleasingly, there appears to be a clear preference for assets in Tier 1 jurisdictions, with a specific focus on Canada. The fund has a meaningful allocation to producers and developers in both Canada and also Australia, where 2021 saw substantially more exploration activity even than 2020.

Performance Review

The fund's asset allocation signal changed in Q3 from bullish to defensive, and that led to the fund ending 2021 with an elevated 21% in bullion and a 65:35 Gold/Silver weighting overall.

Unsurprisingly with a rising Gold/Silver ratio over the course of the year, best performers in 2021 for the fund were Gold miners, especially ones benefitting from the new M&A activity. Pretium, Gold Road and De Grey all finished the year up between 10% & 20%, which is interesting in light of a lower Gold spot price over the same 12 months (-3.5%). In H2 2021, per the signal shift referred to above, we added two Royalty companies in Franco Nevada and Wheaton Precious Metals and reduced Silver producer positions. Some rotation has also been seen in the tail of the portfolio through the course of 2021. Within our bucket of explorer companies (c4% of overall portfolio) we have a slew of drill results pending in Q1 2022 from 2021 calendar year activity. The delays at assay labs are a problem for the sector but indicate the strength of underlying activity and raise the likelihood of important new discoveries being made in due course.

January was the best individual month of 2021 for the fund, seeing the emergence of the 'Silver squeeze' trend. It was frustrating that spot Silver just failed to take out the \$30/oz level, but we feel this supply-demand imbalance episode was a portent of Silver's future. After that sugar rush and failure to breach \$30/oz, Silver investors faced negative momentum through the course of 2021, as was the case for all subsets of monetary metals investing.

The fund did however see consistent inflows throughout the year against the trend of the wider sector and, we feel, reasonable relative performance in light of the Gold/Silver ratio rising around 10% over the course of the twelve months.

Investment Outlook

At the time of the January 2021 'Silver Squeeze' we said that until \$30/oz was breached definitively the real squeeze wouldn't be on, but also that once Silver does leave \$30/oz, we expect much higher prices to follow. The \$Gold chart, which is leading Silver, is at the end of a 16-month consolidation phase and is ready to break out, or down in Q1 of 2022. This technical/macro setup will define the outlook for 2022.

In light of how hawkish policy expectations already are (the latest being the call for an initial 50bps rate hike in the US) we sense that this time the market will call the bluff of policymakers. The other key variable (inflation) is still effectively being treated as a passing fad by the bond market at the same time as it raises real living costs of real people, all round the world. That too could change should oil run up to and above \$100 a barrel again. Such a move would be a slap in the face to those hoping for inflation to normalise and looks on the cards to us, absent of a deflationary collapse event.

Mining companies continued as a group to deliver positive outcomes in 2021 despite some pressure in specialist labour cost and availability. The outcomes and activity in the mining sector, especially in light of the accelerating M&A carousel, appears to be slightly leading the Gold price. I've not seen this before and can't help but sense it is a surprising example of foresight on the part of mining company boards. They appear to have FOMO (fear of missing out) in a good way.

Jupiter UK Specialist Equity Fund

Market Review

The COVID-19 pandemic remained the primary driver of financial markets over 2021. This year, the market grappled with second, third and fourth waves of infection, the roll out of vaccines and therapeutics, continued non-pharmaceutical interventions to control the pace of infection, and new variants. Alongside this, as economics progressively reopened, it became clear that imbalances had been created by the shut downs and the emergency economic policies put in place to offset them. In short, we saw shortages of materials, products and labour, and consequently inflation rates at their highest levels since the financial crisis. Policymakers and investors debated the transitory nature of this inflation over the year. Given the importance of bond yields to equity valuations, this meant thematic leadership in equity markets oscillated between shares in high growth, long duration businesses, and 'good value', lower growth and short duration businesses.

Performance Review

Against this backdrop, the fund delivered a small loss over the year, with much lower volatility than equity markets. The short book added value over the period, while the long book more than offset this. On the long book, the top three positive contributors were Future (digital magazines), Auction Technology Group (a new IPO of a marketplace for the auction industry) and Electrocomponents (a distributor of electronics). The main negative contributors were all businesses in e-commerce, where the cost-pressures around supply chains took their toll on company profits, amongst other things: including THG (beauty and wellness), Boohoo Group (fast fashion) and Asos (online fashion). This was the primary driver of the fund's lacklustre performance in 2021. On the short book, which added value overall, the main positives were a specialist emerging markets asset manager, an online grocer, an online electronics retailer and an anti-virus software business. The main negatives were two high street stores, and an animal pharmaceuticals manufacturer.

Investment Outlook

Thematically, the fund is currently relatively balanced. We continue to structure the long book around long-term structural winners, but balanced with more cyclical businesses exposed to normalising economies in 2022, as well as some potential turnaround situations. The short book has a mix of longer term structural losers, combined with some positions in expensively rated growth and quality businesses, to hedge against further market rotation away from this theme.

As ever, the core driver of future returns from the strategy will be principally driven by good stock selection on both the long and active short books. Net exposure remains very low.

Jupiter Financials Contingent Capital Fund

Market Review

2021 was a tale of 3 quarters of strong performance for financials credit, backed by improving fundamentals and continued fiscal, monetary and regulatory support. The last quarter however was very different, with the emergence of a new Covid variant and the beginning of withdraw of Central Banks support weighting negatively on risky assets and on the financials sector.

Banks entered 2021 having heavily provisioned for losses stemming for the weak 2020 macro-outlook, much of which we expected to roll away as economies unlocked and business activity resumed. Job retention schemes, government guaranteed lending and stimulus cheques ensured that consumers and businesses were bridged through the worst of the crisis.

As we headed into September spreads were reaching their pre-pandemic tights as the asset class continued to grind tighter. On the desk, although we remained constructive on the fundamental outlook for banks we were mindful of stretched valuations leaving very little room to absorb any volatility. Towards the end of September the issues with the Evergrande and the broader Chinese real estate sector caused investors to rethink their OW positions in the "risker" segments of the credit market. We identified that the Chinese real estate sector remained self-contained to Chinese banks – to which the fund did not have any exposure – but nonetheless we took the opportunity to position more defensively on the belief that volatility would remain.

Over the course of Q4 the likes of Omicron, surging energy prices and the withdrawal of ultra-accommodative monetary policy weighed on valuations with spreads widening over the quarter. Through this period the primary markets remained largely closed with much of the issuance already completed for the year and banks looking at more opportunistic re-financings.

Performance Review

From January to mid of September we saw spreads tighten by 100bps and the fund delivered a strong return, reflecting the aforementioned fundamental tailwinds and more balanced credit selection compared to the benchmark.

Over the course of Q4, we adopted a high hurdle approach for participation in any new transaction with the view that dry powder would allow us to capitalise on any dislocations in the market against our core view of strong fundamentals (high levels of capital, benign delinquencies and stable liquidity/funding positions). The fund declined during the quarter in line with the benchmark.

Investment Outlook

In terms of Outlook for CoCos in 2022, we are less concerned about systemic volatility. Considering the lessons learned in 2020 and 2021, in particular the regulatory playbook and how the crisis was dealt with, we think a similar approach would be deployed again in case of further volatility to limit stress on the banking system. On a valuation perspective, we believe yields on CoCos remain still attractive and well in excess of generic high-yield credit with a much better risk profile. Also, the supply outlook is supportive to valuations given we will probably see negative net supply in 2022. Fundamentally, European banks have a strong capital position, well above the minimum requirements therefore should be able to absorb well even a potential deterioration in asset quality during the year.

Based on these considerations we believe in 2022 there will be opportunities especially in credit of less well-known banks and financial corporates where we could see a substantial pick up in credit spreads compared against generic corporate credit.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF JUPITER ASSET MANAGEMENT SERIES PLC

Report on the audit of the financial statements

Opinion

We have audited the English language version financial statements of Jupiter Asset Management Series Plc ("the Company") for the year ended 31 December 2021 set out on pages 156 to 319, which comprise the Statement of Operations, Statement of Financial Position, Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders and related notes, including the summary of significant accounting policies set out in note 3. The financial reporting framework that has been applied in their preparation is Irish Law and FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland issued in the United Kingdom by the Financial Reporting Council.

In our opinion:

- the financial statements give a true and fair view of the assets, liabilities and financial position of the Company as at 31 December 2021 and of its increase in net assets attributable to holders of redeemable participating shares for the year then ended;
- the financial statements have been properly prepared in accordance with FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*; and
- the financial statements have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF JUPITER ASSET MANAGEMENT SERIES PLC (continued)

Report on the audit of the financial statements (continued)

Other information

The Directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the Directors' Report, Directory, General Information, Report of the Depositary to the Shareholders, Investment Advisors'/Managers' Reports, Portfolio of Investments, Significant Purchases and Sales, Price Record, Total Expense Ratios, Sub-Fund Performance and Supplementary Information. The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Based solely on our work on the other information undertaken during the course of the audit , we report that:

- we have not identified material misstatements in the Directors' Report;
- in our opinion, the information given in the directors' report is consistent with the financial statements;
- in our opinion, the Directors' Report has been prepared in accordance with the Companies Act 2014.

The Securities and Futures Commission of Hong Kong Code on Unit Trusts and Mutual Funds

We report that the following sub-funds of the Company: Jupiter Merian World Equity Fund, Jupiter Pacific Equity Fund, Merian European Equity Fund, Jupiter Merian Global Equity Income Fund (IRL), Jupiter Gold & Silver Fund, Jupiter Emerging Market Debt Fund, Jupiter Merian North American Equity Fund (IRL), Jupiter UK Alpha Fund (IRL), Jupiter Europe (ex UK) Smaller Companies Fund, Merian Asian Equity Income Fund have been properly prepared in accordance with the requirements of the Securities and Futures Commission of Hong Kong Code on Unit Trusts and Mutual Funds relevant for an Irish registered UCITS. We note that the Sub-Funds, Jupiter China Equity Fund, Jupiter Merian US Equity Income Fund, Merian Global Dynamic Bond Fund, Jupiter Global Emerging Markets Focus Fund, Jupiter Emerging Market Debt Income Fund, Jupiter UK Smaller Companies Focus Fund, Jupiter UK Dynamic Equity Fund, Jupiter Merian Global Equity Absolute Return Fund, Jupiter Strategic Absolute Return Bond Fund, Jupiter UK Specialist Equity Fund and Jupiter Financials Contingent Capital Fund are not/no longer authorised in Hong Kong and not available to the public in Hong Kong.

Opinions on other matters prescribed by the Companies Act 2014

We have obtained all the information and explanations which we consider necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF JUPITER ASSET MANAGEMENT SERIES PLC (continued)

Report on the audit of the financial statements (continued)

Matters on which we are required to report by exception

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of Directors' remuneration and transactions required by Sections 305 to 312 of the Act are not made. We have nothing to report in this regard.

Respective responsibilities and restrictions on use

Responsibilities of Directors for the financial statements

As explained more fully in the Directors' responsibilities statement set out on page 17, the Directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at http://www.iaasa.ie/Publications/Auditing-standards/International-Standards-on-Auditing-for-use-in-Ire/Description-of-the-auditor-s-responsibilities-for.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements for the financial year ended 31 December 2021

Reporting Entity

Jupiter Asset Management Series Plc (the "Company") is an open-ended investment company with variable capital organised under the laws of Ireland. The Company is organised in the form of an umbrella fund insofar as the share capital of the Company will be divided into different series of Shares with each series of Shares representing a portfolio of assets which will comprise a separate fund (each a "Sub-Fund"). As at 31 December 2021, the Company has 21 Sub-Funds in operation (31 December 2020: 21 Sub-Funds).

2. Basis of Preparation

The Company is incorporated in Ireland and authorised by the Central Bank of Ireland ("Central Bank"). The financial statements are prepared in accordance with Financial Reporting Standard 102 applicable in the UK and Republic of Ireland ("FRS 102") issued by the Financial Reporting Council ("FRC") in September 2015 and promulgated by the Institute of Chartered Accountants in Ireland ("ICAI"), Irish statute comprising the Companies Act 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) ("the UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

The format and certain wordings of the financial statements have been adapted from those contained in the FRS 102 and the Companies Act 2014 so that, in the opinion of the Directors, they more appropriately reflect the nature of the Company's business as an investment fund.

The Company has availed of the exemption available to open-ended investment funds under FRS 102 and are not presenting a cash flow statement.

Measurement Convention

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss. The debt instruments are held in the financial statements at an amount that includes accrued interest.

Going Concern

The financial statements of the Company have been prepared on the going concern basis.

3. Significant Accounting Policies

The principal accounting policies and estimates applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

a. Estimates and Judgements

The preparation of financial statements in conformity with FRS 102 requires management to make judgements, estimates and assumptions that may affect the reported amounts of assets, liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors which are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities which are not readily apparent from others. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future accounting periods affected. Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year, as well as critical judgement in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are included in Note 11.

3. Significant Accounting Policies (continued)

b. Foreign Currency Translation

Functional and Presentation Currency of the Company

The Company has adopted United States Dollar ("USD") as its presentation currency as a substantial part of the Company's assets and liabilities are denominated in USD.

Functional and Presentation Currency of the Sub-Funds

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which the respective Sub-Funds operate (the "functional currency"). The functional currency, which is either Euro ("EUR"), USD or Pound Sterling ("GBP"), is shown in the Statement of Financial Position for each Sub-Fund. The Sub-Funds also adopted these functional currencies as their presentation currency.

Transactions and Balances

Transactions in foreign currencies are translated to the Sub-Fund's functional currency at the foreign exchange rate at the date of the transaction. Assets and liabilities in foreign currencies are translated into the functional currency at the rates prevailing at the financial year end date.

Translation of Sub-Funds for the purposes of calculating the Company values

For the purposes of calculating the overall value of the Company, for all Sub-Funds where USD is not the functional currency, all assets and liabilities in the Statement of Financial Position are translated to USD at financial year end exchange rates and all income and expenses are translated to USD using an average rate of exchange for the financial year.

c. Financial Instruments

The Company has chosen to implement the recognition and measurement provisions of IAS 39 and only the disclosure requirements of Sections 11 and 12 of FRS 102.

The majority of the Company's financial instruments are classified in categories that require measurement at fair value through profit or loss, with the basis for arriving at this position being set out below.

Classification

The Company classifies financial assets and financial liabilities into the following categories:

Financial assets at fair value through profit or loss:

- Held for trading: transferable securities, investment funds and financial derivative instruments.

Financial assets at amortised cost:

- Loans and receivables: cash and cash equivalents, due from broker, collateral cash, deposits with credit institutions and other assets.

Financial liabilities at fair value through profit or loss:

- Held for trading: financial derivative instruments.

Financial liabilities at amortised cost:

- Other liabilities: due to broker, bank overdraft and other liabilities and Net Assets Attributable to Redeemable Participating Shareholders.

A financial instrument is classified as held for trading if:

- it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- on initial recognition, it is part of a portfolio that is managed together and for which there is evidence of a recent pattern of short-term profit taking; or
- is a derivative, other than a designated and effective hedging instrument.

Significant Accounting Policies (continued) 3.

c. Financial Instruments (continued)

Recognition and Measurement

Financial assets and financial liabilities at fair value through profit or loss are recognised as of the day the transaction takes place (trade date), the date on which the Sub-Fund commits to purchase or sell the asset. Investments are initially recognised at fair value, and costs for all financial assets and financial liabilities carried at fair value through profit or loss are expensed as incurred. Other financial assets and financial liabilities are recognised on the date in which they originated.

Financial assets and financial liabilities not at fair value through profit or loss are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition or issue.

Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Operations. Financial assets and liabilities, other than those at fair value through profit or loss, are measured at amortised cost using the effective interest rate, with other assets being measured using effective interest rate and less impairment losses, if any. Financial liabilities arising from the redeemable shares issued by the Company are carried at the redemption amount representing the investors' right to a residual interest in the Company's assets.

Fair Value Measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Sub-Fund has access at that date. The fair value of a liability reflects its non-performance risk.

i) Transferable Securities

When available, the Sub-Funds measure the fair value of an investment using the quoted price in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. Sub-funds measure instruments quoted in an active market at a last traded price, without any deduction for estimated future selling cost. The last traded price provides a reasonable approximation of exit price.

