獨立會計師報告

致聯博基金全體股東 意見

我們已查核聯博基金(「基金」)之財務報表、以及其各項投資組合，其中包括截至2019年8月31日的資產負債表及投資組合，以及截至該日止年度之營運與淨資產變動表及財務報表附註，包含重大會計政策之摘要。

我們認為，此財務報表依據盧森堡有關編製及表達財務報表之法律及規範要求，真實公平反映了基金及其各投資組合截至2019年8月31日的財務狀況，及其截至該日止年度營運結果與淨資產變動情況。

意見基礎

我們根據2016年7月23日有關查核專業之法律(「2016年7月23日之法律」)以及盧森堡「金融業監管委員會(Commission de Surveillance du Secteur Financier)」(「CSSF」)所採納的國際查核準則(「ISAs」)進行查核。本事務所根據2016年7月23日法律與ISAs的責任詳載於本報告「『註冊會計師(réviseur d'entreprises agréé)』對財務報表查核的責任」乙節。根據盧森堡CSSF所採納的國際會計師道德準則委員會所制定的專業會計師道德守則(「IESBA守則」)，及有關我們查核財務報表之道德要求，本事務所乃獨立於基金，並且本事務所已履行我們於此等道德要求項下之其他道德責任。我們相信，我們所取得的查核證據可充分且適當地作為我們意見之基礎。

其他資訊

管理公司理事會須對其他資訊負責。其他資訊包含年報中所載之資訊，惟不包含財務報表及我們關於註冊會計師(réviseur d'entreprises agréé)之報告。

我們對於財務報表的意見並不涵蓋其他資訊，且我們不會對此發表任何形式的鑒證結論。

關於我們對財務報表的查核，我們的責任是閱讀其他資訊，並在此過程中，考慮其他資訊是否與財務報表或我們在查核中獲得的資訊存在重大不一致，或疑似存在重大不實陳述。如根據我們已執行的工作，我們認為此等其他資訊存在重大不實陳述，我們需要報告此事實。就此，我們沒有任何需要報告之事項。

管理公司理事會對財務報表的責任

管理公司理事會根據盧森堡有關編製及表達財務報表的法律及監管規定，負責編製及公允表達該等財務報表，且負責就財務報表的編製進行管理公司理事會認為必要的內部控制，以免其中存在重大不實陳述(不論因詐欺或錯誤)。

於編製財務報表時，除非管理公司理事會有意清算基金或其任何投資組合或終止營運，或無其他實際的替代方案時，管理公司理事會應負責評估基金或其各投資組合持續經營的能力，酌情揭露與持續經營相關的事項以及使用持續經營為會計基礎。

「註冊會計師(réviseur d'entreprises agréé)」對財務報表查核的責任

本事務所查核的目標為合理確信整體財務報表未存在重大不實陳述，不論係因詐欺或錯誤所致，並出具包含本事務所意見之「註冊會計師(réviseur d'entreprises agréé)

」報告。合理確信為一高水準之確信，但不能保證按照2016年7月23日法律及盧森堡CSSF所採納之ISAs所進行之查核總能發現重大不實陳述之存在。不實陳述可能由詐欺或錯誤導致，如合理預期其單獨或整體而言可能影響使用者根據這些財務報表所作出的經濟決策，則該不實陳述會被視為重大。

根據2016年7月23日之法律以及盧森堡CSSF所採納的ISAs，我們於查核時發揮專業判斷及保持專業懷疑。我們亦同時：

- 辨識與評估財務報表重大不實陳述的風險(不論因詐欺或錯誤所致)，針對該等風險設定並執行查核程序，以及取得充分且適當的查核證據作為我們意見之基礎。由於詐欺可能涉及串通、偽造、故意遺漏，不實陳述或逾越內部控制，因此未發現因詐欺所導致的重大不實陳述風險高於因錯誤所導致的重大不實陳述。
- 取得瞭解與查核相關的內部控制，以制定在相關情況下適宜的查核程序，但並非針對基金內部控制的有效性發表意見。
- 評估管理公司理事會所採用的會計政策是否適當，以及所作之會計預估及相關揭露事項是否合理。
- 總結管理公司理事會對持續經營會計基礎使用的適當性，以及根據取得的查核證據，是否對基金或其任何投資組合持續經營能力產生重大疑問的事件或情況存在重大不確定性。如果我們認為存在重大不確定性，則需要在我們「註冊會計師(réviseur d'entreprises agréé)」的報告中提請注意財務報表中的相關揭露，或者，如此等揭露不充分，則需修改我們的意見。我們的結論是基於截至「註冊會計師(réviseur d'entreprises agréé)」報告發布之日所獲得的查核證據。惟未來的事件或情況可能導致基金或其投資組合停止持續經營。
- 評估財務報表的整體陳述、結構與內容，包括揭露內容，以及財務報表是否足以公允表達標的交易及事件。

我們與負責治理人員進行溝通，其中包括查核的計劃範圍及時間安排，以及重大查核發現，包含我們在查核過程中發現內部控制的任何重大缺失。

我們亦向該等負責治理之人員提出聲明表示本事務所業已遵守有關獨立性之相關道德規範，並向其說明就本事務所之獨立性可能合理應注意之所有關係及其他情事，以及相關保障措施(如有適用)。

September 20, 2019

Dear Shareholders,

This report provides an update of AB FCPI (the “Fund”) for the annual reporting period ended August 31, 2019.

US stocks rose modestly during the 12-month period ended August 31, 2019; emerging-market and international stocks declined, as all markets experienced volatility amid trade tensions, slowing global growth and geopolitical unrest. At the end of 2018, US and global stocks declined, driven lower by concerns over rising interest rates, intensifying trade tensions between the US and China and slowing global growth. All markets rebounded dramatically in January as the US Federal Reserve (the “Fed”) kept rates unchanged, companies reported strong corporate earnings and optimism over the possibility of a trade truce between the US and China buoyed investor sentiment. Escalation of the trade war continued, however, and emerging pressures such as political unrest in Hong Kong and the probability of a no-deal Brexit under newly appointed Prime Minister Boris Johnson initiated a period of increased market volatility.

Slowing global growth, a weak outlook for the Chinese economy, and the prospect of a recession in Germany prompted the world’s central banks to implement monetary policy stimulus. The Fed announced a one-quarter percentage point rate cut in July.

