獨立會計師報告

致瑞銀(盧森堡)債券基金單位持有人

33A, avenue John F. Kennedy
L-1855 Luxembourg

會計師意見

本會計師已查核瑞銀(盧森堡)債券基金(「本基金」)及其各子基金之財務報表，包含截至 2023 年 3 月 31 日止之資產負債表、證券投資及其他淨資產報表，以及截至本會計年度為止之損益表及淨資產變動表，以及包含重大會計政策摘要在內之財務報表附註。

依據本會計師意見，此財務報表係依據盧森堡與財務報表編製相關之法律與規章之規定編製，足以真實及允當表達本基金及其子基金截至 2023 年 3 月 31 日為止之財務狀況，以及該年度營運與淨資產之變動狀況。

意見之基礎

本會計師查核係根據 2016 年 7 月 23 日頒布之審計行業法律以及盧森堡金融業監管委員會(Commission de Surveillance du Secteur Financier, CSSF)所採行之國際審計準則(ISAs)。本會計師依據這些法律和標準下之責任詳細描述於本報告「傘型基金查核會計師之責任」章節。根據盧森堡金融業監管委員會(CSSF)所採用的國際會計師倫理標準委員會之專業會計師倫理守則(IESBA Code)及審查會計報表所要求的相關道德規範，本會計師獨立於本基金，且已履行及遵守這些道德責任。本會計師相信取得之查核證據係足夠且適當的，為本會計師之意見提供基礎。

其他資訊

本基金之管理公司董事會須對其他資訊負責。其他資訊包括年報內之所有訊息，但不包括財務報表及本會計師之「傘型基金查核會計師」查核報告。

本會計師對財務報表之意見並不涵蓋其他資訊，我們亦不會對該等資訊表達任何形式之保證。

基於本會計師對財務報表之查核，本會計師之責任係閱讀其他資訊，並在此過程中，考慮該等資訊與財務報表或本會計師查核過程中所了解之情況，是否存在重大抵觸或重大錯誤之陳述。若有上述情形，本會計師有報告的義務。針對這一部份，本會計師認為並無需要報告之情事。

本基金管理公司董事會對財務報表應負之責任

本基金管理公司董事會須負責依據盧森堡與財務報表編製相關之法律與規章規定，編製與公允表達前述財務報表。此等責任包括：設計、執行與維護與財務報表編製與允當表達相關之內部控制制度，使財務報表免於出現舞弊或錯誤之重大誤述、選取與運用適當之會計政策，並做出符合實際狀況之合理估計。

編制財務報表時，本基金管理公司董事會須負責評估本基金及其子基金之持續經營能力，並以持續經營之會計基礎酌情揭露與持續經營相關的事項，除非本基金管理公司董事會有意清算本基金或其任一子基金或停止運營，或別無其他實際可行之替代方案。

傘型基金查核會計師(Réviseur d'entreprises agréé)查核財務報表之責任

本會計師之目標係取得整個財務報表是否無因舞弊或錯誤導致重大誤報之合理確信，並發布包含本會計師意見之「傘型基金查核會計師」報告。合理確信係高度確信，但不能保證本會計師依據盧森堡金融業監管委員會(Commission de Surveillance du Secteur Financier, CSSF)所採行之國際審計準則(ISAs)，及按2016年7月23日頒布之審計業法律進行之查核工作能完全發現已存在之誤報。誤報可能是由於舞弊或錯誤所造成，自個別或整體觀之，若能合理地預期此誤報會影響使用者依據財務報表所做出之經濟決策，則可視為重大。

本會計師除依據專業判斷和道德規範進行查核工作(係依CSSF及2016年7月23日發佈之法律所採用之國際審計準則)，亦進行下列程序：

- 辨別並評估舞弊或錯誤所造成之財務報表之重大誤報風險，設計並執行對應這些風險之查核程序，以及獲取充分且適當之查核證據作為會計師意見之基礎。舞弊可能涉及串通、偽造、蓄意遺漏、虛假陳述或忽視內部控制，故未發現到由舞弊造成之誤報風險高於由錯誤引起之重大誤報風險。
- 了解與審計相關之內部控制，以設計適當之查核程序，但並非對本基金內部控制之有效性意見。
- 評估本基金管理公司董事會所採用之會計政策之適當性以及會計估計和相關揭露之合理性。

- 對本基金管理公司董事會使用持續經營會計基礎之適當性作出結論，並根據獲得之查核證據確定是否存在事件或情況有關之重大不確定性，進而導致對本基金或其任一子基金之持續經營能力產生重大疑慮。若本會計師認為存在重大不確定性，本會計師須於傘型基金查核會計師報告或相關財務報告揭露事項中提請注意，若該等揭露不具適當性，則可修改本會計師之意見。本會計師係根據最新傘型基金查核會計師報告之查核證據做出結論。但未來之事件或情況可能導致本基金或其任一子基金停止持續經營。
- 評估財務報表之整體表述、結構及內容，包括揭露、以及財務報表是否以公正表述之方式陳述基礎交易和事件。

除其他事項外，本會計師與管理階層溝通查核之計劃範圍和時間安排，以及重要查核結果，包括本會計師查核過程發現之任何內部重大控制缺失。

Features of the Fund

UBS (Lux) Bond Fund (hereinafter called “the fund”) offers investors a range of different subfunds (“umbrella structure”) which invest in accordance with the investment policy described in the sales prospectus. The sales prospectus, which contains specific details on each subfund, will be updated on the inception of each new subfund.

