獨立會計師報告

致瑞銀（盧森堡）股票基金公司股東

會計師意見

依據本會計師意見，此財務報表係依據盧森堡與財務報表編製相關之法律與規章之規定編製，足以真實及允當表達瑞銀（盧森堡）股票基金公司（「本基金」）及其子基金截至 2023 年 5 月 31 日為止之財務狀況，以及自 2022 年 6 月 1 日起至 2023 年 5 月 31 日之營運結果及淨資產變動狀況。

本會計師查核內容

本財務報表包含：

- 截至 2023 年 5 月 31 日為止之本基金合併資產負債表以及各子基金資產負債表；
- 2022 年 6 月 1 日起至 2023 年 5 月 31 日之本基金合併損益表及各子基金損益表；
- 2022 年 6 月 1 日起至 2023 年 5 月 31 日之本基金合併淨資產變動表及各子基金淨資產變動表；
- 截至 2023 年 5 月 31 日為止各子基金之證券投資及其他淨資產報表；以及
- 包含重大會計政策摘要在內之財務報表附註。

意見之基礎

本會計師查核係根據 2016 年 7 月 23 日頒布之審計行業法律以及盧森堡金融業監管委員會(Commission de Surveillance du Secteur Financier, CSSF)所採行之國際審計準則(ISAs)。本會計師依據這些法律和標準下之責任詳細描述於本報告「傘型基金查核會計師(Réviseur d'entreprises agréé)查核財務報表之責任」章節。

本會計師相信取得之查核證據係足夠且適當的，為本會計師之意見提供基礎。

根據盧森堡金融業監管委員會(CSSF)所採用的國際會計師倫理標準委員會之專業會計師倫理守則(IESBA Code)及審查會計報表所要求的相關道德規範，本會計師獨立於本基金。本會計師已履行及遵守這些道德責任。

強調事項

請注意本財務報表附註 15，該附註表明本基金董事會決定自 2022 年 2 月 25 日起暫停子基金瑞銀(盧森堡)俄羅斯股票基金(美元)的資產淨值計算、股份的發行、贖回及轉換，俾於俄羅斯受到制裁後保護投資人的利益，因制裁導致子基金的大部分資產無法交易或估值。我們的意見未因此事而改變。

其他資訊

本基金董事會須對其他資訊負責。其他資訊包括年報內之所有訊息，但不包括財務報表及本會計師之查核報告。

本會計師對財務報表之意見並不涵蓋其他資訊，我們亦不會對該等資訊表達任何形式之保證。

基於本會計師對財務報表之查核，本會計師之責任係閱讀前述之其他資訊，並在此過程中，考慮該等資訊與財務報表或本會計師查核過程中所了解之情況，是否存在重大抵觸或重大錯誤之陳述。若有上述情形，本會計師有報告的義務。針對這一部分，本會計師認為並無需要報告之情事。

本基金董事會對本基金及財務報表應負之責任

本基金董事會須負責依據盧森堡與財務報表編製相關之法律與規章規定，編製與公允表達前述財務報表，並依本基金董事會認為必要之內部控制，使編制之財務報表免於出現由於舞弊或錯誤而導致之重大誤述。

編制財務報表時，本基金董事會須負責評估本基金及各子基金之持續經營能力，並以持續經營之會計基礎酌情揭露與持續經營相關的事項，除非本基金董事會有意清算本基金或關閉任何子基金或停止運營，或除此之外別無其他實際可行之替代方案。

傘型基金查核會計師(Réviseur d'entreprises agréé)查核財務報表之責任

本會計師查核之目標係取得整個財務報表是否無因舞弊或錯誤導致重大誤報之合理確信，並發布包含本會計師意見之「傘型基金查核會計師」報告。合理確信係高度確信，但不能保證本會計師依據盧森堡金融業監管委員會(Commission de Surveillance du Secteur Financier, CSSF)所採行之國際審計準則(ISAs)，及按2016年7月23日頒布之審計業法律進行之查核工作能完全發現已存在之誤報。誤報可能是由於舞弊或錯誤所造成，自個別或整體觀之，若能合理地預期此誤報會影響使用者依據財務報表所做出之經濟決策，則可視為重大。

本會計師除依據專業判斷和道德規範進行查核工作(係依2016年7月23日發佈之法律及CSSF所採用之國際審計準則)，亦進行下列程序：

- 辨別並評估舞弊或錯誤所造成之財務報表之重大誤報風險，設計並執行對應這些風險之查核程序，以及獲取充分且適當之查核證據作為會計師意見之基礎。舞弊可能涉及串通、偽造、蓄意遺漏、虛假陳述或忽視內部控制，故未發現到由舞弊造成之誤報風險高於由錯誤引起之重大誤報風險。
- 了解與審計相關之內部控制，以設計適當之查核程序，但並非對本基金內部控制之有效性意見。
- 評估本基金董事會所採用之會計政策之適當性以及會計估計和相關揭露之合理性。

- 對本基金董事會使用持續經營會計基礎之適當性作出結論，並根據獲得之查核證據確定是否存在相關事件或情況可能導致本基金或任何子基金之持續經營能力產生重大疑慮之重大不確定性。若本會計師認為存在重大不確定性，本會計師須於傘型基金查核會計師報告或相關財務報告揭露事項中提請注意，若該等揭露不具適當性，則可修改本會計師之意見。本會計師係根據最新傘型基金查核會計師報告之查核證據做出結論。但未來之事件或情況可能導致本基金或任何子基金停止持續經營。
- 評估財務報表之整體表述、結構及內容，包括揭露，以及財務報表是否以公正表述之方式陳述基礎交易和事件。

除其他事項外，本會計師與管理階層溝通查核之計劃範圍和時間安排，以及重要查核結果，包括本會計師查核過程發現之任何內部重大控制缺失。

PricewaterhouseCoopers, Société coopérative

The sales prospectus, the PRIIPs KID (Packaged Retail and Insurance-based Investment Products Key Information Document), the articles of association of the Company, the annual and semi-annual reports as well as the portfolio movements of the Company mentioned in this publication are available free of charge at the sales agencies and at the registered office of the Company.

Features of the Company

UBS (Lux) Equity SICAV (hereinafter called the “company”) offers investors various subfunds (“umbrella structure”) which invest in accordance with the investment policy described in the sales prospectus. The specific details on each subfund are defined in the sales prospectus, which will be updated on the launch of each new subfund.

The Company was established on 7 October 1996 as an open-ended investment fund in the form of a SICAV pursuant to Part I of the Luxembourg Law of 30 March 1988 relating to undertakings for collective investment and was adapted in March 2005 to conform to the provisions of the Law of 2002; it has been subject to the amended Law of 2010 since 1 July 2011.

Effective 15 June 2011, the company has appointed UBS Fund Management (Luxembourg) S.A., R.C.S. Luxembourg 154 210, as its Management Company.

The Articles of Incorporation were published in the “Mémorial, Recueil des Sociétés et Associations”, hereinafter called “Mémorial”, of 8 November 1996. The consolidated version of the Articles of Incorporation of the Company is deposited at the Trade and Companies Register (Registre de Commerce et des Sociétés) in Luxembourg for inspection. Any amendments are shall be published in the “Recueil Electronique des Sociétés et Associations” (“RESA”) by meansway of a notice of deposit in the Mémorial, in a Luxembourg daily newspaper and, if necessary, in the manner described in the official section entitled “Regular reports and publications of the individual distribution countries.” of the sales prospectus. Amendments become legally binding following their approval by the general meeting of shareholders.

As at 31 May 2023 the following subfunds are active:

Currently the following share classes are available: Various share classes can be offered for the subfunds. Information on which share classes are available for which subfund can be obtained from the Administrative Agent or at www.ubs.com/funds.

Shares are issued as registered shares only.

“P”

Shares in classes with “P” in their name are available to all investors. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

“N”

Shares in classes with “N” in their name (shares with restrictions on distribution partners or countries) are issued exclusively through distributors authorised by UBS Asset Management Switzerland AG and domiciled in Spain, Italy, Portugal and Germany, or in other distribution countries insofar as this has been decided by the Company. No entry costs shall be charged for these classes, even if they have additional characteristics. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100,

GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

“K-1”

Shares in classes with “K-1” in their name are available to all investors. Their smallest tradable unit is 0.001. The minimum investment amount is equivalent to the initial issue price of the unit class and is applicable on the level of the clients of financial intermediaries. This minimum investment amount must be met or exceeded with every subscription order that is placed. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 5 million, BRL 20 million, CAD 5 million, CHF 5 million, CZK 100 million, DKK 35 million, EUR 3 million, GBP 2.5 million, HKD 40 million, JPY 500 million, NOK 45 million, NZD 5 million, PLN 25 million, RMB 35 million, RUB 175 million, SEK 35 million, SGD 5 million, USD 5 million or ZAR 40 million.

“K-B”

Shares in classes with “K-B” in their name are exclusively reserved for investors who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised distribution partners on investing in one or more subfunds of this umbrella fund. The costs for asset management are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

“K-X”

Shares in classes with “K-X” in their name are exclusively reserved for investors who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised distribution partners on investing in one or more subfunds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

“F”

Shares in classes with “F” in their name are exclusively reserved for UBS Group AG affiliates. The maximum flat fee for this class does not include distribution costs. These shares may only be acquired by UBS Group AG affiliates, either for their own account or as part of discretionary asset management mandates concluded with UBS Group AG companies. In the latter case, the shares

will be returned to the Company upon termination of the mandate at the prevailing net asset value and without being subject to charges. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

“Q”

Shares in classes with “Q” in their name are exclusively reserved for financial intermediaries that (i) make investments for their own account, and/or (ii) receive no distribution fees in accordance with regulatory requirements, and/or (iii) can only offer their clients classes with no retrocessions, where these are available in the investment fund in question, in accordance with written agreements or agreements on fund savings plans concluded with their clients. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the subfund. The Company and the Management Company are not liable for any tax consequences that may result from a forcible redemption or exchange. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

“QL”

Shares in classes with “QL” in their name are exclusively reserved for selected financial intermediaries that: (i) have received approval from the Management Company prior to first subscription, and (ii) receive no distribution fees in accordance with regulatory requirements and/or can only offer their clients classes with no retrocessions, where these are available in the investment fund in question, in accordance with written agreements concluded with their clients. The Management Company will require a minimum investment of CHF 200 million (or the equivalent in another currency). The Management Company may waive the minimum investment temporarily or permanently. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the subfund. The Company and the Management Company are not liable for any tax consequences that may result from a forcible redemption or exchange.

The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

“I-A1”

Shares in classes with “I-A1” in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

“I-A2”

Shares in classes with “I-A2” in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000. The minimum subscription amount for these shares is CHF 10 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above; or
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one of its authorised contractual partners) or on the written approval of UBS Asset Management Switzerland AG (or one of its authorised contractual partners), the investor’s total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 30 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

The management company may waive the minimum subscription if the total assets under management at UBS or the holdings of UBS collective investment schemes by institutional investors exceed CHF 30 million within a specified period.

“I-A3”

Shares in classes with “I-A3” in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or

ZAR 1,000. The minimum subscription amount for these shares is CHF 30 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above; or
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one its authorised contractual partners) or on the written approval of UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor’s total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 100 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

The management company may waive the minimum subscription if the total assets under management at UBS or the holdings of UBS collective investment schemes by institutional investors exceed CHF 100 million within a specified period.

“I-B”

Shares in classes with “I-B” in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners. A fee covering the costs for fund administration (comprising the costs of the Company, the administrative agent and the Depositary) is charged directly to the subfund. The costs for asset management and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

“I-X”

Shares in classes with “I-X” in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners. The costs for asset management, fund administration (comprising the costs incurred by the Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

“U-X”

Shares in classes with “U-X” in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners. The costs for asset management, fund administration (comprising the costs of the Company, the administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. This share class is exclusively geared towards financial products (i.e. funds of funds or other pooled structures under various legislative frameworks). Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 10,000, BRL 40,000, CAD 10,000, CHF 10,000, CZK 200,000, DKK 70,000, EUR 10,000, GBP 10,000, HKD 100,000, JPY 1 million, NOK 90,000, NZD 10,000, PLN 50,000, RMB 100,000, RUB 350,000, SEK 70,000, SGD 10,000, USD 10,000 or ZAR 100,000.

“A”

Shares in classes with “A” in their name are available to all investors. The maximum flat fee for this class does not include distribution costs. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

Additional characteristics

Currencies

The share classes may be denominated in AUD, BRL, CAD, CHF, CZK, DKK, EUR, GBP, HKD, JPY, NOK, NZD, PLN, RMB, RUB, SEK, SGD, USD or ZAR. For share classes issued in the currency of account of the subfund, this currency will not be included in the share class name. The currency of account features in the name of the relevant subfund.

“hedged”

For share classes with “hedged” in their name and with reference currencies different to the subfund’s currency of account (“share classes in foreign currencies”), the risk of fluctuations in the value of the reference currency is hedged against the subfund’s currency of account. This hedging shall be between 95% until 105% of the total net assets of the share class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of share classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits.

The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the subfund’s currency of account.

“portfolio hedged”

For share classes with “portfolio hedged” in their name, the currency risk of the subfund’s investments is hedged against the reference currency of the share class as follows: Systematically, between 95% and 105% of the proportion of investments in developed nation foreign currencies relative to the share class’ total net assets is hedged, except where this is unfeasible or not cost-effective. Emerging market foreign currency investments are not hedged. Changes in the market value of the subfund’s investments, as well as subscriptions and redemptions of share classes, can cause the hedge to temporarily exceed the range specified by the Portfolio Manager. The Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits. The hedging described is used to hedge the currency risk resulting from investments denominated in a currency other than the share class’ reference currency, as described above.

“BRL hedged”

The Brazilian real (ISO 4217 currency code: BRL) may be subject to exchange control regulations and repatriation limits set by the Brazilian government. Prior to investing in BRL classes, investors should also bear in mind that the availability and tradability of BRL classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in Brazil. The risk of fluctuations is hedged as described above under “hedged”. Potential investors should be aware of the risks of reinvestment, which could arise if the BRL class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a share class and/or the subfund in accordance with the section “Liquidation of the Company and its subfunds; merger of subfunds” of the sales prospectus.

“RMB hedged”

Investors should note that the renminbi (ISO 4217 currency code: CNY), the official currency of the People’s Republic of China (the “PRC”), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

Shares in classes with “RMB hedged” in their name are shares whose net asset value is calculated in offshore RMB (CNH).

Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore

RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.

Convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore supervisory and governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors' investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant subfunds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant subfund to make redemption payments in offshore RMB (CNH) would be subject to the subfund's ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Management Company.

The risk of fluctuations is hedged as described above under "hedged".

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a share class and/or the subfund in accordance with the section "Liquidation of the Company and its subfunds; merger of subfunds" of the sales prospectus.

"acc"

The income of share classes with "-acc" in their name is not distributed unless the Company decides otherwise.

"dist"

For share classes with "-dist" in their name, income is distributed unless the Company decides otherwise.

"qdist"

Shares in classes with "-qdist" in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) ("capital"). Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"mdist"

Shares in classes with "-mdist" in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to invest in accumulating (-acc) rather than distributing (-dist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation. The maximum issuing commission for shares in classes with "-mdist" in their name is 6%.

"UKdist"

For share classes with "UKdist" in their name that are subject to the reporting fund rules, the Company intends to distribute a sum corresponding to 100% of the reportable income within the meaning of the UK reporting fund rules. The Company does not intend to make taxable values for these share classes available in

other countries, as they are intended for investors whose investment in the share class is liable to tax in the UK.

"2%", "4%", "6%", "8%"

Shares in classes with "2%" / "4%" / "6%" / "8%" in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective share class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These share classes are suitable for investors who wish for more stable distributions, unrelated to past or expected returns or income of the relevant subfund.

Distributions may thus also be made from the capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist, -qdist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist, -qdist, -mdist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"seeding"

Shares with "seeding" in their name are only offered for a limited period of time. At the end of this period, no further subscriptions are permitted unless the Company decides otherwise. However, these shares may still be redeemed in accordance with the conditions for the redemption of shares. Unless the Company decides otherwise, the smallest tradable unit, the initial issue price and the minimum subscription amount are those of the aforementioned asset classes.

The entirety of the subfunds' net assets forms the total net assets of the company, which at any time correspond to the share capital of the company and consist of fully paid in and non-par-value shares (the "shares").

At general meetings, shareholders have the right to one vote per share held, irrespective of the difference in value of shares in the respective subfunds. Shares of a particular subfund carry the right of one vote per share held when voting at meetings affecting this subfund.

The company forms a legal entity. With respect to the shareholders, each subfund is regarded as being independent from the others. The assets of a subfund can

be used to offset only the liabilities which the subfund concerned has assumed.

The Board of Directors of the Company is empowered, at all times, to liquidate existing subfunds and/or to establish new subfunds as well as different share classes with specific characteristics within these subfunds. The current sales prospectus shall be updated following the establishing of a new subfund or new share class.

The company is unlimited with regard to duration and total assets.

The financial year of the company ends on 31 May.

The ordinary general meeting takes place annually on 24 November at 11.30 a.m. at the registered office of the company. If 24 November happens to be no working day in Luxembourg, the ordinary general meeting takes place on the next following working day.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

Information on whether a company subfund is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

The issue and redemption of shares of UBS (Lux) Equity SICAV are subject to the regulations prevailing in the country concerned.

The annual and semi-annual reports are available free of charge to shareholders at the registered office of the company and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

Audit report

To the Shareholders of
UBS (Lux) Equity SICAV

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of UBS (Lux) Equity SICAV (the “Fund”) and of each of its sub-funds as at 31 May 2023, and of the results of their operations and changes in their net assets for the period from 1 June 2022 to 31 May 2023 in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 May 2023;
- the combined statement of operations for the Fund and the statement of operations for each of the sub-funds for the period from 1 June 2022 to 31 May 2023;
- the combined statement of changes in net assets for the Fund and the statement of changes in net assets for each of the sub-funds for the period from 1 June 2022 to 31 May 2023;
- the statement of investments in securities and other net assets of each of the sub-funds as at 31 May 2023; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Emphasis of matter

We draw attention to Note 15 to these financial statements, which indicates that the Board of Directors of the Fund decided to suspend the calculation of the net asset value, the issue and redemption and conversions of shares of the sub-fund UBS (Lux) Equity SICAV – Russian (USD) effective 25 February 2022 in order to protect the interest of the investors after the sanctions imposed to Russia which made it impossible to trade or value the majority of the sub-fund's assets. Our opinion is not modified in respect of this matter.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

¹ The share class (EUR hedged) I-X-acc was in circulation until 7.9.2022. Due to this fact, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, markets were particularly top-down driven as geopolitical uncertainty, inflation fears, tighter monetary policy and concerns around an economic slowdown all weighed on market sentiment. The market volatility that began at the start of 2022 persisted into the second half of the year as market rallies were fueled by signs of peaking inflation and hopes of a soft landing, but were subsequently dampened by renewed anxiety over the pace of central bank tightening and the deteriorating growth outlook. Broadly over the reporting period, monetary policy remained in the spotlight as central banks aimed to cool inflation, driven by higher commodity prices and global supply chain challenges, but this was against the backdrop of a softening economy while also reinstating confidence in the global banking system.

The subfund posted a negative performance over the financial year, mainly as a result of stock selection in Information Technology and Consumer Discretionary. Broadly, our semiconductor exposure weighed on performance the most as weakness in the semiconductor industry over the reporting period was driven by reduced demand for consumer electronics along with excess inventory. Meanwhile, stock selection in Materials and Communication Services contributed positively.

¹ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.
The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, All China equities experienced a roller coaster ride. In 2022, markets consolidated meaningfully on the back of a confluence of global (geopolitical tensions, ADR delisting) and domestic factors (regulatory pressures, COVID outbreak and lockdowns, property downturn). Since November 2022, the market rebounded sharply on the back of COVID restriction relaxation. However, investors were later disappointed by the pace of economic recovery and the market pulled back as a result. Most sectors posted losses over the period, with the exception of Energy which gained as the oil price was on the rise.

The subfund delivered a negative performance over the financial year. Stock selection was weak in Financials and Real Estate, while the overweight and positive stock selection in Health Care added value. On a stock level, Health Care positions, for example SSY Group and Jiangsu Hengrui, were contributors, while Hong Kong Exchanges and Clearing, Netease and Longfor Group were among the detractors.

¹ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

Asia ex Japan small and mid-cap equities fell in the past year. Recession fears, continued concerns about Fed rate hikes and geopolitical tensions weighed on markets. Chinese equities were dragged down by concerns about a weak economy and its moribund property sector, despite an initial rally on the exit from zero-Covid. Indonesia, Thailand and China fell most. Sector wise, Real Estate, Communication Services and Energy fell most.

The subfund saw negative performance from 1 June 2022 – 31 May 2023 with Taiwan and India detracting most. Sector wise, Industrials, Consumer Discretionary and Communication Services detracted most. Key stock detractors were China Meidong and STARK Corp while EMRO and Godrej Consumer were key stock contributors. The fund has an underweight to China as we are monitoring how the economic recovery takes shape.

Report of the Portfolio Manager

China Healthcare equities fell in the financial year, from 1 June 2022 to 31 May 2023. Concerns about government regulation weighed on pharmaceutical names while weak biotech funding and geopolitical concerns affected contract research/development organizations (CRO/CDMO/CXO) and their overseas business. Biotechnology was supported by several product licensing-out deals. Health care providers and services performed the best.

The subfund portfolio saw negative performance over the reporting period but outperformed the overall market. Life Sciences Tools & Services detracted most while Pharmaceuticals and Biotechnology contributed most. Key stock detractors were Joynn Laboratories, Wuxi Apptec and NetEase while key contributors were Innovent Biologics and Keymed Biosciences. We believe that valuations for the China Healthcare sector are very attractive and concerns about government regulations may improve soon.