If there is no quoted price in an active market, then the Sub-Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

ii) Investment Funds

The fair value of investment funds is based on the underlying fund administrator's calculation of the net asset value per share (market value of investment fund's assets less liabilities divided by the number of shares) which will be the latest bid price published by the investment funds taking into account any adjustments that may be required to account for illiquidity, low trading volumes or any such factors that may indicate that the bid price may not be fair value. The fair value of any investments in closed-ended investment funds is based on the bid prices available on the principal market for such security at the valuation date taking into account any adjustments that may be required to account for illiquidity, low trading volumes or any such factors that may indicate that the bid price may not be fair value.

iii) Financial Derivative Instruments

Currency Exchange Contracts

The Sub-Funds may employ currency exchange contracts to purchase or sell a specific currency at a future date at a price set at the time of the contract. The base currency of each Sub-Fund is either GBP, EUR or USD but securities in a Sub-Fund may be denominated in a large range of currencies. Consequently, a Sub-Fund may enter into currency exchange contracts to hedge against exchange rate risk. Performance may be significantly influenced by movements in foreign exchange rates because currency positions held by a Sub-Fund may not correspond with the currency of the securities invested in. The unrealized gain or loss on open currency exchange contracts is calculated as the difference between the contract price and the spot price as at financial year end. Any changes in fair value are recognised in the Statement of Operations.

Futures contracts

Futures contracts are commitments either to purchase or sell a designated financial instrument, currency, commodity or an index at a specified future date for a specified price and may be settled in cash or another financial asset. Futures are standardised exchange-traded contracts. Initial margin requirements for futures are met in cash or other instruments, and changes in the futures contract values are settled daily. Daily fluctuations in the value of a futures contract are recorded for financial reporting purposes as unrealised gains or losses by the Sub-Funds and are recorded as a realised gain or loss when the position is closed.

- 3. Significant Accounting Policies (continued)
 - c. Financial Instruments (continued)

Fair Value Measurement (continued)

iii) Financial Derivative Instruments (continued)

Options

A Sub-Fund may purchase and sell (write) call and put options on securities, securities indices and foreign currencies traded on a national securities exchange or in an over-the-counter market.

When a Sub-Fund purchases a call or a put option, a premium is paid by the Sub-Fund. The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is included in determining initial fair value of the securities or foreign currency purchased. Premiums paid on the purchase of options which expire unexercised are treated as realised losses. The option is subsequently marked-to-market to reflect the fair value of the option purchased, which is reported within financial assets at fair value through profit or loss on the Statement of Financial Position for each relevant Sub-Fund.

The over-the-counter options are valued at close of business on the dealing day at the settlement price as provided by the counterparty/broker and the values are independently valued, at a minimum, weekly. The fair value of exchange traded options are based upon their quoted daily settlement prices on the relevant exchange. In the event of it being impossible or incorrect to carry out a valuation of a specific investment in accordance with the valuation rules, or if such valuation is not representative of a security's fair market value, the Directors are entitled to use other generally recognised valuation methods in order to reach a proper valuation of that specific instrument, provided that such method of valuation has been approved by the Depositary.

Swap contracts

Swap contracts are carried at fair value based upon the fair value of the underlying assets, the risk associated with the underlying assets, and any additional provisions of the derivative contract.

Interest rate swaps ("IRSs") are measured initially at fair value on the date on which the derivative contract is entered into and subsequently remeasured at fair value. Fair values are obtained from counterparties or from quoted market prices in active markets, including recent market transactions, and from valuation techniques using discounted cash flow models and option pricing models as appropriate. IRSs are included in assets when the fair value is positive, and in liabilities when the fair value is negative, unless there is the legal ability and intention to settle the asset and liability on a net basis. Revenues/payments arising on IRSs are included in the Net gain/loss on financial assets at fair value through profit or loss in the Statement of Operations.

Credit default swap ("CDS") and Credit Default Index swap ("CDX") contracts are valued at fair value based on a pricing methodology utilising certain factors which include the credit risk of the reference obligations of the underlying issuers, as well as the specific terms of the contract. Certain CDS and CDX contracts entered into may include upfront fees that are paid by the buyer to the seller of the CDS and CDX contracts at the date of transaction.

Such fees are reported as unrealised gains or losses in the Statement of Financial Position and as net gains and losses in the Statement of Operations. These upfront payments represent the amounts paid or received when initially entering into the swap agreement to compensate for differences between the stated terms of the swap agreement and the prevailing market conditions and are included as realised gains or losses on the Statement of Operations upon termination or maturity of the swap.

Contracts for difference

Contracts for difference may be used either as a substitute for direct investment in the underlying equity or fixed income security or as an alternative to and for the same purposes as futures and options. Changes in the value of open contracts for difference are recognised as unrealised gains or losses on contracts for difference and are included in net gain/loss on financial assets and financial liabilities at fair value through profit and loss in the Statement of Operations, until the contracts are terminated, at which time realised gains and losses are recognised as a realised gain or loss and included in net gain/loss on financial assets and financial liabilities at fair value through profit and loss in the Statement of Operations. Unrealised gains or losses on contracts for difference are shown in the Statement of Financial Position.

- Significant Accounting Policies (continued) 3.
 - c. Financial Instruments (continued)

Fair Value Measurement (continued)

iii) Financial Derivative Instruments (continued)

Amortised cost measurement

Financial asset and liabilities other than those classified at fair value through profit or loss are held at amortised cost. The amortised cost of the financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition, minus principal repayments, plus or minus the accumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

i) Cash and Cash Equivalents/Due to/from Broker

Cash amounts held comprise of current deposits in banks which are readily available. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Due from Broker is an amount which is made up of margin cash, spot contracts and collateral pledged. The margin cash and cash collateral is held by or due to brokers for open futures contracts and represents the exchange traded futures contracts margin deposits. This amount is the minimum deemed by the brokers and counterparties for collateral requirements and is as such restricted and therefore reported separately to the unrestricted cash on the Sub-Fund's Statements of Financial Position.

Sub-Fund's assets may be deposited by or received by the Sub-Fund for collateral purposes with counterparties in respect of OTC financial derivative instruments held by the Sub-Fund. Such assets remain in the ownership of the relevant Sub-Fund and are recorded as an asset on the Statement of Financial Position. In relation to cash received as collateral this will be recorded as an asset and a related liability to repay the collateral will be recorded as a liability on the Statement of Financial Position.

Investments pledged by the Sub-Fund's as collateral are recognised at fair value in the relevant Sub-Fund's Portfolio of Investments and are referenced accordingly at the base of the Portfolio of Investments. Securities received by the Sub-Funds as collateral from counterparties do not form part of the Net Asset Value of the Sub-Funds and are disclosed at the end of the relevant Portfolio of Investments.

ii) Other Assets and Other Liabilities

Other assets and liabilities represent amounts receivable and payable respectively, for transactions contracted for but not yet paid for by the end of the reporting period. These amounts held relate to subscription and redemption monies and dividend transactions. Other assets and liabilities are primarily non-interest bearing and short term in nature.

Fund asset cash balances, including an appropriate equal and opposing liability, are reflected at a Sub-Fund level on the Statement of Financial Position. The fund asset cash receivables are included in the Other Assets and fund asset cash payables are included in the Other Liabilities on the Statement of Financial Position respectively. They represent umbrella cash collection account balances attributable to the individual Sub-Funds of the Company. These amounts relate to subscription and redemption monies, including dividend money, that are due to an individual Sub-Fund, as Sub-Fund assets, and which are held in an umbrella cash collection account in the name of the Company.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the Statement of Financial Position when, and only when, the Sub-Fund has a legally enforceable right to offset the recognised amounts and it intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. The Company's financial assets and financial liabilities are not subject to offsetting, enforceable master netting arrangements and similar agreements. Income and expenses are presented on a net basis for gains and losses from financial instruments at fair value through profit or loss and foreign exchange gains and losses.

Derecognition

Each Sub-Fund derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the sub-fund neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

3. Significant Accounting Policies (continued)

c. Financial Instruments (continued)

ii) Other Assets and Other Liabilities (continued)

Derecognition (continued)

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset that is derecognised) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in the Statement of Operations. Any interest in such transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

d. Cross Investments

During the financial years ended 31 December 2021 and 31 December 2020 a number of the Sub-Funds invested in other Sub-Funds in the Company (the "Cross Investments"). The fair value of these investments as of 31 December 2021 is disclosed within each relevant Sub-Fund's Portfolio of Investments. For details on how these are eliminated at a Company level, please refer to the Related Parties note.

For the purposes of producing the combined Company total financial statements, investments by Sub-Funds within the Company in the units of other Sub-Funds within the Company, also known as "Cross Investments" must be eliminated in order to prevent double counting.

e. Dividend income/expense

Dividend income arising on the underlying equity investments of the Company is recognised as income of the relevant Sub-Fund on the ex-dividend date. Income is shown gross of any non-recoverable withholding taxes, which is disclosed separately in the Statement of Operations, and net of any tax credits.

The Sub-Funds incur expenses on contract for differences equal to the dividends due on these securities. Such dividend expense is recognised in the Statement of Operations as dividend expense on contract for differences when the shareholders' right to receive payment is established.

f. Interest income/expense

Interest income and interest expense recognised in the Statement of Operations comprise interest on financial assets and liabilities measured at amortised cost calculated using the effective interest rate method. When calculating the effective interest rate, the Sub-Funds estimate future cash flows considering all contractual terms but not future credit losses. Interest received or receivable and interest paid or payable are recognised in the Statement of Operations and included in other income and operational expenses, respectively.

Interest income from bonds and swap contracts is recognised in the Statement of Operations as part of net gain/loss on financial assets/liabilities at fair value through profit or loss.

g. Expenses

All expenses are recognised in the Statement of Operations on an accruals basis. Expenses arising on the disposal of investments are deducted from the disposal proceeds.

h. Transaction Costs

Transaction costs are incurred on the acquisition or disposal of financial assets or liabilities at fair value through profit or loss. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability. They include fees and commissions paid to agents, advisers, brokers or dealers. Transaction costs, when incurred, are expensed immediately in the Statement of Operations.

Significant Accounting Policies (continued)

i. Realised Gains and Losses

Net realised gains and losses from financial instruments at fair value through profit or loss include all realised gains and losses and coupon interest earned from debt securities held by the Sub-Funds. Realised gains and losses on sales of investments are calculated based on the average cost of the investment in local currency and are included in net gain/loss on financial assets/liabilities at fair value through profit or loss in the Statement of Operations.

j. Unrealised Gains and Losses

Unrealised gains and losses on investments are the difference between the average cost of the investment and its value at the reporting period end and are included in net gain/loss on financial assets/liabilities at fair value through profit or loss in the Statement of Operations.

k. Redeemable Participating Shares

In accordance with the Prospectus, the Company issues redeemable participating shares, which are redeemable at the holder's option and are classified as financial liabilities. Redeemable participating Shares can be put back into the Sub-Fund at any time for cash equal to a proportionate share of the Sub-Fund's net asset value ("NAV"). The redeemable participating share is carried at the redemption amount that is payable at the year end date if the holder exercises the right to put the share back into the Sub-Fund.

Save as may be otherwise described in the Supplement for the relevant Sub-Fund the Net Asset Value per redeemable participating share is determined as at 12 noon GMT on each valuation day in accordance with the provisions set out in the Prospectus.

An anti-dilution levy ("ADL") is applied daily where the pending deals are over a fixed percentage of the NAV. The ADL is included within Other Income in the Statement of Operations.

I. Taxation

The Sub-Funds currently incur withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the Statement of Operations. Withholding taxes are shown as a separate item in the Statement of Operations.

m. Borrowing Costs

Borrowing costs are recognised as an expense in the financial year in which they are incurred.

4. Taxation

The Company qualifies as investment undertaking as defined in Section 739B of the Taxes Consolidated Act 1997.

On that basis, Irish tax is not chargeable to the Company on its income or capital gains.

Irish tax can arise on the happening of a "chargeable event" in the Company. A chargeable event includes any payments of distributions to Shareholders, any encashment, repurchase, redemption, cancellation or transfer of Shares and any deemed disposal of Shares for Irish tax purposes arising as a result of holding Shares in the Company for a period of eight years or more. Where a chargeable event occurs, the Company is required to account for the Irish tax thereon.

A gain on a chargeable event may not arise in respect of:

- (i) any transactions (which might otherwise be a chargeable event) in relation to Shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or;
- (ii) a transfer of Shares between spouses and any transfer of Shares between spouses or former spouses on the occasion of judicial separation and/or divorce; or;

4. Taxation (continued)

A gain on a chargeable event may not arise in respect of (continued):

- (iii) an exchange by a Shareholder, effected by way of arm's length bargain where no payment is made to the Shareholder, of Shares in the Company for other Shares in the Company; or;
- (iv) an exchange of Shares arising on a qualifying amalgamation or reconstruction of the Company with another Irish investment fund.
- (v) a Shareholder who is not an Irish resident and not ordinarily resident in Ireland at the time of the chargeable event, provided the necessary signed statutory declarations are held by the Company; or;
- (vi) a Shareholder who is an exempt Irish resident and it (or an intermediary acting on its behalf) has made the necessary declaration to that effect.

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes or capital gains taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

The Company may be subject to taxes imposed on realised and unrealised gains on securities of certain foreign countries in which the Company invests. The foreign tax expense, if any, is recorded on an accrual basis and is included in capital gains taxes in the Statement of Operations. The amount of foreign tax owed, if any, is included in other liabilities in the Statement of Financial Position.

Under Brazilian, Indian and Pakistani income tax laws, capital gains tax is payable on the sale of assets, investments and capital accumulation. Included in the capital gains tax expense in the Statement of Operations is USD 12,586 (31 December 2020: USD 1,157,927) included in other liabilities in the Statement of Financial Position is a payable of USD 146,720 (31 December 2020: USD 709,720).

5. Related Parties

Related Party Transactions

6. Share Capital

Subscriber Shares

The authorised share capital of the Company is EUR 38,082 (2020: EUR 38,082) represented by 30,000 (2020: 30,000) Subscriber Shares of no par value and 500,000,000,000 (2020: 500,000,000,000) redeemable participating shares of no par value. The Company has repurchased all but one of the Subscriber Shares, held by Jupiter Asset Management (Europe) Limited, the Management Company. The Subscriber Shares entitle the Shareholders holding them to attend and vote at all meetings of the Company. The Subscriber Shares entitles the Shareholder to participate equally on a pro rata basis in the dividends and net assets of the Company, this entitlement shall be limited to the amount subscribed and any accrued income thereon.

Redeemable Participating Shares

The creation of the various share classes is intended to offer greater flexibility to both retail and institutional clients. Each share class may also be distinguished by the Management Fee, initial charge, contingent deferred sales charge and redemption charges applicable and the minimum subscription requirements. Each share class in each Sub-Fund has equal voting, distribution and liquidation rights in proportion to the number of the Shares held in that Sub-Fund.

The net assets attributable to holders of redeemable participating shares are at all times equal to the Net Asset Value of the Company. The redeemable participating shares can be redeemed at the option of the Shareholder.

Redeemable participating shares may be redeemed on each dealing date or such other date or dates as the Board of Directors shall from time to time determine (Valuation Day) at the Net Asset Value per Share.

Capital Management

The Company is an externally managed UCITS. The Manager is subject to externally imposed minimum capital requirements by the CBI.

The Company considers redeemable participating shares as capital. Redeemable participating shares issued by each Sub-Fund provide a shareholder with the right to request redemption of their shares for cash, at a value proportionate to the total value of all redeemable participating shares, in a Sub-Fund at each redemption date and are classified as liabilities.

The Company's objective in managing redeemable participating shares is to ensure a stable base to maximise returns to shareholders and to manage liquidity risk arising from redemptions.

9. Fees and Expenses

Management Fee

The Manager is entitled to receive a percentage fee (the "Management Fee") in respect of each Class of Share. The Manager is responsible for the payment of the investment management fee to the Investment Manager out of the Management Fee.

The Company pays to the Manager, in arrears, a monthly Management Fee. The amount of the Management Fee for each of the Classes of Shares of each Sub-Fund is set out in the Supplement for the relevant Sub-Fund. The rates applicable at the financial year ended 31 December 2021 are detailed in the table below. The rates are expressed as a percentage per annum of the relevant Sub-Fund's Net Asset Value. Management Fee charges are structured in such a way that there shall be no double charging of the Management Fee as a result of a Sub-Fund investing in other Sub-Funds of the Company.