The fund was established as an open-ended investment fund without legally independent status in the form of a collective investment fund (fonds commun de placement, FCP) pursuant to Part I of the Luxembourg law relating to undertakings for collective investment of 30 March 1988 and adapted in April 2005 to conform to Part I of the Luxembourg Law of 20 December 2002 on undertakings for collective investment (hereinafter “Law of 2002”). Since 1 July 2011 the Fund is subject to the law of 17 December 2010. It was originally established under the title SBC Bond Portfolio in compliance with the Management Regulations approved by the board of directors of UBS Bond Fund Management Company S.A. (formerly SBC Bond Portfolio Management Company S.A.) on 26 June 1991. The SBC Bond Portfolio was renamed as UBS (Lux) Bond Fund on 1 April 1999. The activities of UBS Bond Fund Management S.A. in its capacity as Management Company of the UBS (Lux) Bond Fund ended on 14 November 2010. On 15 November 2010 UBS Fund Management (Luxembourg) S.A. assumed the function of Management Company. The Management Regulations were initially lodged with the Trade and Companies Register of the District Court in Luxembourg on 1 July 1991 and amendments thereto were last published on 30 September 2022 in the “Recueil Electronique des Sociétés et Associations” (“RESA”).

The Fund’s Management Regulations may be amended, subject to compliance with applicable law. Any amendments thereto shall be notified by way of a notice of deposit in RESA, as well as by any other means described in the section entitled “Regular reports and publications”. The new Management Regulations shall enter into force on the date of signature by the Management Company and the Depositary. The consolidated version may be consulted at the Trade and Companies Register (Registre de Commerce et des Sociétés).

The fund has no legal personality as an investment fund. The entire net assets of each subfund are the undivided property of all investors who have equal rights in proportion to the number of units which they hold. These assets are separate from the assets of the Management Company. The securities and other assets of the fund are managed by Management Company as separate trust assets in the interests and for the account of the unitholders.

The management regulations give the Management Company the authority to establish different subfunds for the fund as well as different classes with specific characteristics within these subfunds. The sales prospectus will be updated each time a new subfund or an additional unit class is launched.

As at 31 March 2023, the following subfunds are active:

Additional characteristics:

Currencies

The unit classes may be denominated in AUD, BRL, CAD, CHF, CZK, DKK, EUR, GBP, HKD, JPY, NOK, PLN, RMB, RUB, SEK, SGD, USD, NZD or ZAR. For unit classes issued in the currency of account of the subfund, this currency will not be included in the unit class name. The currency of account features in the name of the relevant subfund.

“hedged”

For unit classes with “hedged” in their name and with reference currencies different to the subfund’s currency of account (“unit classes in foreign currencies”), the risk of fluctuations in the value of the reference currency is hedged against the subfund’s currency of account. This hedging shall be between 95% and 105% of the total net assets of the unit class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of unit classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Management Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits.

The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the subfund’s currency of account.

“BRL hedged”

The Brazilian real (currency code pursuant to ISO 4217: BRL) may be subject to exchange control regulations and repatriation limits set by the Brazilian government. Prior to investing in BRL classes, investors should also bear in mind that the availability and tradability of BRL classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in Brazil. The risk of fluctuations is hedged as described above under “hedged”. Potential investors should be aware of the risks of reinvestment, which could arise if the BRL class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a unit class and/or the subfund in accordance with the section “Liquidation and Merger of the Fund and its subfunds or unit classes” of the sales prospectus.

“RMB hedged”

Investors should note that the renminbi (ISO 4217 currency code: CNY), the official currency of the People’s Republic of China (the “PRC”), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

Units in classes with “RMB hedged” in their name are units whose net asset value is calculated in offshore RMB (CNH).

Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.

Convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore supervisory and governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors’ investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant subfunds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant subfund

to make redemption payments in offshore RMB (CNH) would be subject to the subfund’s ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Management Company. The risk of fluctuations is hedged as described above under “hedged”.

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a unit class and/or the subfund in accordance with the section “Liquidation and Merger of the Fund and its subfunds or unit classes” of the sales prospectus.

“acc”

The income of unit classes with “-acc” in their name is not distributed unless the Management Company decides otherwise.

“dist”

The income of unit classes with “-dist” in their name is distributed unless the Management Company decides otherwise.

“qdist”

Units in classes with “-qdist” in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) (“**capital**”). Distributions out of capital result in the reduction of an investor’s original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation.

“mdist”

Units in classes with “-mdist” in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor’s original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund

units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -mdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation. The maximum entry costs for units in classes with “-mdist” in their name is 6%.

“UKdist”

The aforementioned unit classes can be issued as those with “UKdist” in their name. In these cases, the Management Company intends to distribute a sum which corresponds to 100% of the reportable income within the meaning of the UK reporting fund rules when the unit classes are subject to these reporting fund rules. The Management Company does not intend to make taxable values for these unit classes available in other countries, as they are intended for investors whose investment in the unit class is liable to tax in the UK.

“2%”, “4%”, “6%”, “8%”

Units in classes with “2%” / “4%” / “6%” / “8%” in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective unit class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These unit classes are suitable for investors who wish for more stable distributions, unrelated to the past or expected returns or income of the respective subfund.