Report of the Portfolio Manager

In the financial period, from 7 December 2022 to 31 May 2023, global equity markets closed positively. Following a significant correction during the first three quarters in 2022, the market started to recover from Q4 2022 onwards. The recovery was primarily driven by the continued easing of supply chain bottlenecks and hope among investors to see a slower pace of monetary tightening from central banks going into 2023. Conversely, persistently high inflation rates and ongoing geopolitical risks caused increased uncertainty among investors.

The absolute performance (gross of fees) of the subfund was positive. The major driver of performance was the positive stock selection effect within Materials, Consumer Staples and Energy. At stock level, our positions in Cemex, BW LPG and Sao Martinho contributed positively while our exposure to OCI, CF Industries and Nutrien contributed negatively.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.

Report of the Portfolio Manager

In the financial period, from 7 December 2022 to 31 May 2023, global equity markets closed positively. Following a significant correction during the first three quarters in 2022, the market started to recover from Q4 2022 onwards. The recovery was primarily driven by the continued easing of supply chain bottlenecks and hope among investors to see a slower pace of monetary tightening from central banks going into 2023. Conversely, persistently high inflation rates and ongoing geopolitical risks caused increased uncertainty among investors.

The absolute performance (gross of fees) of the subfund was positive. The major driver of performance was the positive stock selection effect within Materials and Utilities. At stock level, our positions in Spectris, Linde and NEC contributed positively while our position in Tesla, Danaher and LONGi Green Energy Technology contributed negatively.

¹ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, markets were particularly top-down driven as geopolitical uncertainty, inflation fears, tighter monetary policy and concerns around an economic slowdown all weighed on market sentiment. The market volatility that began at the start of 2022 persisted into the second half of the year as market rallies were fueled by signs of peaking inflation and hopes of a soft landing, but were subsequently dampened by renewed anxiety over the pace of central bank tightening and the deteriorating growth outlook. Broadly over the reporting period, monetary policy remained in the spotlight as central banks aimed to cool inflation, driven by higher commodity prices and global supply chain challenges, but weighed this against a softening economy while also reinstating confidence in the global banking system.

The subfund posted negative performance over the financial year, mainly as a result of stock selection in Consumer Staples and Information Technology. This was offset somewhat by positive stock selection in Financials which added the most value, followed by our overall positioning in Utilities. Our Consumer Staples exposure was weighed down mainly by our holdings in the Food, Beverage & Tobacco sub-industry which continued to face supply chain challenges and reduced mobility trends over the period. Meanwhile, our banking exposure added the most value on a sub-industry level on the back of rising interest rates.

UBS (Lux) Equity SICAV – Euro Countries Income Sustainable (EUR)
Annual report and audited financial statements as of 31 May 2023

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, Eurozone equity market performance was positive. The market was initially still negatively impacted by rising inflation and the ECB starting to hike interest rates, but began to recover from October onwards. The recovery was primarily driven by improving economic conditions and China's reopening in November. Investors expect inflation to plateau leading to a slower pace of monetary tightening from the ECB going forward.

The subfund posted a positive performance in the financial year. Our exposure to high dividend stocks and lower volatility had a positive impact. At a country and sector level our positioning in Germany, the Netherlands, Spain, Materials and Health Care added to performance while our positioning in France, IT, Industrials and Financials detracted. From a stock perspective, holding BWM, Much Re and Inditex had a positive impact. Our holdings in LVMH, DSM and Akzo Nobel contributed negatively.

¹ The share class P-mdist was in circulation until 15.3.2022. Due to this fact, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, European equity market performance was positive. The market was initially still negatively impacted by rising inflation and the ECB starting to hike interest rates, but began to recover from October onwards. The recovery was primarily driven by improving economic conditions and China's reopening in November. Investors expect inflation to plateau leading to a slower pace of monetary tightening from the ECB going forward.

The subfund delivered a modestly negative performance in the financial year. Our exposure to high dividend stocks and lower volatility had a positive impact. At a country and sector level our positioning in Finland, France, Telecommunication and IT detracted while our positioning in Germany, Norway, and Financials added to performance. From a stock perspective, holding Telia, Novo Nordisk and Pearson had a negative impact. Our holdings in Nestlé and E.ON contributed positively.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

The financial year, which dates from 1 June 2022 to 31 May 2023, started with lingering geopolitical and economic uncertainties from Russia's continued invasion of Ukraine. Weak global sentiment was driven by concerns that persistently high inflation might lead to aggressive central bank tightening and undermine consumer spending. After an upbeat start to 2023, markets turned pessimistic again in February, with the main concern being that stubbornly high US inflation and robust jobs data would force the Federal Reserve to raise rates higher than expected and keep monetary policy restrictive for longer. Later in the quarter, investors were mainly preoccupied by concerns about the health of the banking system on both sides of the Atlantic, as market sentiment was undermined by the collapse of two mid-sized lenders in the US.

The subfund posted a positive absolute performance during the financial year. Industrials was the largest detracting sector over this period, as a result of negative stock selection effects, notably our holding in French customer service outsourcing company Teleperformance. Its shares fell sharply following news that the Colombian government was reviewing the company's work practices in its Colombian branch. Elsewhere, our holdings in the financial and utilities sectors also weighed on performance. Conversely, communication services and consumer staples added value, where we benefited from strong stock selection. Our holding in Bank of Ireland was the top contributor at the stock level, after the rising interest rate environment boosted the company's earnings.

¹ The unit class I-X-acc was active until 2.12.2022 - reactivated 14.12.2022. Due to this fact, there is no data for the calculation of the performance available.

² The share class (CHF hedged) K-B-acc was in circulation until 21.9.2022. Due to this fact, there is no data for the calculation of the performance available.

³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

The financial year from 1 June 2022 to 31 May 2023 started with lingering geopolitical and economic uncertainties from Russia's continued invasion of Ukraine. Weak global sentiment was driven by concerns that the persistently high inflation might lead to aggressive central bank tightening and undermine consumer spending. After an upbeat start to 2023, markets turned pessimistic again in February, with the main concern that stubbornly high US inflation and robust jobs data would force the Federal Reserve to raise rates higher than expected and keep monetary policy restrictive for longer. Later in the quarter, worries over the health of the banking system on both sides of the Atlantic were the main preoccupation for investors as market sentiment was undermined by the collapse of two mid-sized lenders in the US.

The fund posted a positive absolute performance during the financial year. Industrials was the largest detracting sector over this period as a result of negative stock selection effects, notably our holding in French customer service outsourcing firm Teleperformance. Shares fell sharply following news that the Colombian government was reviewing the company's work environment in its Colombian branch. Elsewhere, our holdings in the financials and IT sectors also weighed on performance. Conversely, consumer discretionary was the top contributing sector to performance, where we benefited from strong stock selection. Stock selection was also positive in consumer staples and energy, while sector allocation effects in real estate outweighed negative stock selection.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares. The performance data were not audited.

Report of the Portfolio Manager

In the financial period, from 7 December 2022 to 31 May 2023, global equity markets closed positively. Following a significant correction during the first three quarters in 2022, the market started to recover from Q4 2022 onwards. The recovery was primarily driven by the continued easing of supply chain bottlenecks and hope among investors to see a slower pace of monetary tightening from central banks going into 2023. Conversely, persistently high inflation rates and ongoing geopolitical risks caused increased uncertainty among investors.

The absolute performance (gross of fees) of the subfund was negative. The major driver of performance was the negative allocation effect to Energy and Utilities, as well as stock selection within Energy and Materials. At stock level, our positions in Methanex, Nordex and Suedzucker contributed positively while our exposure to OCI, Talos Energy and Advantage Energy contributed negatively.

MSCI ACWI Small Cap Index (net div. reinvested)	GBP	-2.5%	-

¹ For the period from 4.2.2022 to 19.4.2023 the share class (EUR) I-A3-acc was in circulation. Due to this fact, there is no data for the calculation of the performance available.

² For the period from 14.9.2021 to 2.9.2022 the share class (EUR hedged) I-X-acc was in circulation. Due to this fact, there is no data for the calculation of the performance available.

³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

Global small cap equities performed negatively in the financial year from 1 June 2022 to 31 May 2023. This negative performance started in the previous year and was driven by persistent macroeconomic headwinds, such as higher-than-expected inflation, tightening central bank policies and rising bond yields. As a consequence, small caps have lost their historical valuation premium to large caps.

In the period, the subfund performed negatively in absolute terms and underperformed the global small cap market in relative terms. Stock selection in health care and real estate contributed positively, while stock selection in information technology and industrials detracted most from performance. We will continue to invest in companies with large addressable markets, current or emerging competitive advantages, innovative product offerings and the financial strength to execute on their growth opportunities.

Report of the Portfolio Manager

In the financial year from 1 June 2022 to 31 May 2023, the broader German equity market initially continued its correction as inflation and central bank rate expectations moved higher. From calendar Q4 2022 onwards a strong rebound more than recovered the previous losses. The market recovery was driven by solid earnings growth, robust order books, resilient consumer behavior and a quick reopening in China.

In the financial year, the subfund performed positively in absolute terms but lagged the broader German equity market on a relative basis. Exposure to the Health Care sector and selection in Consumer Discretionary supported performance, while Materials and Real Estate contributed negatively. The main positive contributors on a stock level were Munich Re, E.On and Südzucker. Negative contribution came from LEG Immobilien, K+S and Deutsche Pfandbriefbank.

¹ The share class Q-acc was in circulation until 22.5.2023. Due to this fact, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

During the financial year, from 1 June 2022 to 31 May 2023, events were shaped by heightened levels of market volatility caused by increasingly hawkish central bank policy and concerns about the economic growth outlook in light of elevated persistent inflation. After an initial period of challenging returns for global equities, the market started its rebound and finished the period in positive territory as fears of imminent recessions were pushed further down the road.

Over the financial year, the subfund generated a single digit positive return. The subfund's allocation to equities was a strong positive contributor while its diversified and rules-based approach to risk mitigation was a detractor, but in line with expectations.

¹ For the period from 7.2.2022 to 1.12.2022 the share class (EUR) I-A2-dist was in circulation. Due to this fact, there is no data for the calculation of the performance available.

² The share class (CHF hedged) I-B-acc was in circulation until 24.3.2023. Due to this fact, there is no data for the calculation of the performance available.

³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

During the financial year, from 1 June 2022 to 31 May 2023, Emerging Markets equities continued to post negative returns on the back of persistently higher inflation and associated interest rate hikes and real estate concerns in China. On a market level, India, Indonesia and Mexico were among the top performers. In contrast, China and Taiwan were among the weaker performers.

The subfund posted a negative result over the financial year. Stock selection was negative in Information Technology, Consumer Staples and Materials. However, stock selection was positive in Financials and Consumer Discretionary. Holding cash and an underweight in Real Estate also boosted performance. On the stock level, LONGi Green Energy Technology, Anglo American plc and JD.com were the main detractors, while MercadoLibre, Eicher Motors and PT Bank Mandiri (Persero) Tbk were the main contributors.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

² The share class Q-mdist was in circulation until 15.3.2022. Due to this fact, there is no data for the calculation of the performance available.

³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, global equity market performance was positive. The market was initially still negatively impacted by rising inflation and central banks hiking interest rates, but started to recover from October onwards. The recovery was primarily driven by supportive economic conditions, China's reopening in November and a strong rebound of US growth stocks in 2023. Investors expect inflation to plateau and a soft-landing of the economy to allow central banks, particularly the Federal Reserve, to cut rates later in the year.

The subfund posted a negative performance in the financial year. Our lower beta detracted, while the exposure to higher dividend stocks was positive. At the country and sector level our positioning in Germany, India, IT, Real Estate and Telecommunications had a negative impact. Our positioning in the United States and Japan added to performance. From a stock perspective, our holdings in Lumen Technology, Fidelity National and Hasbro detracted. Our holdings in BWM, Munch Re and Delta Electronics contributed positively.

¹ The share class (EUR hedged) I-A2-acc was in circulation until 12.10.2022. Due to this fact, there is no data for the calculation of the performance available.

² For the period from 22.9.2020 to 30.9.2021 the share class (ZAR hedged) P-mdist was in circulation. Due to this fact, there is no data for the calculation of the performance available.

³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, global equity market performance was positive. The market was initially still negatively impacted by rising inflation and central banks hiking interest rates, but started to recover from October onwards. The recovery was primarily driven by supportive economic conditions, China's reopening in November and a strong rebound of US growth stocks in 2023. Investors expect inflation to plateau and a soft-landing of the economy to allow central banks, particularly the Federal Reserve, to cut rates later in the year.

The subfund posted a negative performance in the financial year. Our lower beta detracted, while the reduced volatility was positive. At the country and sector level our positioning in India, Italy, IT, Telecommunications and Real Estate had a negative impact. Our positioning in the United States and Taiwan added to performance. From a stock perspective, our holdings in Intel, 3M and Western Union detracted. Our holdings in General Mills, Gilead and Merck contributed positively.

Historical performance is no indicator of current or future performance.
The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.

Report of the Portfolio Manager

The financial year from 1 June 2022 to 31 May 2023 started with lingering geopolitical and economic uncertainties from Russia's continued invasion of Ukraine. Weak global sentiment was driven by concerns that the persistently high inflation might lead to aggressive central bank tightening and undermine consumer spending. After an upbeat start to 2023, markets turned pessimistic again in February, with the main concern that stubbornly high US inflation and robust jobs data would force the Federal Reserve to raise rates higher than expected and keep monetary policy restrictive for longer. Later in the quarter, worries over the health of the banking system on both sides of the Atlantic were the main preoccupation for investors as market sentiment was undermined by the collapse of two mid-sized lenders in the US.

The fund posted a positive absolute performance during the financial year. IT was the largest detracting sector, where a number of our holdings were impacted by rising yields over the period. Negative stock selection in communication services and real estate also weighed on performance, and we were also impacted negatively in the industrials and health care sectors. At the stock level, the largest detractor was not owning Nvidia where much of the price performance occurred in the latter half of the financial year on artificial intelligence news. Conversely, positive stock selection in financials, consumer staples and materials also added value.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

The financial year from 1 June 2022 to 31 May 2023 started with lingering geopolitical and economic uncertainties from Russia's continued invasion of Ukraine. Weak global sentiment was driven by concerns that the persistently high inflation might lead to aggressive central bank tightening and undermine consumer spending. After an upbeat start to 2023, markets turned pessimistic again in February, with the main concern that stubbornly high US inflation and robust jobs data would force the Federal Reserve to raise rates higher than expected and keep monetary policy restrictive for longer. Later in the quarter, worries over the health of the banking system on both sides of the Atlantic were the main preoccupation for investors as market sentiment was undermined by the collapse of two mid-sized lenders in the US.

The fund posted a positive absolute performance during the financial year. Positive stock selection in financials, consumer staples and consumer discretionary were among the top contributing sectors. Meanwhile, positive stock selection and sector allocation effects in energy and materials also added value. At the stock level, our holding in a Japanese System-on-Chip contributed the most. Conversely, negative stock selection in the industrials, communication services and real estate sectors weighed on performance over the financial year with our holding in a real estate firm detracting the most.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial period, from 17 August 2022 to 31 May 2023, global equity markets closed slightly positively. Following a significant correction during Q3 2022, the market started to recover from Q4 2022 onwards. The recovery was primarily driven by the continued easing of supply chain bottlenecks and hope among investors to see a slower pace of monetary tightening from central banks going into 2023. Conversely, persistently high inflation rates and ongoing geopolitical risks caused increased uncertainty among investors.

The absolute performance (gross of fees) of the subfund was positive. The major driver of performance was the positive stock selection effect within Communication Services and Consumer Staples. At stock level, our positions in Eli Lilly, Netflix and Las Vegas Sands contributed positively while our exposure to LONGi Green Energy Technology, Fidelity National Information Services and Advantage Energy contributed negatively.

¹ For the period from 2.3.2022 to 8.2.2023 the share class (SGD hedged) P-acc was in circulation. Due to this fact, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, markets were particularly top-down driven as geopolitical uncertainty, inflation fears, tighter monetary policy and concerns around an economic slowdown all weighed on market sentiment. The market volatility that began at the start of 2022 persisted into the second half of the year as market rallies were fueled by signs of peaking inflation and hopes of a soft landing, but were subsequently dampened by renewed anxiety over the pace of central bank tightening and the deteriorating growth outlook. Broadly over the reporting period, monetary policy remained in the spotlight as central banks aimed to cool inflation, driven by higher commodity prices and global supply chain challenges, but weighed this against a softening economy while also reinstating confidence in the global banking system.

The subfund posted a positive performance over the financial year, mainly driven by stock selection in Financials and Materials. Meanwhile, stock selection in Consumer Discretionary and Consumer Staples was negative. Stock selection in Aging in Comfort added the most value, followed by our overweight position in Automation and Robotics; this was somewhat offset by our overall positioning in Food Revolution and negative stock selection in Smart Mobility.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

The subfund has no benchmark.

Report of the Portfolio Manager

Since the launch of the subfund on 18 July 2022 to the end of the financial period on 31 May 2023, the total performance of the subfund was negative on the back of a highly volatile, sentiment-driven market environment in the Chinese equity market. The weak market performance prior to the 20th National Party Congress reversed significantly following its conclusion in late October 2022 particularly following the aggressive supportive policies in the Real Estate sector as well as the lift of the 2 year zero-Covid lockdown. This saw one of the strongest rallies between November and January as investors' confidence in the prioritization by the Chinese government on growth increased. However, this was short-lived as the market corrected in February following the weaker-than-expected data around the recovery post-Chinese New Year, the reemergence of US-China geopolitical risks, and the impact of growing inflationary pressures globally. In March, the market rebounded again mainly on the back of a strong sentiment-driven rally of generative AI-related names. This rebound was reversed in April and May as investors' confidence started to wane on the back of disappointing macro data particularly around property land sale, PMI, consumption, and employment figures. The lack of clarity from the government on new supportive policies to help boost growth post the 'Two Sessions' in March as well as heightened geopolitical and anti-trust risks also contributed to the market sell-off, particularly by foreign investors.

Over the stated financial period, the subfund generated negative performance as the highly sentiment-driven market adversely impacted both our long and alpha short positions over the different periods. Our discipline of keeping a conservative portfolio through low gross (average 100-120% gross) and tighter net (+5-10% beta-adjusted) during this period also meant the upside capture of the beta-driven rally in November 2022 to January 2023, although the defensive portfolio protected the subfund in February, April and May when the market retreated. In March, the swift rotation by the market from other sectors into generative AI-related themes also affected both our long and short books. Despite the highly-challenging market for an alpha-focused, fundamentally driven strategy like ours, we stayed true to our investment philosophy and investment process of constructing our portfolio based on a bottom-up, fundamental thesis and not chasing short-term returns at the expense of downside risks. At the sector level, we had a good hit rate in healthcare, consumer staples and communication services while our long exposures in property management and Internet detracted from performance. During this period, we remained focused on implementing portfolio hedging strategies in the effort to minimize downside risks as far as possible, as we navigated through the macro driven market.

Report of the Portfolio Manager

In the financial year from 1 June 2022 to 31 May 2023, the Event Driven space was marked by a period of rising interest rates which impacted the breakeven rate across the arbitrage space, causing mark-to-market losses in the portfolio even as transactions closed profitably. This headwind impacted fund performance as the markets continued to be roiled by inflation, interest rate concerns and a sharp bear market in equities. In this backdrop we believe that the Fund protected investor capital very effectively.

In the subfund, the Merger Arbitrage portfolio continued to rely on our risk management system of deal grading to limit losses from deal breaks to acceptable levels. With continued regulatory uncertainty, position concentration is lower than historical levels. In Capital Structure Arbitrage, recent market volatility and higher interest rates have presented potentially attractive entry levels in multiple situations. In SPAC Arbitrage, discount to cash-in-trust has widened to the point that our primary focus is capturing the discount upon redemption. We thank you for your support.

Report of the Portfolio Manager

Following Russia's invasion of Ukraine, Index providers including MSCI deleted Russia from their Emerging Markets indices at zero value in March 2022. The fund board has taken the decision to temporarily suspend subscriptions and redemptions as of 25 February 2022.

There hasn't been any changes during the reporting year from 1 June 2022 to 31 May 2023, Subscription and redemptions remain suspended until further notice.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year from 1 June 2022 to 31 May 2023, European small cap equities have been very volatile. Until the beginning of calendar Q4 the market continued its setback, which was driven by higher inflation expectations, therefore tightening central bank policies and higher yields, which hit growth stocks in particular, as well as lowering growth expectations in China. But at the beginning of Q4 a strong rebound started driven by solid earnings growth, robust order books and resilient consumer behavior.

In the financial year, the subfund performed negatively in absolute terms but outperformed the European small cap market on relative terms. Performance was mostly driven by stock selection as we focus on companies with good quality and attractive growth potential. Materials, Real Estate and Healthcare contributed positively, while Consumer Discretionary, Utilities and Industrials contributed negatively. We will continue to concentrate on companies that should deliver good risk-return profiles in a medium-term economic scenario.

Report of the Portfolio Manager

The Swiss stock market closed slightly positive during the financial year from 1 June 2022 to 31 May 2023. Following a significant correction between June and September 2022, the market started to recover from Q3 2022 onwards. The recovery was primarily driven by the continued easing of supply chain bottlenecks and hope among investors to see a slower pace of monetary tightening from central banks going into 2023. Conversely, persistently high inflation rates and ongoing geopolitical risks caused increased uncertainty among investors.

The absolute performance (gross of fees) of the sub-fund was positive during the financial year. The major driver was the positive selection effect within Financials and Industrials, as well as the positive allocation to Basic Materials and Real Estate. At stock level, not holding a position in Credit Suisse and our exposure to Roche and Swiss Re contributed positively while not holding Richemont and our positions in Idorsia and Sonova contributed negatively.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

² For the period from 26.8.2019 to 16.8.2021 the share class I-A3-8%-mdist was in circulation. Due to this fact, there is no data for the calculation of the performance available.