Fixed-income markets rallied over the period. Globally, treasury securities were strong performers, with emerging- market sovereign debt outpacing developed-country government bonds. Developed-market treasury yield curves generally flattened across the board over the reporting period, with longer maturities falling further than shorter-term securities (bond yields move inversely to price). However, portions of the yield curves in the US, Germany and Japan inverted—typically thought to be a harbinger of recession. Investment-grade corporate returns were robust and outperformed the rally in high-yield bonds (due to lower risk and interest-rate sensitivity) and spreads remained near historical lows.

Despite the European Central Bank formally ending its bond-buying program in January, the bank also turned more conciliatory, citing a continent-wide slowdown in economic growth, with market participants strongly anticipating further rate cuts and quantitative easing. The Bank of Canada grew dovish as well, while the Reserve Bank of Australia brought its cash rate to a record low. The Bank of Japan echoed the sentiment by adjusting forward guidance to indicate that interest rates would remain low until at least 2020.

We appreciate your investment in the Fund.

Sincerely,

AllianceBernstein (Luxembourg) S.à r.l., the Management Company of the Fund (the “Management Company”)

The share class performance of each Portfolio is based on the net asset value incorporating the impact of expenses reimbursed or waived by the Management Company as of August 31, 2019. No adjustment has been made for sales charges that may apply when shares are purchased or redeemed. Performance for distributing share classes includes the reinvestment of distributions paid during the year. Past performance is no guarantee of future results. Investment return and principal value may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

* 6 months period ending August 31, 2019.

NOTE A: General Information

AB FCP I (the “Fund”) is a mutual investment fund (*fonds commun de placement*) organized under the laws of the Grand Duchy of Luxembourg and registered under Part I of the Law of December 17, 2010 on undertakings for collective investment, as amended (the “Law of 2010”). The Fund is managed in the interest of its co-owners (the “Shareholders”) by AllianceBernstein Luxembourg S.à.r.l. (the “Management Company”), a company organized under the laws of the Grand Duchy of Luxembourg and having its registered office in Luxembourg. The Fund qualifies as an Undertaking for Collective Investments in Transferable Securities (“UCITS”) within the meaning of Article 1(2) of the EC Directive 2009/65 of July 13, 2009, as amended.

The Fund comprises separate pools of assets currently consisting of 15 active portfolios (each, a “Portfolio,” and, collectively,

the “Portfolios”). Each Class of Shares represents an interest in each relevant Portfolio’s investment securities and other net assets. All Shares of a Class have equal rights to distributions and redemptions.

Effective October 31, 2018, the portfolio AB FCP I – US Thematic Research Portfolio was renamed AB FCP I – Sustainable US Thematic Portfolio.

Effective July 1, 2019, the portfolio AB FCP I – Global Bond Portfolio was renamed AB FCP I – Short Duration Bond Portfolio.

NOTE B: Significant Accounting Policies

The Financial Statements have been prepared in accordance with Luxembourg legal and regulatory requirements. The following is a summary of significant accounting policies followed by the Portfolios.

1. Valuation

1.1 Investments in Securities

Securities listed on a stock exchange or traded on any other regulated market are valued at the last available price on such exchange or market or, if no such price is available, at the mean of the closing bid and asked price quoted on such day. If a security is listed on several stock exchanges or markets, the last available price on the stock exchange or market which constitutes the main market for such security is used.

Securities traded in the over-the-counter market, including securities listed on an exchange whose primary market is believed to be over-the-counter (but excluding securities traded on The Nasdaq Stock Market, Inc. (“NASDAQ”)) are valued at the mean of the current bid and asked prices. Securities traded on NASDAQ are valued in accordance with the NASDAQ Official Closing Price.

Securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at “fair value” as determined in accordance with procedures established by, and under the general supervision of, the Management Company’s board of managers (the “Board of Managers”). Fair valuation procedures are designed to adjust closing market prices of Portfolio securities to reflect what is believed to be the fair value of those securities at the Portfolio’s Valuation Point.

When fair valuation procedures are employed with respect to a particular Portfolio security, various objective and subjective factors may be considered, including, among other things, developments affecting the security or involving an entire market since the security’s latest reported price, current valuations of relevant stock indices or pronouncements of certain governmental authorities. Fair value prices based on third party vendor modeling tools may be utilized to the extent available. Therefore, when fair valuation procedures are employed, the prices of individual Portfolio securities utilized to calculate the Portfolio’s Net Asset Value (“NAV”) may differ from quoted or published prices for the same securities. Currently, fair value adjustments are only applicable to certain equity securities and futures contracts.

Accordingly, as may also be the case with a previously reported stock exchange price, the price of any Portfolio security determined utilizing fair value pricing procedures may be materially different from the price to be realized upon the sale of such security.

For Portfolio securities primarily traded on U.S. exchanges, it is expected that fair value pricing procedures are employed only under very limited circumstances such as, for example, the early closing of an exchange on which a particular security is traded or the suspension of trading in a particular security. However, it is anticipated that fair value pricing procedures will be utilized frequently for securities traded on non-U.S. exchanges or other markets, particularly European and Asian markets excluding India, because, among other reasons, these markets close well before the Portfolio’s Valuation Point. Between the close of these markets and the relevant Portfolio’s Valuation Point, significant events including broad market moves may occur. In particular events in the U.S. market on a trading day after the close of these mother markets may affect the value of the Portfolio’s securities. Japan Strategic Value Portfolio has adopted a policy to only fair value securities when deemed relevant based on the performance of a benchmark and relative capstock flows.

Fixed income securities (i), securities not listed on any stock exchange or traded on any regulated market (ii), and securities, trading of which on a stock exchange or a regulated market is thin (iii), are valued at the most recent bid price provided by the principal market makers. If there is no such market price, or if such market price is not representative of a security’s fair market value, then the security is valued in a manner determined to reflect its fair value in accordance with procedures established by, and under the general supervision of, the Board of Managers.

U.S. Government securities and any other debt instruments having 60 days or less remaining until maturity are generally valued at market by an independent pricing vendor, if a market price is available. If a market price is not available, the securities are valued at amortized cost. This methodology is commonly used for short-term securities that have an original maturity of 60 days or less, as well as short-term securities that had an original term to maturity that exceeded 60 days. In instances when amortized cost is utilized, the Valuation Committee of the Investment Manager (the “Committee”) must reasonably conclude that the utilization of amortized cost is approximately the same as the fair value of the security. Such factors the Committee will consider include, but are not limited to, an impairment of the creditworthiness of the issuer or material changes in interest rates. The Committee decisions are made in accordance with procedures established by, and under general supervision of, the Board of Managers.