Distributions may thus also be made from the capital. Distributions out of capital result in the reduction of an investor’s original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist, -qdist, -mdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist, -qdist, -mdist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation.

“seeding”

Units with “seeding” in their name are only offered during a limited time period. Further subscriptions are prohibited after the end of this period, unless otherwise decided by the Management Company. However, units

can still be redeemed in accordance with the conditions for unit redemptions. Unless otherwise decided by the Management Company, the smallest tradable unit, the initial issue price and the minimum subscription amount shall correspond to the characteristics of the unit classes listed above.

The fund is not subject to any restrictions with regard to the size of its net assets, the number of units, number of subfunds and number of unit classes as well as the duration of the fund and its subfunds.

The fund forms a legal entity. With respect to the unitholders, however, each subfund is regarded as being separate from the others. These assets are separate from the assets of the Management Company. The securities and other assets of the Fund are managed by the Management Company as separate trust assets in the interests and for the account of the unitholders.

As regards the association between unitholders, however, each subfund is considered to be independent of the others. The assets of a subfund are only liable for liabilities incurred by that subfund. As no division of liabilities is made between unit classes, there is a risk that, under certain conditions, currency hedging transactions for unit classes with “hedged” in their name may result in liabilities that affect the net asset value of other unit classes of the same subfund.

The acquisition of fund units implies acceptance of the management regulations by the unitholder.

The Management Regulations do not provide for a general meeting of the unitholders.

The fund’s financial year ends on the last day of March.

The issue and redemption price of each subfund is announced in Luxembourg at the registered office of the Management Company and at the Depositary.

Furthermore, a Key Investor Information (KID) document is made available to investors before subscribing to units.

Information on whether a subfund of the fund is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

The national laws of the countries concerned shall apply to the issue and redemption of units of the fund.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports are available free of charge to unitholders at the registered office of the Management Company and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

Independent auditor's report

To the Unitholders of

UBS (Lux) Bond Fund

33A, avenue John F. Kennedy
L-1855 Luxembourg

Opinion

We have audited the financial statements of UBS (Lux) Bond Fund (the "Fund") and of each of its subfunds, which comprise the statement of net assets and the statement of investments in securities and other net assets as at 31 March 2023, and the statement of operations and the statement of changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its subfunds as at 31 March 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Management Company of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Management Company of the Fund for the financial statements

The Board of Directors of the Management Company of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Management Company of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Management Company of the Fund is responsible for assessing the Fund's and each of its subfunds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Management Company of the Fund either intends to liquidate the Fund or any of its subfunds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Management Company of the Fund.

- Conclude on the appropriateness of the Board of Directors of the Management Company of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its subfunds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its subfunds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report of the Portfolio Manager

The Asian USD credit space performance was negative over the financial year from 1 April 2022 to 31 March 2023, largely driven by the rise in US treasuries while spreads widened slightly in both the IG and HY markets during the reporting period. The moves in the Asian USD bond market over the reporting period can be largely attributed to China's policy stance towards the technology platform, gaming and real estate sectors leading to a sell-off in markets starting from Q1 2022. Subsequently, the Ukraine-Russia war contributed to broad-based risk aversion, elevated inflation prints across the world resulting in a volatile market on the back of increasing recession risks.

Fund performance over the reporting period was correspondingly negative, reflecting the broad Asian USD bond market. As the Asian USD bond market has a comparatively shorter duration than some of its counterparts (for example in developed markets), the negative impact from duration on the Asian credit market is lower. The subfund posted a negative performance in the financial year given the underlying market movements described above.

Report of the Portfolio Manager

In the financial year from 1 April 2022 to 31 March 2023, the Reserve Bank of Australia raised policy rates by 350bp to 3.6%. At the beginning of the financial year, 10-year Australian Government bond yields rose sharply from a low of 2.8% to peak at 4.2% in mid-June amid rising inflation causing market participants to price in more rate hikes by the RBA. Yields then dropped until early August as the outlook for global economic growth deteriorated. Subsequently yields surged again and then traded sideways in a range of 3% to 4% for the rest of the financial year, with mixed sentiment about the global economic downturn and strong and sticky inflationary pressure alternating, ending the financial year at 3.3%. The spread of Bloomberg Ausbond Credit 0+ Year index widened by 40bp from 108bp to 148bp.

The subfund posted negative performance in the financial year given the underlying market movements as described above.

Report of the Portfolio Manager

Swiss capital market interest rates increased in the financial year from 1 April 2022 to 31 March 2023 across all maturities. Five-year swap rates moved up by approx. 1.37% to 1.99% as per end of March 2023. Ten-year rates increased by 1.05% to 1.92%. Over the reporting period swap spreads of CHF foreign issuers moved down to 17bp from 31bp while the month of March 2023 showed the largest volatility due to the failure of a regional US bank and the acquisition of Credit Suisse AG by UBS AG. The Swiss National Bank started to hike interest rates, raising the SNB target rate from -0.75% to +1.50% at the end of March 2023.

The subfund posted a negative performance primarily due to the rising yield environment. The duration was kept slightly short between May 2022 until February 2023 and neutral since then. The sector positioning, with an overweight in corporate bonds and issue selection, was a positive performance contributor.