³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, US equity market performance was positive. The market was initially still negatively impacted by rising inflation and the Federal Reserve hiking interest rates, but started to recover from October onwards. The recovery was primarily driven by supportive economic conditions, China's reopening in November and a strong rebound of growth stocks in 2023. Investors expect inflation to plateau and a soft-landing of the economy to allow the Federal Reserve to cut rates later in the year.

The subfund delivered a modest negative performance in the financial year. Our exposure to mid-cap stocks detracted while our lower beta was positive. At a sector level our positioning in Industrials and IT detracted from performance while our positioning in Financials and Health Care contributed. From a stock perspective, holding Robert Half, Amgen and 3M detracted. Our holdings in Omnicom and General Mills contributed positively.

⁴ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, markets were particularly top-down driven as geopolitical uncertainty, inflation fears, tighter monetary policy and concerns around an economic slowdown all weighed on market sentiment. The market volatility that began at the start of 2022 persisted into the second half of the year as market rallies were fueled by signs of peaking inflation and hopes of a soft landing, but were subsequently dampened by renewed anxiety over the pace of central bank tightening and the deteriorating growth outlook. Broadly over the reporting period, monetary policy remained in the spotlight as central banks aimed to cool inflation, driven by higher commodity prices and global supply chain challenges, but weighed this against a softening economy while also reinstating confidence in the global banking system.

The subfund posted a positive performance over the fiscal year, mainly driven by our overall positioning in Communication Services, and to a lesser extent, Real Estate. Meanwhile, our overall positioning in Information Technology and stock selection in Industrials detracted the most. Our idiosyncratic stock selection within the Media & Entertainment sub-industry added the most value, while our semiconductor exposure was the main detractor due to weakness in the industry broadly.

¹ The share class F-acc was in circulation until 7.7.2022. Due to this fact, there is no data for the calculation of the performance available.

² Due to the recent launch, there is no data for the calculation of the performance available.

³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, US equity market performance was positive. The market was initially still negatively impacted by rising inflation and the Federal Reserve hiking interest rates, but started to recover from October onwards. The recovery was primarily driven by supportive economic conditions, China's reopening in November and a strong rebound of growth stocks in 2023. Investors expect inflation to plateau and a soft-landing of the economy to allow the Federal Reserve to cut rates later in the year.

The subfund delivered a positive performance in the financial year. Our exposure to companies with a high buyback activity was positive. The tilt towards mid-cap companies detracted. At a sector level our positioning in Financials, IT and Health Care had a positive impact while our positioning in Energy and Industrials detracted from performance. From a stock perspective, holding Omnicon, HCA and Comcast was positive. Our holdings in Qualcomm and Amgen contributed negatively.

³ For the period from 4.9.2020 to 1.4.2022 the share class (CHF hedged) I-B-acc was in circulation. Due to this fact, there is no data for the calculation of the performance available.

⁴ For the period from 23.7.2020 to 1.4.2022 the share class (EUR hedged) I-B-acc was in circulation. Due to this fact, there is no data for the calculation of the performance available.

⁵ The share class (CHF hedged) K-B-acc was in circulation until 21.9.2022. Due to this fact, there is no data for the calculation of the performance available.

⁶ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

US equity markets rose during the financial year from 1 June 2022 to 31 May 2023. While 2022 was challenging for growth stocks, early 2023 saw a rebound on the back of industry-wide excitement for generative AI. AI models have already begun to be incorporated across consumer and enterprise applications, with significant potential productivity benefits across a diverse array of sectors and industries. 2023 also witnessed a shift in focus among companies towards improved efficiency and operating leverage after a period of extensive hiring and prioritization of growth over profitable returns. With the macro environment uncertain, headcount reductions, reduced hiring plans, and companywide efforts to boost operating margins may catalyze improved operating leverage and EPS growth as the macro environment stabilizes and revenue growth normalizes.

The subfund posted positive absolute performance during the financial year. Sector allocation detracted from performance, particularly an underweight in Information Technology and an overweight in Communication Services. Stock selection was additive, particularly within Information Technology and Industrials.

Report of the Portfolio Manager

US equity markets rose during the financial year from 1 June 2022 to 31 May 2023. While 2022 was challenging for growth stocks, early 2023 saw a rebound on the back of industry-wide excitement for generative AI. AI models have already begun to be incorporated across consumer and enterprise applications, with significant potential productivity benefits across a diverse array of sectors and industries. 2023 also witnessed a shift in focus among companies towards improved efficiency and operating leverage after a period of extensive hiring and prioritization of growth over profitable returns. With the macro environment uncertain, headcount reductions, reduced hiring plans, and companywide efforts to boost operating margins may catalyze improved operating leverage and EPS growth as the macro environment stabilizes and revenue growth normalizes.

The subfund posted positive absolute performance during the financial year. Sector allocation detracted from performance, particularly an underweight in Information Technology and an overweight in Financials. Stock selection was additive, particularly within Information Technology and Consumer Discretionary.

UBS (Lux) Equity SICAV – USA Growth Sustainable (USD)
Annual report and audited financial statements as of 31 May 2023

The notes are an integral part of the financial statements.

Notes to the Financial Statements

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg.

The financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds under the going concern basis of accounting except for the subfund.

The significant accounting policies are summarised as follows:

a) Calculation of the Net Asset Value

The net asset value and the issue, redemption and conversion price per share of each subfund or share class are expressed in the reference currency of the subfund or share class concerned and are calculated every business day by dividing the overall net assets of the subfund attributable to each share class by the number of shares in this share class of the subfund.

In this context, "business day" refers to normal banking days in Luxembourg (i.e. each day on which the banks are open during normal business hours) with the exception of individual, non-statutory rest days as well as days on which exchanges in the main countries in which the subfund invests are closed or 50% or more of the subfund's investments cannot be adequately valued.

The percentage of the net asset value which is attributable to each respective share class of a subfund is determined, taking into account the commission charged to that share class, by the ratio of the shares in circulation in each share class to the total number of shares in circulation in the subfund, and will change each time shares are issued or redeemed.

b) Valuation principles

- liquid assets (whether in the form of cash and bank deposits, bills of exchange, cheques, promissory notes, expense advances, cash dividends and declared or accrued interest still receivable) are valued at face value, unless this value is unlikely to be fully paid or received, in which case their value is determined by deducting an amount deemed appropriate to arrive at their real value.
- Securities, derivatives and other assets listed on a stock exchange are valued at the most recent market prices available. If these securities, derivatives or other assets are listed on several stock exchanges, the most recently

available price on the stock exchange that represents the major market for this asset shall apply.

In the case of securities, derivatives and other assets not commonly traded on a stock exchange and for which a secondary market exists among securities traders with pricing based on market standards, the Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange, but traded on another regulated market that operates regularly and is recognised and open to the public, are valued at the most recently available price on this market.

- Securities and other investments not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Company on the basis of the likely sales prices according to other principles chosen by the Company in good faith.
- Derivatives not listed on a stock exchange (OTC derivatives) are valued on the basis of independent pricing sources. If only one independent pricing source is available for a derivative, the plausibility of the valuation obtained will be verified using calculation models that are recognised by the Company and the Company's auditors, based on the market value of that derivative's underlying.
- Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCIs) are valued at their last known asset value.

Certain units or shares of other UCITS and/or UCI can be valued on the basis of an estimation of their value that has been provided by reliable service providers, which are independent from the Portfolio Manager or investment adviser (price estimation).

- Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. Curve-based valuations are calculated from interest rates and credit spreads. The following principles are applied in this process: The interest rate nearest the residual maturity is interpolated for each money market instrument. Thus calculated, the interest rate is converted into a market price by adding a credit spread that reflects the creditworthiness of the underlying borrower. This credit spread is adjusted if there is a significant change in the borrower's credit rating.
- Securities, money market instruments, derivatives and other assets denominated in a currency other than the relevant subfund's currency of account, and not hedged by foreign exchange transactions, are valued using the average exchange rate (between the bid and

ask prices) known in Luxembourg or, if none is available, using the rate on the most representative market for that currency.

- Term and fiduciary deposits are valued at their nominal value plus accumulated interest.
- The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. Such calculations are based on the net present value of all cash flows (both inflows and outflows). In some specific cases, internal calculations (based on models and market data made available by Bloomberg) and/or broker statement valuations may be used. The valuation method depends on the security in question and is chosen pursuant to the applicable UBS valuation policy.

If valuation in accordance with the aforementioned regulations proves to be impossible or inaccurate, the Company is entitled to use other generally recognised and verifiable valuation criteria in good faith in order to achieve a suitable valuation of the net assets. As some of the Company's subfunds may be invested in markets that are closed at the time their assets are valued, the Board of Directors of the Company may – by way of derogation to the aforementioned provisions – allow the net asset value per share to be adjusted in order to more accurately reflect the fair value of these subfunds' assets at the time of valuation. In practice, the securities in which the subfunds are invested are generally valued on the basis of the latest available prices at the time of calculating the net asset value per share, as described above. There may, however, be a substantial time difference between the close of the markets in which a subfund invests and the time of valuation.

As a result, developments that may influence the value of these securities and that occur between the closure of the markets and the valuation time are not generally taken into account in the net asset value per share of the subfund concerned. If, as a result of this, the Board of Directors of the Company deems that the most recently available prices of the securities in a subfund's portfolio do not reflect their fair value, it may have the Management Company allow the net asset value per share to be adjusted in order to reflect the assumed fair value of the portfolio at the time of valuation. Such an adjustment is based on the investment policy determined by the Board of Directors of the Company and a number of practices. If the value is adjusted as described above, this will be applied consistently to all share classes in the same subfund.

The Board of Directors of the Company reserves the right to apply this measure to the relevant subfunds of the Company whenever it deems this to be appropriate.

Evaluating assets at fair value calls for greater reliability of judgement than evaluating assets for which readily available market quotations can be referred to. Fair-value calculations may also be based on quantitative models used by price reporting providers to determine the fair

value. No guarantee can be given that the Company will be in a position to accurately establish the fair value of an asset when it is about to sell the asset around the time at which the Company determines the net asset value per share. As a consequence, if the Company sells or redeems shares at the net asset value at a time when one or more participations are valued at fair value, this may lead to a dilution or increase in the economic participation of the existing shareholders.

Furthermore, in exceptional circumstances, additional valuations can be carried out over the course of the day. These new valuations will then prevail for the subsequent issue, redemption and conversion of shares. Revaluations only take place before publishing the only net asset value for that day. Issues, redemptions and conversions are only processed based on this sole net asset value.

Due to fees and charges as well as the buy-sell spread for the underlying investments, the actual costs of buying and selling assets and investments for a subfund may differ from the last available price or, if applicable, the net asset value used to calculate the net asset value per share. These costs have a negative effect on the value of a subfund and are termed "dilution". To reduce the effects of dilution, the Board of Directors may at its own discretion make a dilution adjustment to the net asset value per share.

Shares are generally issued and redeemed based on a single price: the net asset value. To reduce the effects of dilution, the net asset value per share is nevertheless adjusted on valuation days as described below; this takes place irrespective of whether the subfund is in a net subscription or net redemption position on the relevant valuation day. If no trading is taking place in any subfund or class of a subfund on a particular valuation day, the unadjusted net asset value per share is applied. The circumstances in which such a dilution adjustment takes place are determined at the discretion of the Board of Directors. The requirement to carry out a dilution adjustment generally depends on the scale of subscriptions or redemptions of shares in the relevant subfund. The Board of Directors may carry out a dilution adjustment if, in its view, the existing shareholders (in the case of subscriptions) or remaining shareholders (in the case of redemptions) could be put at a disadvantage. The dilution adjustment may take place if:

- a) a subfund records a steady fall (i.e. a net outflow due to redemptions);
- b) a subfund records a considerable volume of net subscriptions relative to its size;
- c) a subfund shows a net subscription or net redemption position on a particular valuation day; or
- d) In all other cases in which the Board of Directors believes a dilution adjustment is necessary in the interests of the shareholders.

When a valuation adjustment is made, a value is added to or deducted from the net asset value per share depending on whether the subfund is in a net subscription or net redemption position; the extent of the valuation adjustment shall, in the opinion of the Board of Directors, adequately cover the fees and charges as well as the spreads of buy and sell prices. In particular, the net asset value of the respective subfund will be adjusted (upwards or downwards) by an amount that (i) reflects the estimated tax expenses, (ii) the trading costs that may be incurred by the subfund, and (iii) the estimated bid-ask spread for the assets in which the subfund invests. As some equity markets and countries may show different fee structures on the buyer and seller side, the adjustment for net inflows and outflows may vary. The adjustments are generally limited to a maximum of 2% of the prevailing net asset value per share at the time. The Board of Directors may decide to temporarily apply a dilution adjustment of more than 2% of the prevailing net asset value per share at the time in respect of any subfund and/or valuation date in exceptional circumstances (e.g. high market volatility and/or liquidity, exceptional market conditions, market disruption, etc.), provided the Board of Directors can justify that this is representative of the prevailing market conditions and that it is in the best interest of the shareholders. This dilution adjustment will be calculated in accordance with the method determined by the Board of Directors. Shareholders will be informed via the usual communication channels when the temporary measures are introduced and when they end.

The net asset value of each class of the subfund is calculated separately. However, dilution adjustments affect the net asset value of each class to the same degree in percentage terms. The dilution adjustment is made at subfund level and relates to capital activity, but not to the specific circumstances of each individual investor transaction.

This adjustment is in favour of the subfund and mentioned in the Statement of Operations as "Other income".

For all subfunds the swing pricing methodology is applied.

If there were swing pricing adjustments to the net asset value at the end of the financial year, this can be seen from the three-year comparison of the net asset value information of the subfunds. The issue and redemption price per share represents the adjusted net asset value.

c) Net realized gains (losses) on sales of securities

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

d) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

e) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation

date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

f) Valuation on options

Outstanding options traded on a regulated market are valued on the settlement price or the last available market price of the instruments. Options which are not listed on an official stock exchange (OTC-options) are marked to market based upon daily prices obtained from Bloomberg option pricer functionality and checked against third party pricing agents. The realized gains or losses on options and the change in unrealized appreciation or depreciation on options are disclosed in the statement of operations and in the changes in net assets respectively under the positions realized gains (losses) on options and Unrealized appreciation (depreciation) on options.

Options are included in the investments in securities.

g) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate on the day of acquisition.

h) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction dates.

i) Fair Value pricing principle

The fair value pricing principle applies for funds with main investments in Asian markets. The fair value principle takes into account important movements not reflected in the last available Exchange closing prices, by reevaluating all underlying assets of the Fund portfolio with snapshot prices at a specified time. The net asset value is then calculated based on these re-evaluated prices. The fair value principle is applicable only in case the deviation of a Fund specific benchmark exceeds 3%.

j) Combined financial statements

The combined financial statements are expressed in USD. The various items of the combined statement of net assets, combined statement of operations and the combined statement of changes in net assets as of 31 May 2023 are equal to the sum of the corresponding items in the financial statements of each subfund.

The following exchange rates were used for the conversion of foreign combined financial statements as of 31 May 2023:

Exchange rates		
USD 1 =	CHF	0.914150
USD 1 =	EUR	0.937998

k) Receivable on securities sales,

Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

l) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

m) Cross-subfund investments

As per 31 May 2023 the subfund UBS (Lux) Equity SICAV – Innovation (USD) was invested for 10 102 440.48 USD in the subfund UBS (Lux) Equity SICAV – China Health Care (USD), UBS (Lux) Equity SICAV – Climate Action (USD), UBS (Lux) Equity SICAV – Climate Solutions (USD) and UBS (Lux) Equity SICAV – Future Energy Leaders (USD).

UBS (Lux) Equity SICAV – Innovation (USD)	Amount in USD
UBS (Lux) Equity SICAV – China Health Care (USD) U-X-ACC	1 585 745.92
UBS (Lux) Equity SICAV – Climate Action (USD) U-X-ACC	2 441 594.64
UBS (Lux) Equity SICAV – Climate Solutions (USD) U-X-ACC	3 440 409.80
UBS (Lux) Equity SICAV – Future Energy Leaders (USD) U-X-ACC	2 634 689.72
Total	10 102 440.08

The total amount of cross subfund investments amounts to 10 102 440.08 USD. Accordingly, the adjusted combined net assets at the end of the year are 16 295 760 407.20 USD.

n) Swaps

The Company may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions, Equity Swaps and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

The value of swap transactions is calculated by an external service provider and a second independent valuation is made available by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows.

In some specific cases, internal calculations based on models and market data available from Bloomberg and/or broker statement valuations may be used.

The valuation methods depend on the respective security and are determined pursuant to the UBS Valuation Policy.

This valuation method is approved by the Board of Directors.

Changes in unrealized profits and losses are reflected in the statement of operations under "Unrealized appreciation (depreciation) on swaps".

Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on swaps" in the statement of operations.

In "Income respectively Expenses from Synthetic Equity Swaps" are included the Swap related interest income and expenses as well as received and paid dividends.

Synthetic Equity Swaps are subject to a monthly reset of their unrealized gain (loss). Unrealised gain (loss) disclosed in the Statement of Investments in Securities and other Net Assets reflect the unrealised gain (loss) since the last reset date.

Note 2 – Flat fee

The company pays a maximum monthly flat fee for each of the subfunds and share classes, calculated on the average net asset value of the subfund and share class as shown in the table below:

UBS (Lux) Equity SICAV – Active Climate Aware (USD)

	Maximum flat fee p.a.	Maximum flat fee p.a. for share classes with "hedged" in their name

The Company pays a maximum monthly flat management fee for share classes "P", "N", "K-1", "F", "Q", "QL", "I-A1", "I-A2", "I-A3" and "A", calculated on the average net asset value of the subfunds. This shall be used as follows:

1. In accordance with the following provisions, a maximum flat fee based on the net asset value of the

Company is paid from the Company's assets for the management, administration, portfolio management, investment advice, and distribution of the Company (if applicable), as well as for all Depositary tasks, such as the safekeeping and supervision of the Company's assets, the processing of payment transactions and all other tasks listed in the "Depositary and Main Paying Agent" section: This fee is charged to the Company's assets on a pro rata basis upon every calculation of the net asset value and is paid on a monthly basis (maximum flat fee). The maximum flat fee for share classes with "hedged" in their name may include foreign exchange risk hedging charges. The relevant maximum flat fee will not be charged until the corresponding share classes have been launched. An overview of the maximum flat fees can be found under "The subfunds and their special investment policies" of the sales prospectus.

The maximum flat fee effectively applied can be found in the annual and semi-annual reports.

2. The maximum flat fee does not include the following fees and additional expenses, which are also charged to the Company's assets:

- all additional expenses related to management of the Company's assets for the sale and purchase of assets (bid-ask spread, brokerage fees in line with the market, commissions, fees, etc.). As a rule, these expenses are calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of shares, are covered by the application of the Swing Pricing principle pursuant to the section titled "Net asset value, issue, redemption and conversion price";
- fees of the supervisory authority for the establishment, modification, liquidation and merger of the Company, as well as all charges payable to the supervisory authorities and any stock exchanges on which the subfunds are listed;
- auditor's fees for the annual audit and certification in connection with the establishment, modification, liquidation and merger of the Company, as well as any other fees paid to the audit firm for the services it provides in relation to the administration of the Fund as permitted by law; Costs charged by the Master Fund for the preparation of ad hoc reports, provided that these arise in relation to the preparation of annual or semi-annual reports for the Feeder Fund UBS (Lux) Equity SICAV – O'Connor Event Driven UCITS Fund (USD) and UBS (Lux) Equity SICAV – O'Connor China Long/Short Alpha Strategies UCITS (USD);
- fees for legal and tax advisers, as well as notaries, in connection with the establishment, registration in distribution countries, modification, liquidation and merger of the Company, as well as for the general safeguarding of the interests of the Company and its investors, insofar as this is not expressly prohibited by law;

- e) costs for the publication of the Company's net asset value and all costs for notices to investors, including translation costs;
- f) costs for the Company's legal documents (prospectuses, KIIDs, annual and semi-annual reports, as well as all other documents legally required in the countries of domiciliation and distribution);
- g) costs for the Company's registration with any foreign supervisory authorities, if applicable, including fees payable to the foreign supervisory authorities, as well as translation costs and fees for the foreign representative or paying agent;
- h) expenses incurred through use of voting or creditors' rights by the Company, including fees for external advisers;
- i) costs and fees related to any intellectual property registered in the Company's name or to the Company's rights of usufruct;
- j) all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary to protect the interests of the investors;
- k) If the Management Company participates in class-action suits in the interests of investors, it may charge the Company's assets for the expenses arising in connection with third parties (e.g. legal and Depositary costs). Furthermore, the Management Company may charge for all administrative costs, provided these are verifiable, and published and/or taken into account in the disclosure of the Company's total expense ratio (TER);
- l) fees, costs and expenses payable to the directors of the Company (including reasonable out-of-pocket expenses, insurance coverage and reasonable travel expenses in connection with meetings of the Board and remuneration of directors);

These commissions and fees are shown in the Statement of Operations as "Other commissions and fees".

3. The Management Company may pay retrocessions to cover the distribution activities of the Company.
4. The Management Company or its agents may pay out rebates directly to investors. Rebates serve to reduce the cost attributable to investors concerned.

Rebates are permitted provided that they:

- are paid out of fees of the Management Company or its agents and thus do not additionally impair the assets of the subfund;
- are granted on the basis of objective criteria;
- are granted to the same extent to all investors who meet the objective criteria equally and demand rebates;
- increase the quality of the service for which the rebate is granted (e.g. by contributing to higher assets of the subfund that can lead to a more efficient management of the assets and a reduced liquidation probability of the subfund and/or a reduction of the fixed costs pro rate for all investors) and all investors bear their fair share of the subfund's fees and costs.

The objective criterion for granting rebates is:

- the total assets held by the investor in the share class of the subfund that qualifies for rebates;

Additional criteria may be:

- the total assets in UBS collective investment schemes held by the investor and/or
- the region where the investor is domiciled.

Upon request of the investor, the Management Company or its agents shall disclose the corresponding amount of the rebates free of charge.