Over-the-counter (“OTC”) swaps and other derivatives are valued daily, primarily using independent pricing services, independent pricing models using market inputs, as well as third party broker-dealers or counterparties.

1.2 Warrant Valuation

A listed warrant is valued at the last traded price provided by approved vendors. If there has been no sale on the relevant business day, the warrant is valued at the last traded price from the previous day. On the following days, the security is valued in good faith at fair value. All unlisted warrants are valued in good faith at fair value. Once a warrant has expired, it will no longer be valued.

1.3 Financial Futures Contracts

Initial margin deposits are made upon entering into futures contracts. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by “marking-to-market” on a daily basis to reflect the market value of the contract at the end of each day’s trading. Variation margin payments are made or received, depending upon whether unrealized losses or gains are incurred. When the contract is closed, a realized gain or loss is recorded. This realized gain or loss is equal to the difference between the proceeds from (or cost of) the closing transaction and the Portfolio’s basis in the contract.

Open futures contracts are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuations, the last available closing settlement price is used.

1.4 Forward Foreign Currency Contracts

The unrealized gain or loss on open forward foreign currency contracts is calculated as the difference between the contracted rate and the rate to close out the contract. Realized profit or loss includes net gains or losses on forward foreign currency contracts which have been settled or offset by other contracts with the same counterparty.

1.5 Options Purchased and Options Written

When an option is purchased, an amount equal to the premium paid is recorded as an investment and is subsequently adjusted to the current market value of the option purchased. Premiums paid for the purchase of options which expire unexercised are treated on the expiration date as realized losses. If a purchased put option is exercised, the premium is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or loss. If a purchased call option is exercised, the premium increases the cost basis of the security or foreign currency purchased by the relevant Portfolio. When an option is written, an amount equal to the premium received by the relevant Portfolio is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are treated by the relevant Portfolio on the expiration date as realized gains. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or a loss. If a written put option is exercised, the premium reduces the cost basis of the security or foreign currency purchased by the relevant Portfolio. Listed put or call options by a portfolio are valued at the last sale price. If there has been no sale on that day, such securities are valued at the closing bid prices on that day.

1.6 Investments in other Undertakings for Collective Investments (“UCIs”)

Investments in other UCIs are valued at the last available NAV for the UCI in question.

1.7 Swap Agreements

The Portfolios accrue for interim payments on swap contracts on a daily basis, within income and expenses. Swap contracts are marked to market on a daily basis with fluctuations in value recorded in “Unrealized appreciation (depreciation) on swaps” in the Statement of Assets and Liabilities and “Change in unrealized gains and losses on swaps” in the Statement of Operations and Changes in Net Assets. Once a swap contract has matured or is sold, the net amount is recorded as a “Realized gain or (loss) on investments” on the Statement of Operations and Changes in Net Assets. The upfront premiums paid or received are recognized as cost or proceeds on the Statement of Assets and Liabilities and are amortized on a straight line basis over the life of the contract. Accruals of amortized upfront premiums on credit default swaps are included in “Swap income” until the position is sold, thereafter the amortized upfront premiums are included in “Realized gains and (losses) on swaps”. On all other swap types the amortized upfront premiums are included within “Realized gains and (losses) on swaps”. Fluctuations in the value of swap contracts are recorded as a component of “Changes in unrealized gains and (losses) on swaps” on the Statement of Operations and Changes in Net Assets.

“Upfront premiums paid (received) on swap contracts” disclosed in the Statements of Assets and Liabilities include premiums paid (received) on the OTC credit default swaps and a margin that is yet to be settled on the centrally cleared credit default swaps.

2. Organization Expenses

The organization expenses of all existing Portfolios have been fully amortized in prior years.

3. Allocation Method

Income and expenses (except for class-specific management and distribution fees) for the “fixed income” and “balanced” Portfolios are allocated on a daily basis utilizing a hybrid allocation model. This model allocates based upon each class’ proportionate percentage of the combined value of settled shares for those classes which accrue a daily dividend and the value of the shares outstanding for those classes which accrue a monthly dividend or no dividend at all. Income and expenses for the “equity” Portfolios are allocated on a daily basis by each class’ value of their proportionate shares outstanding. For all of the Portfolios, realized and unrealized gains and losses are allocated on a daily basis by each class’ value of their proportionate shares outstanding. Class-specific management, management company, distribution fees and realized and unrealized gains and losses on forward foreign currency contracts related to the Currency Hedged Share Classes are charged /allocated directly to the respective class.

Due to the distinct institutional nature of all types of Class S shares of the Portfolios, certain fund expenses, where applicable, are allocated to the respective Class S shares based upon minimum shareholder activity and account level requirements.

4. Currency Translation

Values expressed in a currency other than the currency in which a Portfolio is denominated as determined by the Management Regulations are translated at the average of the last available buying and selling price. Transactions in foreign currencies are translated into the currency of each Portfolio at the exchange rate ruling at the date of the transactions.

The Combined Statement of Assets and Liabilities is presented in U.S. Dollars at the exchange rates ruling at the date of the combined Statement of Assets and Liabilities, while the

Combined Statement of Operations and Changes in Net Assets is presented in U.S. Dollars at the average exchange rates ruling during the year.

Exchange rates applied in the financial statements are: spot rate 1.0991 and average rate 1.1332 for EUR to USD, spot rate 0.0094 and average rate 0.0091 for JPY to USD.

The “Currency translation adjustment” presented in the Combined Statement of Operations and Changes in Net Assets is the result of the difference in exchange rates used to translate combined net assets at the beginning of the year, the Combined Statement of Assets and Liabilities and the Combined Statement of Operations and Changes in Net Assets.

5. Investment Income and Investment Transactions

Dividend income is recorded on the ex-dividend date. Interest income is accrued daily. Investment gains and losses for the Portfolios are determined on an average cost basis.

The Fund accretes discounts and amortizes premiums as adjustments, if applicable, to interest income. Investment transactions are recorded on trade date plus one day.

6. Estimates

The preparation of Financial Statements in conformity with accounting principles generally accepted in Luxembourg requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of income and expenses during the reporting period. Actual results may differ from those estimates.