Report of the Portfolio Manager

In the financial year from 1 April 2022 to 31 March 2023, European equities performed well but this performance wasn't linear. Markets were first down about 20% until September as the market was still digesting the war in Ukraine before rebounding strongly during the rest of the period as the market became more accustomed to higher interest rates. In spite of the positive equity performance, European convertible bonds showed a slightly negative performance over the reporting period. This performance divergence is predominantly due to the relatively weak performance of the underlying shares of the European convertible bond market, especially due to the fact that the energy and financial sectors are under-represented in this space. Furthermore, higher interest rates and wider credit spreads contributed negatively to the asset class's performance.

In the financial year, the subfund posted a negative performance for all share classes. Our positioning is concentrated towards the bonds in the market which are more attractive from a valuation perspective. Therefore we preferred smaller, less liquid names and convertible bonds that are not officially rated as these offer more value than other parts of the market.

Report of the Portfolio Manager

The Euro fixed income market posted a deeply negative performance over the financial year from 1 April 2022 to 31 March 2023. During the period, developed market government bond yields rose significantly driven by hawkish central banks changing policy rates at a previously unforeseen pace and to levels not seen since the Financial Crisis. In the US, UK and Eurozone headline CPI rose to levels also not seen in decades driven initially by the unleashing of pent-up demand and fiscal stimulus but later exacerbated by high commodity prices due to the ongoing Russian invasion of Ukraine. The ECB raised its policy rate from 0% to 3.50% at the end of the reporting period. In Corporate credit, spreads widened driven by tightening financial conditions and recession concerns brought on by tighter monetary policy.

The subfund posted a negative performance in the financial year given the underlying market movements as described. All factors including duration, spread and currency contributed negatively to absolute performance.

Report of the Portfolio Manager

In the financial year from 1 April 2022 to 31 March 2023, the Euro High Yield market generated a negative absolute total performance driven by spread widening and rising yields. During the period, developed market government bond yields rose significantly, driven by hawkish central banks. In the US, UK and Eurozone headline CPI rose to levels not seen in decades driven initially by the unleashing of pent-up demand and fiscal stimulus but later exacerbated by high commodity prices due to the ongoing Russian invasion of Ukraine.

The subfund posted a negative performance in the financial year. Positive contributors to performance included issue selection within Healthcare and being cautious within Homebuilders & Real Estate. The main notable detractor was issue selection within Financials. Throughout the period we kept our preference for single B and CCC and below. From a sector perspective we closed the period favoring Healthcare and Leisure and being short with regards to our duration position.

Report of the Portfolio Manager

The Global fixed income market posted a deeply negative performance over the financial year from 1 April 2022 to 31 March 2023. During the period, developed market government bond yields rose significantly driven by hawkish central banks changing policy rates at a previously unforeseen pace and to levels not seen since the Financial Crisis. In the US, UK and Eurozone headline CPI rose to levels also not seen in decades driven initially by the unleashing of pent-up demand and fiscal stimulus but later exacerbated by high commodity prices due to the ongoing Russian invasion of Ukraine. The US Fed raised its policy rate from 0.50% to 5.00% at the end of the reporting period. In Corporate credit, spreads widened driven by tightening financial conditions and recession concerns brought on by tighter monetary policy.

The subfund posted a negative performance in the financial year given the underlying market movements as described. All factors including duration, spread and currency contributed negatively to absolute performance.

Notes to the Financial Statements

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the net asset value

The net asset value and the issue and redemption price per unit of any subfund or of any unit class are expressed in the currency of account of the subfund or of the unit class concerned and are calculated every business day by dividing the overall net assets of the subfund attributable to each unit class by the number of units in circulation in the respective unit class of this subfund.

A "business day" is a normal bank business day in Luxembourg (i.e. a day when the banks are open during normal business hours), except for 24 and 31 December, individual, non-statutory days of rest in Luxembourg and days on which stock exchanges in the main countries in which the respective subfund invests are closed, or on which 50% or more of the investments of the subfund cannot be adequately valued.

The percentage of the net asset value attributable to each unit class of a subfund changes each time units are issued or redeemed. It is determined by the ratio of the units in circulation in each unit class to the total number of units in circulation in the subfund, taking into account the fees charged to that unit class. The net asset value attributable to the unit class concerned is increased or reduced by the amount received or paid out.

Due to fees and charges as well as the buy-sell spreads for the underlying investments, the actual costs of buying and selling assets and investments for a subfund may differ from the last available price or, if applicable, the net asset value used to calculate the net asset value per unit. These costs have a negative impact on the value of a subfund and are termed "dilution". To reduce the effects of dilution, the Board of Directors may at its own discretion make a dilution adjustment to the net asset value per unit (swing pricing).

Units are issued and redeemed based on a single price: the net asset value per unit. To reduce the effects of dilution, the net asset value per unit is nevertheless adjusted on valuation days as described below; this takes place irrespective of whether the subfund is in a net subscription or net redemption position on the relevant valuation day. If no trading is taking place in a subfund or class of

a subfund on a particular valuation day, the unadjusted net asset value per unit is applied. The Board of Directors has discretion to decide under which circumstances such a dilution adjustment should be made. The requirement to carry out a dilution adjustment generally depends on the scale of subscriptions or redemptions of units in the relevant subfund. The Board of Directors may apply a dilution adjustment if, in its view, the existing unitholders (in the case of subscriptions) or remaining unitholders (in the case of redemptions) could otherwise be put at a disadvantage. The dilution adjustment may take place if:

- (a) a subfund records a steady fall (i.e. a net outflow due to redemptions);
- (b) a subfund records a considerable volume of net subscriptions relative to its size;
- (c) a subfund shows a net subscription or net redemption position on a particular valuation day; or
- (d) In all other cases in which the Board of Directors believes a dilution adjustment is necessary in the interests of the unitholders.