All taxes levied on the income and assets of the Company, particularly the tax d'abonnement, will also be borne by the Company.

For purposes of general comparability with fee rules of different fund providers that do not have a flat management fee, the term "maximum management fee" is set at 80% of the flat management fee.

For share class "I-B", a fee is charged to cover the costs of fund administration (comprising the costs of the Company, the administrative agent and the Depositary). The costs for asset management and distribution are charged outside of the Company under a separate contract concluded directly between the shareholder and UBS Asset Management or one of its authorised representatives.

Costs relating to the services performed for share classes I-X, K-X and U-X for asset management, fund administration (comprising the costs of the Company, the administrative agent and the Depositary) and distribution are covered by the compensation to which UBS Asset Management Switzerland AG is entitled to under a separate contract with the shareholder.

Costs relating to the services to be performed for share classes "K-B" for asset management purposes are covered by the compensation to which UBS Asset Management Switzerland AG or one of its authorised distribution partners is entitled under a separate contract with the investor.

All costs that can be attributed to individual subfunds will be charged to these subfunds.

Costs that can be attributed to individual share classes will be charged to these share classes. If costs are incurred in connection with several or all subfunds/share classes, however, these costs will be charged to these subfunds/share classes in proportion to their relative net asset values.

With regard to subfunds that may invest in other UCIs or UCITS under the terms of their investment policies, fees may be incurred both at the level of the subfund as well as at the level of the relevant target fund. The management fees (excluding performance fees) of the target

fund in which the assets of the subfund are invested may amount to a maximum of 3%, taking into account any trailer fees.

Should a subfund invest in units of funds that are managed directly or by delegation by the Management Company or by another company linked to the Management Company through common management or control or through a substantial direct or indirect holding, no issue or redemption charges may be charged to the investing subfund in connection with these target fund units.

Details on the Company's ongoing charges can be found in the KIIDs.

Note 3 – Taxe d'abonnement

In accordance with the law and the regulations currently in force, the company is subject in Luxembourg to the subscription tax at the annual rate of 0.05%, or a reduced tax d'abonnement amounting to 0.01% p.a. for some share classes, payable quarterly and calculated on the basis of its net assets at the end of each quarter.

The tax d'abonnement is waived for that part of the net assets invested in units or shares of other undertakings for collective investment that have already paid the tax d'abonnement in accordance with the statutory provisions of Luxembourg law.

Note 4 – Other income

Other income mainly consist of income resulting from Swing Pricing.

Note 5 – Income distribution

Distribution Policy

The general meeting of shareholders of the respective subfunds shall decide, at the proposal of the Board of Directors and after closing the annual accounts per subfund, whether and to what extent distributions are to be paid out by each subfund or share class. The payment of distributions must not result in the net assets of the company falling below the minimum amount of assets prescribed by law. If a distribution is made, payment will be effected no later than four months after the end of the financial year.

The Board of Directors is authorized to pay interim dividends and to suspend the payment of distributions.

Note 6 – Commitments on Financial Futures, Options and Synthetic Equity Swaps

Commitments on Financial Futures, Options and Synthetic Equity Swaps per subfund and respective

currency as of 31 May 2023 can be summarised as follows:

a) Financial Futures

UBS (Lux) Equity SICAV	Financial Futures on Indices (bought)	Financial Futures on Indices (sold)
– Euro Countries Income Sustainable (EUR)	1 602 460.00 EUR	- EUR
– European Income Opportunity Sustainable (EUR)	10 120 800.00 EUR	- EUR
– Global Defensive Sustainable (USD)*	2 933 350.00 USD	- USD

* formerly UBS (Lux) Equity SICAV – Global Defensive (USD)

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts*notional contract size*market price of the futures).

b) Options

UBS (Lux) Equity SICAV	Options on shares, classic-styled (sold)
– Euro Countries Income Sustainable (EUR)	43 904 484.34 EUR
– Global Income Sustainable (USD)	56 169 596.84 USD
– US Income Sustainable (USD)	168 990 143.87 USD

UBS (Lux) Equity SICAV	Options on indices, classic-styled (sold)
– European Income Opportunity Sustainable (EUR)	5 272 010.29 EUR
– Global Defensive Sustainable (USD)*	7 828 365.73 USD

* formerly UBS (Lux) Equity SICAV – Global Defensive (USD)

c) Synthetic Equity Swaps

UBS (Lux) Equity SICAV	Synthetic Equity Swaps (bought)	Synthetic Equity Swaps (sold)
– European Opportunity Unconstrained (EUR)	201 125 481.52 EUR	170 361 291.44 EUR
– Global Opportunity Unconstrained (USD)	22 936 433.95 USD	25 839 429.61 USD

Note 7 – Soft commission arrangements

If permitted by the laws governing the Portfolio Manager, the Portfolio Manager and its affiliates may enter into soft commission arrangements with certain brokers which they engage in security transactions on behalf of the subfunds under which certain goods and services used to support investment decision making will be received without a direct payment in return. Such commissions are defined as soft dollars by the Hong Kong Securities and Futures Commission. This is only done when the transaction execution is consistent with the best execution standards, and it has been determined in good faith that the brokerage fee is reasonable in relation to the value of the execution and/or brokerage services provided by the broker.

Goods and services received solely included research services. The relative costs or benefits of research received from brokers are not allocated among particular clients

or funds because it is believed that the research received is, in the aggregate, of assistance in fulfilling the Portfolio Manager and its affiliates' overall responsibilities to their clients or funds they manage. The amounts of transactions executed with brokers having soft commission arrangements in place and the related commissions that have been paid by the subfunds for these transactions are as follows:

UBS (Lux) Equity SICAV	Amounts of transactions executed with brokers having soft commission arrangements in place (in USD)	Related commissions that have been paid by the subfunds for these transactions (in USD)
– All China (USD)	607 447 506.58	178 318.92
– Global Emerging Markets Opportunity (USD)	527 078 549.04	150 768.81
– Global Opportunity Sustainable (USD)	939 377 969.14	-
– US Total Yield Sustainable (USD)	1 976 463 350.16	2 471.78
– USA Growth (USD)	1 957 582 204.31	134 070.44

Except of the above item there are no other comparable agreements for the other subfunds.

Note 8 – Total Expense Ratio (TER)

This ratio was calculated in accordance with the Asset Management Association Switzerland (AMAS) / Swiss Funds & Asset Management Association (SFAMA) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

TER for the last 12 months:

The TER for classes of shares which were active less than a 12 month period are annualised.

Transaction costs, interest costs, securities lending costs and any other costs incurred in connection with currency hedging are not included in the TER.

Note 9 – Portfolio Turnover Rate (PTR)

The portfolio turnover has been calculated as follows:

$$\frac{(\text{Total purchases} + \text{total sales}) - (\text{total subscriptions} + \text{total redemptions})}{\text{Average of net assets during the period under review}}$$

The portfolio turnover statistics are the following for the period under review:

UBS (Lux) Equity SICAV	Portfolio Turnover Rate (PTR)

Note 10 – Transaction costs

Transaction costs include brokerage fees, which also include costs from Commission Sharing Arrangements, as well as stamp duty, local taxes and other foreign charges if incurred during the fiscal year. Transaction fees are included in the cost of securities purchased and sold.

For the financial year ended on 31 May 2023, the fund incurred transaction costs relating to purchase or sale of investments in securities and similar transactions, as follows:

UBS (Lux) Equity SICAV	Transaction costs
– Active Climate Aware (USD)	138 757.93 USD
– All China (USD)	1 273 941.36 USD
– Asian Smaller Companies (USD)	475 603.64 USD

** formerly UBS (Lux) Equity SICAV – Global Defensive (USD)

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs will be included in the purchase and sale price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each subfunds.

Note 11 – Defaulted securities

There are a number of shares that - at the year end – are in default, hence they are not paying the coupon/principal as specified in the offering documents. For these shares pricing quotes exist, a final payment is expected and they are disclosed in the portfolio. Furthermore, there are shares that have defaulted in the past where no pricing quotes exists and no final payment is expected. These shares have been fully written off by the fund. They are monitored by the management company that will allocate any return that might still arise from these shares to the subfunds. They are not shown within the portfolio but separately in this note.

Note 12 – Related party transactions

Connected persons in the context of this note are those defined in the SFC Code on Unit Trusts and Mutual Funds. All transactions entered into during the year between the subfunds and its connected persons were carried out in the normal course of business and on normal commercial terms.

a) Transactions on securities and derivative financial instruments

The volume of securities and derivative financial instruments undertaken via a broker that is an affiliate of the Management Company (except options), the Portfolio Manager, the Depositary or the Board of Directors for the financial year from 1 June 2022 to 31 May 2023 for the following subfunds licensed for sale in Hong Kong is:

UBS (Lux) Equity SICAV	Volume of transactions in Securities and derivative financial instruments with related parties	As a % of the total of security transactions
– All China (USD)	131 117 145.88	17.30%
– Global Emerging Markets Opportunity (USD)	8 274 388.83	0.61%
– Global Opportunity Sustainable (USD)	45 214 960.32	3.71%
– Long Term Themes (USD)	23 617 412.10	0.08%
– Russia (USD)	0.00	0.00%
– US Total Yield Sustainable (USD)	241 234 882.50	6.09%
– USA Growth (USD)	0.00	0.00%

UBS (Lux) Equity SICAV	Commissions on transactions in Securities and derivative financial instruments with related parties	Average rate of commission
- All China (USD)	66 315.62	0.01%
- Global Emerging Markets Opportunity (USD)	0.00	0.00%
- Global Opportunity Sustainable (USD)	6 324.78	0.00%
- Long Term Themes (USD)	12 877.31	0.00%
- Russia (USD)	0.00	0.00%
- US Total Yield Sustainable (USD)	2 296.00	0.00%
- USA Growth (USD)	0.00	0.00%

As disclosed in Note 10 – Transaction Costs, the transaction costs for fixed-income investments, exchange-traded futures contracts and other derivative contracts are included in the purchase and sale price of the investment and are therefore not listed individually here.

UBS (Lux) Equity SICAV	Volume of transactions in other securities (except equities, equity-like securities and derivative financial instruments) with related parties	As a % of the total of security transactions
- All China (USD)	0.00	0.00%
- Global Emerging Markets Opportunity (USD)	0.00	0.00%
- Global Opportunity Sustainable (USD)	20 000.00	0.00%
- Long Term Themes (USD)	0.00	0.00%
- Russia (USD)	0.00	0.00%
- US Total Yield Sustainable (USD)	0.00	0.00%
- USA Growth (USD)	0.00	0.00%

According to normal Market practice, no commissions have been charged to the Company on transactions on “other securities (except equities and equity-like securities)” with related parties.

Such transactions were entered in the ordinary course of business and on normal commercial terms.

For the conversion of the volume of transactions with related parties into subfund currency, the exchange rates of the financial statements as of 31 May 2023 were used.

b) Transactions in Shares of the Company

Connected persons may invest in a new subfund/share-class for the purpose of providing seed capital (“Direct Investment”), with the intent of remaining invested until the subfund/shareclass has substantial net assets. Such investments are at arm’s length and comply with all late trading/market timing prevention requirements. No connected person may invest for the purpose of exercising management or control over any Fund or the Company.

UBS (Lux) Equity SICAV	Share class	Market value	% Net fund-assets
- Russia (USD)	I-A3-acc	4 215.00 USD	0.00%
- US Total Yield Sustainable (USD)	(CHF hedged) F-dist	9 880.00 USD	1.00%

c) Holding of the Directors

The Management Company and its connected persons are allowed to subscribe for, and redeem, shares in the subfunds.

The Directors of the Management Company and the Directors of the Company had no holdings in the sub-funds licensed for sale in Hong Kong as at 31 May 2023.

Note 13 – Master Feeder Structure

UBS Investment Funds ICVC V – UBS Global Enhanced Equity Income Fund is a feeder structure (UCITS) and invests at least 85% of its net assets in shares of UBS (Lux) Equity SICAV – Global Income Sustainable (USD) (“the Master UCITS”). UBS Investment Funds ICVC V is an open-ended investment company with variable capital incorporated in England and Wales.

UBS Investment Fund ICVC V – UBS Global Enhanced Equity Income is a fund set up under English law. Despite the Brexit, the existing master-feeder rules according to Article 41 (1e) of the UCITS Act of 17 December 2010 remain applicable.

The subfund UBS (Lux) Equity SICAV – O’Connor Event Driven UCITS Fund (USD) (the “Feeder Fund”) is a feeder fund in accordance with Article 77 of the Law of 2010. It invests at least 85% of its net assets in units of IAM Investments ICAV - O’Connor Event Driven UCITS Fund (the “Master Fund”), a subfund of IAM Investments ICAV (“ICAV”), an open-ended umbrella UCITS (Irish Collective Asset-management Vehicle) with variable capital and segregated liability between subfunds established in Ireland on 14 August 2015 pursuant to the Irish Collective Asset-management Vehicles Act 2015 and authorised by the Central Bank of Ireland as a UCITS for the purposes of the European Communities (Undertakings for Collective Investment in Transferable Securities) Directive, 2011 (S.I. No. 352 of 2011) (as amended from time to time, the “Ordinance”). The ICAV has appointed Carne Global Fund Managers (Ireland) Limited as the Manager of the ICAV (the “Master Management Company”). International Asset Management Limited has been appointed as the investment manager (the “Investment Manager”) and UBS O’Connor LLC as the sub-investment manager (the “Sub-Investment Manager”) of the Master Fund.

The Feeder Fund may invest up to 15% of its net assets in the following assets:

- liquid assets pursuant to Article 41(2)(2) of the Law of 2010;
- derivative financial instruments pursuant to Article 41(1)(g) and Article 42(2) and (3) of the Law of 2010 that may only be used for hedging purposes.

More detailed information on the Master Fund can be found in its sales prospectus and KIID, as well as at www.iaminvestments.com/funds, or obtained from the registered office of the Master Management Company.

The Feeder Fund's investment objective and investment policy should be read in connection with the sales prospectus of the Master Fund including the specific appendix (the "Master Prospectus").

The subfund UBS (Lux) Equity SICAV – O'Connor China Long/Short Alpha Strategies UCITS (USD) (the "Feeder Fund") is a feeder fund in accordance with Article 77 of the Law of 2010. It invests at least 85% of its net assets in units of UBS (Irl) Investor Selection – O'Connor China Long/Short Alpha Strategies UCITS (the "Master Fund"), a subfund of UBS (Irl) Investor Selection PLC, an open-ended umbrella investment company with variable capital and segregated liability between subfunds established in Ireland on 16 December 2009 pursuant to the Companies Act 2014 with registration number 478169 and authorised by the Central Bank of Ireland as a UCITS for the purposes of the European Communities (Undertakings for Collective Investment in Transferable Securities) Directive, 2011 (S.I. No. 352 of 2011) (as amended from time to time, the "Ordinance"). UBS Fund Management (Luxembourg) S.A. has been appointed as the management company (the "Master Management Company"). UBS O'Connor LLC has been appointed as the investment manager (the "Investment Manager") and UBS Asset Management (Singapore) Ltd. as the sub-investment manager (the "Sub-Investment Manager") of the Master Fund.

The Feeder Fund may invest up to 15% of its net assets in the following assets:

- liquid assets pursuant to Article 41(2)(2) of the Law of 2010;
- derivative financial instruments pursuant to Article 41(1)(g) and Article 42(2) and (3) of the Law of 2010 that may only be used for hedging purposes.

Master Fund	Feeder Fund	Currency	Total Amount of aggregate charges	Aggregate charges in %	% of ownership of the Master Fund
IAM Investments ICAV – O'Connor Event Driven UCITS Fund	UBS (Lux) Equity SICAV – O'Connor Event Driven UCITS Fund (USD)	USD	4 754 916.39	1.66%	0.38%
UBS (Irl) Investor Selection – O'Connor China Long/Short Alpha Strategies UCITS	UBS (Lux) Equity SICAV – O'Connor China Long/Short Alpha Strategies UCITS (USD)	USD	21 273 733.21	6.83%	0.41%

More detailed information on the Master Fund can be found in its Sales Prospectus (the "Extract Prospectus") and KIID, and obtained at www.ubs.com/funds or from the registered office of the Master Management Company.

The Feeder Fund's investment policy should be read in connection with the Extract Prospectus including the specific Master Fund appendix, whereby the following investment objectives and policy shall apply.

Note 14 – Name changes

The following name changes occurred:

Old	New	Date
UBS (Lux) Equity SICAV – Global Defensive (USD)	UBS (Lux) Equity SICAV – Global Defensive Sustainable (USD)	25.11.2022
UBS (Lux) Equity SICAV – Global Impact (USD)	UBS (Lux) Equity SICAV – Engage for Impact (USD)	25.11.2022

Note 15 – UBS (Lux) Equity SICAV – Russia (USD)

The financial statements of the UBS (Lux) Equity SICAV – Russia (USD) have been prepared on a going concern basis.

The board of directors has informed investors in accordance with Art. 11 of the Articles of Incorporation and the prospectus of the Company to suspend the calculation of the net asset value, the issue and redemption and conversions of shares of the subfund effective 25.02.2022 in order to protect the interests of the investors in the subfund. At the same time the flat fees for the subfund have been waived and investment restrictions are no longer applicable.

The ongoing geopolitical tensions (military operations) by Russia in the Ukraine and the subsequent sanctions imposed on Russia with implications on the Russian stock exchange market but also ADRs/GDRs replicating Russian assets and ruble trading including repatriation of assets from Russia, make it impossible to trade or value the majority of assets of the subfund.

Under the current situation, it is not possible to determine for how long the suspension of NAV calculation (including issue, redemption and conversion of shares) will last. The Board of Directors in conjunction with the Management Company will monitor the situation and review the decision on a ongoing basis in the interest of investors. Any subsequent decision that changes this status will be communicated to the investors as and when required.

The assets held by the subfund which have been subject to a write down to zero representing a market valuation prior to subfund suspension decision of USD 40 599 460.13 for a cost (initial purchase price) amounting to USD 72 617 405.06.

Note 16 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the shareholders, the company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the company and/or the Depositary can elect to make themselves subject to the jurisdiction of the countries in which company shares were bought and sold.

The English version of these financial statements is the authoritative version and only this version was audited by the auditor. However, in the case of company shares sold to investors from the other countries in which company shares can be bought and sold, the company and the Depositary may recognize approved translations (i.e. approved by the company) into the languages concerned as binding upon itself.

Note 17 – OTC-Derivatives and Securities Lending

If the Company enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Company enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Company is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Company. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepository/correspondent bank network may result in the rights or recognition of the Company in connection with the security to be delayed, restricted or even eliminated, which would force the Company to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Company may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch, acts as securities lending agent.

OTC-Derivatives*

Appendix 1 – Global Exposure (unaudited)

Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is applied pursuant to the applicable laws and regulatory provisions.

Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depository.

Service providers that provide securities lending services to the Company have the right to receive a fee in line with market standards in return for their services. The amount of this fee is reviewed and adapted, where appropriate, on an annual basis. Currently, 60% of the gross revenue received in the context of securities lending transactions negotiated at arm's lengths is credited to the relevant subfund, while 40% of the gross revenue are retained as costs/fees by UBS Europe SE, Luxembourg Branch acting as securities lending agent and UBS Switzerland AG providing securities lending services. All costs/fees of running the securities lending programme are paid from the securities lending agents' portion of the gross income. This includes all direct and indirect costs/fees generated by the securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.

Data on income and expense for total return swaps

There are no agreements on Total Return Swaps and 100% of the income/expenses generated are recognised in the Statement of Operations.

The TRS transaction costs are not separately identifiable as explained in Note 10.

Appendix 4 – Remuneration Policy (unaudited)

The Board of Directors of UBS Fund Management (Luxembourg) S.A. (the “Management Company” or the “AIFM”) has adopted a remuneration framework (the “Framework”) whose objectives are on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under:

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the “UCITS Law”) transposing the UCITS Directive 2009/65/EC (the “UCITS Directive”) as amended by Directive 2014/91/EU (the “UCITS V Directive”);
- (ii) the Alternative Investment Fund Managers Directive (“AIFMD”) 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA’s guidelines on sound remuneration policies under the UCITS Directive - ESMA/2016/575 and ESMA’s guidelines on sound remuneration policies under the AIFMD - ESMA/2016/579 both published on 14 October 2016;
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EC of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) Regulation (EU) 2019/2088 of the European parliament and of the council of 27 November 2019 on sustainability-related disclosures in the financial services sector (“SFDR”);
- (viii) the CSSF Circular 14/585, transposing the ESMA Guidelines 2013/606 on remuneration policies and practices (MiFID ESMA Guidelines).

and on the other hand, to comply with the UBS Group AG (the “UBS Group”) Total Reward Principles.

The Framework is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Framework of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at <https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html>.

The Framework is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/the AIFM. Last approval by the Board of Directors took place on 23 September 2022. The changes made to the Framework relate to the extension of the Management Company/the AIFM license to cover non-core services investment advice and reception and transmission of orders in relation to financial instruments.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration framework and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

Appendix 4 – Remuneration Policy (unaudited)

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

Remuneration of Management Company/AIFM staff

The aggregate amounts of total remuneration, split into fixed and variable, paid by the Management Company/the AIFM to its staff and its Identified Staff during the financial year ended as at 31 December 2022 are as follows:

EUR 1 000	Fixed remuneration	Variable remuneration	Total remuneration	No of beneficiaries
All staff	10 669	1 787	12 456	100
- whereof Identified Staff	4 644	985	5 629	33
- thereof Senior Management*	2 341	714	3 055	11
- thereof Other Identified Staff	2 303	271	2 574	22

* Senior Management includes the CEO, the Conducting Officers, the Head of Compliance and the Independent Director.

Remuneration of delegates staff

As market or regulatory practice develops UBS Asset Management may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBS fund disclosures in that same year.

For the year ending 31 December 2022, the aggregate total remuneration paid by the delegated Investment Manager to its Identified Staff in relation to the Fund amounted to EUR 3 731 324 of which EUR 3 143 483 represented the variable remuneration (13 beneficiaries).