NOTE C: Taxes

As a Luxembourg *fonds commun de placement* (FCP), the Fund is not subject, under present tax laws, to income, withholding or capital gains taxes in Luxembourg. The Fund is subject to the Luxembourg *taxe d'abonnement* at the rate of 0.05% per annum calculated and payable quarterly as the aggregate total net assets on the last day of each calendar quarter. The rate is 0.01% for share classes reserved to institutional investors within the

NOTE D: Distributions

The Management Company does not currently intend to pay dividends with respect to the shares for the following Portfolios: Global Equity Blend Portfolio, Sustainable US Thematic Portfolio. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.

For Dynamic Diversified Portfolio:

- For class AR shares (and corresponding H shares), the Management Company intends to declare and make annual distributions. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.
- For class A, B, C, I, S, S1, SP, S1P, AX, BX, CX and IX shares (and corresponding H shares), the Management Company currently does not intend to pay dividends with respect to the

7. Swing Pricing Adjustment (The following applies to all Portfolios except Global Equity Blend Portfolio, Global Value Portfolio, Short Duration Bond Portfolio and Global Bond II Portfolio)

The Management Company of the Fund has communicated to all shareholders of the Fund to implement a NAV Adjustment Policy, also known as “swing pricing” policy effective from November 2, 2015. Under this policy, a Portfolio's NAV may be adjusted to reflect the impact of estimated transaction costs, deal spreads and charges generated by shareholders' purchase and redemption activity. Swing pricing is automatically applied when daily net subscriptions or redemptions exceeds a threshold specified by the Swing Pricing Committee under the supervision of the Board of Managers. When swing pricing is applied, the NAV of the relevant Portfolio's shares will be adjusted up or down, in an amount generally not to exceed 2% of the relevant NAV, so that the transaction costs incurred due to the purchase and redemption activity are borne by the investors transacting in the Portfolio's shares, rather than the Portfolio itself. This adjustment is intended to minimize dilution of the value of shareholders' investment in shares of a Portfolio brought on by transactions in the Portfolio's shares.

The NAV per Share and the total Net Assets as disclosed in the statistical information are the published NAV per Share and the total Net Assets, whereas the total Net Assets disclosed in the Statement of Assets and Liabilities and Statement of Operations and Changes in Net Assets is the total NAV excluding any period end swing adjustments.

As of August 31, 2019, none of the Portfolios' NAV and the NAV per Share were swung.

meaning of Article 174 of the Law of 2010. Interest, dividends and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

In connection with an investment by a Portfolio into a separate Portfolio, *taxe d'abonnement* is waived in an amount equal to the Portfolio's pro rata share of the *taxe d'abonnement* accrued within the respective share class of the separate Portfolio.

Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.

For Global Value Portfolio:

- For class A, B, C, I, S, S1, SA GB, SB GB, S1A GB and S1B GB shares (and corresponding H shares), the Management Company currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.
- For class AD, BD and SD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may

result in a decrease in the NAV per share for the relevant class.

investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Emerging Markets Growth Portfolio:

- For class A, B, C, I, N, S and S1 shares (and corresponding H Shares), the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.
- For class AD and ED shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For China Opportunity Portfolio:

- For class A, B, C, I, S and S1 shares, the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to such Shares will be reflected in the respective NAV of such Shares.
- For class AD and BD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Asia Ex-Japan Equity Portfolio:

- For class A, B, C, I, S and S1 shares (and corresponding H shares), the Management Company currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.
- For class AY and class BY shares, the Management Company has discretion to declare and pay distributions based on the Portfolio's net income attributable to each class of Shares.
- For class AD, BD, ED, ID and SD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class.

For Short Duration Bond Portfolio:

- For class A, AX, B, BX, C, I, S and S1 shares (and corresponding H shares, unless noted otherwise), the Management Company intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For class AJ, AT, BT, CT, IT and NT shares (and corresponding H shares), the Management Company intends to declare and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For class AA, BA and SA shares (and corresponding H shares), the Management Company intends to declare and make monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes. For class AR shares (and corresponding H shares), the Management Company intends to declare and make annual distributions. The distribution rate is to be derived from gross income (before deduction of fees and expenses) and distributions may also include realized and unrealized gains and capital attributable to such classes of Shares. Since fees and expenses do not reduce the distribution rate, the NAV per Share of the relevant classes will be reduced by such fees and expenses.
- For class A2, B2, C2, I2, N2, S 2 and S1 2 shares (and corresponding H shares) and S EUR H, S1 EUR H, S SGD H shares, the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.

For Japan Strategic Value Portfolio:

- For class A, B, C, I, S, S1 and 2 shares (and corresponding H shares), the Management Company currently does not intend to pay distributions with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective NAV of the Shares.
- For class AD, BD and SD shares (and corresponding H shares), the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a stable distribution rate per share for such share classes, and therefore distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the

For Global High Yield Portfolio:

- For class A, B, C, I, JA, J and W shares (and corresponding H shares), the Management Company intends to declare daily and pay monthly dividends equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.
- For class AT, BT, CT, IT, NT, S1D, S1D2 and WT shares (and corresponding H shares), the Management Company intends to declare and pay monthly dividends equal to all or

substantially all of the Portfolio's net income attributable to each class of Shares.

- For class IQD and SIQD shares, the Management Company intends to declare and pay quarterly dividends equal to all or substantially all of the Portfolio's net income attributable to the class of Shares. For class SK shares, the Management Company may declare and pay dividends at its discretion.
- For class AK and CK shares (and corresponding H shares), the Management Company intends to declare and pay bi-annually dividends equal to all or substantially all of the Portfolio's net income attributable to the relevant class of Shares.
- For class AM shares, the Management Company intends to declare and pay monthly distributions. The Management Company intends to maintain a fixed distribution of 7% (annualized) per share for AM shares. As such, distributions may come from net income, realized and unrealized gains and/or capital attributable to the relevant class. Distributions from capital may represent a return of the investor's original investment amount and as such may result in a decrease in the NAV per share for the relevant class. The Management Company will periodically review the level of income and expenses at the AM class level, along with the fixed distribution percentage and may decide to decrease or increase the fixed distribution percentage. Such percentage will be reflected in the next update of the prospectus and in the meantime, shareholders may obtain the latest percentage at www.alliancebernstein.com.