When a valuation adjustment is made, a value is added to or deducted from the net asset value per unit depending on whether the subfund is in a net subscription or net redemption position; the extent of the valuation adjustment shall, in the opinion of the Board of Directors, adequately cover the fees and charges as well as the buy-sell spreads. In particular, the net asset value of the respective subfund will be adjusted (upwards or downwards) by an amount that (i) reflects the estimated tax expenses, (ii) the trading costs that may be incurred by the subfund, and (iii) the estimated bid-ask spread for the assets in which the subfund invests. As some equity markets and countries may show different fee structures on the buyer and seller side, the adjustment for net inflows and outflows may vary. Generally speaking, adjustments shall be limited to a maximum of 2% of the relevant applicable net asset value per unit. Under exceptional circumstances (e.g. high market volatility and/or illiquidity, extraordinary market conditions, market disruptions etc.), the Board of Directors may decide to apply temporarily a dilution adjustment of more than 2% of the relevant applicable net asset value per unit in relation to each subfund and/or valuation date, provided that the Board of Directors is able to justify that this is representative of prevailing market conditions and is in the unitholders' best interest. This dilution adjustment shall be calculated according to the procedure specified

by the Board of Directors. Unitholders shall be informed through the normal channels whenever temporary measures are introduced and once the temporary measures have ended.

The net asset value of each class of the subfund is calculated separately. However, dilution adjustments affect the net asset value of each class to the same degree in percentage terms.

For all subfunds the Swing Pricing methodology is applied.

If there were Swing Pricing adjustments to the net asset value at the end of the financial year, this can be seen from the three-year comparison of the net asset value information of the subfunds. The issue and redemption price per share represents the adjusted net asset value.

This adjustment is in favour of the subfund and mentioned in the statement of operations as "Other income".

b) Valuation principles

- liquid assets (whether in the form of cash and bank deposits, bills of exchange, cheques, promissory notes, expense advances, cash dividends and declared or accrued interest still receivable) are valued at face value, unless this value is unlikely to be fully paid or received, in which case their value is determined by deducting an amount deemed appropriate to arrive at their real value.
- Securities, derivatives and other assets listed on a stock exchange are valued at the most recent market prices available. If these securities, derivatives or other assets are listed on several stock exchanges, the most recently available price on the stock exchange that represents the major market for this asset shall apply. In the case of securities, derivatives and other assets not commonly traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Management Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange, but traded on another regulated market that operates regularly and is recognised and open to the public, are valued at the most recently available price on this market.
- Securities and other investments not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Management Company according to other principles chosen by it in good faith on the basis of probable market prices.
- Derivatives not listed on a stock exchange (OTC derivatives) are valued on the basis of independent pricing sources. If only one independent pricing source is available for a derivative, the plausibility of the valuation obtained will be verified using calculation models that are recognised by the Management Company and the

auditors, based on the market value of that derivative's underlying.

- Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCIs) are valued at their last known asset value.
- Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. Curve-based valuations are calculated from interest rates and credit spreads. The following principles are applied in this process: The interest rate nearest the residual maturity is interpolated for each money market instrument. Thus calculated, the interest rate is converted into a market price by adding a credit spread that reflects the creditworthiness of the underlying borrower. This credit spread is adjusted if there is a significant change in the borrower's credit rating.
- Securities, money market instruments, derivatives and other assets denominated in a currency other than the relevant subfund's currency of account, and not hedged by foreign exchange transactions, are valued using the average exchange rate (between the bid and ask prices) known in Luxembourg or, if none is available, using the rate on the most representative market for that currency.
- Term and fiduciary deposits are valued at their nominal value plus accumulated interest.
- The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. Such calculations are based on the net present value of all cash flows (both inflows and outflows). In some specific cases, internal calculations (based on models and market data made available by Bloomberg) and/or broker statement valuations may be used. The valuation method depends on the security in question and is chosen pursuant to the applicable UBS valuation policy.

The Management Company is authorised to apply other generally recognised and verifiable valuation criteria in good faith to arrive at an appropriate valuation of the net assets if, due to extraordinary circumstances, a valuation in accordance with the foregoing provisions proves unfeasible or inaccurate.

In extraordinary circumstances, additional valuations may be made throughout the day. Such new valuations shall apply for subsequent issues and redemptions of units.

c) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

d) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation

date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

e) Net realized profit (loss) on the sales of securities

The realized profits or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

f) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Profit or loss on foreign exchange is included in the statement of operations.

The cost of the securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate on the day of acquisition.

g) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction date.

h) Swaps

The fund may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

Changes in unrealized profits and losses are reflected in the statement of operations under "Unrealized appreciation (depreciation) on swaps".

Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on swaps" in the statement of operations.

i) Combined financial statements

The combined financial statements are expressed in EUR. The various items of the combined statement of net assets and the combined statement of operations at 31 March 2023 of the investment company are equal to the sum of the corresponding items in the financial statements of each subfund converted into EUR at the following exchange rates.