The Management Fee for each Sub-Fund shall accrue on each Dealing Day. The Company will not pay the out of pocket expenses of the Manager. Out of the investment management fee paid by the Manager to the Investment Manager, the Investment Manager shall pay the fees and commissions payable to the relevant Investment Adviser and transition managers. The Investment Manager shall also pay those reasonable out-of-pocket expenses which the Investment Manager has previously agreed with the relevant Investment Adviser to pay out of its investment management fee

Performance Fee

The performance fees methodology and calculations were amended in line with ESMA guidelines, and the changes, mainly in relation to crystallisation and the methodology used in calculating the Performance Fees became effective from 16 December 2021. The amendments are reflected within the text below.

Jupiter Merian North American Equity Fund (IRL)

The Investment Manager may be entitled to a performance fee out of the Jupiter Merian North American Equity Fund (IRL)'s assets. With respect to the Jupiter Merian North American Equity Fund (IRL), the performance fee is only applicable to the following share classes: Class P1 (USD) Accumulation, Class P1 (GBP) Hedged Accumulation, Class P1 (SGD) Hedged Accumulation, Class P1 (EUR) Hedged Accumulation, Class P2 (USD) Accumulation, Class P2 (GBP) Hedged Accumulation, Class P2 (GBP) Hedged Accumulation, Class P2 (CHF) Hedged Accumulation, Class P2 (GBP) Income, Class P2 (USD) Income and Class P2 (CHF) Hedged Accumulation.

The Performance Fee will be calculated and accrued daily and will be payable annually in arrears in respect of each Performance Period "Performance Period of the Jupiter Merian North American Equity Fund (IRL)"). A Performance Period of Jupiter Merian North American Equity Fund (IRL) will comprise of each successive twelve-month period ending on 31 December. The Performance Fee (if any), will crystallise, become payable and will be credited to the Investment Manager at the end of each Performance Period. The Performance Fee is normally payable to the Investment Manager annually in arrears within 15 calendar days of the end of each Performance Period.

In addition, if a Shareholder repurchases or converts all or part of their Shares before the end of a Performance Period, any accrued Performance Fee with respect to such Shares will crystallise on that Dealing Day and will then become immediately payable.

If a Share is repurchased or converted at any time other than at the end of a Performance Period, the Performance Fee attributable to such Share could be different from the Performance Fee that would be payable if such Share was not repurchased or converted until the end of the relevant Performance Period.

Fees and Expenses (continued)

Performance Fee (continued)

Jupiter Merian North American Equity Fund (IRL) (continued)

"The Benchmark" is the MSCI North America Index (Ticker: MXNA).

"Valuation Point" shall be 12.00 noon. (Irish time) on each Dealing Day.

"The Benchmark Performance" in respect of a Performance Period of the Jupiter Merian North American Equity Fund (IRL), is the difference between the level of the Benchmark calculated at the Valuation Point on the last Business Day of the previous Performance Period of the Jupiter Merian North American Equity Fund (IRL) and the level of the Benchmark calculated at the Valuation Point on the last Business Day of the relevant Performance Period of the Jupiter Merian North American Equity Fund (IRL), expressed as a percentage.

The "Share Class Performance" in respect of the first Performance Period of the Jupiter Merian North American Equity Fund (IRL) is the difference between the opening Net Asset Value per Share and the Net Asset Value per Share at the Valuation Point on the last Business Day of the Performance Period of the Jupiter Merian North American Equity Fund (IRL), expressed as a percentage. For each Performance Period of the Jupiter Merian North American Equity Fund (IRL) thereafter, the Share Class Performance is the difference between the Net Asset Value per Share at the Valuation Point on the last Business Day of the previous Performance Period of the Jupiter Merian North American Equity Fund (IRL) and the Net Asset Value per Share at the Valuation Point on the last Business Day of the relevant Performance Period of the Jupiter Merian North American Equity Fund (IRL), expressed as a percentage.

Where a fair value adjustment has been made to the Net Asset Value per Share of the Jupiter Merian North American Equity Fund (IRL) then this will be excluded for the purposes of the calculation of the Performance Fee.

For hedged share classes the Benchmark will be the relevant hedged version of the Index. For all share classes, the Benchmark will be priced at the Benchmark valuation point according to the Benchmark provider's pricing methodology. The exchange rates used in calculating the net asset values for all share classes will be the prevailing exchange rates at the Company's Valuation Point.

The Benchmark is consistent with the Jupiter Merian North American Equity Fund (IRL)'s investment strategy. Information on the Jupiter Merian North American Equity Fund (IRL)'s past performance measured against the Benchmark is included in the relevant Key Investor Information Document (KIID).

Calculation of the Net Asset Value per Share of each Class for Performance Fee purposes is net of all costs but no deduction will be made on account of Performance Fees accrued in the Performance Period of the Jupiter Merian North American Equity Fund (IRL), provided that it is in the best interests of Shareholders to do so and any net income distributed to Shareholders in respect of the Performance Period of the Jupiter Merian North American Equity Fund (IRL) is added back.

The "Percentage Outperformance" in respect of Performance Periods of the Jupiter Merian North American Equity Fund (IRL) where Share Class Performance is greater than Benchmark Performance is the arithmetical difference between Share Class Performance and Benchmark Performance, expressed as a percentage. In respect of Performance Periods of the Jupiter Merian North American Equity Fund (IRL) where Share Class Performance is less than Benchmark Performance, such underperformance, being the arithmetical difference between Share Class Performance and Benchmark Performance expressed in percentage points, will be carried forward and no Performance Fee will be payable in any subsequent Performance Period of the Jupiter Merian North American Equity Fund (IRL) unless Share Class Performance measured against Benchmark Performance has recovered any accumulated percentage underperformance for previous periods. In the Performance Period of the Jupiter Merian North American Equity Fund (IRL) in which any accumulated percentage underperformance is recovered, only that part of the Percentage Outperformance for such period as exceeds the accumulated percentage underperformance carried forward is taken into account for the purposes of calculating the performance fee payable for the Performance Period of the Jupiter Merian North American Equity Fund (IRL).

9. Fees and Expenses (continued)

Performance Fee (continued)

Jupiter Merian North American Equity Fund (IRL) (continued)

The Performance Fees are calculated with reference to an adjusted average number of Shares in issue during the relevant Performance Period. The amount of Performance Fee payable in respect of each Share is a US Dollar amount equivalent to the opening Net Asset Value per Share on the first Business Day of the Performance Period of the Jupiter Merian North American Equity Fund (IRL) x Percentage Outperformance x 20% and is payable on the adjusted average number of Shares in issue during the Performance Period of the Jupiter Merian North American Equity Fund (IRL). The adjusted average number of Shares takes account of repurchases, conversions and subscriptions occurring during the relevant Performance Period.

For the purposes of the first calculation of the Performance Fee, the initial offer price in respect of each Share Class was taken as the opening Net Asset Value. The first Performance Period will begin on the date on which the first shares of the relevant share classes are issued and will end on 31 December of the same year.

The Performance Fee accrues and is taken into account in the calculation of the Net Asset Value per Share on a daily basis.

The amount of the Performance Fee will be calculated by the Administrator. The calculation of the Performance Fee shall be verified by the Depositary and, as a result, it is not anticipated to be open to the possibility of manipulation.

The calculation of the Performance Fee shall also be reviewed by the Auditors as part of the annual audit of the Company. The Investment Manager may, at its discretion, waive the Performance Fee payable in respect of a Performance Period of the Jupiter Merian North American Equity Fund (IRL).

Performance Fees are payable on net realised and net unrealised gains and losses as at the end of each Performance Period of the Jupiter Merian North American Equity Fund (IRL) and as a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised.

Performance Fees may also be payable during a Performance Period of the Jupiter Merian North American Equity Fund (IRL) where there is a decline in the Net Asset Value per Share.

The methodology used in calculating the Performance Fee will impact Shareholders differently in relation to the payment of Performance Fees (with some Shareholders paying disproportionately higher Performance Fees in certain circumstances) and may also result in certain Shareholders having more of their capital at risk at any time than others (as no equalisation methodology is employed in respect of the Performance Fee calculation).

A Performance Fee may be charged even if the Class Performance is negative, so long as the Benchmark has decreased more than the Net Asset Value of the relevant Class.

Performance Fees for Jupiter Merian North American Equity Fund (IRL) were USD Nil for the financial year ended 31 December 2021 (31 December 2020: USD Nil) and the amount accrued at the financial year ended 31 December 2021 was USD Nil (31 December 2020: USD Nil).

For further Performance Fee calculation breakdown and illustrative examples please refer to the Prospectus.

Jupiter UK Smaller Companies Focus Fund

The Investment Manager may be entitled to a performance fee out of the Jupiter UK Smaller Companies Focus Fund's assets. With respect to the Jupiter UK Smaller Companies Focus Fund, the performance fee is only applicable to the following share classes: Class L (GBP) Income Shares, Class I (GBP) Income Shares and Class U1 (GBP) Income Shares.

Fees and Expenses (continued)

Performance Fee (continued)

Jupiter UK Smaller Companies Focus Fund (continued)

The Performance Fee will be calculated and accrued daily and will be payable annually in arrears in respect of each Performance Period ("Performance Period of the Jupiter UK Smaller Companies Focus Fund"). A Performance Period of the Jupiter UK Smaller Companies Focus Fund will comprise of each successive twelve month period ending on 31 December. The Performance Fee (if any), will crystallise, become payable and will be credited to the Investment Manager at the end of each Performance Period. The Performance Fee is normally payable to the Investment Manager annually in arrears within 15 calendar days of the end of each Performance Period. In addition, if a Shareholder repurchases or converts all or part of their Shares before the end of a Performance Period, any accrued Performance Fee with respect to such Shares will crystallise on that Dealing Day and will then become immediately payable.

If a Share is repurchased or converted at any time other than at the end of a Performance Period, the Performance Fee attributable to such Share could be different from the Performance Fee that would be payable if such Share was not repurchased or converted until the end of the relevant Performance Period.

"The Benchmark" is the Numis Smaller Companies Index excluding Investment Companies (TICKER: NSCXEITR).

"The Benchmark Performance" in respect of a Performance Period of the Jupiter UK Smaller Companies Focus Fund, the Benchmark Performance is the difference between the opening level of the Benchmark on the first Business Day and on the closing level of the Benchmark on the last Business Day of the Performance Period of the Jupiter UK Smaller Companies Focus Fund, expressed as a percentage.

The "Share Class Performance" in respect of a Performance Period of the Jupiter UK Smaller Companies Focus Fund is the difference between the opening Net Asset Value per Share on the first Business Day of the relevant Performance Period of the Jupiter UK Smaller Companies Focus Fund, which reflects the charging of a Performance Fee, if any, in respect of the previous Performance Period of the Jupiter UK Smaller Companies Focus Fund and the Net Asset Value per Share (before the deduction of any unrealised Performance Fee) on the last Business Day of the relevant Performance Period of the Jupiter UK Smaller Companies Focus Fund, expressed as a percentage.

The Benchmark is consistent with the Jupiter UK Smaller Companies Focus Fund's investment strategy. Information on the Jupiter UK Smaller Companies Focus Fund's past performance measured against the Benchmark is included in the relevant KIID.

Calculation of the Net Asset Value per Share of each Class for Performance Fee purposes is net of all costs but no deduction will be made on account of Performance Fees accrued in the Performance Period of the Jupiter UK Smaller Companies Focus Fund, provided that it is in the best interests of Shareholders to do so and any net income distributed to Shareholders in respect of the Performance Period of the Jupiter UK Smaller Companies Focus Fund is added back.

The "Percentage Outperformance" in respect of Performance Periods of the Jupiter UK Smaller Companies Focus Fund where Share Class Performance is greater than Benchmark Performance is the arithmetical difference between Share Class Performance and Benchmark Performance, expressed as a percentage. In respect of Performance Periods of the Jupiter UK Smaller Companies Focus Fund where Share Class Performance is less than Benchmark Performance, such underperformance, being the arithmetical difference between Share Class Performance and Benchmark Performance expressed in percentage points, will be carried forward and no Performance Fee will be payable in any subsequent Performance Period of the Jupiter UK Smaller Companies Focus Fund unless Share Class Performance measured against Benchmark Performance has recovered any accumulated percentage underperformance for previous periods. In the Performance Period of the Jupiter UK Smaller Companies Focus Fund in which any accumulated percentage underperformance is recovered, only that part of the Percentage Outperformance for such period as exceeds the accumulated percentage underperformance carried forward is taken into account for the purposes of calculating the performance fee payable for the Performance Period of the Jupiter UK Smaller Companies Focus Fund.

9. Fees and Expenses (continued)

Performance Fee (continued)

Jupiter UK Smaller Companies Focus Fund (continued)

The Performance Fees are calculated with reference to an adjusted average number of Shares in issue during the relevant Performance Period. The amount of Performance Fee payable in respect of each Share is a Sterling amount equivalent to the opening Net Asset Value per Share on the first Business Day of the Performance Period of the Jupiter UK Smaller Companies Focus Fund x Percentage Outperformance x 10% and is payable on the adjusted average number of Shares in issue during the Performance Period of the Jupiter UK Smaller Companies Focus Fund. The adjusted average number of Shares takes account of repurchases, conversions and subscriptions occurring during the relevant Performance Period.

For the purposes of the first calculation of the Performance Fee, the initial offer price in respect of each Share Class was taken as the opening Net Asset Value. The first Performance Period will begin on the date on which the first shares of the relevant share classes are issued and will end on 31 December of the same year.

Furthermore the amount of Performance Fee payable in respect of a Performance Period of the Jupiter UK Smaller Companies Focus Fund is subject to a maximum amount (the "Cap"). The Cap is a Sterling amount equivalent to the opening Net Asset Value per Share on the first Business Day of the Performance Period of the Jupiter UK Smaller Companies Focus Fund x opening number of Shares in issue on the first Business Day of the Performance Period of the Jupiter UK Smaller Companies Focus Fund x 1.50 per cent.

The Performance Fee accrues and is taken into account in the calculation of the Net Asset Value per Share on a daily basis. The amount of the Performance Fee will be calculated by the Administrator. The calculation of the Performance Fee shall be verified by the Depositary and, as a result, it is not anticipated to be open to the possibility of manipulation.

The calculation of the Performance Fee shall also be reviewed by the Auditors as part of the annual audit of the Company. The Investment Manager may, at its discretion, waive the Performance Fee payable in respect of a Performance Period of the Jupiter UK Smaller Companies Focus Fund.

Performance Fees are payable on net realised and net unrealised gains and losses as at the end of each Performance Period of the Jupiter UK Smaller Companies Focus Fund and as a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised.

Performance Fees may also be payable during a Performance Period of the Jupiter UK Smaller Companies Focus Fund where there is a decline in the Net Asset Value per Share.

The methodology used in calculating the Performance Fee will impact Shareholders differently in relation to the payment of Performance Fees (with some Shareholders paying disproportionately higher Performance Fees in certain circumstances) and may also result in certain Shareholders having more of their capital at risk at any time than others (as no equalisation methodology is employed in respect of the Performance Fee calculation).

A Performance Fee may be charged even if the Class Performance is negative, so long as the Benchmark has decreased more than the Net Asset Value of the relevant Class.

Performance Fees for Jupiter UK Smaller Companies Focus Fund were GBP Nil for the financial year ended 31 December 2021 (31 December 2020: GBP 4,034,391) and the amount accrued at the financial year ended 31 December 2021 was GBP Nil (31 December 2020: GBP 4,034,391).

For further Performance Fee calculation breakdown and illustrative examples please refer to the Prospectus.

Jupiter UK Dynamic Equity Fund

The Investment Manager may be entitled to a performance fee out of the Jupiter UK Dynamic Equity Fund's assets. With respect to the Jupiter UK Dynamic Equity Fund, the performance fee is only applicable to the following share classes: Class I (EUR) Hedged Accumulation Shares, Class L (GBP) Income Shares and Class I (GBP) Income Shares.

9. Fees and Expenses (continued)

Performance Fee (continued)

Jupiter UK Dynamic Equity Fund (continued)

The Performance Fee will be calculated and accrued daily and will be payable annually in arrears in respect of each Performance Period ("Performance Period of the Jupiter UK Dynamic Equity Fund"). A Performance Period of the Jupiter UK Dynamic Equity Fund will comprise of each successive twelve month period ending on 31 December. The Performance Fee (if any), will crystallise, become payable and will be credited to the Investment Manager at the end of each Performance Period. The Performance Fee is normally payable to the Investment Manager annually in arrears within 15 calendar days of the end of each Performance Period. In addition, if a Shareholder repurchases or converts all or part of their Shares before the end of a Performance Period, any accrued Performance Fee with respect to such Shares will crystallise on that Dealing Day and will then become immediately payable.