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Article 6:

UBS (Lux) Equity SICAV – O'Connor China Long/Short Alpha Strategies UCITS (USD)*

UBS (Lux) Equity SICAV – O'Connor Event Driven UCITS Fund (USD)*

* The investments underlying this subfund do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Taxonomy).

Consideration of sustainability risks are not integrated due to the investment strategy and the nature of the underlying investments (SFDR Art. 6). Sustainability risks are not currently expected to have a material impact on achieving the return objectives of the subfund.

The subfund does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (SFDR Art. 7).

UBS (Lux) Equity SICAV – Innovation (USD)*

UBS (Lux) Equity SICAV – Russia (USD)*

UBS (Lux) Equity SICAV – US Opportunity (USD)*

* The investments underlying this subfund do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Taxonomy).

The investment process integrates material sustainability and/or Environmental, Social and Governance (ESG) considerations. ESG integration is driven by taking into account material ESG risks, which could impact investment returns, and implementing ESG strategies that enhance returns rather than being driven by specific ethical principles or norms. The analysis of material sustainability/ESG considerations can include many different aspects, for example; the carbon footprint, reducing consumption and waste, employee [and/or tenant] health and well-being, supply chain management, fair customer treatment and governance processes of a company. The Portfolio Manager may still make investments with a higher ESG risk profile where the Portfolio Manager believes the potential compensation and ability to mitigate outweighs the risks identified. Therefore, ESG Integrated Funds do not have a sustainable focus as the primary objective, but they are investment funds that primarily aim at maximizing financial performance whereby ESG aspects are an important factor incorporated into the investment process and ongoing asset management.

The subfund does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (SFDR Art. 7).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Active Climate Aware (USD)
Legal entity identifier: 549300YCRKWSJWTVYD35

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 58.93% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A lower implied temperature alignment score than the reference benchmark.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.
- 3) A "green to brown ratio" that is higher than the green to brown ratio of the benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

The implied temperature alignment score was lower than that of its benchmark.

- The implied temperature alignment score of the financial product: 2.06
- The implied temperature alignment score of the benchmark: 2.54

Characteristic 2:

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 88.88 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 156.82 tonnes of CO₂ per million dollars revenues.

Characteristic 3:

The "green to brown ratio" was higher than that of its benchmark.

- Green to brown ratio of the financial product: 14.20
- Green to brown ratio of the benchmark: 1.15

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Portfolio Manager selects attractively valued companies that are on the forefront of the transition to a low-carbon economy, contributing to climate mitigation, adaptation and transition.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

----- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

----- *Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. *Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 58.93%.

Asset allocation describes the share of investments in specific assets.

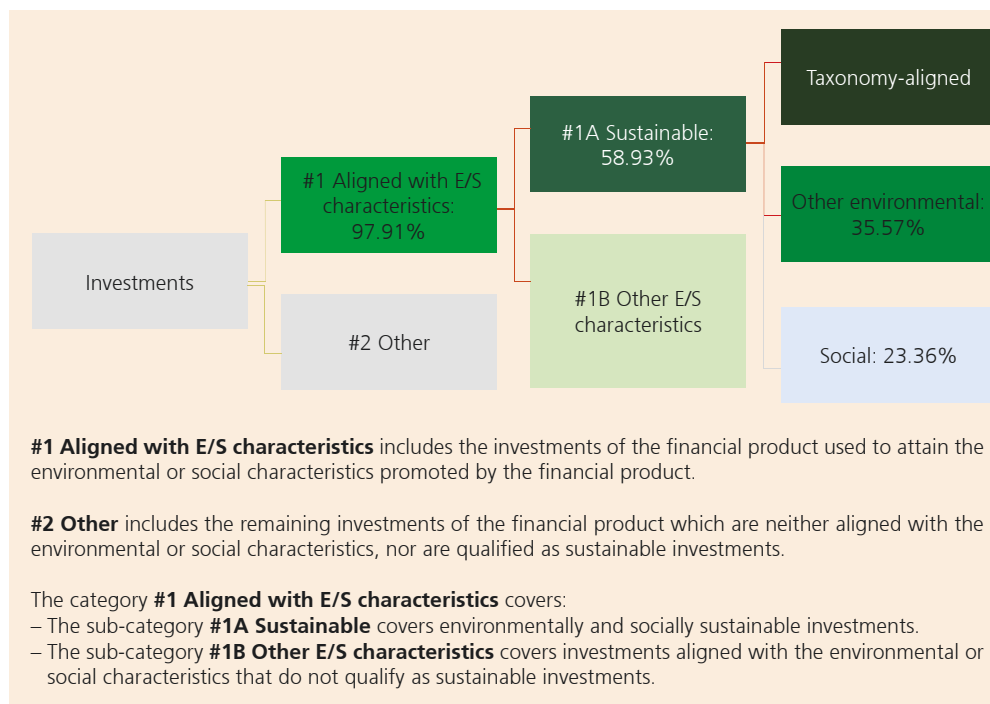

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the share of socially sustainable investments?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.

● *How did this financial product perform compared with the reference benchmark?*

Not applicable.

● *How did this financial product perform compared with the broad market index?*

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – All China (USD)

Legal entity identifier: 549300K8461GMZNDH278

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

- The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.
- Weighted Average Carbon Intensity (WACI) of the financial product: 138.81 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 282.56 tonnes of CO₂ per million dollars revenues.
- No low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO₂ emissions per million US dollars of revenues.

Characteristic 2:

- The UBS ESG consensus score of the financial product was higher than that of its benchmark.
- UBS consensus score of the financial product: 4.77
- UBS consensus score of the benchmark: 4.12
- 73.42% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

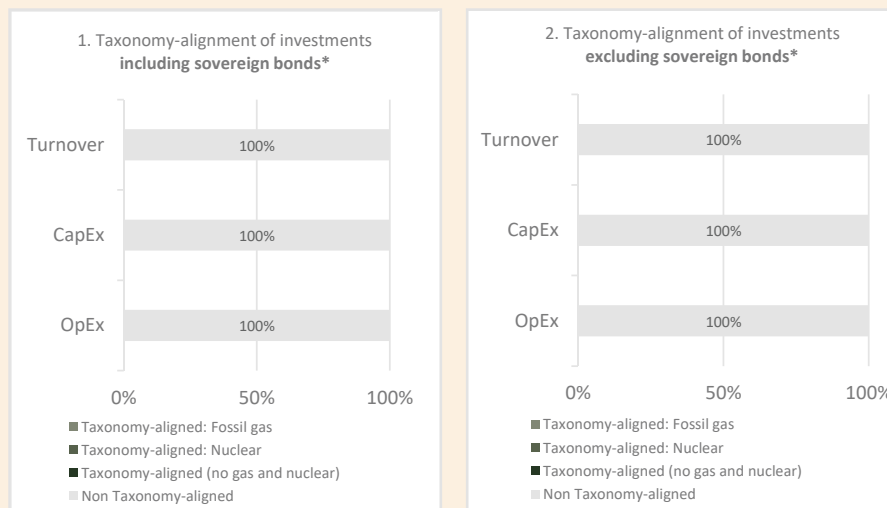

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

● **What was the share of socially sustainable investments?**

Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – China Health Care (USD)
Legal entity identifier: 549300KF53GCL4FGW264

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

- The Weighted Average Carbon Intensity (WACI) was higher than that of its benchmark.
 - Weighted Average Carbon Intensity (WACI) of the financial product: 66.48 tonnes of CO₂ per million dollars revenues.
 - Weighted Average Carbon Intensity (WACI) of the benchmark: 64.46 tonnes of CO₂ per million dollars revenues.
- A low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO₂ emissions per million US dollars of revenues.

Characteristic 2:

- The UBS ESG consensus score of the financial product was higher than that of its benchmark.
 - UBS consensus score of the financial product: 5.04
 - UBS consensus score of the benchmark: 4.73
- 38.91% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

----- How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

----- Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

What were the top investments of this financial product?

UBS (Lux) Equity SICAV
Annual report and audited financial statements as of 31 May 2023

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the proportion of sustainability-related investments?

Not applicable.

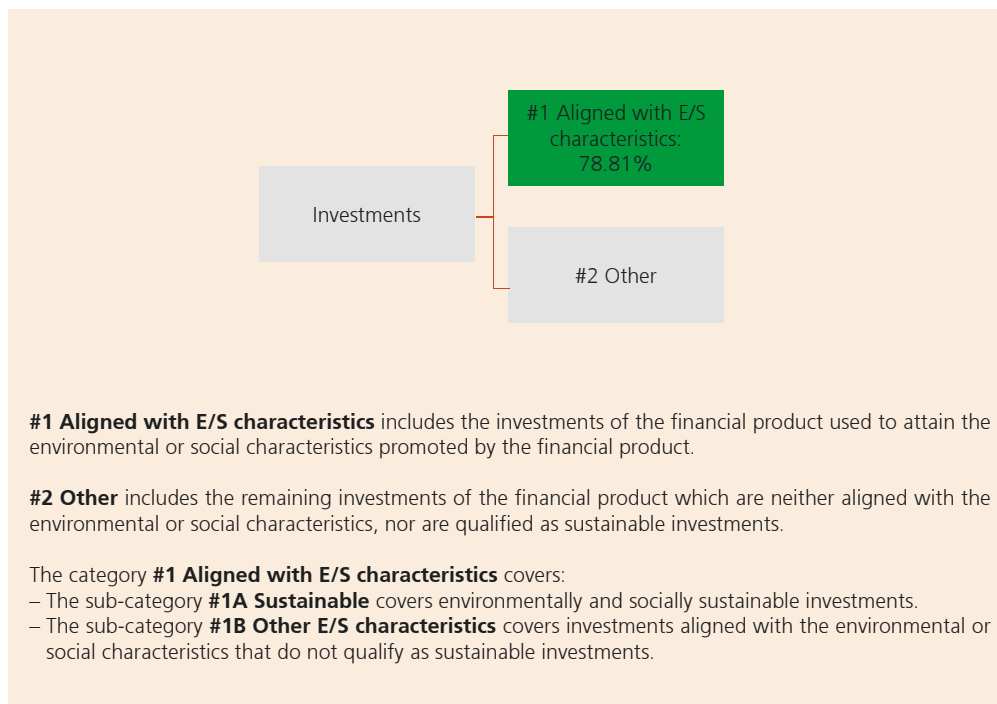

Asset allocation

describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

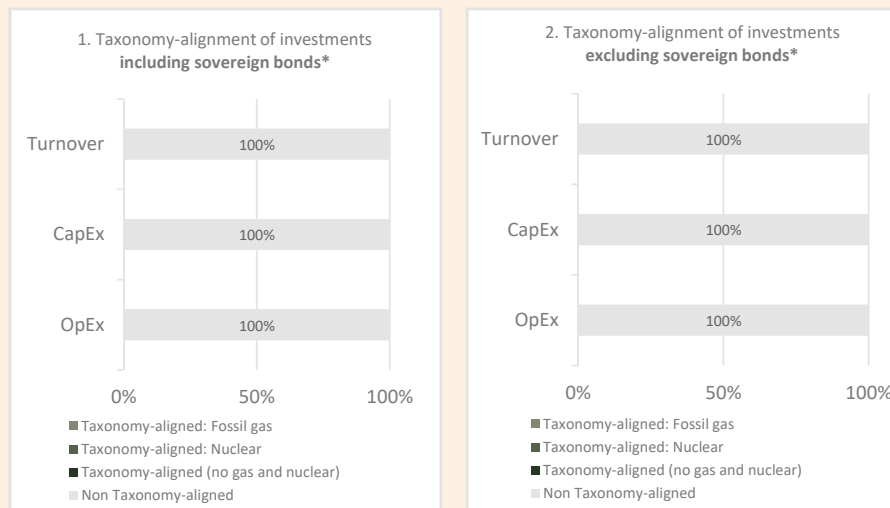

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Climate Action (USD)

Legal entity identifier: 39120061T95NG470SK30

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 47.33% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 6 December 2022 onwards, the following characteristics are promoted by the financial product:

Invests in at least 90% of its net assets in equities and other equity interests of attractively valued companies of emission-intense industries in developed and emerging markets worldwide that the Portfolio Manager expects will reduce their carbon emissions over time. The Portfolio Manager will engage with these companies on accelerating climate efforts.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

From 6 December 2022 onwards, 95.17% of the financial product net assets were invested in equities and other equity interests of attractively valued companies of emission-intense industries in developed and emerging markets worldwide that the Portfolio Manager expects will reduce their carbon emissions over time.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

----- How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

----- Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Lundin Mining Corp	Precious metals	3.32	Canada
Golden Ocean Group Ltd	Traffic & transportation	3.21	Norway

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

*Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 47.33%.

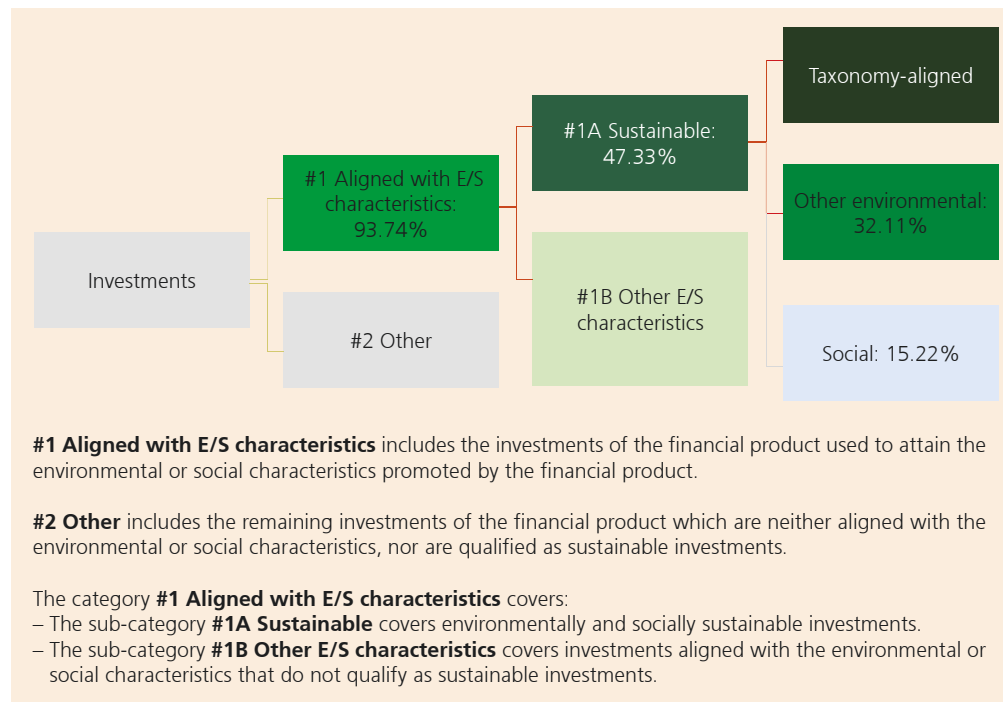

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

● In which economic sectors were the investments made?

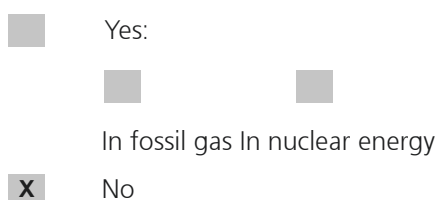

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

- **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

- **What was the share of socially sustainable investments?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Climate Solutions (USD)

Legal entity identifier: 391200TO5QQTXDCTNX46

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 70.91% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 6 December 2022 onwards, the following characteristics are promoted by the financial product:

Invests in at least 80% in equities and other equity interests of companies that have exposure to sustainable themes which the Portfolio Manager considers to be critical to pave the way to a low carbon economy. The focus is on climate solution providers, in the area of, but not limited to, energy efficiency, clean energy and renewables, sustainable water solutions, smart mobility or sustainable food chain systems.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

From 6 December 2022 onwards, 94.74% of the financial product net assets were invested in equities and other equity interests of companies that have exposure to sustainable themes which the Portfolio Manager considers to be critical to pave the way to a low carbon economy.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Portfolio Manager selects attractively valued companies that are on the forefront of the transition to a low-carbon economy, contributing to climate mitigation, adaptation and transition.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

----- How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

----- Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Companies violating the United Nations Global Compact (UNGC) principles, which do not demonstrate credible corrective action were excluded from the investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What were the top investments of this financial product?

Largest Investments	Sector	% Net Assets*	Country
Danaher Corp	Mech engineering & ind equip	3.76	United States of America
NEC Corp	Computer hardware & network	3.75	Japan
Roper Technologies Inc	Mech engineering & ind equip	3.75	United States of America
Spectris PLC	Electronics & semiconductors	3.67	United Kingdom
American Water Works Co Inc	Energy & water supply	3.66	United States of America
Linde PLC	Financial & investment companies	3.58	United States of America
VMware Inc	Internet, software & IT serv	3.53	United States of America
Regal Rexnord Corp	Mech engineering & ind equip	3.45	United States of America
Taiwan Semiconductor Manufacturing Co Ltd	Electronics & semiconductors	3.30	Taiwan
Waste Management Inc	Environmental serv & recycling	3.16	United States of America
Ecolab Inc	Chemicals	3.05	United States of America
Hera SpA	Energy & water supply	2.83	Italy
Cie Generale des Etablissements Michelin SCA	Rubber & tyres	2.71	France
Gree Electric Appliances Inc of Zhuhai	Electr appliances & components	2.65	China
Keyence Corp	Electronics & semiconductors	2.59	Japan

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

*Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 70.91%.

● What was the asset allocation?

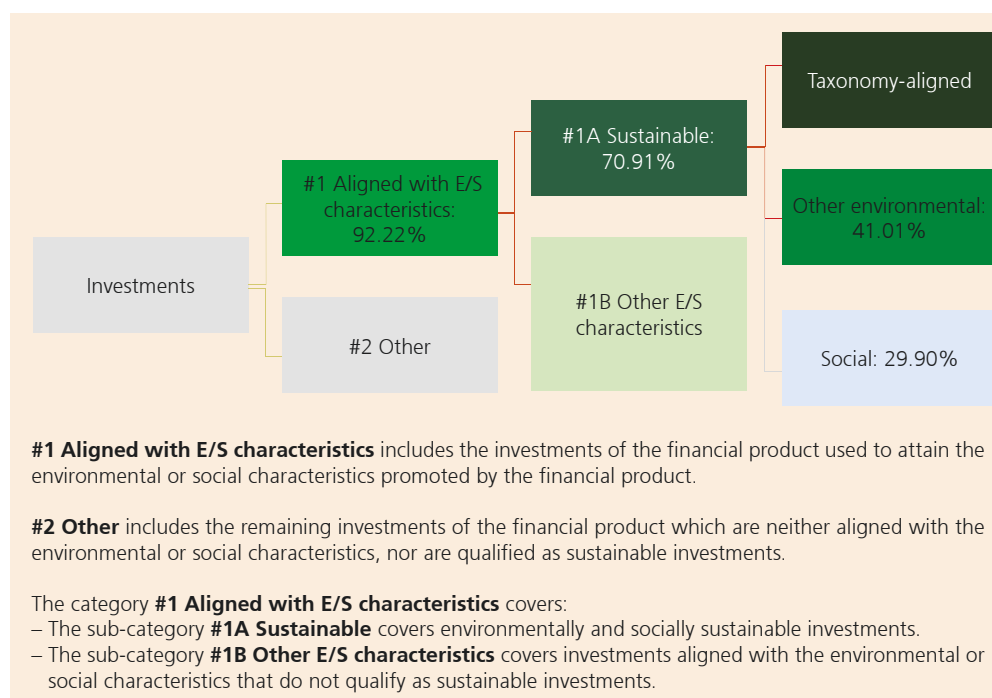

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Asset allocation

describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

● In which economic sectors were the investments made?

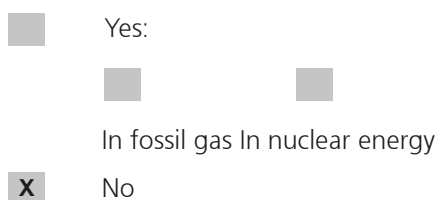

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

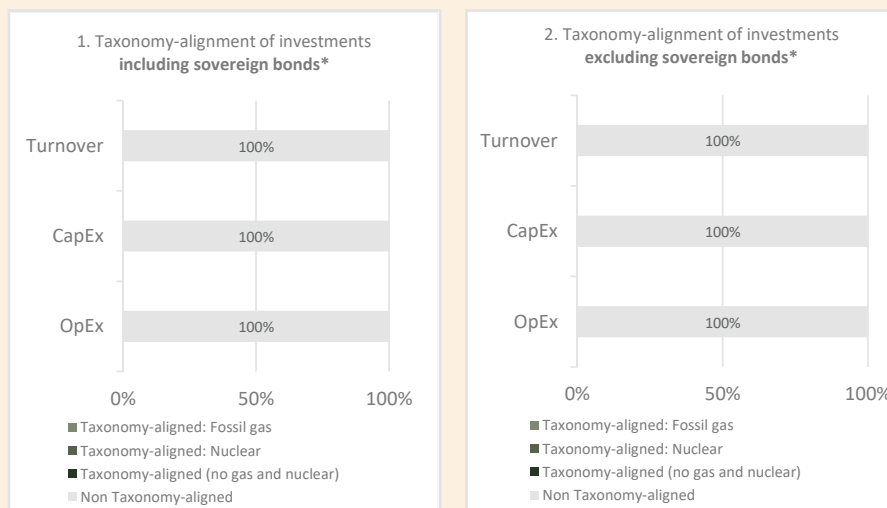

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

- **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

- **What was the share of socially sustainable investments?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Engage for Impact (USD) [formerly UBS (Lux) Equity SICAV – Global Impact (USD)]

Legal entity identifier: 549300ZSXZYFYENYQ609

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 62.63% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 1 June 2022 until 24 November 2022, the following characteristic is promoted by the financial product:

Invest at least two thirds of its assets in equities and other equity interests of companies in developed and emerging markets worldwide that promote the United Nations Sustainable Development Goals (UN SDGs).