The following exchange rates were used for the conversion of the combined financial statements as of 31 March 2023:

Exchange rates	
EUR 1 = AUD	1.622172
EUR 1 = CHF	0.992526
EUR 1 = USD	1.086450

j) "Mortgage-backed securities"

The fund, in accordance with its investment policies, may invest in mortgage-backed securities. A mortgage-backed security is a participation in a pool of residential mortgages which is consolidated into the form of securities. The principal and interest payments on the underlying mortgages are passed through to the holders of the mortgage-backed security of which the principle reduces the cost basis of the security. The payment of principal and interest may be guaranteed by quasi governmental agencies of the United States. A gain or loss is calculated on each paydown associated with each payment of principal. This gain or loss has been included in Net realized gain or loss on sales of securities in the statement of operations. In addition, prepayments of the underlying mortgages may shorten the life of the security, thereby affecting the fund's expected yield.

For "Mortgage-backed securities", if the factor to be applied to the nominal of the security is greater than one at the valuation date, then the nominal shown in the financial statements is adjusted to reflect this factor. In the other cases the nominal shown reflects the effect of a factor equal to one.

k) Receivable on securities sales, Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

l) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

m) To Be Announced ("TBA") Mortgage Backed Securities

TBA positions refer to general trading practice on the mortgage-backed securities market where a security from a mortgage pool (Ginnie Mae, Fannie Mae or Freddie Mac) is acquired at a fixed price on a future date. The precise composition of the security is not known at the time of the purchase, but its main characteristics have already been defined. The price is also set at this point, although the Nominal value has not yet been definitively established.

n) Cross-subfunds investments

As per 31 March 2023 the subfunds of UBS (Lux) Bond Fund – EUR Flexible und UBS (Lux) Bond Fund – Global Flexible had the following investments in other subfunds of UBS (Lux) Bond Fund:

Out of the aforementioned maximum Flat fee the following is included:

1. In accordance with the following provisions, a maximum flat fee based on the net asset value of the Fund is paid from the Fund's assets for the management, administration, portfolio management

and distribution of the Fund (if applicable), as well as for all Depositary tasks, such as the safekeeping and supervision of the Fund's assets, the processing of payment transactions and all other tasks listed in the "Depositary and Main Paying Agent" of the sales prospectus. This fee is charged to the Fund's assets pro rata temporis upon every calculation of the net asset value, and is paid on a monthly basis (maximum flat management fee). The maximum flat fee for unit classes with "hedged" in their name may contain fees for hedging currency risk. The relevant maximum flat management fee will not be charged until the corresponding unit classes have been launched. An overview of the maximum flat management fees can be found under "The subfunds and their special investment policies" of the sales prospectus.

This fee is shown in the Statement of Operations as "Flat fee".

2. The maximum flat management fee does not include the following fees and additional expenses, which are also taken from the Fund assets:

- All other Fund asset management expenses for the sale and purchase of assets (bid-ask spread, market-based brokerage fees, commissions, fees, etc.); As a rule, these expenses are calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of units, are covered by the application of the Swing pricing principle pursuant to the section titled "Net asset value, issue, redemption and conversion price" of the sales prospectus;
- Fees of the supervisory authority for the establishment, modification, liquidation and merger of the Fund, as well as all charges payable to the supervisory authorities and any stock exchanges on which the subfunds are listed;
- Auditor's fees for the annual audit and for authorisations in connection with creations, alterations, liquidations and mergers within the Fund, as well as any other fees paid to the audit firm for services provided in relation to the administration of the Fund and as permitted by law;
- Fees for legal consultants, tax consultants and notaries in connection with the creation, registration in distribution countries, alteration, liquidation and merger of the Fund, as well as for the general safeguarding of the interests of the Fund and its investors, insofar as this is not expressly prohibited by law;
- Costs for publishing the Fund's net asset value and all costs for notices to investors, including translation costs;
- Costs for the Fund's legal documents (prospectuses, KIDs, annual and semi-annual reports, and other documents legally required in the countries of domiciliation and distribution);

- g) Costs for the Fund's registration with any foreign supervisory authorities (if applicable), including fees payable to the foreign supervisory authorities, as well as translation costs and fees for the foreign representative or paying agent;
- h) Expenses incurred through use of voting or creditors' rights by the Fund, including fees for external advisers;
- i) Costs and fees related to any intellectual property registered in the Fund's name, or to the Fund's rights of usufruct;
- j) all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary to protect the interests of the investors;
- k) If the Management Company participates in class-action suits in the interests of investors, it may charge expenses arising in connection with third parties (e.g. legal and Depositary costs) to the Fund's assets. Furthermore, the Management Company may bill for all administrative costs, provided these are verifiable, and disclosed and accounted for in the Fund's published total expense ratio (TER).

These commissions and fees are shown in the Statement of Operations as "Other commissions and fees".

- 3. The Management Company may pay trailer fees for the distribution of the Fund.

For unit class "I-B", a fee is charged to cover the costs of fund administration (comprising the costs of the Management Company, the administrative agent and the Depositary). The costs for asset management and distribution are charged outside of the Fund under a separate contract concluded directly between the investor and UBS Asset Management Switzerland AG or one of its authorised representatives.

Costs relating to the services performed for unit classes I-X, K-X and U-X for asset management, fund administration (comprising the costs of the Management Company, the administrative agent and the Depositary) and distribution are covered by the compensation to which UBS Asset Management Switzerland AG is entitled under a separate contract with the investor.