If a Share is repurchased or converted at any time other than at the end of a Performance Period, the Performance Fee attributable to such Share could be different from the Performance Fee that would be payable if such Share was not repurchased or converted until the end of the relevant Performance Period.

"The Benchmark" is the FTSE 250 Index Excluding Investment Trusts (TICKER: MCIXM).

"The Benchmark Performance" in respect of a Performance Period of the Jupiter UK Dynamic Equity Fund, the Benchmark Performance is the difference between the level of the Benchmark calculated at the Valuation Point on the last Business Day of the previous Performance Period of the Jupiter UK Dynamic Equity Fund and the level of the Benchmark at the Valuation Point on the last Business Day of the relevant Performance Period of the Jupiter UK Dynamic Equity Fund, expressed as a percentage.

The "Share Class Performance" in respect of the first Performance Period of the Jupiter UK Dynamic Equity Fund is the difference between the opening Net Asset Value per Share and the Net Asset Value per Share at the Valuation Point on the last Business Day of the Performance Period of the Jupiter UK Dynamic Equity Fund, expressed as a percentage. For each Performance Period of the Jupiter UK Dynamic Equity Fund thereafter, the Share Class Performance is the difference between the Net Asset Value per Share at the Valuation Point on the last Business Day of the previous Performance Period of the Jupiter UK Dynamic Equity Fund and the Net Asset Value per Share at the Valuation Point on the last Business Day of the relevant Performance Period of the Jupiter UK Dynamic Equity Fund, expressed as a percentage.

The Benchmark is consistent with the Jupiter UK Dynamic Equity Fund's investment strategy. Information on the Jupiter UK Dynamic Equity Fund's past performance measured against the Benchmark is included in the relevant KIID.

Calculation of the Net Asset Value per Share of each Class for Performance Fee purposes is net of all costs but no deduction will be made on account of Performance Fees accrued in the Performance Period of the Jupiter UK Dynamic Equity Fund, provided that it is in the best interests of Shareholders to do so and any net income distributed to Shareholders in respect of the Performance Period of the Jupiter UK Dynamic Equity Fund is added back.

The "Percentage Outperformance" in respect of Performance Periods of the Jupiter UK Dynamic Equity Fund where Share Class Performance is greater than Benchmark Performance is the arithmetical difference between Share Class Performance and Benchmark Performance, expressed as a percentage. In respect of Performance Periods of the Jupiter UK Dynamic Equity Fund where Share Class Performance is less than Benchmark Performance, such underperformance, being the arithmetical difference between Share Class Performance and Benchmark Performance expressed in percentage points, will be carried forward and no Performance Fee will be payable in any subsequent Performance Period of the Jupiter UK Dynamic Equity Fund unless Share Class Performance measured against Benchmark Performance has recovered any accumulated percentage underperformance for previous periods. In the Performance Period of the Jupiter UK Dynamic Equity Fund in which any accumulated percentage underperformance is recovered, only that part of the Percentage Outperformance for such period as exceeds the accumulated percentage underperformance carried forward is taken into account for the purposes of calculating the performance fee payable for the Performance Period of the Jupiter UK Dynamic Equity Fund.

9. Fees and Expenses (continued)

Performance Fee (continued)

Jupiter UK Dynamic Equity Fund (continued)

The Performance Fees are calculated with reference to an adjusted average number of Shares in issue during the relevant Performance Period. The amount of Performance Fee payable in respect of each Share is a Sterling amount equivalent to the opening Net Asset Value per Share on the first Business Day of the Performance Period of the Jupiter UK Dynamic Equity Fund x Percentage Outperformance x 20% and is payable on the adjusted average number of Shares in issue during the Performance Period of the Jupiter UK Dynamic Equity Fund. The adjusted average number of Shares takes account of repurchases, conversions and subscriptions occurring during the relevant Performance Period.

For the purposes of the first calculation of the Performance Fee, the initial offer price in respect of each Share Class was taken as the opening Net Asset Value. The first Performance Period will begin on the date on which the first shares of the relevant share classes are issued and will end on 31 December of the same year.

The Performance Fee accrues and is taken into account in the calculation of the Net Asset Value per Share on a daily basis.

The amount of the Performance Fee will be calculated by the Administrator. The calculation of the Performance Fee shall be verified by the Depositary and, as a result, it is not anticipated to be open to the possibility of manipulation.

The calculation of the Performance Fee shall also be reviewed by the Auditors as part of the annual audit of the Company.

The Investment Manager may, at its discretion, waive the Performance Fee payable in respect of a Performance Period of the Jupiter UK Dynamic Equity Fund.

Performance Fees are payable on net realised and net unrealised gains and losses as at the end of each Performance Period of the Jupiter UK Dynamic Equity Fund and as a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised.

Performance Fees may also be payable during a Performance Period of the Jupiter UK Dynamic Equity Fund where there is a decline in the Net Asset Value per Share.

The methodology used in calculating the Performance Fee will impact Shareholders differently in relation to the payment of Performance Fees (with some Shareholders paying disproportionately higher Performance Fees in certain circumstances) and may also result in certain Shareholders having more of their capital at risk at any time than others (as no equalisation methodology is employed in respect of the Performance Fee calculation).

A Performance Fee may be charged even if the Class Performance is negative, so long as the Benchmark has decreased more than the Net Asset Value of the relevant Class.

Performance Fees for Jupiter UK Dynamic Equity Fund were GBP Nil for the financial year ended 31 December 2021 (31 December 2020: GBP 15,762,675) and the amount accrued at the financial year ended 31 December 2021 was GBP Nil (31 December 2020: GBP 15,762,675).

For further Performance Fee calculation breakdown and illustrative examples please refer to the Prospectus.

Jupiter Merian Global Equity Absolute Return Fund

The Investment Manager may be entitled to a performance fee out of the Jupiter Merian Global Equity Absolute Return Fund's assets. The Performance Fee is applicable to all Share Classes with the exception of: Class L (CHF) Hedged Accumulation Shares and Class X (GBP) Hedged Accumulation Shares.

Fees and Expenses (continued)

Performance Fee (continued)

Jupiter Merian Global Equity Absolute Return Fund (continued)

The Performance Fee will be calculated and accrued daily and will be payable annually in arrears in respect of each Performance Period ("Performance Period of the Jupiter Merian Global Equity Absolute Return Fund"). A Performance Period of the Jupiter Merian Global Equity Absolute Return Fund will comprise of each successive twelve month period ending on 31 December. The Performance Fee (if any), will crystallise, become payable and will be credited to the Investment Manager at the end of each Performance Period. The Performance Fee is normally payable to the Investment Manager annually in arrears within 15 calendar days of the end of each Performance Period.

In addition, if a Shareholder repurchases or converts all or part of their Shares before the end of a Performance Period, any accrued Performance Fee with respect to such Shares will crystallise on that Dealing Day and will then become immediately payable.

If a Share is repurchased or converted at any time other than at the end of a Performance Period, the Performance Fee attributable to such Share could be different from the Performance Fee that would be payable if such Share was not repurchased or converted until the end of the relevant Performance Period.

The Performance Fees are calculated with reference to an adjusted average number of Shares in issue during the relevant Performance Period. The Performance Fee as at the end of each Performance Period of the Jupiter Merian Global Equity Absolute Return Fund shall be equal in aggregate to 20% of the amount by which any increase in the Net Asset Value per Share of each Class during the Performance Period of the Jupiter Merian Global Equity Absolute Return Fund exceeds the "Hurdle Rate", subject to the Net Asset Value High Water Mark (as defined below), multiplied by the adjusted average number of total Shares in issue of each Class on each Dealing Day during the Performance Period of the Jupiter Merian Global Equity Absolute Return Fund. The adjusted average number of Shares takes account of repurchases, conversions and subscriptions occurring during the relevant Performance Period.

The Hurdle Rate will be the average (1) Bank of England Base Rate for the GBP Share Classes, (2) ECB Main Refinancing Operations Rate for the EUR Share Classes, (3) Federal Reserve Funds Target Rate for the USD Share Classes, (4) 3 month Swiss franc (CHF) LIBOR interest rate for the CHF Share Classes*, (5) Riksbank Repo rate for the SEK Share Classes, (6) Singapore Overnight Rate Average for the SGD Share Classes, and (7) People's Bank of China one-year loan prime rate for the RMB Share Classes during the Performance Period of the Jupiter Merian Global Equity Absolute Return Fund.

* As from 1st January 2022: the CHF Share Classes will use Swiss Average Overnight Rate

The relevant Hurdle Rate is also used as a cash benchmark for performance measurement purposes. Information on the Jupiter Merian Global Equity Absolute Return Fund's past performance measured against the cash Benchmark is included in the relevant KIID.

The initial issue price was the starting price for the calculation of the first performance fee payable of any share class to which a performance fee is applicable. The first Performance Period for each Class will begin on the date on which the first Shares of the relevant Class are issued and will end on 31 December of the same year.

Calculation of the Net Asset Value per Share of each Class for Performance Fee purposes, is net of all costs but no deduction will be made on account of Performance Fees accrued in the Performance Period of the Jupiter Merian Global Equity Absolute Return Fund, provided that it is in the best interests of Shareholders to do so and any net income distributed to Shareholders in respect of the Performance Period of the Jupiter Merian Global Equity Absolute Return Fund is added back. The Performance Fee is only payable when the increase in the Net Asset Value of each Class exceeds the Hurdle Rate accrued during the relevant Performance Period. If, during a performance fee period, the performance of the Shares does not exceed the Hurdle Rate, no Performance Fee is payable.

9. Fees and Expenses (continued)

Performance Fee (continued)

Jupiter Merian Global Equity Absolute Return Fund (continued)

All Performance Fee payments shall be subject to the restriction that in paying a Performance Fee, the Net Asset Value per Share of each Class at the relevant Performance Period of the Jupiter Merian Global Equity Absolute Return Fund shall not be less than the Net Asset Value per Share Class on the last day that a Performance Fee was paid (the "Net Asset Value High Water Mark"). The Performance Fee is only payable on the increase in the Net Asset Value per Share of each Class during the Performance Period of the Jupiter Merian Global Equity Absolute Return Fund over the Net-Asset Value High Water Mark and the relevant Hurdle Rate during the Performance Period of the Jupiter Merian Global Equity Absolute Return Fund.

The amount of the Performance Fee will be calculated by the Administrator. The calculation of the Performance Fee shall be verified by the Depositary and, as a result, it is not anticipated to be open to the possibility of manipulation.

The calculation of the Performance Fee shall also be reviewed by the Auditors as part of the annual audit of the Company.

The Investment Manager may, at its discretion, waive the Performance Fee payable in respect of a Performance Period of the Jupiter Merian Global Equity Absolute Return Fund.

Performance Fees are payable on net realised and net unrealised gains and losses as at the end of each Performance Period of the Jupiter Merian Global Equity Absolute Return Fund and as a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised.

Performance Fees may be payable on net realised and net unrealised gains and losses attributable to both the performance of the Investment Manager and market movements in general.

The methodology used in calculating the Performance Fee will impact Shareholders differently in relation to the payment of Performance Fees (with some Shareholders paying disproportionately higher Performance Fees in certain circumstances) and may also result in certain Shareholders having more of their capital at risk at any time than others (as no equalisation methodology is employed in respect of the Performance Fee calculation).

Performance Fees for Jupiter Merian Global Equity Absolute Return Fund were USD 64,053 for the financial year ended 31 December 2020: USD Nil) and the amount accrued at the financial year ended 31 December 2021 was USD 64,053 (31 December 2020: USD Nil).

For further Performance Fee calculation breakdown and illustrative examples please refer to the Prospectus.

Jupiter Strategic Absolute Return Bond Fund

The Investment Manager may be entitled to a performance fee out of the Jupiter Strategic Absolute Return Bond Fund's assets. The Performance Fee is applicable to all Share Classes with the exception of: Class X, Class F1, Class F2 and Class L2.

The Performance Fee will be calculated and accrued daily and will be payable annually in arrears in respect of each Performance Period ("Performance Period of the Jupiter Strategic Absolute Return Bond Fund"). A Performance Period of the Jupiter Strategic Absolute Return Bond Fund will comprise of each successive twelve month period ending on 31 December. The Performance Fee (if any), will crystallise, become payable and will be credited to the Investment Manager at the end of each Performance Period. The Performance Fee is normally payable to the Investment Manager annually in arrears within 15 calendar days of the end of each Performance Period. In addition, if a Shareholder repurchases or converts all or part of their Shares before the end of a Performance Period, any accrued Performance Fee with respect to such Shares will crystallise on that Dealing Day and will then become immediately payable.

If a Share is repurchased or converted at any time other than at the end of a Performance Period, the Performance Fee attributable to such Share could be different from the Performance Fee that would be payable if such Share was not repurchased or converted until the end of the relevant Performance Period.

Fees and Expenses (continued)

Performance Fee (continued)

Jupiter Strategic Absolute Return Bond Fund (continued)

The Performance Fees are calculated with reference to an adjusted average number of Shares in issue during the relevant Performance Period. The Performance Fee as at the end of each Performance Period of the Jupiter Strategic Absolute Return Bond Fund shall be equal in aggregate to 10% of the amount by which any increase in the Net Asset Value per Share of each Class during the Performance Period of the Jupiter Strategic Absolute Return Bond Fund exceeds the "Hurdle Rate", subject to the Net Asset Value High Water Mark (as defined below), multiplied by the adjusted average number of total Shares in issue of each Class on each Dealing Day during the Performance Period of the Jupiter Strategic Absolute Return Bond Fund. The adjusted average number of Shares takes account of repurchases, conversions and subscriptions occurring during the relevant Performance Period.

The Hurdle Rate will be the average (1) Sterling Overnight Interbank Average Rate for the GBP Share Classes, (2) Euro Overnight Index Average Rate for the EUR Share Classes*, (3) Federal Funds Effective Overnight Rate for the USD Share Classes, (4) Swiss Average Overnight Rate for the CHF Share Classes, and (5) Riksbank Repo Rate for the SEK Share Classes for the relevant Class currency during the Performance Period of the Jupiter Strategic Absolute Return Bond Fund.

The relevant Hurdle Rate is also used as a cash benchmark for performance measurement purposes. Information on the Jupiter Strategic Absolute Return Bond Fund's past performance measured against the cash Benchmark is included in the relevant KIID.

The initial issue price was the starting price for the calculation of the first performance fee payable of any share class to which a performance fee is applicable. The first Performance Period for each new share class will begin on the date on which the first shares of the class are issued and will end on 31 December of the same year.

Calculation of the Net Asset Value per Share of each Class for Performance Fee purposes is net of all costs but no deduction will be made on account of Performance Fees accrued in the Performance Period of the Jupiter Strategic Absolute Return Bond Fund, provided that it is in the best interests of Shareholders to do so and any net income distributed to Shareholders in respect of the Performance Period for the Jupiter Strategic Absolute Return Bond Fund is added back.

The Performance Fee is only payable when the increase in the Net Asset Value of each Class exceeds the Hurdle Rate accrued during the relevant Performance Period. If, during a performance fee period, the performance of the Shares does not exceed the Hurdle Rate, no Performance Fee is payable.

All Performance Fee payments shall be subject to the restriction that in paying/accruing a Performance Fee, the Net Asset Value per Share of each Class at the relevant Performance Period of the Jupiter Strategic Absolute Return Bond Fund shall not be less than the Net Asset Value per Share Class on the last day that a Performance Fee was paid (or the initial subscription price if higher) (the "Net Asset Value High Water Mark"). The Performance Fee is only payable on the increase in the Net Asset Value per Share of each Class during the Performance Period of the Jupiter Strategic Absolute Return Bond Fund over the Net -Asset Value High Water Mark and the relevant Hurdle Rate during the Performance Period of the Jupiter Strategic Absolute Return Bond Fund.

The amount of the Performance Fee will be calculated by the Administrator. The calculation of the Performance Fee shall be verified by the Depositary and, as a result, it is not anticipated to be open to the possibility of manipulation.

The calculation of the Performance Fee shall also be reviewed by the Auditors as part of the annual audit of the Company.

The Investment Manager may, at its discretion, waive the Performance Fee payable in respect of a Performance Period of the Jupiter Strategic Absolute Return Bond Fund.