From 25 November 2022 onwards, the following characteristic is promoted by the financial product:

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

A 90% overlap to the proprietary impact Universe of companies which are aligned with the United Nations Sustainable Investment Goals. The product aims to provide capital appreciation and a positive environmental and/or social impact by investing in and engaging with attractively valued companies that offer products or services that are aligned to specific UN SDGs and present the potential for further impact by active engagement.

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

From 1 June 2022 until 24 November 2022, the financial product overlap with the promoted characteristic described above was higher than 66.7%.

- Percentage of the financial product aligned with the promoted characteristic: 81.32%

From 25 November 2022 onwards, the financial product overlap with the promoted characteristic described above was higher than 90%.

- Percentage of the financial product aligned with the promoted characteristic: 96.51%

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially intends to make is to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Euro Countries Income Sustainable (EUR)
Legal entity identifier: 5493001A568JOJRRRV62

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 60.44% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

The ESG score of the financial product was higher than that of its benchmark.

- ESG score of the financial product: 8.61
- ESG score of the benchmark: 7.76

Characteristic 2:

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 109.11 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 133.23 tonnes of CO₂ per million dollars revenues.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially intends to make is to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

*Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 60.44%.

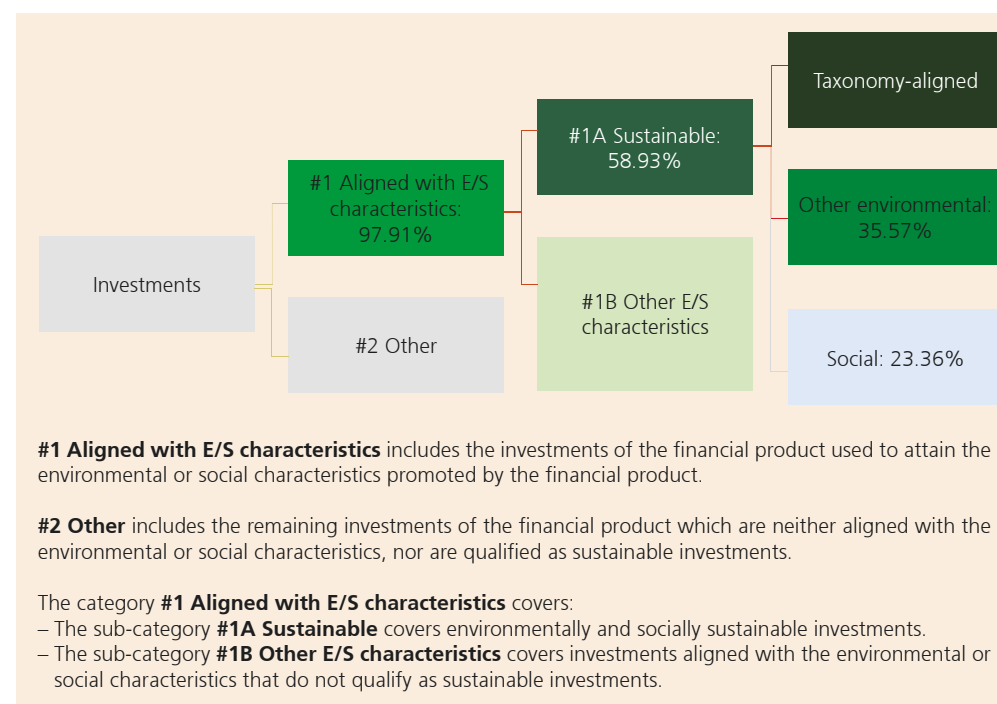

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

● In which economic sectors were the investments made?

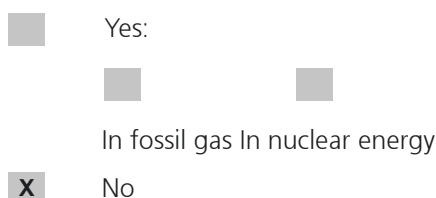

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

- **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

- **What was the share of socially sustainable investments?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

- **How did this financial product perform compared to the reference benchmark?**

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – European High Dividend Sustainable (EUR)
Legal entity identifier: 549300Z413WVPVLU3014

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 71.74% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

The ESG score of the financial product was higher than that of its benchmark.

- ESG score of the financial product: 8.78
- ESG score of the benchmark: 7.82

Characteristic 2:

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 96.79 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 115.37 tonnes of CO₂ per million dollars revenues.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Companies violating the United Nations Global Compact (UNGC) principles, which do not demonstrate credible corrective action will be excluded from the investment universe.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

Largest Investments	Sector	% Net Assets*	Country
BE Semiconductor Industries NV	Electronics & semiconductors	1.10	Netherlands
RELX PLC	Graphics, publishing, media	1.06	United Kingdom
Sage Group PLC/The	Internet, software & IT serv	1.06	United Kingdom
3i Group PLC	Financial & investment companies	1.06	United Kingdom

National Grid PLC	Energy & water supply	1.04	United Kingdom
Industria de Diseno Textil SA	Retail trade, department stores	1.04	Spain
STMicroelectronics NV	Electronics & semiconductors	1.04	Switzerland
Schneider Electric SE	Electr appliances & components	1.04	France

*Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 71.74%.

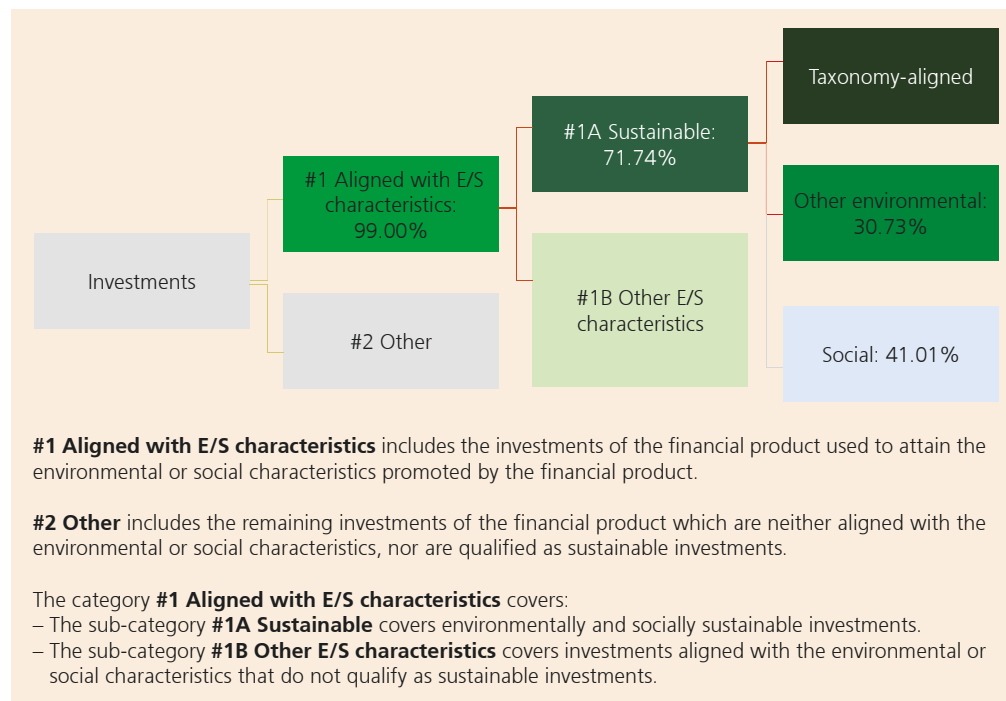

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

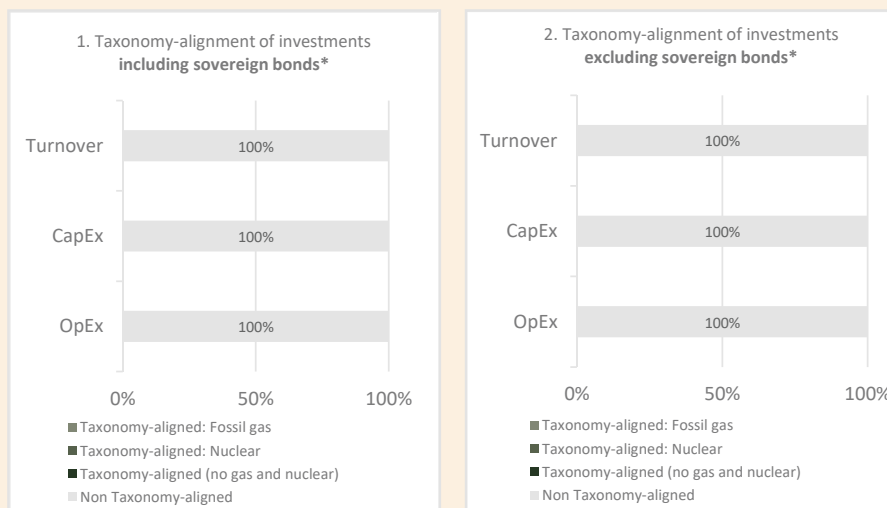

- Yes:
 - In fossil gas
 - In nuclear energy
- No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

- **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

- **What was the share of socially sustainable investments?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

- **How did this financial product perform compared to the reference benchmark?**

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – European Income Opportunity Sustainable (EUR)
Legal entity identifier: 549300E2NDJYIB4ZTH56

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 55.27% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 9 August 2022 onwards, the following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile or a UBS ESG consensus score between 7 and 10 (indicating a strong sustainability profile).
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

From 9 August 2022 onwards, characteristic 1:

The UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 7.46
- UBS consensus score of the benchmark: 7.42

The UBS ESG consensus score is below the range of 7 to 10 (indicating a strong sustainability profile).

From 9 August 2022 onwards, characteristic 2:

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 83.97 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 116.41 tonnes of CO₂ per million dollars revenues.

A low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO₂ emissions per million US dollars of revenues.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

* Minor differences with “Statement of Investments in Securities” might occur due to rounding in production system

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 55.27%.

Asset allocation describes the share of investments in specific assets.

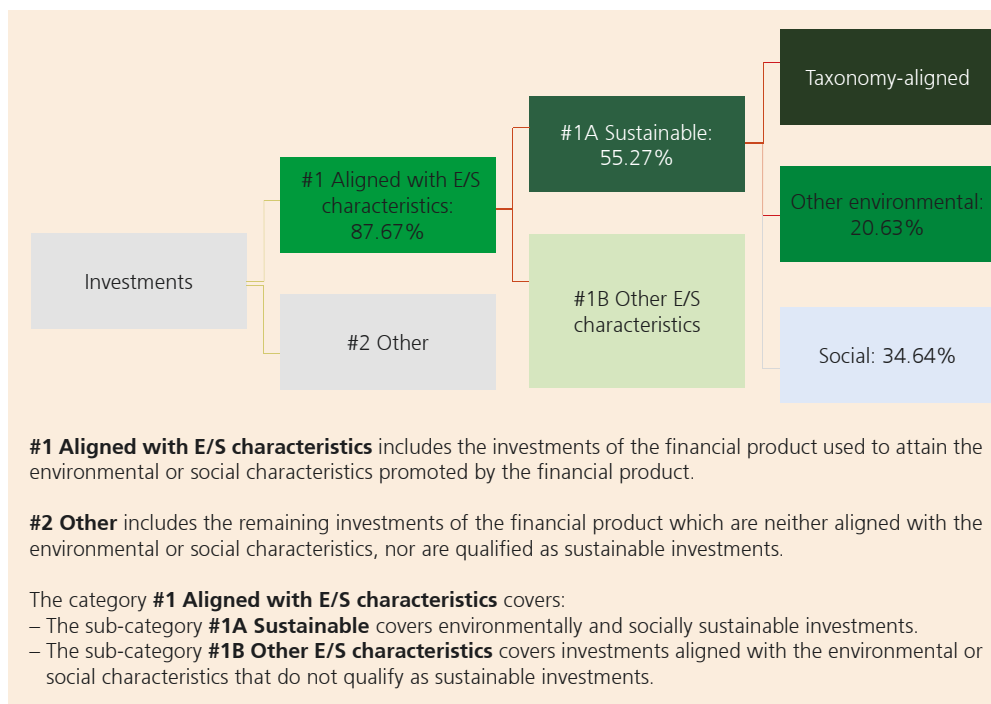

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the share of socially sustainable investments?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.

● *How did this financial product perform compared with the reference benchmark?*

Not applicable.

● *How did this financial product perform compared with the broad market index?*

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – European Opportunity Unconstrained (EUR)
Legal entity identifier: 5493001RFAVUQCXZ1F72

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

- The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.
 - Weighted Average Carbon Intensity (WACI) of the financial product: 93.22 tonnes of CO₂ per million dollars revenues.
 - Weighted Average Carbon Intensity (WACI) of the benchmark: 117.89 tonnes of CO₂ per million dollars revenues.
- A low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO₂ emissions per million US dollars of revenues.

Characteristic 2:

- The UBS ESG consensus score of the financial product was higher than that of its benchmark.
 - UBS consensus score of the financial product: 7.47
 - UBS consensus score of the benchmark: 7.42
- 54.58% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

----- How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

----- Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

What were the top investments of this financial product?

Largest Investments	Sector	% Net Assets*	Country
UBS Irl Investor Selection plc - Equity Opportunity Long Short Fund	Investment funds & benefit found	6.68	Ireland

* Minor differences with “Statement of Investments in Securities” might occur due to rounding in production system

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the proportion of sustainability-related investments?

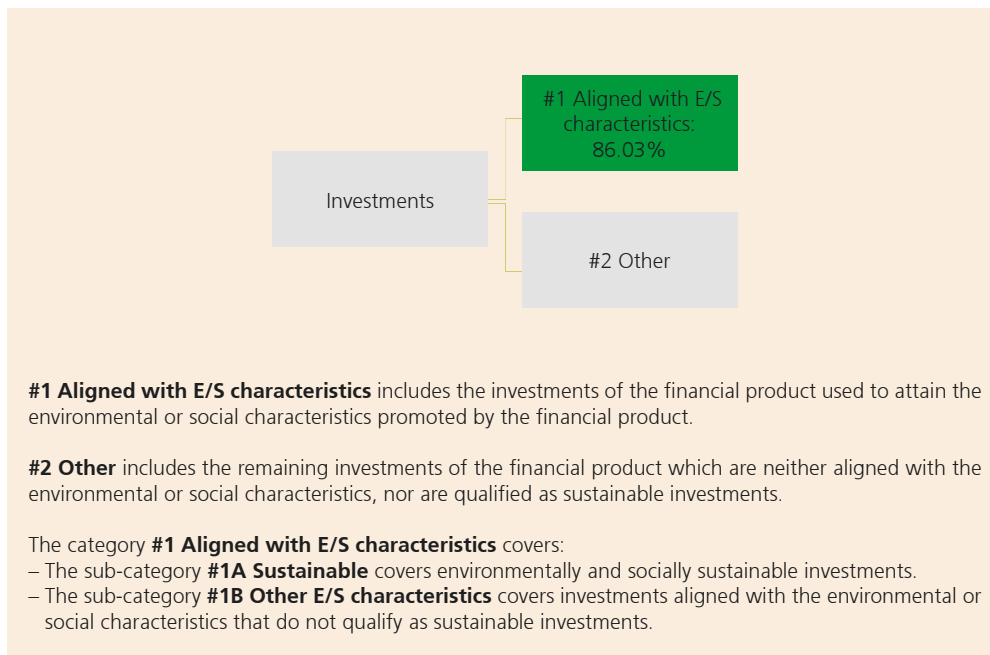

Not applicable.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear energy related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Future Energy Leaders (USD)

Legal entity identifier: 391200ZQM7U0Z0ESLG40

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 53.89% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 6 December 2022 onwards, the following characteristics are promoted by the financial product:

Invests in at least 80% in equities and other equity interests of companies that have exposure to sustainable themes which the Portfolio Manager considers to be critical to the future energy system. Those include, but are not limited to, renewable electricity, advanced biofuels, hydrogen, carbon capture and grid stability.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

From 6 December 2022 (i.e. financial product's launch date) onwards, 87.15% of the financial product was invested in equities and other equity interests of companies that have exposure to sustainable themes which the Portfolio Manager considers to be critical to the future energy system.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially intends to make is to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

----- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

----- Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 53.89%.

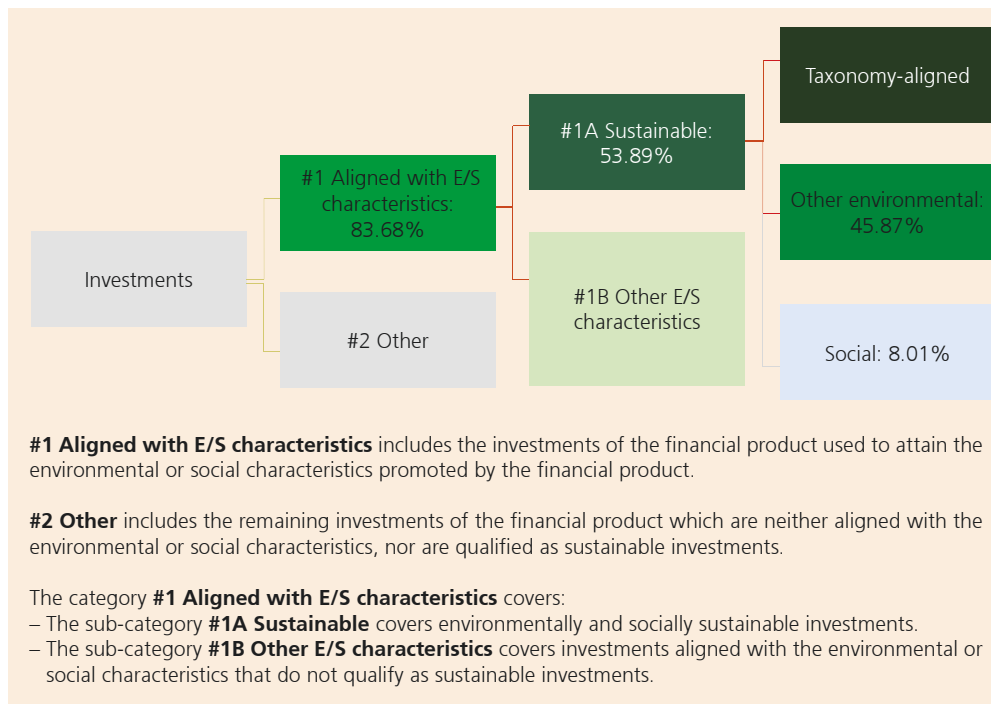

● **What was the asset allocation?**

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear energy related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

 **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the share of socially sustainable investments?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.

● *How did this financial product perform compared with the reference benchmark?*

Not applicable.

● *How did this financial product perform compared with the broad market index?*

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Future Leaders Small Caps (USD)

Legal entity identifier: 549300YN60JE17NOV533

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

- The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.
- Weighted Average Carbon Intensity (WACI) of the financial product: 49.45 tonnes of CO2 per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 201.58 tonnes of CO2 per million dollars revenues.
- A low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO2 emissions per million US dollars of revenues.

Characteristic 2:

- The UBS ESG consensus score of the financial product was higher than that of its benchmark.
- UBS consensus score of the financial product: 5.34
- UBS consensus score of the benchmark: 4.99
- 69.51% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

* Minor differences with “Statement of Investments in Securities” might occur due to rounding in production system

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the proportion of sustainability-related investments?

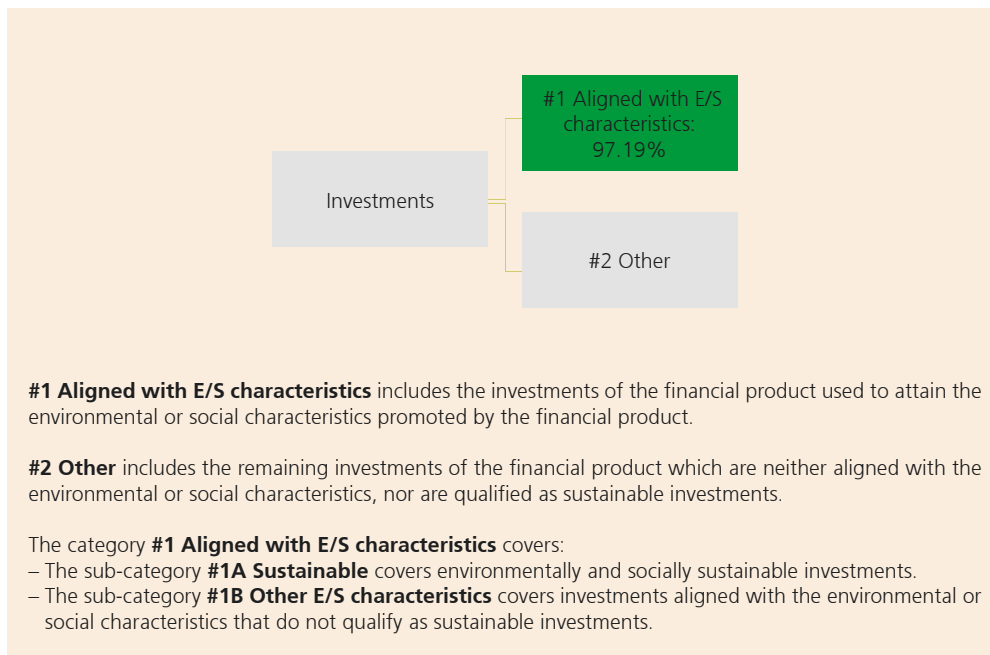

Not applicable.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear energy related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

● **What was the share of socially sustainable investments?**

Not applicable.

● **What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – German High Dividend Sustainable (EUR)

Legal entity identifier: 5493008MMQZIXLFGTC90

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 48.11% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile or a UBS ESG consensus score between 7 and 10 (indicating a strong sustainability profile).
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile from 25 November 2022 onwards (i.e., date at which the characteristic became effective).