Costs relating to the asset management services to be provided for unit classes "K-B" are covered by the compensation to which UBS Asset Management Switzerland AG or one of its authorised distributors is entitled under a separate agreement with the investor.

All costs that can be attributed to individual subfunds will be charged to these subfunds.

Costs that can be allocated to individual unit classes will be charged to those unit classes. Costs pertaining to some or all subfunds/unit classes will be charged to those subfunds/unit classes in proportion to their respective net asset values.

With regard to subfunds that may invest in other UCIs or UCITS under the terms of their investment policies, fees may be incurred both at the level of the subfund as well as at the level of the relevant target fund. The management fees (excluding performance fees) of the target fund in which the assets of the subfund are invested may amount to a maximum of 3%, taking into account any trailer fees.

Should a subfund invest in units of funds that are managed directly or by delegation by the Management Company itself or by another company linked to the Management Company through common management or control or through a substantial direct or indirect holding, no issue or redemption charges may be charged to the investing subfund in connection with these target fund units.

Details of the Fund's ongoing costs (or ongoing charges) can be found in the KIDs.

The tax d'abonnement is waived for that part of the net assets invested in units or shares of other undertakings for collective investment that have already paid the tax d'abonnement in accordance with the statutory provisions of Luxembourg law.

Note 4 – Income distribution

In accordance with Article 10 of the Management Regulations, once the annual accounts are closed the Management Company will decide whether and to what extent distributions are to be paid out by each subfund. The payment of distributions must not result in the net assets of the fund falling below the minimum amount for fund assets laid down by law of 2010. If distributions are made, payment will be effected within four months of the end of the financial year.

The details of the distributions are unaudited.

The Board of Directors is authorized to pay interim dividends and to suspend the payment of distributions.

An income equalisation amount will be calculated so that the distribution corresponds to the actual income entitlement.

According to normal Market practice, no commissions have been charged to the fund on transactions on “other securities (except equities and equity-like securities)” with related parties.

Such transactions were entered in the ordinary course of business and on normal commercial terms.

For the conversion of the volume of transactions with related parties into subfund currency, the exchange rates of the financial statements as of 31 March 2023 were used.

b) Transactions in units of the fund

Connected persons may invest in a new subfund/share-class for the purpose of providing seed capital (“Direct Investment”), with the intent of remaining invested until the subfund/shareclass has substantial net assets. Such investments are at arm’s length and comply with all late trading/market timing prevention requirements. No connected person may invest for the purpose of exercising management or control over any Fund or the Company.

Subfunds	Number of shares	% per Total Net Asset Value
UBS (Lux) Bond Fund		
– Euro High Yield (EUR) P-acc	10 976	0.20%

Note 6 – Soft commission arrangements

If permitted by the laws governing the Portfolio Manager, the Portfolio Manager and its affiliates may enter into soft commission arrangements with certain brokers which they engage in security transactions on behalf of the subfunds under which certain goods and services used to support investment decision making will be received without a direct payment in return. Such commissions are defined as soft dollars by the Hong Kong Securities and Futures Commission. This is only done when the transaction execution is consistent with the best execution standards, and it has been determined in good faith that the brokerage fee is reasonable in relation to the value of the execution and/or brokerage services provided by the broker.

Goods and services received solely included research services. The relative costs or benefits of research received from brokers are not allocated among particular clients or funds because it is believed that the research received is, in the aggregate, of assistance in fulfilling the Portfolio Manager and its affiliates’ overall responsibilities to their clients or funds they manage. During the year from 1 April 2022 to 31 March 2023 there were no transactions executed with brokers having soft commission arrangements in place and therefore no related commissions have been paid by the subfunds for these transactions.

Note 13 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the unitholders, the Management Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Management Company and/or the Depositary can elect to make themselves and the fund subject to the jurisdiction of the countries in which the fund units were bought and sold.

The English version of these financial statements is the authoritative version and only this version was audited from the auditor. However, in the case of units sold to investors from the other countries in which fund units can be bought and sold, the Management Company and the Depositary may recognize approved translations (i.e. approved by the Management Company and the Depositary) into the languages concerned as binding upon themselves and the fund.

Note 14 – OTC-Derivatives and Securities Lending

If the Fund enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Fund enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Fund is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Fund. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepository/correspondent bank network may result in the rights or recognition of the Fund in connection with the security to be delayed, restricted or even eliminated, which would force the Fund to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch acts as securities lending agent.

Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is applied pursuant to the applicable laws and regulatory provisions.

Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

Appendix 4 – Remuneration Policy (unaudited)

The Board of Directors of UBS Fund Management (Luxembourg) S.A. (the “Management Company” or the “AIFM”) has adopted a remuneration framework (the “Framework”) whose objectives are on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under:

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the “UCITS Law”) transposing the UCITS Directive 2009/65/EC (the “UCITS Directive”) as amended by Directive 2014/91/EU (the “UCITS V Directive”);
- (ii) the Alternative Investment Fund Managers Directive (“AIFMD”) 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA’s guidelines on sound remuneration policies under the UCITS Directive - ESMA/2016/575 and ESMA’s guidelines on sound remuneration policies under the AIFMD - ESMA/2016/579 both published on 14 October 2016;
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EC of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) Regulation (EU) 2019/2088 of the European parliament and of the council of 27 November 2019 on sustainability-related disclosures in the financial services sector (“SFDR”);
- (viii) the CSSF Circular 14/585, transposing the ESMA Guidelines 2013/606 on remuneration policies and practices (MiFID ESMA Guidelines).

and on the other hand, to comply with the UBS Group AG (the “UBS Group”) Total Reward Principles.