The following table shows expenses borne by the Management Company during the year ended August 31, 2019 and reimbursement receivable at August 31, 2019:

AB FCPI-	Expenses borne	Reimbursement receivable
Dynamic Diversified Portfolio	\$ 191,336	54,091
Global Equity Blend Portfolio	\$ 6,299	937
Sustainable US Thematic Portfolio .	\$ 101,529	4,303
Asia Ex-Japan Equity Portfolio	\$ 29,266	3,299
Japan Strategic Value Portfolio	¥ 93,862	57,747
Emerging Markets Debt Portfolio ..	\$ -	3,407
Mortgage Income Portfolio	\$ 1,563	17,711

Expenses borne by the Management Company are included in the Statement of Operations and Changes in Net Assets under “Expense reimbursed or waived”. Reimbursement receivable is included in the Statement of Assets and Liabilities under “Other receivables” or in “Accrued expenses and other liabilities”.

The Fund also pays the Management Company a management company fee.

Specific share classes of each Portfolio pay the Distributor, a distribution fee, which is a compensation for providing distribution-related services to the Fund with respect to such shares.

All of the aforementioned fees are accrued at an annual rate on the average daily net assets of each Portfolio and paid monthly.

A list of each Portfolio’s annual rate for their applicable fees can be found in Table 1 (Pages 200 to 210).

Also, all types of Class B shares are subject to a contingent deferred sales charge at rates of between 0.00% and 4.50%, all types of Class C shares are subject to a contingent deferred sales charge at rates between 0.00% and 1.00%. Class E and Class J shares are subject to a contingent deferred sales charge at rates between 0.00% and 3.00%. The actual rate will depend on the Portfolio and the period of time the shares are held.

The Fund compensates its registrar and transfer agent, Alliance Bernstein Investor Services, a unit of the Management Company, for providing personnel and facilities to perform registrar and transfer agency services for the Fund. Such compensation amounted to \$19,860,466 for the year ended August 31, 2019.

The Fund compensates the Investment Manager for certain services provided to the Fund in connection with the registration of the Fund for sale in certain jurisdictions outside of Luxembourg, subject to certain conditions. Such compensation amounted to \$1,241,723 for the year ended August 31, 2019 and is included in “Professional fees” in the Statement of Operations and Changes in Net Assets.

The Fund compensates its legal adviser, Elvinger Hoss Prussen, société anonyme (of which Mr. Yves Prussen, a manager of the Management Company, is a partner) for legal services rendered to the Fund. Payments of € 49,094 were made for the year ended August 31, 2019 and are included in “Professional fees” in the Statement of Operations and Changes in Net Assets.

The Investment Manager has not entered into transactions in relation to a placing and/or a new issue in which a connected person had a material interest as a member of the underwriting syndicate.

All transactions executed on behalf of the Fund were entered into in the ordinary course of business and/or normal commercial terms. The total aggregate value of the transactions of the Fund effected through the affiliated firms, Sanford C. Bernstein & Co., LLC and Sanford C. Bernstein Ltd. were \$159,948. Such transactions represent less than 0.01% of total transactions. There was \$22 in commission paid for the year ended August 31, 2019 on securities transactions utilizing the services of the affiliated firms, Sanford C. Bernstein & Co. LLC and Sanford C. Bernstein Ltd. Several of the Fund’s directors are employees and/or officers of the Investment Manager and/or its affiliates.

Dynamic Diversified Portfolio invests in AB SICAV I – Low Volatility Equity Portfolio which is managed by the Management Company. China Opportunity Portfolio invests in AB SICAV I – China A Shares Equity Portfolio which is managed by the Management Company. Global High Yield Portfolio invests in AB SICAV I – Emerging Market Corporate Debt Portfolio, AB SICAV I – Euro High Yield Portfolio, AB SICAV I – Asia Income Opportunities Portfolio, AB SICAV I – Emerging Market Local Currency Debt Portfolio, AB SICAV I – US High Yield Portfolio and AB SICAV I – Financial Credit

Portfolio, which are managed by the Management Company. Emerging Markets Debt Portfolio invests in AB SICAV I – Emerging Market Corporate Debt Portfolio which is managed by the Management Company.

The Fund may purchase securities from, or sell securities to, an affiliated fund provided the affiliation is due solely to having a common investment advisor, common officers, or common directors. For the year ended, there were no purchase and sale transactions with an affiliated fund.

NOTE F: Soft Commission Arrangements and Transaction Costs

During the year ended August 31, 2019, the Investment Manager received and entered into soft-dollar commissions/arrangements with brokers relating to Portfolios of the Fund that invest in equity securities, in respect of which certain goods and services used to support the investment decision making process were received.

The soft commission arrangements were entered into on the basis that the execution of transactions on behalf of the Fund will be consistent with best execution standards and brokerage rates will not be in excess of customary institutional full-service brokerage rates.

The goods and services received include specialist industry, company and consumer research, portfolio and market analysis and computer software used for the delivery of such services. The nature of the goods and services received is such that the benefits provided under the arrangement must be those which assist in the provision of investment services to the Fund and may contribute to an improvement in the Fund’s performance.

For the avoidance of doubt, such goods and services do not include travel, accommodations, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employees’ salaries or direct money payments.

Transaction costs are costs incurred in the acquisition, issue or disposal of transferable securities, money market instruments, derivatives or other eligible assets. They can include bid-ask spread, fees and commissions paid to agents, advisers, brokers and dealers, transaction related taxes and other market charges.

They do not include debt premiums or discounts, financing costs or internal administrative or holding costs. Transaction costs are included within the cost of investments in the Portfolio of Investments as well as in the “Realized gains and (losses) on investments” and “Changes in unrealized appreciation and (depreciation) on investments” in the Statement of Operations and Changes in Net Assets. Transaction costs are excluded from the Total Expense Ratio and/or expense reimbursement calculation.

For the year ended August 31, 2019, the amount of transaction costs incurred by each Portfolio is detailed in the following table:

AB FCPI-	Transaction costs

NOTE G: Forward Foreign Currency Contracts

A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contract and the closing of such contract is included in “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” in the Statement of Operations and Changes in Net Assets.

Fluctuations in the value of open forward foreign currency contracts are reflected for financial reporting purposes as a component of unrealized appreciation/(depreciation) on forward foreign currency contracts.