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

The UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 7.22
- UBS consensus score of the benchmark: 7.12

The UBS ESG consensus score is below the range of 7 to 10 (indicating a strong sustainability profile).

Characteristic 2:

From 25 November 2022, the Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 68.58 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 173.27 tonnes of CO₂ per million dollars revenues.

A low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO₂ emissions per million US dollars of revenues.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. * Minor differences with “Statement of Investments in Securities” might occur due to rounding in production system

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 48.11%.

● What was the asset allocation?

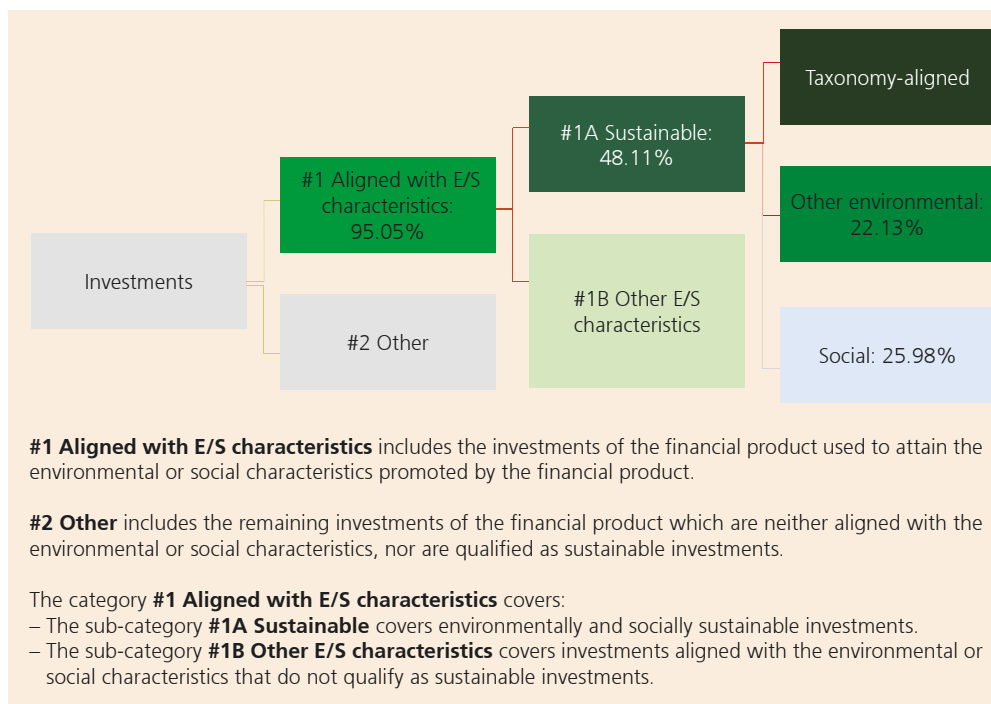

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Asset allocation describes the share of investments in specific assets.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

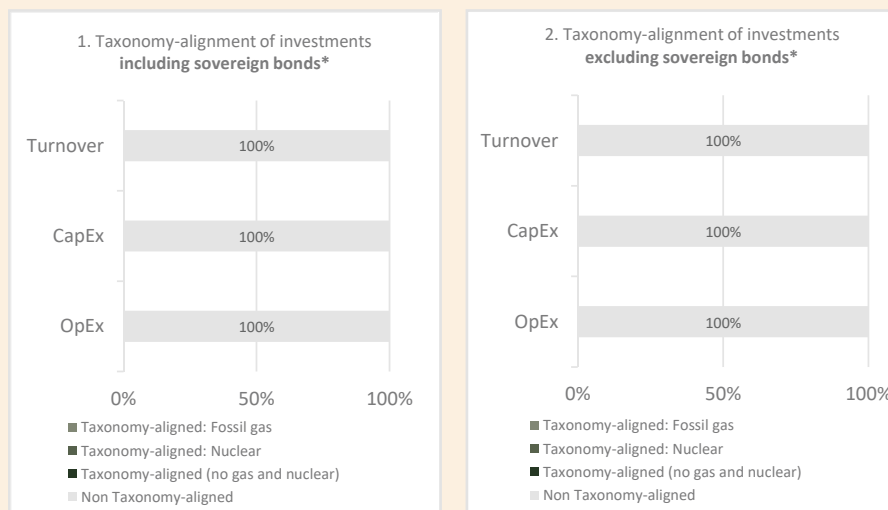

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the share of socially sustainable investments?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Global Defensive Sustainable (USD)
[formerly UBS (Lux) Equity SICAV – Global Defensive (USD)]

Legal entity identifier: 549300YYY9BCGZ75G026

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 41.58% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 25 November 2022, the following characteristics are promoted by the financial products equity portfolio:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The portfolio construction benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

From 25 November 2022, characteristic 1:

The UBS ESG consensus score was higher than that of its benchmark.

- The UBS ESG consensus score of the financial product: 5.57
- The UBS ESG consensus score of the benchmark: 5.49

From 25 November 2022, characteristic 2:

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 32.15 tonnes of CO2 per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 85.89 tonnes of CO2 per million dollars revenues.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially intends to make is to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.

● *How did this financial product perform compared with the reference benchmark?*

Not applicable.

● *How did this financial product perform compared with the broad market index?*

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Global Emerging Markets Opportunity (USD)
Legal entity identifier: 549300GDETC17MEFNU84

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

- The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.
- Weighted Average Carbon Intensity (WACI) of the financial product: 139.52 tonnes of CO2 per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 336.08 tonnes of CO2 per million dollars revenues.
- No low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO2 emissions per million US dollars of revenues.

Characteristic 2:

- The UBS ESG consensus score of the financial product was higher than that of its benchmark.
- UBS consensus score of the financial product: 5.83
- UBS consensus score of the benchmark: 5.37
- 86.60% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

----- How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

----- Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

What were the top investments of this financial product?

Largest Investments	Sector	% Net Assets*	Country
Taiwan Semiconductor Manufacturing Co Ltd	Electronics & semiconductors	9.60	Taiwan
Samsung Electronics Co Ltd	Electronics & semiconductors	8.58	Republic of Korea
Reliance Industries Ltd	Chemicals	4.68	India
HDFC Bank Ltd	Banks & credit institutions	4.50	India
Ping An Insurance Group Co of China Ltd	Insurance companies	4.36	China
Bank Central Asia Tbk PT	Banks & credit institutions	4.31	Indonesia
Naspers Ltd	Graphics, publishing, media	3.62	South Africa
Kweichow Moutai Co Ltd	Tobacco & alcohol	3.60	China
Samsung SDI Co Ltd	Electronics & semiconductors	3.23	Republic of Korea

SK Hynix Inc	Electronics & semiconductors	2.65	Republic of Korea
Eicher Motors Ltd	Vehicles	2.51	India

* Minor differences with “Statement of Investments in Securities” might occur due to rounding in production system

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the proportion of sustainability-related investments?

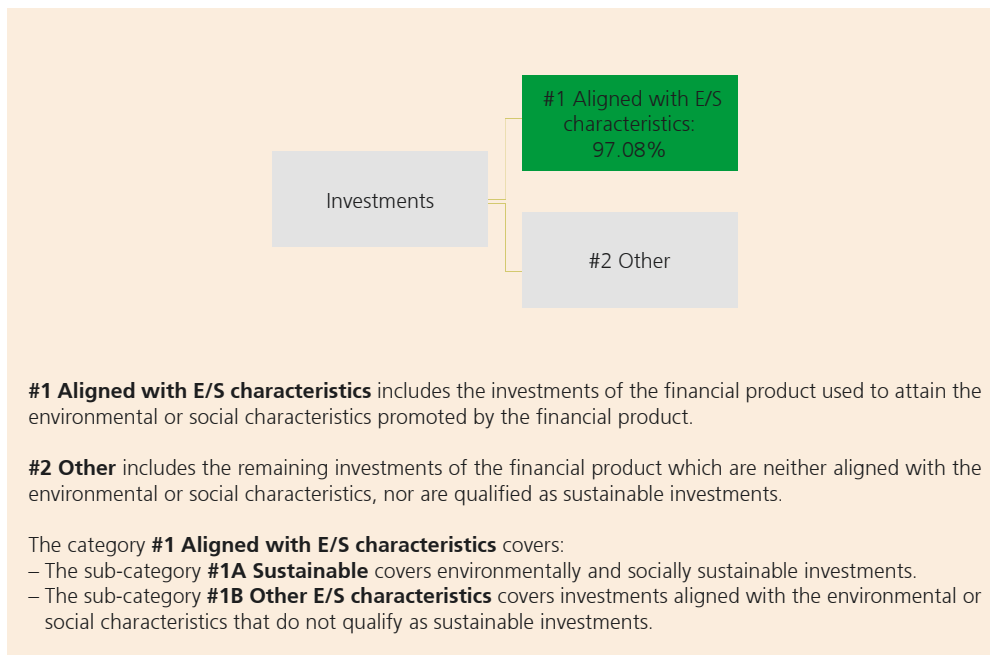

Not applicable.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● What was the asset allocation?

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear energy related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Global High Dividend Sustainable (USD)

Legal entity identifier: 549300VTBX8NRLEWE728

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 48.25% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

The ESG score of the financial product was higher than that of its benchmark.

- ESG score of the financial product: 7.43
- ESG score of the benchmark: 6.68

Characteristic 2:

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 138.55 tonnes of CO2 per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 156.53 tonnes of CO2 per million dollars revenues.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

* Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 48.25%.

● What was the asset allocation?

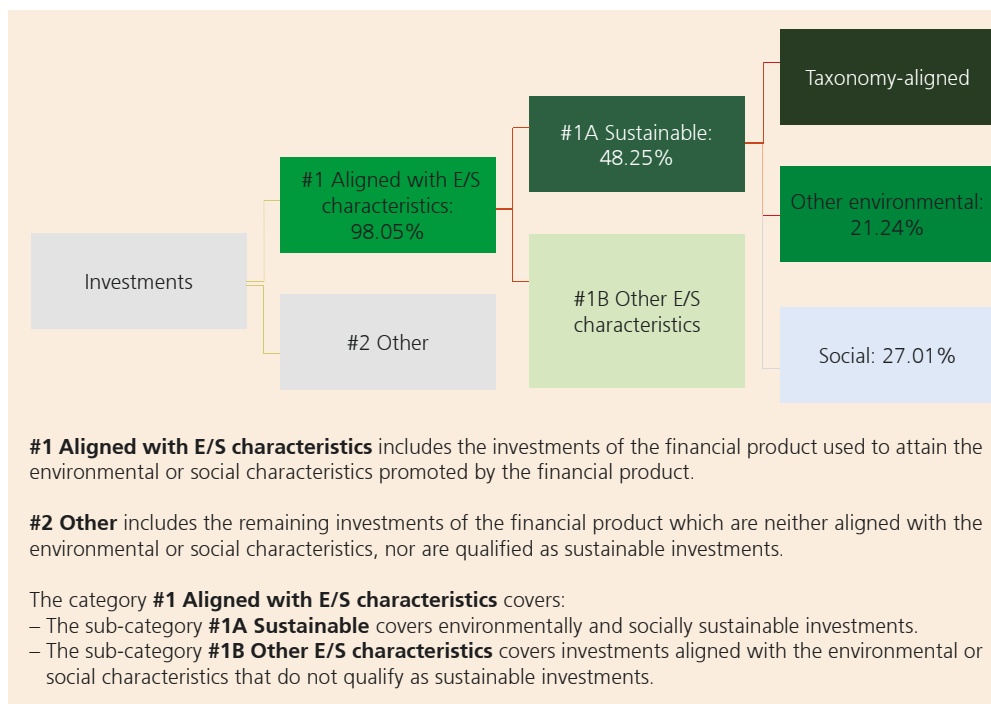

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Asset allocation describes the share of investments in specific assets.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the share of socially sustainable investments?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.

● *How did this financial product perform compared with the reference benchmark?*

Not applicable.

● *How did this financial product perform compared with the broad market index?*

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Global Income Sustainable (USD)

Legal entity identifier: 549300RQ4GX5WY2RPU88

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 47.67% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

The ESG score of the financial product was higher than that of its benchmark.

- ESG score of the financial product: 7.39
- ESG score of the benchmark: 6.70

Characteristic 2:

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 140.74 tonnes of CO2 per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 156.87 tonnes of CO2 per million dollars revenues.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Companies violating the United Nations Global Compact (UNGC) principles, which do not demonstrate credible corrective action will be excluded from the investment universe.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

Largest Investments	Sector	% Net Assets*	Country
Texas Instruments Inc	Electronics & semiconductors	2.60	United States of America
Cisco Systems Inc	Computer hardware & network	2.58	United States of America

* Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 47.67%.

Asset allocation describes the share of investments in specific assets.

● **What was the asset allocation?**

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

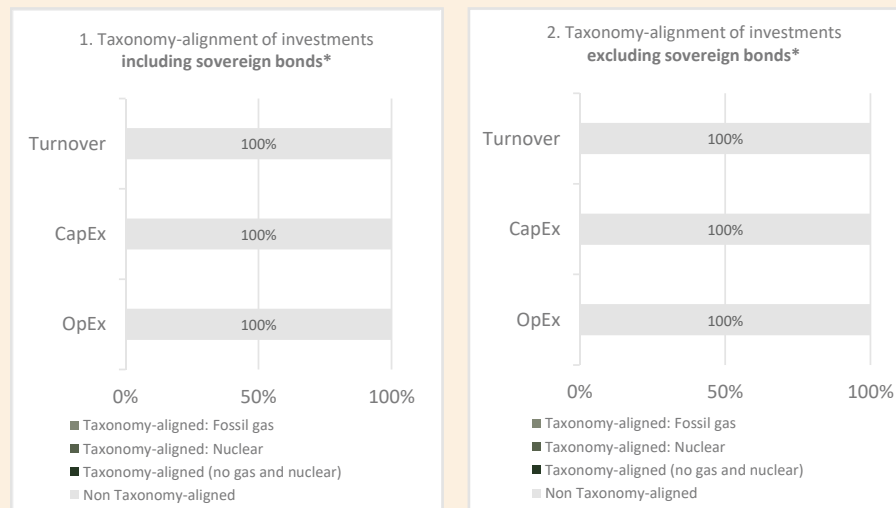

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the share of socially sustainable investments?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.

● *How did this financial product perform compared with the reference benchmark?*

Not applicable.

● *How did this financial product perform compared with the broad market index?*

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Global Opportunity Sustainable (USD)

Legal entity identifier: 549300ROKGYITOKJX690

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 46.02% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile or a UBS ESG consensus score between 7 and 10 (indicating a strong sustainability profile).
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile from 25 November 2022 onwards (i.e., date at which the characteristic became effective).

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

The UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 6.92
- UBS consensus score of the benchmark: 6.62

The UBS ESG consensus score is below the range of 7 to 10 (indicating a strong sustainability profile).

Characteristic 2:

From 25 November 2022, the Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 115.81 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 131.70 tonnes of CO₂ per million dollars revenues.

No low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO₂ emissions per million US dollars of revenues.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Global Opportunity Unconstrained (USD)
Legal entity identifier: 549300BZUGX94YAWFT37

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

- The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.
- Weighted Average Carbon Intensity (WACI) of the financial product: 94.10 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 140.57 tonnes of CO₂ per million dollars revenues.
- A low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO₂ emissions per million US dollars of revenues.

Characteristic 2:

- The UBS ESG consensus score of the financial product was higher than that of its benchmark.
- UBS consensus score of the financial product: 7.10
- UBS consensus score of the benchmark: 6.62
- 64.05% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

┌----- How were the indicators for adverse impacts on sustainability factors taken into account?

| Not applicable.

┌----- Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

| Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the proportion of sustainability-related investments?

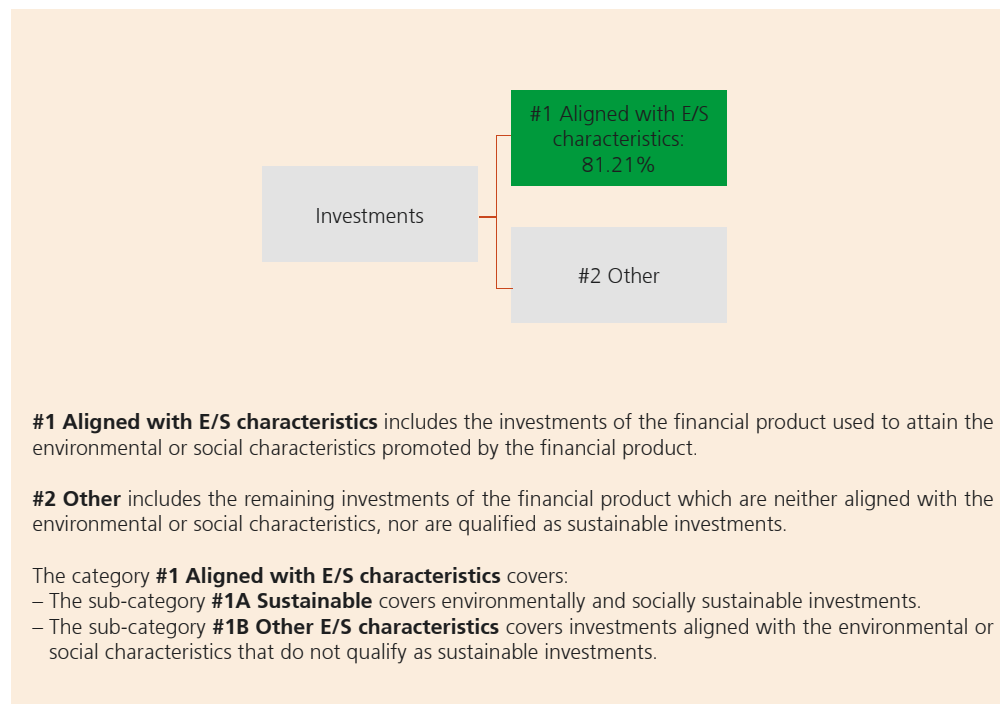

Not applicable.

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

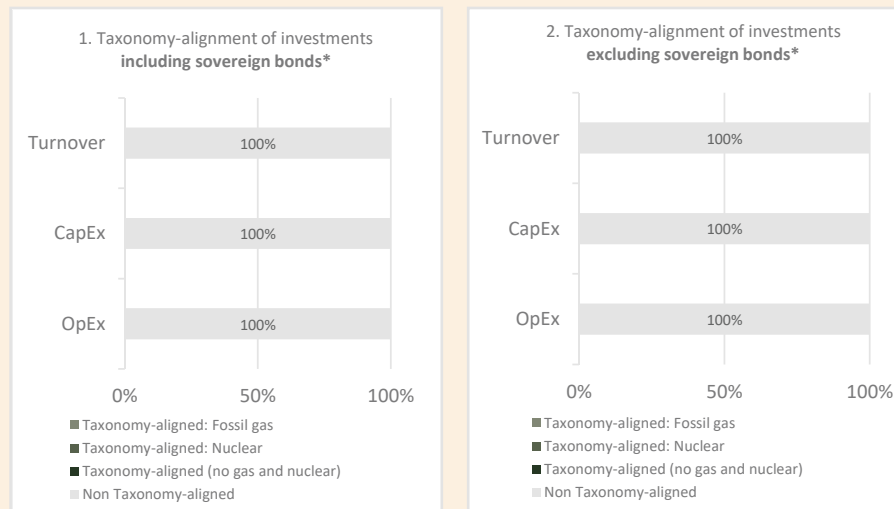

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

Not applicable. This is the first reference period.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

● **What was the share of socially sustainable investments?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Long Term Themes (USD)

Legal entity identifier: 549300ZFARXUQG507G05

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 59.43% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile or a UBS ESG consensus score between 7 and 10 (indicating a strong sustainability profile).
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile from 25 November 2022 onwards (i.e., date at which the characteristic became effective).

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

The UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 7.24
- UBS consensus score of the benchmark: 6.70

The UBS ESG consensus score is below the range of 7 to 10 (indicating a strong sustainability profile).

Characteristic 2:

From 25 November 2022, the Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 67.06 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 149.65 tonnes of CO₂ per million dollars revenues.

A low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO₂ emissions per million US dollars of revenues.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

----- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

----- *Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. *Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 59.43%.

● What was the asset allocation?

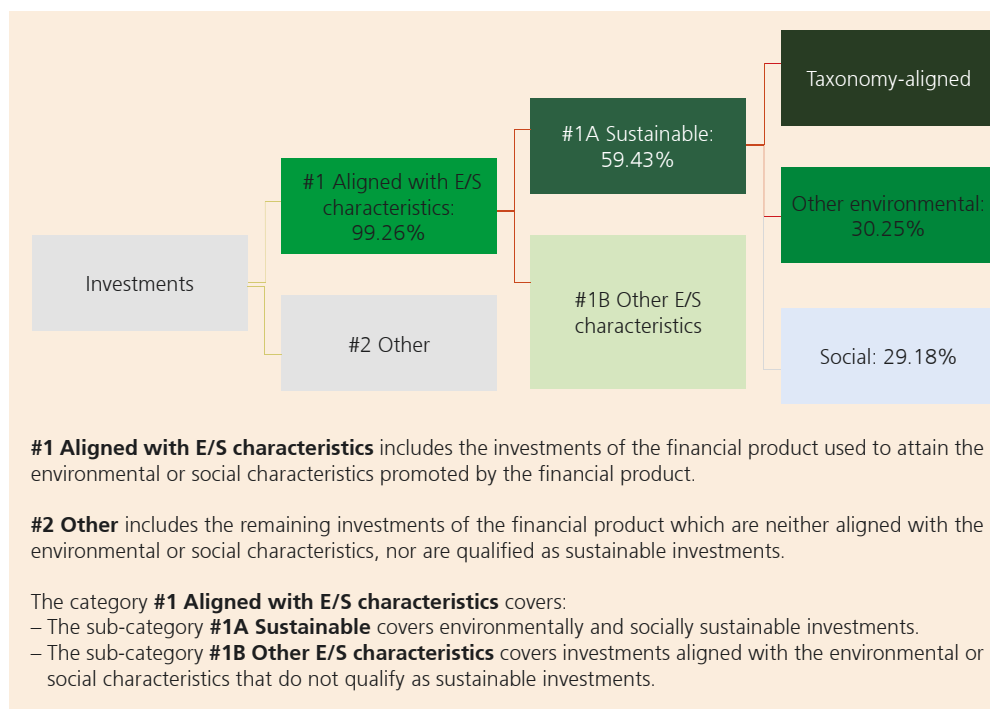

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Asset allocation describes the share of investments in specific assets.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the share of socially sustainable investments?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Small Caps Europe Sustainable (EUR)
Legal entity identifier: 54930026OG1K3X97UZ22

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 55.94% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile or a UBS ESG consensus score between 7 and 10 (indicating a strong sustainability profile).
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile from 25 November 2022 onwards (i.e., date at which the characteristic became effective).