The Framework is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Policy of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at <https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html>.

The Policy is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/the AIFM. Last approval by the Board of Directors took place on 23 September 2022. The changes made to the Framework relate to the extension of the Management Company/the AIFM license to cover non-core services investment advice and reception and transmission of orders in relation to financial instruments.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration framework and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organization and the nature, scope and complexity of its activities.

Appendix 4 – Remuneration Policy (unaudited)

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

Remuneration of Management Company/AIFM staff

The aggregate amounts of total remuneration, split into fixed and variable, paid by the Management Company/the AIFM to its staff and its Identified Staff during the financial year ended as at 31 December 2022 are as follows:

EUR 1 000	Fixed remuneration	Variable remuneration	Total remuneration	No of beneficiaries
All staff	10 669	1 787	12 456	100
- whereof Identified Staff	4 644	985	5 629	33
- thereof Senior Management*	2 341	714	3 055	11
- thereof Other Identified Staff	2 303	271	2 574	22

* Senior Management includes the CEO, the Conducting Officers, the Head of Compliance and the Independent Director.

Remuneration of delegates staff

As market or regulatory practice develops UBS Asset Management may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBS fund disclosures in that same year.

For the year ending 31 December 2022, the aggregate total remuneration paid by the delegated Investment Manager to its Identified Staff in relation to the Fund amounted to EUR 337 781 of which EUR 232 986 represented the variable remuneration (7 beneficiaries).

* The investments underlying this subfund do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Taxonomy).

The investment process integrates material sustainability and/or Environmental, Social and Governance (ESG) considerations. ESG integration is driven by taking into account material ESG risks, which could impact investment returns, and implementing ESG strategies that enhance returns rather than being driven by specific ethical principles or norms. The analysis of material sustainability/ESG considerations can include many different aspects, for example; the carbon footprint, reducing consumption and waste, employee [and/or tenant] health and well-being, supply chain management, fair customer treatment and governance processes of a company. The Portfolio Manager may still make investments with a higher ESG risk profile where the Portfolio Manager believes the potential compensation and ability to mitigate outweighs the risks identified. Therefore, ESG Integrated Funds do not have a sustainable focus as the primary objective, but they are investment funds that primarily aim at maximizing financial performance whereby ESG aspects are an important factor incorporated into the investment process and ongoing asset management.

The subfund does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (SFDR Art. 7).

From 30 September 2022 onwards, characteristic 1:

- The UBS ESG consensus score of the financial product was lower than that of its benchmark.
 - UBS consensus score of the financial product: 6.55
 - UBS consensus score of the benchmark: 7.10

 - Assets invested in sovereign bonds from issuers showing "controversies" of the financial product: 0.84%
 - Assets invested in sovereign bonds from issuers showing "controversies" of benchmark: 0.03%

The higher percentage of assets invested in sovereign bonds from issuers showing "controversies" is explained by the subfund's holdings in sanctioned Russian securities. The Russian securities cannot be sold due to sanctions imposed by the Office of Foreign Assets Control (OFAC). At the time of investment the issuers were not subject to OFAC sanctions and were not showing "controversies" on the UBS ESG Risk Dashboard. The current positions will be kept unchanged in the portfolio until the sanctions are lifted.

Excluding the sanctioned Russian securities, the percentage of subfund assets invested in sovereign bonds from issuers showing "controversies" on the UBS ESG Risk Dashboard is lower than that of its benchmark, as per below:

- Assets invested in sovereign bonds from issuers showing "controversies" of the financial product: 0.00%

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

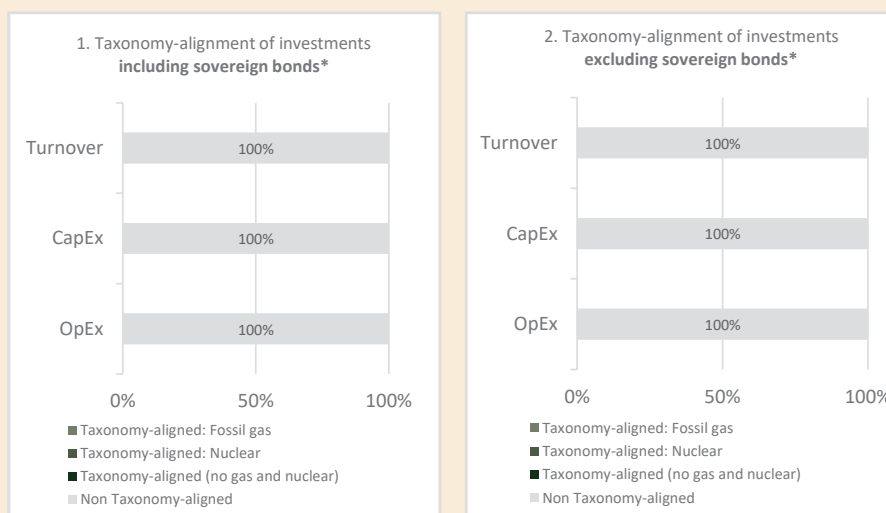

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.