Performance Fees are payable on net realised and net unrealised gains and losses as at the end of each Performance Period of the Jupiter Strategic Absolute Return Bond Fund and as a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised.

^{*} As from 1st January 2022: the EUR Share Classes will use Euro Short-term Rate (€STR)

Fees and Expenses (continued)

Performance Fee (continued)

Jupiter Strategic Absolute Return Bond Fund (continued)

Performance Fees may be payable on net realised and net unrealised gains and losses attributable to both the performance of the Investment Manager and market movements in general.

The methodology used in calculating the Performance Fee will impact Shareholders differently in relation to the payment of Performance Fees (with some Shareholders paying disproportionately higher Performance Fees in certain circumstances) and may also result in certain Shareholders having more of their capital at risk at any time than others (as no equalisation methodology is employed in respect of the Performance Fee calculation).

Performance Fees for Jupiter Strategic Absolute Return Bond Fund were USD 7,920 for the financial year ended 31 December 2021 (31 December 2020: USD 427,142) and the amount accrued at the financial year ended 31 December 2021 was USD 7,920 (31 December 2020: USD 427,142).

For further Performance Fee calculation breakdown and illustrative examples please refer to the Prospectus.

Jupiter Gold & Silver Fund

The Investment Manager may be entitled to a performance fee out of the Jupiter Gold & Silver Fund's assets. With respect to the Jupiter Gold & Silver Fund, the performance fee is only applicable to the following share classes: Class P2 (EUR) Accumulation Shares, Class P2 (GBP) Accumulation Shares and Class P2 (USD) Accumulation Shares.

The Performance Fee will be calculated and accrued daily and will be payable annually in arrears in respect of each Performance Period ("Performance Period of the Jupiter Gold & Silver Fund"). A Performance Period of the Jupiter Gold & Silver Fund will comprise of each successive twelve month period ending on 31 December. The Performance Fee (if any), will crystallise, become payable and will be credited to the Investment Manager at the end of each Performance Period. The Performance Fee is normally payable to the Investment Manager annually in arrears within 15 calendar days of the end of each Performance Period. In addition, if a Shareholder repurchases or converts all or part of their Shares before the end of a Performance Period, any accrued Performance Fee with respect to such Shares will crystallise on that Dealing Day and will then become immediately payable.

If a Share is repurchased or converted at any time other than at the end of a Performance Period, the Performance Fee attributable to such Share could be different from the Performance Fee that would be payable if such Share was not repurchased or converted until the end of the relevant Performance Period.

"The Benchmark" is a composite, made up of (i) a 50:50 split between the FTSE Gold Mines Index (TICKER TFTMIGMI) expressed in GBP and the XAU:GBP gold price for the P2 (GBP) Accumulation Shares, (ii) a 50:50 split between the FTSE Gold Mines Index (TICKER TFTMIGMI) expressed in EUR and XAU:EUR for the P2 (EUR) Accumulation Shares and (iii) a 50:50 split between the FTSE Gold Mines Index (TICKER: TFTMIGMI) expressed in USD and the XAU: USD gold price for the P2 (USD) Accumulation Shares. Please note, as shown by each Ticker code, the FTSE Index component for the Performance Fee Composite benchmark is gross of withholding tax.

"The Benchmark Performance" in respect of a Performance Period of the Jupiter Gold & Silver Fund, the Benchmark Performance is the difference between the level of the Benchmark calculated at the Valuation Point on the last Business Day of the previous Performance Period of the Jupiter Gold & Silver Fund and the level of the Benchmark calculated at the Valuation Point on the last Business Day of the relevant Performance Period of the Jupiter Gold & Silver Fund, expressed as a percentage. The "Share Class Performance" in respect of the first Performance Period of the Jupiter Gold & Silver Fund is the difference between the opening Net Asset Value per Share and the Net Asset Value per Share at the Valuation Point on the last Business Day of the Performance Period of the Jupiter Gold & Silver Fund, expressed as a percentage. For each Performance Period of the Jupiter Gold & Silver Fund thereafter, the Share Class Performance is the difference between the Net Asset Value per Share at the Valuation Point on the last Business Day of the previous Performance Period of the Jupiter Gold & Silver Fund and the Net Asset Value per Share at the Valuation Point on the last Business Day of the relevant Performance Period of the Jupiter Gold & Silver Fund, expressed as a percentage.

Fees and Expenses (continued)

Performance Fee (continued)

Jupiter Gold & Silver Fund (continued)

The Benchmark is consistent with the Jupiter Gold & Silver Fund's investment, strategy. Information on the Jupiter Gold & Silver Fund's past performance measured against the Benchmark is included in the relevant KIID.

Calculation of the Net Asset Value per Share of each Class for Performance Fee purposes is net of all costs but no deduction will be made on account of Performance Fees accrued in the Performance Period of the Jupiter Gold & Silver Fund, provided that it is in the best interests of the Shareholders to do so and any net income distributed to Shareholders in respect of the Performance Period of the Jupiter Gold & Silver Fund is added back.

The "Percentage Outperformance" in respect of Performance Periods of the Jupiter Gold & Silver Fund where Share Class Performance is greater than Benchmark Performance is the arithmetical difference between Share Class Performance and Benchmark Performance, expressed as a percentage. In respect of Performance Periods of the Jupiter Gold & Silver Fund where Share Class Performance is less than Benchmark Performance, such underperformance, being the arithmetical difference between Share Class Performance and Benchmark Performance expressed in percentage points, will be carried forward and no Performance Fee will be payable in any subsequent Performance Period of the Jupiter Gold & Silver Fund unless Share Class Performance measured against Benchmark Performance has recovered any accumulated percentage underperformance for previous periods. In the Performance Period of the Jupiter Gold & Silver Fund in which any accumulated percentage underperformance is recovered, only that part of the Percentage Outperformance for such period as exceeds the accumulated percentage underperformance carried forward is taken into account for the purposes of calculating the performance fee payable for the Performance Period of the Jupiter Gold & Silver Fund.

The Performance Fees are calculated with reference to an adjusted average number of Shares in issue during the relevant Performance Period. The amount of Performance Fee payable in respect of each Share is a US Dollar amount equivalent to the opening Net Asset Value per Share on the first Business Day of the Performance Period of the Jupiter Gold & Silver Fund x Percentage Outperformance x 20% and is payable based on the adjusted average number of Shares in issue for the Class P2 (EUR) Accumulation Shares, Class P2 (GBP) Accumulation Shares and Class P2 (USD) Accumulation Shares during the Performance Period of the Jupiter Gold & Silver Fund. The adjusted average number of Shares takes account of repurchases, conversions and subscriptions occurring during the relevant Performance Period.

For the purposes of the first calculation of the Performance Fee, the initial offer price in respect of each Share Class was taken as the opening Net Asset Value. The first Performance Period for each Class will begin on the date on which the first Shares of the relevant Class are issued and will end on 31 December in that year. The Performance Fee accrues and is taken into account in the calculation of the Net Asset Value per Share on a daily basis.

The amount of the Performance Fee will be calculated by the Administrator. The calculation of the Performance Fee shall be verified by the Depositary and, as a result, it is not anticipated to be open to the possibility of manipulation.

The calculation of the Performance Fee shall also be reviewed by the Auditors as part of the annual audit of the Company.

The Investment Manager may, at its discretion, waive the Performance Fee payable in respect of a Performance Period of the Jupiter Gold & Silver Fund.

Performance Fees are payable on net realised and net unrealised gains and losses as at the end of each Performance Period of the Jupiter Gold & Silver Fund and as a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised.

Performance Fees may also be payable during a Performance Period of the Jupiter Gold & Silver Fund where there is a decline in the Net Asset Value per Share.

The methodology used in calculating the Performance Fee will impact Shareholders differently in relation to the payment of Performance Fees (with some Shareholders paying disproportionately higher Performance Fees in certain circumstances) and may also result in certain Shareholders having more of their capital at risk at any time than others (as no equalisation methodology is employed in respect of the Performance Fee calculation).

9. Fees and Expenses (continued)

Performance Fee (continued)

Jupiter Gold & Silver Fund (continued)

A Performance Fee may be charged even if the Class Performance is negative, so long as the Benchmark has decreased more than the Net Asset Value of the relevant Class.

Performance Fees for Jupiter Gold & Silver Fund were USD Nil for the financial year ended 31 December 2021 (31 December 2020: USD 900,316) and the amount accrued at the financial year ended 31 December 2021 was USD Nil (31 December 2020: USD 900,316).

For further Performance Fee calculation breakdown and illustrative examples please refer to the Prospectus.

Jupiter UK Specialist Equity Fund

The Investment Manager may be entitled to a performance fee out of the Jupiter UK Specialist Equity Fund's assets. With respect to the Jupiter UK Specialist Equity Fund, the performance fee is applicable to all share classes with the exception of the Class X (GBP) Accumulation Shares.

The Performance Fee will be calculated and accrued daily and will be payable annually in arrears in respect of each Performance Period ("Performance Period of the Jupiter UK Specialist Equity Fund"). A Performance Period of the Jupiter UK Specialist Equity Fund will comprise of each successive twelve month period ending on 31 December. The Performance Fee (if any), will crystallise, become payable and will be credited to the Investment Manager at the end of each Performance Period.

The Performance Fee is normally payable to the Investment Manager annually in arrears within 15 calendar days of the end of each Performance Period. In addition, if a Shareholder repurchases or converts all or part of their Shares before the end of a Performance Period, any accrued Performance Fee with respect to such Shares will crystallise on that Dealing Day and will then become immediately payable.

If a Share is repurchased or converted at any time other than at the end of a Performance Period, the Performance Fee attributable to such Share could be different from the Performance Fee that would be payable if such Share was not repurchased or converted until the end of the relevant Performance Period.

The Performance Fees are calculated with reference to an adjusted average number of Shares in issue during the relevant Performance Period. The Performance Fee as at the end of each Performance Period of the Jupiter UK Specialist Equity Fund shall be equal in aggregate to 20% of the amount by which any increase in the Net Asset Value per Share of each Class during the Performance Period of the Jupiter UK Specialist Equity Fund exceeds the "Hurdle Rate", subject to the Net Asset Value High Water Mark (as defined below), multiplied by the adjusted average number of total Shares in issue of each Class on each Dealing Day during the Performance Period of the Jupiter UK Specialist Equity Fund. The adjusted average number of Shares takes account of repurchases, conversions and subscriptions occurring during the relevant Performance Period. The Hurdle Rate will be the average of (1) Sterling Overnight Interbank Average Rate for the GBP Share Classes, (2) Euro Overnight Index Average Rate for the EUR Share Classes*, (3) Federal Funds Effective Overnight Rate for the USD Share Classes, (4) Swiss Average Overnight Rate for the CHF Share Classes, and (5) Riksbank Repo Rate for the SEK Share Classes for the relevant Class currency during the Performance Period of the Jupiter UK Specialist Equity Fund.

The relevant Hurdle Rate is also used as a cash benchmark for performance measurement purposes. Information on the Jupiter UK Specialist Equity Fund's past performance measured against the cash Benchmark is included in the relevant KIID.

^{*} As from 1st January 2022: the EUR Share Classes will use Euro Short-term Rate (€STR)

9. Fees and Expenses (continued)

Performance Fee (continued)

Jupiter UK Specialist Equity Fund (continued)

The initial issue price was the starting price for the calculation of the first performance fee payable of any share class to which a performance fee is applicable. The first Performance Period for each Class will begin on the date on which the first Shares of the relevant Class are issued and will end on 31 December of the same year.

Calculation of the Net Asset Value per Share of each Class for Performance Fee purposes is net of all costs but no deduction will be made on account of Performance Fees accrued in the Performance Period of the Jupiter UK Specialist Equity Fund, provided that it is in the best interests of Shareholders to do so and any net income distributed to Shareholders in respect of the Performance Period of the Jupiter UK Specialist Equity Fund is added back.

The Performance Fee is only payable when the increase in the Net Asset Value of each Class exceeds the Hurdle Rate accrued during the relevant Performance Period. If, during a performance fee period, the performance of the Shares does not exceed the Hurdle Rate, no Performance Fee is payable.

All Performance Fee payments shall be subject to the restriction that in paying a Performance Fee, the Net Asset Value per Share of each Class at the relevant Performance Period of the Jupiter UK Specialist Equity Fund shall not be less than the Net Asset Value per Share Class on the last day that a Performance Fee was paid (the "Net Asset Value High Water Mark"). The Performance Fee is only payable on the increase in the Net Asset Value per Share of each Class during the Performance Period of the Jupiter UK Specialist Equity Fund over the Net Asset Value High Water Mark and the relevant Hurdle Rate during the Performance Period of the Jupiter UK Specialist Equity Fund. The amount of the Performance Fee will be calculated by the Administrator. The calculation of the Performance Fee shall be verified by the Depositary and, as a result, it is not anticipated to be open to the possibility of manipulation.

The calculation of the Performance Fee shall also be reviewed by the Auditors as part of the annual audit of the Company.

The Investment Manager may, at its discretion, waive the Performance Fee payable in respect of a Performance Period of the Jupiter UK Specialist Equity Fund.

Performance Fees are payable on net realised and net unrealised gains and losses as at the end of each Performance Period of the Jupiter UK Specialist Equity Fund and as a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised.

Performance Fees may be payable on net realised and net unrealised gains and losses attributable to both the performance of the Investment Manager and market movements in general.

The methodology used in calculating the Performance Fee will impact Shareholders differently in relation to the payment of Performance Fees (with some Shareholders paying disproportionately higher Performance Fees in certain circumstances) and may also result in certain Shareholders having more of their capital at risk at any time than others (as no equalisation methodology is employed in respect of the Performance Fee calculation).

Performance Fees for Jupiter UK Specialist Equity Fund were GBP Nil for the financial year ended 31 December 2021 (31 December 2020: GBP 13,142,136) and the amount accrued at the financial year ended 31 December 2021 was GBP Nil (31 December 2020: GBP 13,142,136).

For further Performance Fee calculation breakdown and illustrative examples please refer to the Prospectus.

9. Fees and Expenses (continued)

Administration Fee, Registrar and Transfer Agency Fees

Up to 11 October 2021, Jupiter Asset Management Series Plc paid to the Administrator monthly in arrears an administration fee of up to 3.75 basis points per annum of the combined average Net Asset Value of the Sub-Funds and in the case of each Sub-Fund subject to a minimum fee per Sub-Fund of EUR 15,000 per annum. The administration fee accrued on each Dealing Day. Additional annual fees shall be payable for the second and each subsequent Class of Shares in each Sub-Fund which shall be charged at normal commercial rates.

Effective from 11 October 2021, the Administrator fees are calculated at month end, based on the average net asset value per sub-fund:

Up to EUR 120 million From EUR 120 million to EUR 240 million From EUR 240 million to EUR 480 million Above EUR 480 million 2 basis points per annum
1.5 basis points per annum
1 basis point per annum
0.45 basis points per annum

The Administrator fees are subject to a per sub-fund minimum fee of EUR 12,500 per annum. Additional annual fees shall be payable for the second and each subsequent Class of Shares in each Sub-Fund which shall be charged at normal commercial rates.

The Administrator is also entitled to transaction fees it incurs for the Sub-Funds and fees for the registrar and transfer agency functions and maintenance services it performs payable out of Jupiter Asset Management Series Plc's assets. These services are (i) maintaining the register of each Share Class of Jupiter Asset Management Series Plc and the annual shareholder account, (ii) servicing, and (iii) reporting, all of which shall be charged at normal commercial rates.

The Administrator will also be entitled to be reimbursed by the Company out of the assets of each Sub-Fund for all reasonable and vouched out-of-pocket expenses incurred by it and charged to it for the benefit of the Company in the performance of its duties to the Company. All fees will be invoiced and payable monthly.

Up to 11 October 2021, the Administrator was entitled to the following fees for the registrar and transfer agency functions it performs, payable out of the Company assets: annual Company maintenance fee of EUR 3,500 per Sub-Fund per annum; annual account servicing fees of EUR 26 for each direct Account, EUR 12 for statutory financial statements maintained electronically through NSCC Networking and EUR 26 for Accounts maintained electronically through Fund settle/Vestima; transaction fees of EUR 5 for each automatic transaction and EUR 12 for each manual transaction.