One or more of a Portfolio’s share classes offered in a particular currency (each, an “Offered Currency”) may be hedged to such Offered Currency. Any such share class will constitute a “Currency Hedged Share Class”. Currency Hedged Share Classes aim to provide investors a return more closely correlated to the Portfolio’s base currency return by reducing the effect of exchange rate fluctuations between the Portfolio’s

base currency and the relevant Offered Currency, taking into account practical considerations such as transaction costs.

The hedging strategy employed is designed to reduce, but may not eliminate, currency exposure between the Portfolio’s base currency and the relevant Offered Currency.

Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the hedged currency.

Given that there is no segregation of liabilities between the various share classes within a Portfolio, there is a remote risk that, under certain circumstances, currency hedging transactions in relation to a Currency Hedged Share Class could result in liabilities which might affect the NAV of the other share classes of the same Portfolio, in which case assets of the other share classes of the Portfolio may be used to cover the liabilities incurred by such Currency Hedged Share Class.

The securities in the Fund are used as collateral for forward foreign currency contracts including contracts used for share class hedging.

NOTE H: Repurchase Agreements

Repurchase agreements are collateralized by obligations of the United States, its agencies or instrumentalities thereof. The securities underlying the repurchase agreement will be held by the Depository at all times in an amount at least equal to the repurchase price, including accrued interest.

At August 31, 2019, there were no repurchase agreements.

There was no interest income arising from repurchase agreements during the year ended August 31, 2019.

NOTE I: Reverse Repurchase Agreements

Reverse repurchase agreements are identical to repurchase agreements except that rather than buying securities for cash subject to their repurchase by the seller, a Fund sells portfolio assets concurrently with an agreement by the Fund to repurchase the same assets at a later date at a fixed price slightly higher than the sale price. During the reverse repurchase agreement period, the Fund continues to receive principal and interest payments on these securities. Generally, the effect of a reverse repurchase agreement is that the Fund can recover all or most of the cash invested in the portfolio securities involved during the term of the reverse repurchase agreement, while it will be able to keep the interest income associated with those portfolio securities.

Such transactions are advantageous only if the “interest cost” to the Fund of the reverse repurchase transaction, i.e., the difference between the sale and repurchase price for the securities, is less than the cost of otherwise obtaining the cash invested in portfolio securities.

At August 31, 2019, there were no reverse repurchase agreements.

The total interest expense arising from reverse repurchase agreements during the year ended August 31, 2019 was \$18,769 and is included in the Statement of Operations and Changes in Net Assets under “Interest”.

NOTE J: Financial Futures Contracts

The Fund may buy or sell financial futures contracts. The Fund bears the market risk that arises from changes in the value of these financial instruments. The Fund’s activities in financial futures contracts are conducted through regulated exchanges, which do not result in counterparty credit risk.

At the time the Fund enters into a financial futures contract the Fund deposits and maintains with the broker as collateral an initial margin as required by the exchange on which the transaction is effected.

Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as the variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or (loss) equal to the difference between the value of the contract at the time it was opened and the time it was closed.

NOTE K: Swap Transactions

A swap is an agreement that obliges two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset or otherwise determined notional amount. Realized gains and (losses) and changes in unrealized gains and (losses) on swaps are included in the Statement of Operations and Changes in Net Assets respectively under “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” and as a component of “Change in unrealized gains and (losses) on swaps”.

Centrally Cleared Credit Default Swaps

The buyer in a centrally cleared credit default swap agreement is obliged to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

Centrally Cleared Interest Rate Swaps

A centrally cleared interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payments based on a notional amount that serves as a computation basis.

Total Return Swaps

A total return swap is a bilateral agreement in which each of the parties agree to exchange the total performance of an underlying asset for a series of interest payments based on a notional amount that serves as a computation basis.

Credit Default Swaps

The buyer in a credit default swap agreement is obliged to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

Interest Rate Swaps

An interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payments based on a notional amount that serves as a computation basis.

Inflation Swaps

An inflation swap is a bilateral agreement in which each of the parties agree to exchange fixed rate payments for floating, inflation index linked payments based on a notional amount that serves as a computation basis.

NOTE L: Option Transactions

The Fund may purchase and write (sell) put and call options on securities. The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as Portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the option written.

Premiums received from written options which expire unexercised are recorded by the Fund on the expiration date as realized gains from options written. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium received is less than the amount paid for the closing purchase transaction, as a realized loss.

If a call option is exercised, the premium received is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option. Exercise of an option written by the Fund could result in the Fund selling or buying a security or currency at a price different from the current market value.

The Fund may also invest in options on swap agreements, also called swaptions. A swaption is an option that gives the buyer the right, but not the obligation, to enter into a swap on a future date in exchange for paying a market-based premium. A receiver swaption gives the owner the right to receive the total return of a specified asset, reference rate, or index. A payer swaption gives the owner the right to pay the total return of a specified asset, reference rate, or index. Swaptions also include options that allow an existing swap to be terminated or extended by one of the counterparties.

There were no open option contracts as at August 31, 2019.

NOTE N: Loans of Portfolio Securities

A Portfolio may make secured loans of its securities. The risks in lending securities, as with other extensions of credit, consist of possible loss of rights in the collateral should the borrower fail financially. In addition, a Portfolio will be exposed to the risk that the sale of any collateral realized upon the borrower’s default will not yield proceeds sufficient to replace the loaned securities.

In determining whether to lend securities to a particular borrower, the Investment Manager will consider all relevant facts and circumstances, including the creditworthiness of the borrower.

While securities are on loan, the borrower may pay the Portfolio concerned any income from the securities. The Portfolio may invest any cash collateral in money market instruments, thereby earning additional income, or receive an agreed upon amount of income from a borrower who has delivered equivalent collateral.

The Portfolio may have the right to regain record ownership of loaned securities or equivalent securities in order to exercise ownership rights such as voting rights, subscription rights and rights to dividends, interest or distributions. The Portfolio may pay reasonable finders’, administrative and other fees in connection with a loan.

For making secured loans of its securities, a Portfolio receives gross fee income, of which 20% is paid to the securities lending agent for providing securities lending services.

For the year ended August 31, 2019, the Portfolios earned a net fee income, which is presented in Statement of Operations and Changes in Net Assets under “Securities lending income, net”.

For the year ended August 31, 2019, Brown Brothers Harriman (acting as securities lending agent) earned a fee of \$116,117 for providing securities lending services. This is included in the Statement of Operations and Changes in Net Assets under “Securities lending income, net”. The value of loaned securities and related collateral outstanding as of August 31, 2019, are as below. The collateral relates to securities held on the Portfolios.