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

The UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 6.47
- UBS consensus score of the benchmark: 6.29

The UBS ESG consensus score is below the range of 7 to 10 (indicating a strong sustainability profile).

Characteristic 2:

From 25 November 2022, the Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 53.57 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 124.81 tonnes of CO₂ per million dollars revenues.

A low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO₂ emissions per million US dollars of revenues.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

----- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

----- *Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – Swiss Opportunity (CHF)

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

- The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.
- Weighted Average Carbon Intensity (WACI) of the financial product: 63.67 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 109.40 tonnes of CO₂ per million dollars revenues.
- A low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO₂ emissions per million US dollars of revenues.

Characteristic 2:

- The UBS ESG consensus score of the financial product was lower than that of its benchmark.
- UBS consensus score of the financial product: 7.34
- UBS consensus score of the benchmark: 7.53
- 91.91% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

What were the top investments of this financial product?

Largest Investments	Sector	% Net Assets*	Country
Roche Holding AG	Pharmaceuticals, cosm & med prod	10.06	Switzerland
Novartis AG	Pharmaceuticals, cosm & med prod	9.67	Switzerland
Nestle SA	Food & soft drinks	9.58	Switzerland
Zurich Insurance Group AG	Insurance companies	6.69	Switzerland
ABB Ltd	Electr appliances & components	4.98	Switzerland
UBS Group AG	Financial & investment companies	4.80	Switzerland
Lonza Group AG	Chemicals	4.55	Switzerland
Swiss Re AG	Insurance companies	4.34	Switzerland
Swatch Group AG/The	Watches & jewellery	3.12	Switzerland
Swisscom AG	Telecommunication	3.00	Switzerland
Swiss Life Holding AG	Insurance companies	2.95	Switzerland
Julius Baer Group Ltd	Banks & credit institutions	2.53	Switzerland
SIG Group AG	Financial & investment companies	2.26	Switzerland
Sonova Holding AG	Financial & investment companies	1.78	Switzerland
Comet Holding AG	Electr appliances & components	1.68	Switzerland

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

*Minor differences with “Statement of Investments in Securities” might occur due to rounding in production system

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the proportion of sustainability-related investments?

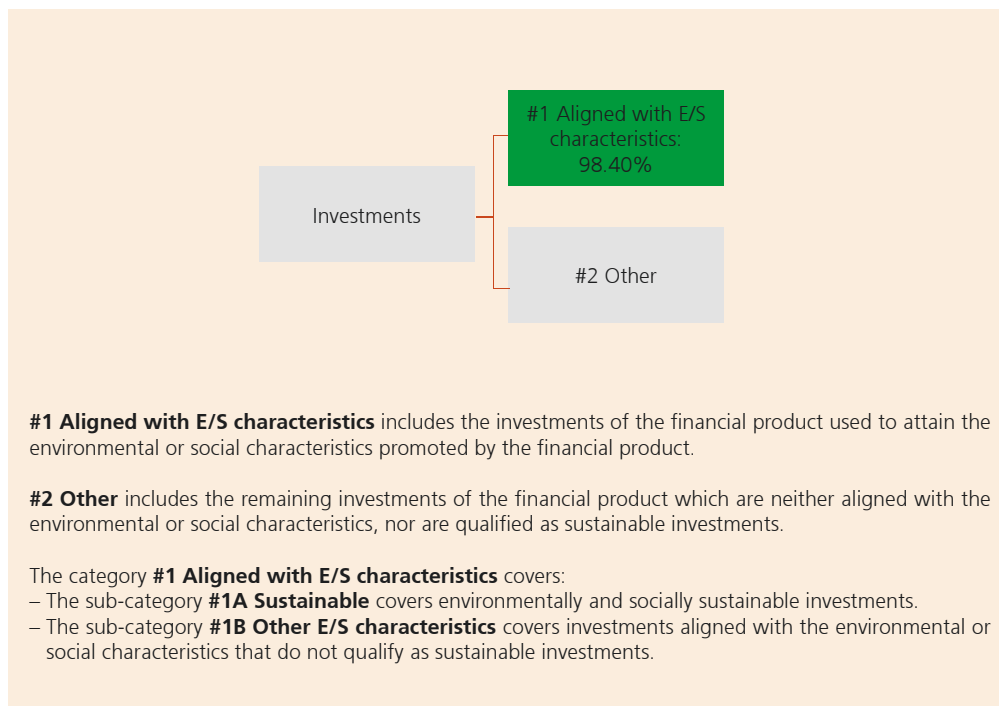

Not applicable.

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

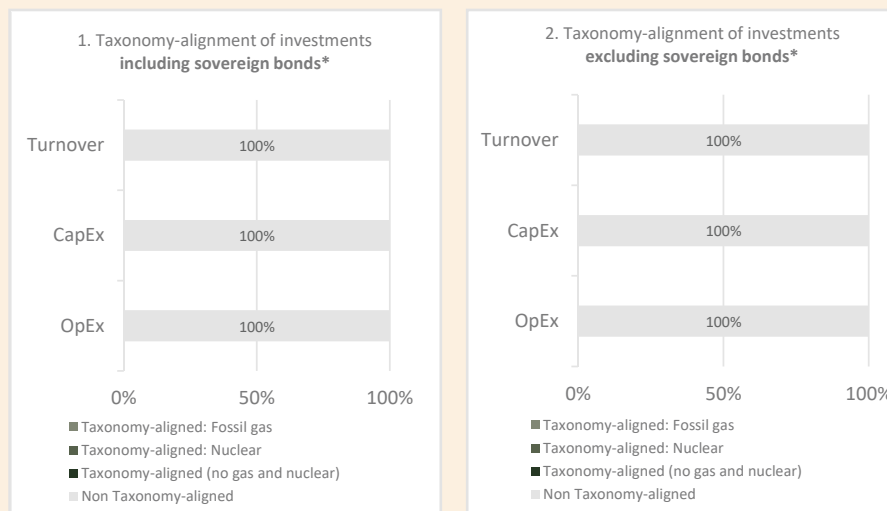

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

● **What was the share of socially sustainable investments?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – US Income Sustainable (USD)

Legal entity identifier: 549300MRVFOOZGERHC71

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 34.49% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

The ESG score of the financial product was higher than that of its benchmark.

- ESG score of the financial product: 6.93
- ESG score of the benchmark: 6.55

Characteristic 2:

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 56.91 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 138.84 tonnes of CO₂ per million dollars revenues.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

----- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

----- *Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. *Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 34.49%.

Asset allocation describes the share of investments in specific assets.

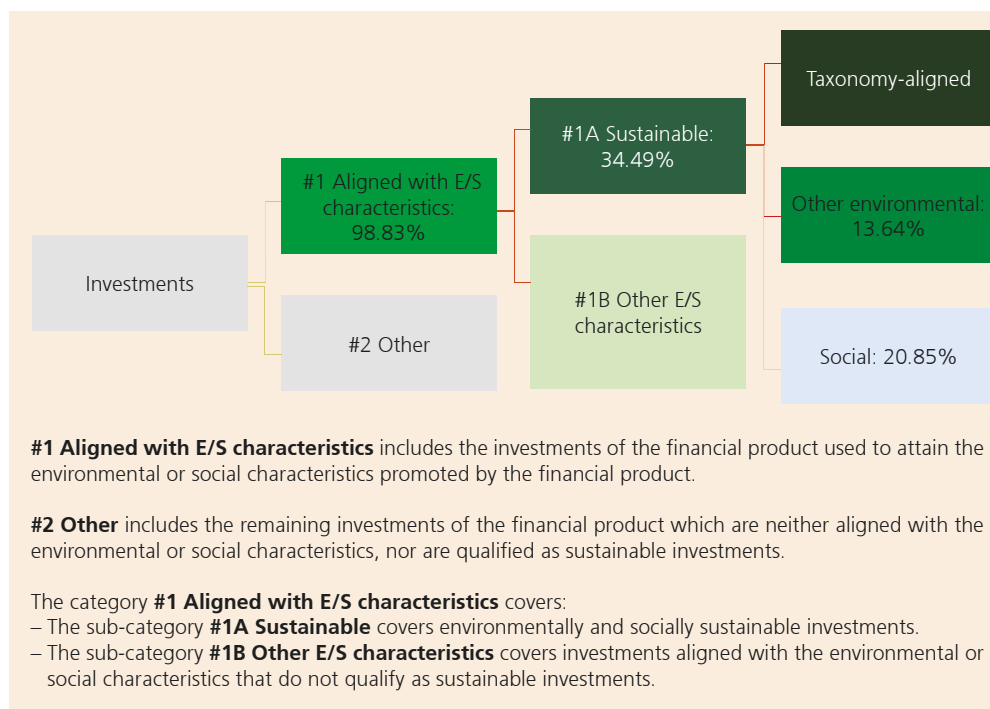

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

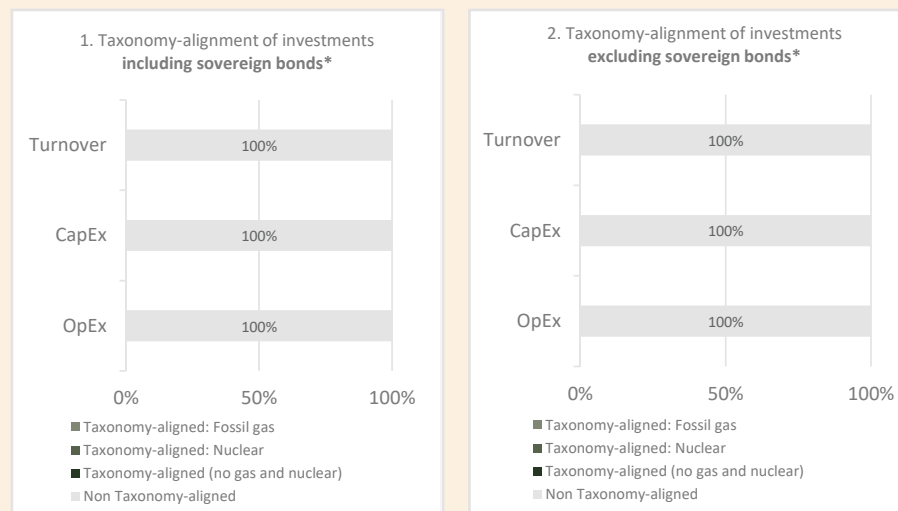

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the share of socially sustainable investments?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – US Total Yield Sustainable (USD)

Legal entity identifier: 549300IB578XK4SQUH95

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 51.25% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark from 25 November 2022 onwards (i.e., date at which the characteristic became effective).

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

The ESG score of the financial product was higher than that of its benchmark.

- ESG score of the financial product: 7.29
- ESG score of the benchmark: 6.55

Characteristic 2:

From 25 November 2022, the Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 78.22 tonnes of CO2 per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 145.45 tonnes of CO2 per million dollars revenues.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

----- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

----- *Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

*Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 51.25%.

Asset allocation describes the share of investments in specific assets.

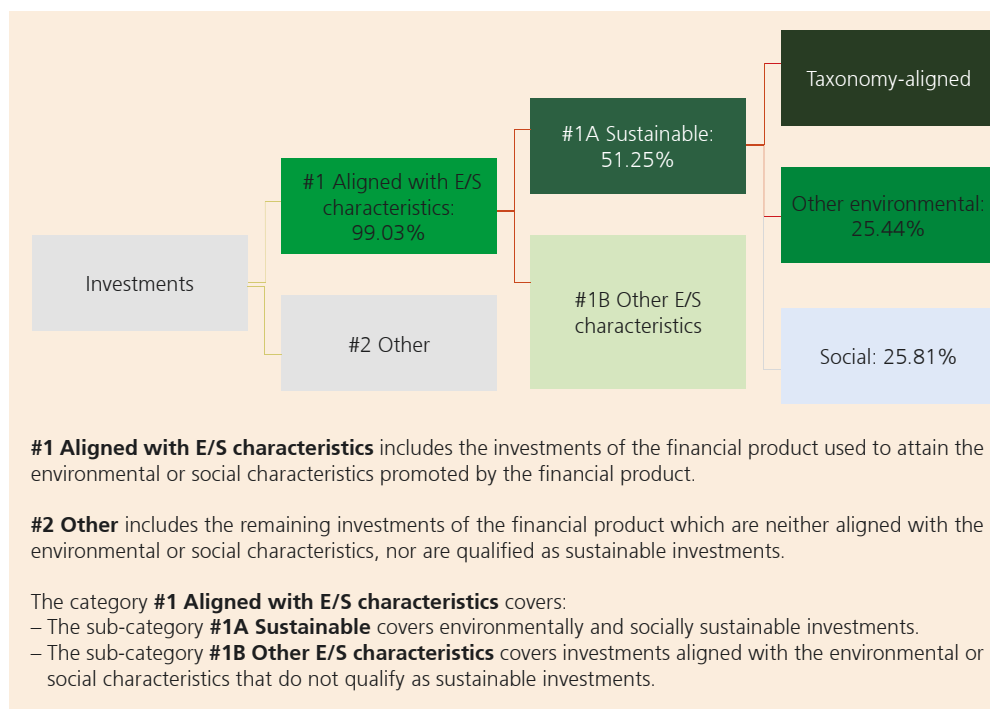

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the share of socially sustainable investments?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – USA Growth (USD)

Legal entity identifier: 549300NI4JJ2S3IUEE52

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with a sustainability profile in the top half of the benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

- The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.
- Weighted Average Carbon Intensity (WACI) of the financial product: 35.15 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 47.92 tonnes of CO₂ per million dollars revenues.
- A low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO₂ emissions per million US dollars of revenues.

Characteristic 2:

- The UBS ESG consensus score of the financial product was lower than that of its benchmark.
- UBS consensus score of the financial product: 6.37
- UBS consensus score of the benchmark: 6.63
- 65.64% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

What were the top investments of this financial product?

*Minor differences with “Statement of Investments in Securities” might occur due to rounding in production system

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the proportion of sustainability-related investments?

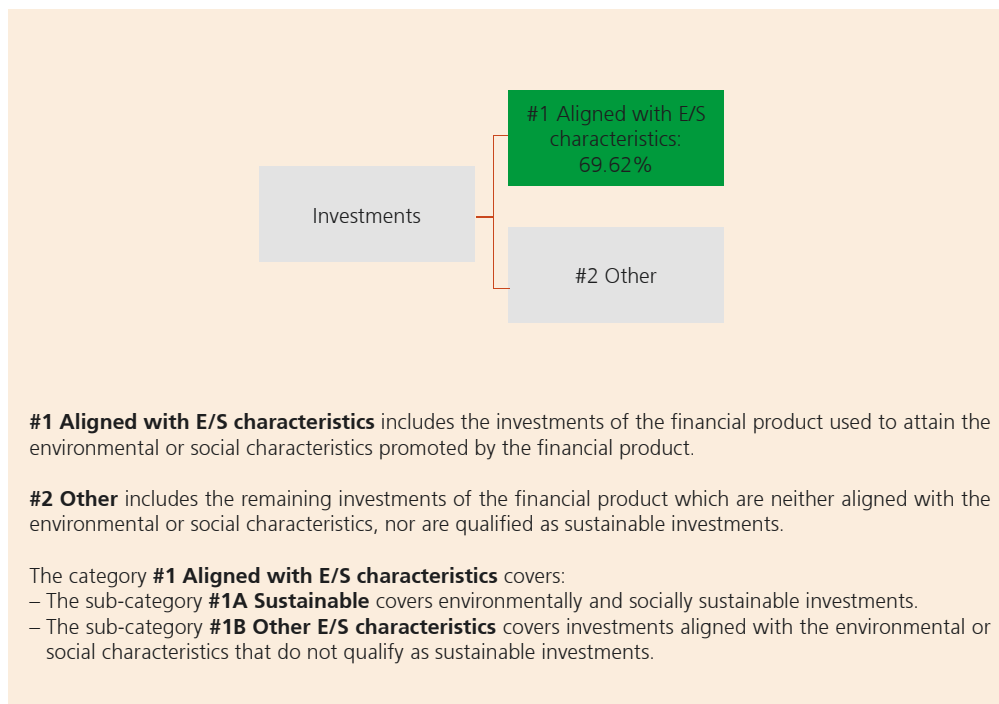

Not applicable.

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

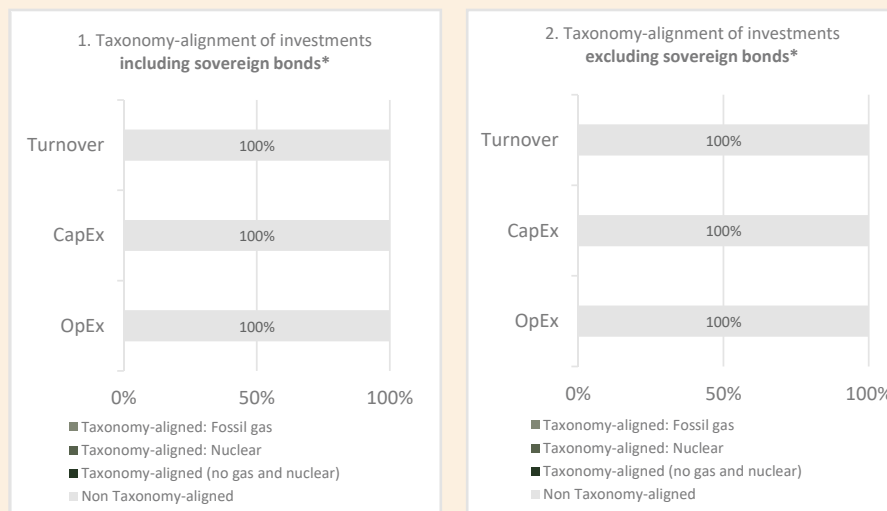

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

● **What was the share of socially sustainable investments?**

Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Equity SICAV – USA Growth Sustainable (USD)

Legal entity identifier: 5493000JV30JXPIYBQ34

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 45.75% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile or a UBS ESG consensus score between 7 and 10 (indicating a strong sustainability profile).
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile from 25 November 2022 onwards (i.e., date at which the characteristic became effective).

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

Characteristic 1:

The UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 6.81
- UBS consensus score of the benchmark: 6.62

The UBS ESG consensus score is below the range of 7 to 10 (indicating a strong sustainability profile).

Characteristic 2:

From 25 November 2022, the Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 28.61 tonnes of CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 50.93 tonnes of CO₂ per million dollars revenues.

A low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tonnes of CO₂ emissions per million US dollars of revenues.

● **...and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

----- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

----- *Were sustainable investments aligned with the OECD Guidelines for Multi-national Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 45.75%.

Asset allocation describes the share of investments in specific assets.

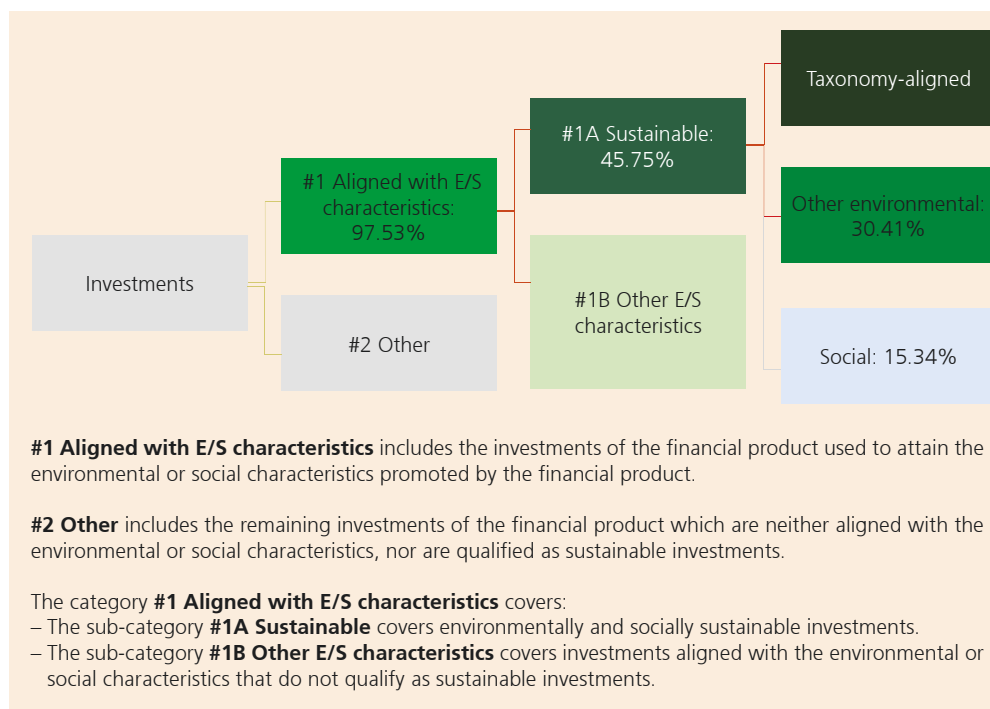

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What was the share of socially sustainable investments?

The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