Effective from 11 October 2021, the Administrator is entitled to the following fees for registrar and transfer agency functions it performs, payable out of the Company assets: annual share class maintenance fee of EUR 3,000 per share class per annum; investor account maintenance of EUR 24.50 per account per annum; STP transaction fee of EUR 4 per STP transaction, transaction fees of EUR 4 for each automatic transaction and EUR 11 for each manual transaction and commission handling fee of EUR 10 per payment. The Administrator will also receive fees in relation to AML on account opening and refreshes at normal commercial rates.

Fees and Expenses (continued)

Administration Fee, Registrar and Transfer Agency Fees (continued)

All Sub-Funds are also subject to FATCA fees. The fees are included in the Transfer Agency fees and are recognised in the Statement of Operations on an accruals basis.

The following are the Administrator expense and related payables for each of the Sub-Funds.

^{*}As per the updated fee agreement, a once-off discount of £200,000 was applied to the Administrator fee expenses across the Sub-Funds for the year ended 31 December 2021.

Depositary Fee

Up to 11 October 2021, Jupiter Asset Management Series Plc paid to the Depositary monthly in arrears a fiduciary fee of 1 basis point per annum of the combined average Net Asset Value of the Sub-Funds plus VAT (if any), and in the case of each Sub-Fund subject to a minimum fee of EUR 3,500 per annum. The fiduciary fee shall accrue on each Dealing Day.

The Depositary is also entitled to sub-depositary fees and transaction charges which shall be charged at normal commercial rates and paid monthly in arrears. The Depositary is also entitled to be reimbursed by Jupiter Asset Management Series Plc for all reasonable disbursements and out-of-pocket expenses.

9. Fees and Expenses (continued)

Depositary Fee (continued)

Effective from 11 October 2021, the Depositary fees are structured at the sub-fund level and are charged based upon the average month end net asset value:

- Up to EUR 840 million o.80 basis points per annum
- From EUR 840 million to EUR 4,202 million 0.50 basis points per annum
- Above EUR 4,202 million 0.25 basis points per annum

All reasonable out-of-pocket expenses shall be recoverable by the Depositary and charged to the Company. All fees are exclusive of VAT and where applicable VAT shall be added to invoices and payable by the Company. Depositary fees shall be calculated monthly and invoiced monthly in arrears.

Total Depositary fees were USD 1,342,660 for the financial year ended 31 December 2021 (31 December 2020: USD 1,812,011) and the amount payable at the financial year ended 31 December 2021 was USD 510,515 (31 December 2020: USD 425,147).

Transaction Costs

Transaction costs are expenses incurred when buying or selling a security. Transaction costs represents the brokers' commissions and spreads, which are the differences between the price the dealer paid for a security and the price the buyer pays.

9. Fees and Expenses (continued)

Transaction Costs (continued)

Transaction costs on the purchase and sale of bonds, currency exchange contracts and swaps are included in the purchase and sale price of the investment. They cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed.

Distribution Fee

No distribution fee shall be payable in respect of the Class D1, Class D2, Class F, Class F2, Class I, Class L, Class R, Class S, Class U1, Class U2, Class U3, or Class X Shares of any Sub-Fund. Each Sub-Fund shall pay a distribution fee of up to 1.50% per annum of the average Net Asset Value of that Sub-Fund attributable to the Class C Shares, and of up to 1.00% per annum of the average Net Asset Value of that Sub-Fund attributable to the Class B, Class C2 and Class N Shares. Following appointment of the Jupiter Asset Management Limited as Manager and Distributor, the distribution fee was paid by the Sub-Funds to the Manager. The Manager is responsible for the payment of any sub-distributor fees to the Investment Manager.

Total distribution fees were USD 3,527,938 for the financial year ended 31 December 2021 (31 December 2020: USD 3,698,514) and the amount payable at the financial year ended 31 December 2021 was USD 277,735 (31 December 2020: USD 286,669).

Operating Expenses

The Company is responsible for all normal operating expenses other than those fees borne by the Manager as outlined in Note 9, including audit fees, stamp duties and charges incurred on the acquisition and realisation of investments. General operating expenses which are not allocable to a specific Sub-Fund are borne pro rata. The audit fees as shown in the Statement of Operations include Value Added Tax.

10. Distributions

Shareholders should note that, where set out in the relevant Supplement, distributions may be payable out of the capital of each Sub-Fund. Fixed distribution classes are denoted by an "(F)" at the end of the Share Class name, as shown in Note 6. These Share Classes will distribute regardless of what income is available therefore any shortfall is paid out of capital.

It should also be noted that certain Sub-Funds and Share Classes including the fixed distribution Share Classes listed below may charge certain fees and expenses to capital rather than income, which may result in the erosion of capital and in an increased risk that Shareholders in these Share Classes may not receive back the full amount invested when redeeming their holding.

Distributions out of capital may have different tax implications from distributions of income and capital gains and if you propose to invest in one or more of the relevant Share Classes, you are recommended to seek advice in this regard.

The following tables detail the distributions per Share for the financial years ended 31 December 2021 and 31 December 2020.

The following Sub-Funds made no distributions in the financial year ended 31 December 2020:

Jupiter China Equity Fund

Jupiter Merian World Equity Fund

Jupiter Pacific Equity Fund

Merian European Equity Fund

Jupiter Global Emerging Markets Focus Fund

Jupiter Merian Global Equity Absolute Return Fund

Jupiter Gold & Silver Fund

Jupiter UK Specialist Equity Fund

11. Financial Instruments and Associated Risks

In pursuing its investment objectives, the Company holds financial derivative instruments. The Company's financial derivative instruments held at 31 December 2021 and at 31 December 2020 are disclosed in the Portfolio of Investments.

Efficient Portfolio Management ("EPM")

The Company may employ investment techniques and instruments for efficient portfolio management purposes and for hedging purposes, subject to the conditions and within the limits from time to time laid down by the Central Bank under the UCITS Regulations and in the Prospectus. These techniques and instruments may be exchange-traded or over-the-counter derivatives and shall include futures (such as currency future contracts), options, options on futures, currency exchange contracts, convertible securities, hybrid securities, structured notes, credit default swaps and swap agreements. For financial derivative instruments that were entered into during the financial year which remained open at year end and the resulting amount of commitments/exposures, please refer to the Portfolio of Investments.

The Manager oversees the efficient portfolio management operations carried out by the Investment Manager. Efficient portfolio management transactions relating to the assets of a Sub-Fund may be entered into by the Investment Manager with one of the following aims:

- a) a reduction of risk;
- b) a reduction of cost with no increase or a minimal increase in risk;
- c) generation of additional capital or income with no, or an acceptably low level of risk (relative to the expected return) and the diversification requirements in accordance with the Central Bank's Regulations.

In relation to efficient portfolio management operations the Investment Manager will look to ensure that the techniques and instruments used are economically appropriate in that they will be realised in a cost-effective way. The use of efficient portfolio management techniques will only be used in line with the best interests of a Sub-Fund. The use of FDI ("Financial Derivative Instruments") and efficient portfolio management techniques for the purposes outlined above will expose the Company to the risks including, but not limited to, market risk, global derivative exposure as Value-at-Risk ("VaR") approach. Please refer to the Portfolio of Investments for range of FDIs which the Sub-Fund may have used for efficient portfolio management purposes during the period under review.

Where necessary, the Company will accept collateral from its counterparties in order to reduce counterparty risk exposure generated through the use of over the counter derivative instruments and EPM techniques. The type and amount of collateral received is outlined in Note 7.

For UCITS which have engaged in EPM techniques disclosures are required under the Central Bank UCITS Regulations. A UCITS is required to disclose the revenues arising from EPM techniques for the entire reporting period together with the direct and indirect operational costs and fees incurred, unless the costs associated with EPM techniques are embedded and not separately identifiable.

All revenues from EPM techniques, net of direct and indirect operational costs, will be returned to the relevant Sub-Fund. Any direct and indirect operational costs/fees arising from EPM techniques do not include hidden revenue. Any gains or losses arising from EPM techniques and investments are recognised in the Statement of Operations.

Repurchase, reverse repurchase and stock lending arrangements are EPM techniques. The Sub-Funds did not engage in any repurchase, reverse repurchase and stock lending arrangements during the financial year.

Futures contracts will be used to hedge against market risk or gain exposure to an underlying market. Currency exchange contracts will be used to hedge or gain exposure to an increase in the value of an asset, currency, or deposit. Options will be used to hedge or achieve exposure to a particular market instead of using a physical security. Swaps (including swaptions) will be used to achieve profit as well as to hedge existing long positions. Currency exchange contracts will be used to reduce the risk of adverse market changes in exchange rates or to increase exposure to foreign currencies or to shift exposure to foreign currency fluctuations from one country to another. Credit default swaps will be used to isolate and transfer the exposure to or transfer the credit risk associated with a reference asset or index of reference assets.

11. Financial Instruments and Associated Risks (continued)

Efficient Portfolio Management ("EPM") (continued)

The Company may, for the purposes of efficient portfolio management, enter into futures contracts, currency exchange contracts, options, swaps, swaptions, convertible securities and structured notes, in order to hedge currency and market exposure and/or for investment purposes. Futures, swaps, options, swaptions and currency exchange contracts open as at 31 December 2021 are disclosed in the Portfolio of Investments.

Risk is inherent in the activities of each Sub-Fund but it is managed through a process of ongoing identification, measurement and monitoring, subject to risks limits and other controls. The main risks arising from the Company's financial instruments are market risk, liquidity risk and credit risk.

(a) Market Price Risk

Market price risk results mainly from uncertainty about the future prices of financial instruments held. It represents the potential loss a Sub-Fund may suffer through holding market positions in the face of market movements and changes in exchange rates.

The Sub-Funds manage the risk by ensuring careful selection of securities and other financial instruments within the specified limits detailed in the Prospectus. In practice, the actual trading results may differ from the sensitivity analysis below and the difference could be material.

The following tables highlight the market price risk associated with the various financial instruments held by the Sub-Funds of the Company, the market price risk of futures is shown separately by Sub-Fund. Financial derivative instruments other than Contracts for Difference and Futures do not include market price risk.

If the price of each of these investments to which the Sub-Funds had exposure at financial year end had increased or decreased by 5% with all other variables held constant, this would have increased or decreased net assets attributable to holders of redeemable shares as below.

	Jupiter Asset		Jupiter Asset	
	Management	Impact of 5%	Management	Impact of 5%
	Series Plc	price increase	Series Plc	price increase
	Fair Value		Fair Value

11. Financial Instruments and Associated Risks (continued)

(a) Market Price Risk (continued)

Conversely, if the price of each of the underlying investments to which the relevant Company has exposure had decreased by 5%, this would have an equal but opposite effect on net assets attributable to holders of redeemable participating shares.

The above analysis is strictly a mathematical exercise and has many improbable assumptions including, (i) stocks of financial services companies perform exactly in line with the broad equities market (ii) both long and short positions in the portfolio perform exactly in line with stocks of financial services companies and (iii) the Investment Manager does not change the composition of the portfolio intra-period (Investors and prospective investors should not place any reliance on this analysis, as the actual effect of a 5% change in equity prices will differ materially from the effect described in the above). The Investment Manager does not believe this analysis should be used to assess the risk or potential performance of its strategy.

Adherence to the investment guidelines and to investment and borrowing powers set out in the instrument of incorporation and the Prospectus mitigates the risk of excessive exposure per industry to any particular type of security or issuer.

Each Sub-Fund's market risk is managed on a daily basis by the Manager and the policies and processes are detailed in the Company's risk management process. Each Sub-Fund's overall market positions are advised on a regular basis to the Board of Directors.

Emerging markets provide new investment opportunities, such as elevated economic growth rates, higher expected returns and diversification benefits. Accordingly, these markets may be insufficiently liquid and levels of volatility in price movements may be greater than those experienced in more developed economies and markets. The value of the assets of a Sub-Fund investing in developing markets may be adversely affected by uncertainties. There can be no assurance that the Sub-Funds will achieve their investment objectives.

(b) Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company's constitutional documents provides for the creation and cancellation of Shares on each Dealing Day and it is therefore exposed to the liquidity risk of meeting shareholder redemptions at any time. Assets from a Sub-Fund may need to be sold if insufficient cash is available to finance redemptions.

The Sub-Funds' listed securities are considered to be readily realisable as they are principally listed on major European, Asian and US stock exchanges.

In the case of transferable securities not traded on a Regulated Market liquidity is not automatically presumed. The Sub-Funds therefore assess the liquidity of such securities where this is necessary. If the security is assessed as insufficiently liquid to meet foreseeable redemption requests the security must only be bought or held if the other securities held in the portfolio are deemed sufficiently liquid so as to be able to ensure compliance with Regulation 104(1) of the UCITS Regulations.

Therefore before making an investment, the Investment Manager may consider in relation to liquidity risk:

- 1. The volume and turnover in the transferable security;
- 2. If price is determined by supply and demand in the market, the issue size and the portion of the issue that the investment manager plans to buy;
- 3. The opportunity and timeframe to buy or sell the transferable security; and
- 4. The quality of the secondary market in a transferable security and an analysis of the quality and number of intermediaries and market makers available for that security.

The risks associated with securities in which the Sub-Funds have invested are assessed on an ongoing basis.

The Company may temporarily suspend the repurchase of Shares in any Sub-Fund. No suspensions have taken place during the financial year. More information on this type of liquidity risk can be found in the Prospectus.

From 30 September 2020 the Manager has adopted the European Securities and Markets Authority (ESMA) Guidelines on Liquidity stress testing in UCITs and AIFs issued July 2020 and has enhanced its liquidity stress testing and policy, where appropriate in line with the ESMA guidance.

11. Financial Instruments and Associated Risks (continued)

(c) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Sub-Fund. Credit risk is monitored in accordance with the UCITS Regulations.

This risk exists in relation to the transactions the Company enters into with brokers, banks and other third parties. However investments in equities are not exposed to credit risk except for exposure to the Depositary which is periodically monitored by the Company.

Credit risk arises from receivables from investee funds relating to redemptions or transactions awaiting settlement. Risk relating to unsettled receivables is considered small due to the short settlement period involved and the due diligence permitted on the investee funds. The maximum exposure related to unsettled is included in other assets and other liabilities in the Statement of Financial Position.

The Manager ensures that the ratings and limits for counterparties are adhered to.

Risk exposure may be reduced where the counterparty will provide the Sub-Fund with collateral, subject to certain conditions. The Manager is responsible for ensuring this collateral meets the relevant criteria set out in UCITS Regulations. Details of collateral pledged and received as at 31 December 2021 is disclosed in Note 7. Cash due from/to broker balances held with counterparties at 31 December 2021 are disclosed in Note 7. This amount is the minimum required by the brokers and counterparties for collateral requirements.

Credit default swaps will be used to isolate and transfer the exposure to or transfer the credit risk associated with a reference asset or index of reference assets. Credit default swaps provide a measure of protection against defaults of debt issuers. The Sub-Funds' use of credit default swaps does not assure their use will be effective or will have the desired result. If a Sub-Fund is the buyer of a credit default swap, it would be entitled to receive the agreed-upon value (or par) of a referenced debt obligation from the counterparty to the swap on the occurrence of certain credit events in relation to the relevant reference entity. In circumstances in which a Sub-Fund does not own the debt securities that are deliverable under a credit default swap, the Sub-Fund is exposed to the risk that deliverable securities will not be available in the market. The Sub-Fund may not be able to realise the full value of the credit default swap upon a default by the reference entity. As a seller of credit default swaps, a Sub-Fund incurs exposure to the credit of the reference entity and is subject to many of the same risks it would incur if it were holding debt securities issued by the reference entity. The notional amounts and counterparties for purchased and sold protection are disclosed in the Portfolio of Statements. The credit rating of the counterparties can be found below.

The Company minimises concentration of credit risk by undertaking transactions with a large number of customers and counterparties on recognised and reputable exchanges.

The table below shows the S&P long term credit ratings of the derivative counterparties and the financial institutions with whom deposits are invested:

	Rat	ing
Counterparty Name	2021	2020
Australia and New Zealand Bank	AA-	AA-

11. Financial Instruments and Associated Risks (continued)

(d) Interest Rate Risk

Interest rate risk is the risk that the value of the Sub-Funds' investments will fluctuate as a result of changes in interest rates.

The Company's interest-bearing financial assets and liabilities expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Details of interest rates applicable at 31 December 2021 are outlined in the Portfolio of Investments. Interest receivable on bank deposits and payable on bank overdrafts will be affected by fluctuations in interest rates, as will Floating Rate Bonds. All other assets and liabilities of the Sub-Funds are non-interest bearing.