NOTE O: Unfunded Loan Commitments

The Fund may enter into certain credit agreements, all or a portion of which may be unfunded. These unfunded loan commitments are contractual obligations for future funding, for which the Fund may receive a commitment fee based on the amount of commitment.

As of August 31, 2019, the following Portfolios had the following unfunded loan commitments, transacted through Credit Suisse, which could be extended at the option of the borrower pursuant to the respective loan agreements.

AB FCPI-	Borrower	Unfunded Loan Commitments	Funded
Global High Yield Portfolio	Allied Universal Holdco LLC (fka USAGM Holdco, LLC), LIBOR + 3.250%, 7/10/26	\$ 493,858	-

NOTE P: Bank Facility

The Fund has access to an overdraft facility (the "Facility"), established with the Depository, intended to provide for short-term/temporary financing if necessary, subject to certain restrictions, in connection with abnormal redemption activity.

NOTE Q: Co-Management of Assets

For the purpose of effective management, where the investment policies of a Portfolio so permit, the Management Company may choose to co-manage assets of certain Portfolios within or outside the Fund. In such cases, assets of different Portfolios will be managed in common. The assets which are co-managed shall be referred to as a "pool". These pooling arrangements are an administrative device designed to reduce operational and other expenses and do not change the legal rights and obligations of Shareholders. The pools do not constitute separate entities and are not directly accessible to investors. Each of the co-managed Portfolios shall remain entitled to its specific assets.

Where assets of several Portfolios are pooled for the purposes of collective management, a record is maintained of the proportion

For the year ended August 31, 2019, Global High Yield Portfolio and American Income Portfolio received an upfront payment for the trading discount in assuming the Allied Universal Holdco LLC loans of \$4,939 and \$3,278, respectively.

For the year ended August 31, 2019, Global High Yield Portfolio and American Income Portfolio earned commitment fee income of \$40,569 and \$26,925, respectively. These amounts are included in "Interest" in the Statement of Operations and Changes in Net Assets.

Each Portfolio of the Fund is limited to borrowing 10% of its respective net assets. Borrowings pursuant to the Facility are subject to interest at a mutually agreed upon rate and security by the underlying assets of each Portfolio.

of the Asset Pool which is attributable to each respective participating Portfolio, with a reference to the Portfolio's original participation in this Pool and will change in the event of additional allocation or withdrawals. The entitlements of each participating Portfolio to the co-managed assets apply to each and every line of investments of such pool.

Additional investments made on behalf of the co-managed Portfolios shall be allotted to such Portfolios in accordance with their respective entitlement, whereas assets sold shall be levied similarly on the assets attributable to each participating Portfolio.

As of August 31, 2019, the Fund co-manages the assets of certain Portfolios within the Fund utilizing the following Pools:

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of AB FCPI

Opinion

We have audited the financial statements of AB FCP I (the "Fund") and of each of its portfolios, which comprise the statement of assets and liabilities and the portfolio of investments as at August 31, 2019, and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its portfolios as at August 31, 2019, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (the "Law of July 23, 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of July 23, 2016 and ISAs are further described in the "Responsibilities of the *réviseur d'entreprises agréé*" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Managers of the Management Company is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the *réviseur d'entreprises agréé* thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Managers of the Management Company for the financial statements

The Board of Managers of the Management Company is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal

control as the Board of Managers of the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Managers of the Management Company is responsible for assessing the Fund's and each of its portfolios' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Managers of the Management Company either intends to liquidate the Fund or any of its portfolios or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the *réviseur d'entreprises agréé* for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of *réviseur d'entreprises agréé* that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Managers of the Management Company.
- Conclude on the appropriateness of the Board of Managers of the Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its portfolios' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of *réviseur d'entreprises agréé* to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence

obtained up to the date of report of “réviseur d’entreprises agréé”. However, future events or conditions may cause the Fund or any of its portfolios to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

BNP Paribas Securities Services, Paris, succursale de Zürich, was authorized by the Swiss Financial Market Supervisory Authority as Swiss representative of the Fund, and also acts as paying agent. The Prospectus, the Management Regulations, the annual and semi-annual reports, as well as the list of the purchases and sales which the Fund has undertaken during the financial year, may be obtained, on simple request and free of charge, at the head office of the Swiss representative, BNP Paribas Securities Services, Paris, succursale de Zürich, Selnaustrasse 16, CH-8002 Zürich, Switzerland.

The Key Investor Information Documents (KIIDs) of the Fund are made available at www.alliancebernstein.com/go/kiid.

Notice to Shareholders

If required by law and applicable regulations, notice to shareholders will be published in the *Recueil Electronique des Sociétés et Associations* (formerly the *Mémorial*) and in such other newspaper(s) in such countries as the Management Company may from time to time determine.

Changes in the Investment Portfolio

Changes in the Portfolio of Investments during the reporting year are available free of charge to the Shareholders at the registered office of the Management Company.

Controversial Weapons Policy

The Management Company arranges for the screening of companies globally for their corporate involvement in anti-personnel mines, cluster munitions and/or munitions made with depleted uranium. Where such corporate involvement has been verified, the Management Company's policy is not to permit investment in securities issued by such companies by the Fund.

Value at Risk

For UCITS the Value at Risk (VaR) can be measured on an absolute or a relative basis. VaR is a widely used risk measure of the risk of loss on a specific portfolio of financial assets. The Investment Manager monitored the total global exposure (market risk) of the equity Portfolios for the year ended August 31, 2019

utilizing the VaR calculated on a relative basis (pursuant to which the VaR of the relevant Portfolio may not exceed twice the VaR of the relevant reference benchmark). During the aforementioned year the low, high and average VaR of the Portfolios measured on a relative basis were as follows:

Portfolio	Benchmark	Low	High	Average
Global Equity Blend Portfolio	MSCI World	95.16%	109.95%	101.43%
Global Value Portfolio	MSCI World	86.14%	109.93%	96.32%
Emerging Markets Growth Portfolio	MSCI Emerging Markets Index	93.59%	117.22%	105.49%
Sustainable US Thematic Portfolio	S&P 500	82.19%	106.50%	91.41%
Asia Ex-Japan Equity Portfolio	MSCI All Countries Asia Free X Japan	106.88%	137.74%	119.03%
Japan Strategic Value Portfolio	TOPIX Index (Tokyo)	80.00%	112.05%	93.20%
China Opportunity Portfolio	MSCI China Index	75.53%	106.74%	91.06%

For the Fixed Income Portfolios, the Investment Manager monitored the global exposure (market risk) utilizing the VaR calculated on an absolute basis (pursuant to which the VaR of the relevant Portfolio may not exceed 20% of its NAV).