The interest rate profile of each Sub-Fund's financial assets as at 31 December 2021 was as follows:

Weighted Average Interest Rate	Merian Global Dynamic Bond F	- und	
Australian Dollar	•	Weighted Average Interest Rate	Weighted Average Period To Maturity

11. Financial Instruments and Associated Risks (continued)

(e) Concentration Risk

The investments of certain Sub-Funds may be concentrated in a single market or country. A Sub-Fund which pursues a concentrated investment strategy may be subject to a greater degree of volatility and risk than a Sub-Fund following a more diversified strategy.

The applicable investment concentrations within the portfolio for each Sub-Fund at 31 December 2021 are disclosed in the Portfolio of Investments.

The following table shows the Sub-Funds having more than 10% concentration in the countries at 31 December 2021:

Jupiter Europe (ex UK) Smaller Companies Fund	Switzerland	11.66%
Jupiter Merian Global Equity Income Fund (IRL)	United States	53.91%
Jupiter Gold & Silver Fund	Australia	17.24%
Jupiter Gold & Silver Fund	Canada	67.45%
Jupiter UK Specialist Equity Fund	United Kingdom	90.15%
Jupiter Financials Contingent Capital Fund	United Kingdom	39.94%
Jupiter Financials Contingent Capital Fund	Italy	12.84%
Jupiter Financials Contingent Capital Fund	Spain	10.03%

11. Financial Instruments and Associated Risks (continued)

(f) Currency Risk (continued)

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company invests in securities and other investments that are denominated in currencies other than the Sub-Funds functional currency. Accordingly, the value of the Sub-Funds' assets may be affected favourably or unfavourably by fluctuations in currency rates and therefore a Sub-Fund will necessarily be subject to foreign exchange risks. Equally movements in exchange rates can impact income received by the Sub-Funds and can impact shareholders whose shares are denominated in currencies other than the operating currency of the Sub-Fund.

The Sub-Funds may use foreign currency economic hedging activities to protect against the volatility described above. The Company primarily utilises currency exchange contracts to hedge foreign-currency-denominated financial instruments. Increases or decreases in the fair values of the Sub-Funds' foreign-currency-denominated financial assets and financial liabilities are partially offset by gains and losses on the economic hedging instruments. Foreign exchange hedging is utilised for the benefit of hedged share classes, transactions will be clearly attributable to that class and the cost and related liabilities and/or benefits shall be for the account of that class only. Accordingly, such costs and related liabilities and/or benefits will be reflected in the net asset value per share for shares of any such class.

11. Financial Instruments and Associated Risks (continued)

(f) Currency Risk (continued)

The currency risk exposures of the Sub-Funds at 31 December 2021 were as follows:

Jupiter China Equity Fund

Jupiter Global Emerging Markets Focus Fund	(7,721,240)	8,534,003	(8,870,511)	9,804,248
Merian Asian Equity Income Fund	(77,122)	85,239	(72,279)	79,885
Jupiter UK Alpha Fund (IRL)	(707,138)	781,573	(139,251)	153,908
Jupiter UK Smaller Companies Focus Fund	(172)	189	(183)	202
Jupiter Europe (ex UK) Smaller Companies Fund	(1,481,256)	1,637,177	(905,430)	1,000,737
Jupiter Merian Global Equity Income Fund (IRL)	(2,019,069)	2,231,606	(3,692,293)	4,080,956
Jupiter Gold & Silver Fund	(42,897,046)	47,412,526	(32,458,055)	35,874,692

In practice, the actual trading results may differ from the above sensitivity analysis and the difference could be significant. The currency risk of other Sub-Funds is disclosed by way of VaR analysis on pages 315 to 317.

(g) Fair Value of Financial Assets and Financial Liabilities

Fair Value Estimation

The Company is required to classify fair value measurements using a fair value hierarchy that reflects the significant of the inputs used in making the measurements. The standard requires an entity to provide a quantitative and qualitative analysis of those instruments recognised at fair value based on a three-level measurement hierarchy. The fair value hierarchy has the following levels:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3 – Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Furthermore, for those instruments which have significant unobservable inputs (Level 3), the amendment requires disclosures on the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses for the period, purchases, sales issues and settlements. The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Sub-Funds. The Sub-Funds consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The table below provides a summary within the fair value hierarchy of the Sub-Funds' financial assets and financial liabilities measured at last traded prices at 31 December 2021.

11. Financial Instruments and Associated Risks (continued)

(g) Fair Value of Financial Assets and Financial Liabilities (continued)

The financial instruments at 31 December 2021 and 31 December 2020 are classified as follows:

Investment Type	Level
Equities	1
Future Contracts	1
Rights	1
Government Bonds*	2
Corporate Bonds*	2
Convertible Securities	2
Municipal Bonds	2
Asset Backed Securities	2
Mortgage Backed Securities	2
Investment Funds	2
Contract for Difference	2
Credit Default Swaps	2
Interest Rate Swaps	2
Total Return Swaps	2
Open Currency Exchange Contracts	2
Options Purchased	2
Options Written	2
Warrants	2

^{*} Please note included within government and corporate bonds are some bonds which meet the criteria to be classified as Level 1.

The following table details the exceptions to the above classification at 31 December 2021.

Sub-Fund	Security	Investment Type	Level	Currency	Fair Value
Jupiter Gold & Silver Fund	Meridian Mining	Equity	2	USD	8,074,897
Jupiter Gold & Silver Fund	Apollo Silver Corp	Equity	2	USD	5,184,108
Jupiter UK Smaller Companies Focus Fund	Starling Bank Ltd	Equity	3	GBP	10,367,364
	DEV Clever Holdings Contracts For				
Jupiter UK Specialist Equity Fund	PLC	Difference	3	GBP	(4,794)

Reconciliation of Level 3 fair value measurements of financial assets for the year 2021.

	Jupiter UK Smaller Companies Focus Fund	Jupiter UK Specialist Equity Fund
	GBP	GBP
Opening Balance	-	_
Transfer in to Level 3	-	-
Purchases	6,999,999	-
Sales	-	-
Transfers out of level 3	-	-
Net gain/(loss) on financial assets at fair value through		
profit or loss	3,367,365	(4,794)
Closing Balance	10,367,364	(4,794)

11. Financial Instruments and Associated Risks (continued)

(g) Fair Value of Financial Assets and Financial Liabilities (continued)

Reconciliation of Level 3 fair value measurements of financial assets for the year 2020.

	Jupiter UK Smaller Companies Focus Fund	Jupiter UK Dynamic Equity Fund	Jupiter UK Specialist Equity Fund
	GBP	GBP	GBP
Opening Balance	11,646,409	17,664,500	15,194,829
Purchases	-	-	-
Sales	(18,575,315)	(32,763,408)	(25,464,013)
Transfers out of level 3	-	-	-
Net gain/(loss) on financial assets at fair value through profit or loss	6,928,906	15,098,908	10,269,184
Closing Balance	-	-	-

Transfers between levels are deemed to have occurred when the pricing source for a particular security has changed, which triggers a change in levels. There were no transfers between levels of the fair value hierarchy during the financial year ended 31 December 2021. Assets and liabilities not carried at fair value are carried at amortised cost; their carrying values are a reasonable approximation of fair value.

Sensitivity to changes in inputs

Although the Investment Manager believes that its estimates of fair value are appropriate, the use of different methodologies or assumptions could lead to different measurements of fair value. For fair value measurements in Level 3, in changing one or more of the assumptions used to reasonably possible alternative assumptions by decreasing or increasing by 5% with all other variables held constant, the impact on valuation is shown in the table below:

Fair value as at 31 December 2021	Sensitivity	Change in valuation
USD 14,036,101	5%	701,805
Fair value as at 31 December 2020	Sensitivity	Change in valuation
USD -	5%	-

Level 3 Valuation Techniques

The following table shows the valuation techniques used for Level 3 fair values, as well as the significant unobservable inputs used for Level 3 items.

Significant unobservable inputs	Inputs used
EV/Revenue,	Unaudited Accounts (Statement of Operations /
Last 12 months revenue multiples,	Statement of Financial Position),
Discounts for illiquidity	Comparable Company data (enterprise value, market cap, LTM revenue, LTM EBITDA, LTM EBITDA, LTM revenue growth),
	Recent market transactions,
	Relevant post IPO valuations for similar companies
The fair value of the Company's last transaction is considered to be unobservable	Recently executed purchase price
	EV/Revenue, Last 12 months revenue multiples, Discounts for illiquidity The fair value of the Company's last transaction is considered to be un-

11. Financial Instruments and Associated Risks (continued)

(h) Leverage

Many derivative instruments have a leverage component, adverse changes in the value or level of the underlying asset, rate or index can result in a loss substantially greater than the amount invested in the derivative itself. Certain derivative instruments have the potential for unlimited loss regardless of the size of the initial investment.

(i) Global Derivative Exposure

Sensitivity Analysis for Sub-Funds through Commitment Approach

The risk is managed through the commitment approach to quantitatively measure the Sub-Funds' global exposure through the use of financial derivative instruments in line with UCITS Directives and Central Bank regulations for Sub-Funds listed in the tables below.

At the date of this Prospectus, derivatives or instruments and techniques for the purposes of efficient portfolio management are not currently used for the Jupiter UK Smaller Companies Focus Fund. If this policy changes, prior approval of the Shareholders and the Central Bank will be sought and a risk management process will be cleared in advance by the Central Bank in accordance with the requirements of the Central Bank.

The following Sub-Funds will not be leveraged in excess of 10% of their Net Asset Value:

Jupiter China Equity Fund

Jupiter Pacific Equity Fund

Merian European Equity Fund

Jupiter Merian US Equity Income Fund

Jupiter Global Emerging Markets Focus Fund

The following Sub-Funds will not be leveraged in excess of 100% of their Net Asset Value:

Jupiter Merian World Equity Fund

Jupiter Merian North American Equity Fund (IRL)

Jupiter Emerging Market Debt Fund

Merian Asian Equity Income Fund

Jupiter UK Alpha Fund (IRL)

Jupiter UK Smaller Companies Focus Fund

JUPITER ASSET MANAGEMENT SERIES PIc ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2021

Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

11. Financial Instruments and Associated Risks (continued)

(j) Value at Risk ("VaR") Method (continued)

VaR is a statistically based estimate of the potential loss on the current portfolio from adverse market movements. The VaR measure captures both "general" and "idiosyncratic" market risks. General market risk factors are variables which are driven by macroeconomic, geopolitical and other market-wide considerations, independent of any instrument or single name. They include movements in interest rates, widening or tightening of general spread levels and directional movements in equity market indices, exchange rates, and energy, metal and commodity prices. Changes in associated volatilities and correlations between these risk factors – some of which may be unobservable or only indirectly observable – are also general market risks. Idiosyncratic components are those that cannot be explained by general market movements – broadly, changes in the prices of debt and equity instruments and derivatives linked to them, resulting from factors and events specific to individual names.

VaR expresses potential loss, but only to a certain level of confidence and holding period of 1 and 20 days depending on the Sub-Fund, and there is therefore a specified statistical probability (1%) that actual loss could be greater than the VaR estimate.

A Sub-Fund must ensure that its global exposure relating to FDI does not exceed its total Net Asset Value. A Sub-Fund using the commitment approach to measure its positions in FDI may not therefore be exposed in excess of 100% of its Net Asset Value.

Global exposure is calculated by the Administrator by extracting information from the Sub-Fund accounting system relating to the full exposure on FDIs. This information is passed to the Compliance Monitoring Services Division (CMS) for the purposes of calculating the global exposure and comparing the results against the overall value of the Sub-Fund. In 2021, FDI global exposure was calculated under the commitment approach as described, while the market risk is calculated utilising the VaR methodology described.

31 December 2021	Currency	Confidence Level	Holding Period	Maximum VaR	Minimum VaR	Average VaR	Average Leverage	at 31/12/21	Total VaR Market Value
Merian Global Dynamic Bond Fund	USD	99.00%	1 day	0.87%	0.17%	0.49%	183.00%	0.38%	975,153

JUPITER ASSET MANAGEMENT SERIES PIc ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2021

Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

11. Financial Instruments and Associated Risks (continued)

(j) Value at Risk ("VaR") Method (continued)

The Sub-Funds do employ leverage, calculated as sum of notionals, to achieve the Sub-Funds objective and to reduce risk, and this has not exceeded the expected level as disclosed in the Sub-Fund's Prospectus.

		Confidence	Holding	Maximum	Minimum	Average	Average	VaR as at	Total VaR
31 December 2020	Currency	Level	Period	VaR	VaR	VaR	Leverage	31/12/20	Market Value

The Manager uses the Blackrock Solutions Aladdin system to calculate VaR. This is an external system, widely used within the financial services industry for the purposes of calculating VaR and associated risk analysis. There has been no examination undertaken of the Investment Manager's risk system by a regulatory authority. However, daily review of results is undertaken within the risk team to identify any results that would suggest incorrect calculations. Any results falling outside agreed tolerances are investigated. Backtesting of the model is also performed on a monthly basis.

Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

11. Financial Instruments and Associated Risks (continued)

(k) Custody and Title Risk Statement

The Depositary is under a duty to hold in custody all financial instruments that may be registered in a financial instruments account opened in the depositary's books and all financial instruments that can be physically delivered to the depositary. The Depositary is required to ensure that all financial instruments that can be registered in a financial instruments account opened in the depositary's books are registered in the depositary's books within segregated accounts. For other assets, the Depositary shall verify the Company's ownership of such assets. The Depositary will maintain a record of the financial instruments entrusted to it and those assets for which it is satisfied that the Company holds the ownership. When the Depositary employs a sub-custodian the Depositary retains responsibility for the assets of the Sub-Fund.

However, it should be noted that not all jurisdictions have the same rules and regulations as Ireland regarding the custody of assets and the recognition of the interests of a beneficial owner such as a Sub-Fund. Therefore, in such jurisdictions, there is a risk that if a sub-custodian becomes bankrupt or insolvent, the Sub-Fund's beneficial ownership of the assets held by such sub-custodian may not be recognised and consequently the creditors of the sub-custodian may seek to have recourse to the assets of the Sub-Fund. In those jurisdictions where the Sub-Fund's beneficial ownership of its assets is ultimately recognised, the Sub-Fund may suffer delay and cost in recovering those assets. The Sub-Funds may invest in markets where custodial and/or settlement systems are not fully developed, such as Russia and Argentina, therefore the assets of a Sub-Fund which are traded in such markets and which have been entrusted to sub-custodians, in circumstances where the use of such sub-custodians is necessary, may be exposed to risk. The Depositary shall maintain an appropriate level of supervision over the sub-custodian and make appropriate enquiries from time to time to confirm that the obligations of the agent continue to be competently discharged.

12. CRS Data Protection Information Notice

The Company hereby provides the following data protection information notice to all Shareholders in the Sub-Funds either as at 31 December 2015 or at any point of time since this date.

For the avoidance of doubt, this notice applies equally to any Shareholders that have ceased to hold shares in the Sub-Funds since January 1, 2016. Furthermore, it should be noted that this notice may be applicable to Controlling Persons of certain Shareholders.

The Company hereby confirms that it intends to take such steps as may be required to satisfy any obligations imposed by (i) the OECD's Standard for Automatic Exchange of Financial Account Information in Tax Matters ("the Standard"), which therein contains the Common Reporting Standard ("CRS"), as applied in Ireland by means of the relevant international legal framework and Irish tax legislation and (ii) EU Council Directive 2014/107/EU, amending Directive 2011/16/EU as regards mandatory automatic exchange information in the field of taxation ("DAC2"), as applied in Ireland by means of the relevant Irish tax legislation, so as to ensure compliance or deemed compliance (as the case may be) with the Standard/CRS and the DAC2 from 1 January 2016.

In this regard, the Company is obliged under Section 891F and Section 891G of the Irish Taxes Consolidation Act, 1997 (as amended) and regulations made pursuant to those sections to collect certain information about each Shareholder's tax arrangements (and also collect information in relation to relevant Controlling Persons of specific Shareholders).

In certain circumstances, the Company may be legally obliged to share this information and other financial information with respect to a Shareholder's interests in the Sub-Funds with the Irish Revenue Commissioners (and, in particular situations, also share information in relation to relevant Controlling Persons of specific Shareholders). In turn, and to the extent the account has been identified as a Reportable Account, the Irish Revenue Commissioners will exchange this information with the country of residence of the Reportable Person(s) in respect of that Reportable Account.