During the aforementioned fiscal year, the low, high and average VaR of the Portfolios measured on an absolute basis were as follows:

Portfolio	Low	High	Average
Dynamic Diversified Portfolio	4.95%	6.25%	5.45%
Short Duration Bond Portfolio	0.23%	1.64%	0.38%
Global High Yield Portfolio	1.49%	3.91%	2.41%
American Income Portfolio	1.03%	2.02%	1.48%
European Income Portfolio	1.49%	4.53%	2.58%
Emerging Markets Debt Portfolio	3.43%	7.08%	4.67%
Mortgage Income Portfolio	0.22%	0.53%	0.37%
Global Bond II Portfolio	1.15%	3.11%	1.62%

The VaR of the Portfolios and the VaR of the benchmarks were calculated based on a "historical" model with a 99% confidence

level and an observation period of one month or 20 days.

Leverage

For the Portfolios listed below, the Investment Manager does not expect to utilize bank borrowing in implementing the Portfolios' investment strategy.

The expected level of leverage is calculated as the sum of the notionals of the financial derivative instruments held by the Portfolio. Pursuant to the CSSF Circular 11/512 dated May 30, 2011, this calculation methodology neither takes into account the fact that a particular financial derivative instrument

increases or decreases the Portfolio's investment risks nor permits to net financial derivative instruments with reverse positions. Shareholders should be aware that (i) a higher level of expected leverage does not automatically imply a higher level of investment risk and (ii) the expected level of leverage disclosed above is mainly generated by the use of derivatives for hedging purposes or for efficient portfolio management. In addition, the actual leverage of the Portfolio may deviate from the below mentioned expected level of leverage:

- Dynamic Diversified Portfolio
0%-300% range of the NAV of the Portfolio
- Global Equity Blend Portfolio
0%-50% range of the NAV of the Portfolio
- Global Value Portfolio
0%-50% range of the NAV of the Portfolio
- Emerging Markets Growth Portfolio
0%-50% range of the NAV of the Portfolio
- Asia Ex-Japan Equity Portfolio
0%-50% range of the NAV of the Portfolio
- Japan Strategic Value Portfolio
0%-50% range of the NAV of the Portfolio
- China Opportunity Portfolio
0%-50% range of the NAV of the Portfolio
- Short Duration Bond Portfolio
0%-100% range of the NAV of the Portfolio
- Global High Yield Portfolio
0%-100% range of the NAV of the Portfolio
- American Income Portfolio
0%-100% range of the NAV of the Portfolio
- European Income Portfolio
0%-100% range of the NAV of the Portfolio
- Emerging Markets Debt Portfolio
0%-100% range of the NAV of the Portfolio
- Mortgage Income Portfolio
0%-100% range of the NAV of the Portfolio
- Global Bond II Portfolio
50%-250% range of the NAV of the Portfolio

As a result of using the sum of notionals approach the average leverage of the Portfolios for the year ended August 31, 2019 was:

Portfolio	Leverage
Dynamic Diversified Portfolio	117.38%
Global Equity Blend Portfolio	32.44%
Global Value Portfolio	17.56%
Emerging Markets Growth Portfolio	0.84%
Asia Ex-Japan Equity Portfolio	0.01%
Japan Strategic Value Portfolio	0.01%
China Opportunity Portfolio	0.01%
Short Duration Bond Portfolio	115.93%
Global High Yield Portfolio	79.32%
American Income Portfolio	56.30%
European Income Portfolio	36.63%
Emerging Markets Debt Portfolio	25.63%
Mortgage Income Portfolio	13.51%
Global Bond II Portfolio	216.79%

For the Sustainable US Thematic Portfolio the Investment Manager used the commitment approach pursuant to the CSSF Circular 11/512 dated May 30, 2011 to monitor global exposure (market risk) resulting from the use of financial derivative instruments. Consequently, the net derivatives exposure created by derivative transactions combined with cash and other assets will closely approximate the NAV of the Portfolio.

As a result of using the commitment approach, the average leverage of the Sustainable US Thematic Portfolio for the year ended August 31, 2019 was 0.00%.

Remuneration

From January 1, 2018 until December 31, 2018 (the "Reference Period"), the total amount of remuneration paid—in cash and/or restricted securities—by AllianceBernstein (Luxembourg) S.à r.l. ("the Company") to its entire staff (composed during the Reference Period in average of 44 employees, including its branch) was EUR 3.875 million.

In particular, during the Reference Period, the total amount of remuneration mentioned above was split into fixed and variable remuneration as follows:

- Fixed remuneration: EUR 3,320,345
- Variable remuneration: EUR 554,659

No fees based on the performance of the Fund or carried interest are used to remunerate employees of the Company.

During the Reference Period, no remuneration was paid by the Fund and/or the Company to the identified staff of the Investment Manager.

The total amount of remuneration paid to senior management and members of staff of the Company whose actions have a

material impact on the risk profile of the Fund or falling within the remuneration bracket of senior management and risk takers during the Reference Period was EUR 1,462,715.

Please note that above figures are provided for all services provided by the Company and they do not represent a breakdown at the level of the Fund.

Detailed information relating to—amongst others—the financial and non-financial criteria of the remuneration policies and practices, on decision-making process used to determine the remuneration policy, and on how pay and performance are linked are available in the Remuneration Statement published on AB Global website at the following address:

www.alliancebernstein.com/go/remuneration_policy

Over the Reference Period, a review of the Remuneration Policy and of its implementation has been carried out and it did not evidence any irregularity. Finally, no material change on the Remuneration Policy as it was initially designed occurred over the Reference Period.

Securities Financing Transaction Regulation

The Securities Financing Transaction Regulation (“the SFTR”) introduces reporting requirements for securities financing transactions (“SFTs”) and total return swaps.

A SFT is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

As at August 31, 2019, the Fund was engaged in securities lending and held total return swaps (TRS) as type of transaction in scope of the SFTR.