In particular, information that may be reported in respect of a Shareholder (and relevant Controlling Persons, if applicable) includes name, address, date of birth, place of birth, account number, account balance or value at year end (or, if the account was closed during such year, the balance or value at the date of closure of the account), any payments (including redemption and dividend/interest payments) made with respect to the account during the calendar year, tax residency(ies) and tax identification number(s).

Notes to the Financial Statements for the financial year ended 31 December 2021 (continued)

13. Charges Against the Assets of the Sub-Funds

A number of counterparties used by the Company hold a number of charges granting first priority security interest in relation to collateral and principal broker securities relating to the relevant Sub-Funds' account.

14. Post Statement of Financial Position Events

Hurdle Rate

Effective 1 January 2022, in response to the discontinuance of certain interest rate benchmarks (including London Interbank Offered Rate ("LIBOR") from the end of December 2021, the hurdle rates for certain CHF and Euro Share Classes were amended as follows:

Sub-Fund	Class CCY	Current Hurdle Rate	New Hurdle Rate
Jupiter Merian Global Equity Absolute Return	CHF	3 month Swiss franc (CHF)	Swiss Average Overnight
Fund		LIBOR interest rate	Rate
Jupiter UK Specialist Equity Fund	EUR	Euro overnight Index	Euro short-term rate (€ STR)
		Average Rate	
Jupiter Strategic Absolute Return Bond Fund	EUR	Euro overnight Index	Euro short-term rate (€ STR)
		Average Rate	

Share Class Launch

The following Share Classes launched

Date	Sub-Fund name	Share Class name
14 January 2022	Jupiter Global Emerging Markets Focus Fund	Class N (USD)
24 February 2022	Jupiter Financials Contingent Capital Fund	Class F (USD)

Russia's war on Ukraine

On 24 February 2022, Russian forces invaded Ukraine, resulting in what is considered the biggest attack by one state on another in Europe since second World War. Russian military aggression against Ukraine brings with it financial sanctions and unprecedented measures with the aim of significantly weakening Russia's economic base, in the hope to curtail its ability to wage war. Such events and world financial, economic and trade responses result in turbulent financial markets.

The Company has minimal exposure to Russia, Ukraine and Belarus. At the time the conflict began, only one Sub-Fund had a direct immaterial Russian holding. The Manager and Investment Manager are closely monitoring the situation and the impact on markets of Russia's invasion of Ukraine and the effects on portfolios. These events have brought uncertainty and unpredictability to financial markets, including the risk of significant currency fluctuations, higher inflation, and an adverse effect on consumer confidence for the foreseeable future.

There is risk with any political developments that occur, and the Manager and Investment Manager continuously monitor all political situations and specifically any financial instrument holdings in affected countries. Political developments affecting market confidence may result in outflows of assets from investment portfolios, which could include asset portfolios held by the Sub-Funds of the Company.

There have been no other material events affecting the Sub-Funds subsequent to 31 December 2021, which require amendment to or disclosure in, these financial statements.

15. Financial Statements

These financial statements were approved by the Board of Directors on 25 April 2022.

Significant Purchases and Sales (Unaudited)

Jupiter China Equity Fund

Under UCITS regulations, a statement of changes in the composition of the portfolio during the reference period is required, displaying all material changes that have occurred in the deposition of the assets of the UCITS. A material change is defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year or aggregate disposals greater than one per cent of the total value of sales. If there are fewer than 20 purchases that met the material changes definition, the UCITS shall disclose those purchases and such number of the next largest purchases so that at least 20 purchases are disclosed. If there are fewer than 20 sales that met the material changes definition, the UCITS shall disclose those sales and such number of the next largest sales so that at least 20 sales are disclosed.

Sub-Fund Price Record

Hong Kong Investors Section (unaudited)

The additional information in this section is for the Sub-Funds which are authorised by the Hong Kong Securities and Futures Commission ("SFC") as at 31 December 2021 to meet the disclosure requirements in Hong Kong.

Note: SFC authorization is not a recommendation or endorsement of a product nor does it guarantee the commercial merits of a product or its performance. It does not mean the product is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

The details of ten years highest and lowest Net Asset Value per share are outlined below:

Total Expense Ratios

Swiss Investors Section (unaudited)

This Section is for Swiss Investors

The Total Expense Ratio measures the total costs associated with managing and operating each Sub-Fund. These costs consist primarily of Investment Management Fees and additional expenses such as legal fees, auditor fees and other operational expenses. This disclosure is a requirement for Sub-Funds approved for public distribution in Switzerland.

The total expense ratios of the Sub-Funds for the financial year from 1 January 2021 to 31 December 2021 are as follows:

		Excluding	Including

Events During the Financial Year (unaudited)

Following the initial detection in China in late 2019 of a new coronavirus, COVID-19, the virus spread rapidly through countries worldwide throughout 2020 and continued to spread and result in new variants emerging throughout 2021. Though 2021 saw an improvement in relation to the COVID-19 situation, markets continued to be dominated by the pandemic as first the new Delta, then Omicron variants emerged. The development of vaccines and aggressive rollout of these vaccines across populations provided both optimism and also the harsh reality of the scale of the vaccination challenge throughout the world.

Continued impact on markets and market swings resulting from endless uncertainty about the evolution of the COVID-19 pandemic were seen throughout 2021. Uncertainty stemmed mainly from the new emerging variants, the impact of vaccines and the constantly changing rules about restrictions.

2021 saw the end to widescale restrictions of households and around international travel, however countries had, and continue to have, the practical reality that we will have to continue to live with COVID-19 without severe restrictions.

The investment managers of all the Sub-Funds of the Company thoroughly reviewed their portfolios in the light of the coronavirus outbreak. They took the measures they considered prudent to protect long-term risk-adjusted returns and to ensure diversification and continued to do so throughout 2021. They continue to monitor the situation closely and to work with the risk departments to ensure that all Sub-Funds are managed within their investment and risk parameters. With regard to any outflows, the Company does not believe that they have had any material effect on the investment performance of the Sub-Funds.

Since the commencement of the "lockdowns" in the UK and Ireland in March 2020, the Company, its Manager and the Investment Manager have proved operationally efficient, with all systems, functions and personnel able to operate as anticipated. Both the Company and its Manager continue to monitor the situation and relevant government guidance throughout 2021 and on into 2022. The Company and Manager are both well prepared for potential "further waves" of the virus and are confident of the continued ability to manage all operations remotely.

As with any market event, the Company has robust procedures to support fund management teams in their ongoing investment activities. The Company is confident of its continued ability to meet its business and regulatory commitments and envisage no disruption to fund management operations. Portfolio management teams have remote access to all systems and there is no change to the dealing, compliance and risk monitoring processes.

Name changes Company, Manager and Distributor, and Investment Manager On 15 February 2021 the following name changes were effective:

Entity	New Name	Old Name
Company	Jupiter Asset Management Series PLC	Merian Global Investors Series PLC
Manager and Distribution	Jupiter Asset Management (Europe) Limited	Merian Global Investors (Europe) Limited
Investment Manager	Juniter Investment Management Limited	Merian Global Investors (LIK) Limited

Cybersecurity Risk

Cybersecurity breaches may occur allowing an unauthorized party to gain access to assets of the Sub-Funds, Shareholder data, or proprietary information, or may cause the Company, the Manager, the Investment Manager, the Distributor, the Administrator or the Depositary to suffer data corruption or lose operational functionality.

The Sub-Funds may be affected by intentional cybersecurity breaches which include unauthorized access to systems, networks, or devices (such as through "hacking" activity); infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. In addition, unintentional incidents can occur, such as the inadvertent release of confidential information (possibly resulting in the violation of applicable privacy laws).

Notwithstanding the existence of policies and procedures designed to detect and prevent such breaches and ensure the security, integrity and confidentiality of such information as well as the existence of business continuity and disaster recovery measures designed to mitigate any such breach or disruption at the level of the Company and its delegates, such a cybersecurity breach could result in the loss or theft of Shareholder data or Sub-Funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs.

Such incidents could cause the Company, the Manager, the Investment Manager/the Distributor, the Administrator, the Depositary, or other service providers to incur regulatory penalties, reputational damage, additional compliance costs, or financial loss. Consequently, Shareholders may lose some or all of their invested capital. In addition, such incidents could affect issuers in which a Sub-Fund invests, and thereby cause a Sub-Fund's investments to lose value, as a result of which investors, including the relevant Sub-Fund and its Shareholders, could potentially lose all or a portion of their investment with that issuer.

Soft Commission Arrangements

There were no soft commission arrangements (including commission-sharing arrangements) on behalf of the Company for the financial years ended 31 December 2021 and 31 December 2020.

Remuneration Policy

The Company

Jupiter Asset Management Series Plc (the "Company") is authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities ("UCITS") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) amended, consolidated or substituted from time to time (the "UCITS Regulations").

The Company is managed by Jupiter Asset Management (Europe) Limited (the "Manager"). The Manager is authorised and regulated as both an UCITS Management Company and as Alternative Investment Fund Manager ("AIFM"), effective 29 November 2018. The Manager's affairs are supervised by its Board of Directors.

The Company's affairs are supervised by its Board of Directors. For details on each of the Directors please refer to the Prospectus of the Company.

The Policy

The Manager has established a remuneration policy in accordance with the requirements of the Directive (Directive 2009/65/EC), as amended (the "UCITS Directive") to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

The remuneration policy applies to certain identified staff whose professional activities have a material impact on the risk profile of the relevant entity.

It is the Manager's policy to maintain remuneration arrangements that (i) are consistent with and promote sound and effective risk management, (ii) do not encourage risk-taking that is inconsistent with the risk profile of the Manager, (iii) do not impair compliance with the Manager's duty to act in the best interests of its shareholders and (iv) are consistent with the principles outlined in the remuneration policy. The Manager's remuneration policy is designed to ensure that any relevant conflicts of interest can be managed appropriately at all times.

The remuneration policy of the Manager is adopted by the non-executive members of the Board of Directors in their supervisory function, who have expertise in risk management and remuneration and any revisions to the remuneration policy require approval of such members. As at 31 December 2021 the Company did not have any employees and the Manager's remuneration policy applies only to the members of the Company's management body (i.e. Board of Directors).

The Board of the Manager ensures that the remuneration policy of the Manager is, at least annually, subject to central and independent internal review, and will address whether it operates as intended and remains compliant with national and international regulations, principles and standards. Following the annual review of the remuneration policy of the Manager, no material changes were identified.

As at 31 December 2021, the Manager had 11 employees (including the Board of Directors) and the Manager's remuneration policy applies only to members of the Manager's management body (i.e. Board of Directors) and staff whose professional activities have a material impact on the risk profile of the Manager (together "Identified Staff").

The remuneration policy is subjected to central and independent review at least annually to ensure compliance with and adherence to the policy.

The remuneration policy of the Manager was put in place to coincide with the Manager's authorisation as a UCITS management company pursuant to the UCITS Regulations on 29 November 2018.

Remuneration Policy (continued)

Persons subject to the Policy

The Manager will apply the provisions of the policy for its 'Identified Staff' being "those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the management company or of the UCITS that they manage".

The Manager has determined that the following staff members would fall within the definition of "Identified staff", as applicable:

- Members of the Board of Directors of the Company
- Designated Persons responsible for the monitoring of certain management functions.

Pursuant to the ESMA Guidelines, the UCITS remuneration principles are not required to be applied to delegates performing investment management functions when such delegates are subject to regulatory requirements on remuneration that are "equally as effective" as the UCITS remuneration principles.

It is noted that the ESMA Guidelines provide that entities that are subject to the remuneration rules under AIFMD or MiFID/CRD IV (Directive 2013/36/EU) can be considered to meet this condition.

Based on prior guidance issued by the Central Bank on the corresponding and identical requirement in the context of the AIFMD remuneration principles and in the absence of further specific guidance or legal clarification from the European Commission, ESMA or the Central Bank in the context of the UCITS remuneration requirements, the Fund considers that the following categories of delegate entities also meet this condition:

- (i) CRD/MiFID firms (including firms still subject to CRD III and which have availed of the CRD IV exemptions); and
- (ii) non-EU firms which are subject to group remuneration policies that are equally as effective as MiFID or CRD.

This approach will be reviewed and reassessed, as necessary for subsequent financial periods following the issuance of any further regulatory guidance or legal clarification that conflicts with this current position.

3. Remuneration of Identified Staff

With the exception of those Company Directors who are employed by Jupiter Asset Management Limited (the "Investment Manager") and Jupiter Asset Management (Europe) Limited (the Manager and Distributer) or any other group company, the Company's Directors accept a fee in accordance with the Company's Articles of Association and as outlined in the 'Directors' Fees' section of the Prospectus. This is a fixed fee with no variable component. Any remaining Director, who is employed by the Investment Manager or the Manager or any other group company, will waive this fee.

The Directors of the Company receive a fixed fee only and do not receive performance-based remuneration, thereby avoiding a potential conflict of interest. The basic fee of a Board member is set at a level that is on par with the rest of the market and reflects the qualifications and contribution required in view of the Company's complexity, the extent of the responsibilities and the number of board meetings. No pension contributions are payable on Board members' fees for the year ending 31 December 2021.

Remuneration Policy (continued)

3. Remuneration of Identified Staff (continued)

Designated Persons

Jupiter Asset Management (Europe) Limited as Manager and Distributor of the Company has six Identified Staff. Directors who are employees of the Manager or any other group company are not paid any fees for their services as Directors.

4. Proportionality Principle

As noted above, the Manager must comply with the UCITS Directive remuneration principles in a way and to the extent that is appropriate to their size, their internal organisation and the nature scope and complexity of their activities.

The Company does not pay any variable remuneration to any of its Identified Staff. Accordingly, the principles in respect of variable remuneration as outlined in the UCITS Directive are not applicable for the Company.

The Manager's variable remuneration policy is linked to the achievement of business objectives, to deliver performance in the best interests of clients and in line with all regulatory requirements as well as individual performance as measured in employees' annual appraisal. The variable remuneration scheme allows the Manager to pay no variable remuneration if it is believed that the employee has taken excessive risks.

With respect to the remuneration committee, the Board of the Company and the Board of the Manager has determined the remuneration committee requirement does not apply taking into account the below factors:

- (a) all of the above proportionality criteria (i.e. the size, internal organisation nature, the scope and complexity of its activities); and
- (b) Article 14b(4) of UCITS V outlines a remuneration committee will be, where appropriate, set up in accordance with the ESMA.

As detailed in the Manager's remuneration policy, the Manager has dis-applied the Pay-out Process Rules in relation to its UCITS business on grounds of proportionality.

Remuneration Policy (continued)

Disclosure

The general principles of the Manager's remuneration policy and the specific provisions for Identified Staff are disclosed internally and documented in the remuneration policy.

JAMEL manages 22 active funds / fund structures (21 sub-funds of Jupiter Asset Management Series Plc, and a master-feeder structure), with a combined AUM of EUR 5.77 billion as at 31 December 2021.

Total annual remuneration paid to all Management Company employees:	1,747,405
Of which fixed:	1,029,710
Of which variable:	717,695
Number of Management Company employees:	7
Total remuneration paid to Identified Staff:	16,137,728
Of which paid to Senior Management:	2,309,000
Of which paid to other Identified Staff:	13,828,728
Number of Identified Staff:	31
Total annual remuneration paid to employees in delegate(s):	20,396,826
Of which fixed:	4,700,003
Of which variable:	15,696,823
Number of beneficiaries:	22

Of the total remuneration paid to Identified Staff of the Management Company €15,404,195 relates to the Company.

Notes

In the figures above, fixed remuneration relates to salary and pension benefits and variable remuneration includes the annual bonus including any long-term incentive awards.

These disclosures are in line with Jupiter's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops Jupiter may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other Jupiter fund disclosures in that same year.

Securities Financing Transactions Regulations

The following disclosure follows the requirements of EU Securities Financing Transactions Regulation ("SFTR") which came into effect on 12 January 2016.

A Securities Financing Transaction ("SFT") is defined as per Article 3(11) of the SFTR as:

- a repurchase transaction;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

There were no securities and commodities on loan as a proportion of total lendable assets (excluding cash and cash equivalents) as at 31 December 2021.

In addition, No SFTs were held as at 31 December 2021 or during the year ended 31 December 2021.

Securities Financing Disclosure Regulation ("SFDR")

None of the Sub-Funds meet the definition of an Article 5 or Article 6 Taxonomy Regulation financial product.
