

2022/2023 年報

(中文節譯文)

盧森堡法律下投資公司(SICAV)

R.C.S. Luxembourg N° B 56 385

截至 2023 年 5 月 31 日經查核之年報

瑞銀(盧森堡)債券基金公司

瑞銀(盧森堡)美元非投資等級債券基金(美元) (本基金之配息來源可能為本金)

瑞銀(盧森堡)亞洲非投資等級債券基金(美元) (本基金之配息來源可能為本金)

瑞銀(盧森堡)美元企業債券基金(美元) (本基金之配息來源可能為本金)

獨立會計師報告

致瑞銀 (盧森堡) 債券基金公司股東

會計師意見

依據本會計師意見，此財務報表係依據盧森堡與財務報表編製相關之法律與規章之規定編製，足以真實及允當表達瑞銀(盧森堡)債券基金公司(「本基金」)及其子基金截至 2023 年 5 月 31 日為止之財務狀況，以及該年度之損益及淨資產變動狀況。

本會計師查核內容

本財務報表包含：

- 截至 2023 年 5 月 31 日為止之本基金合併資產負債表以及各子基金資產負債表；
 - 該年度本基金合併損益表及各子基金損益表；
 - 該年度本基金合併淨資產變動表及各子基金淨資產變動表；
 - 截至 2023 年 5 月 31 日為止各子基金之證券投資及其他淨資產報表；以及
 - 包含重大會計政策摘要在內之財務報表附註。
-

意見之基礎

本會計師查核係根據 2016 年 7 月 23 日頒布之審計行業法律以及盧森堡金融業監管委員會(Commission de Surveillance du Secteur Financier, CSSF)所採行之國際審計準則 (ISAs)。本會計師依據這些法律和標準下之責任詳細描述於本報告「傘型基金查核會計師(Réviseur d'entreprises agréé)查核財務報表之責任」章節。

本會計師相信取得之查核證據係足夠且適當的，為本會計師之意見提供基礎。

根據盧森堡金融業監管委員會(CSSF)所採用的國際會計師倫理標準委員會之專業會計師倫理守則(IESBA Code)及審查會計報表所要求的相關道德規範，本會計師獨立於本基金。本會計師已履行及遵守這些道德責任。

其他資訊

本基金董事會須對其他資訊負責。其他資訊包括年報內之所有訊息，但不包括財務報表及本會計師之查核報告。

Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518

本會計師對財務報表之意見並不涵蓋其他資訊，我們亦不會對該等資訊表達任何形式之保證。

基於本會計師對財務報表之查核，本會計師之責任係閱讀前述之其他資訊，並在此過程中，考慮該等資訊與財務報表或本會計師查核過程中所了解之情況，是否存在重大抵觸或重大錯誤之陳述。若有上述情形，本會計師有報告的義務。針對這一部分，本會計師認為並無需要報告之情事。

本基金董事會對本基金及財務報表應負之責任

本基金董事會須負責依據盧森堡與財務報表編製相關之法律與規章規定，編製與公允表達前述財務報表，並依本基金董事會認為必要之內部控制，使編制之財務報表免於出現由於舞弊或錯誤而導致之重大誤述。

編制財務報表時，本基金董事會須負責評估本基金及各子基金之持續經營能力，並以持續經營之會計基礎酌情揭露與持續經營相關的事項，除非本基金董事會有意清算本基金或關閉任何子基金或停止運營，或除此之外別無其他實際可行之替代方案。

傘型基金查核會計師(Réviseur d'entreprises agréé)查核財務報表之責任

本會計師查核之目標係取得整個財務報表是否無因舞弊或錯誤導致重大誤報之合理確信，並發布包含本會計師意見之「傘型基金查核會計師」報告。合理確信係高度確信，但不能保證本會計師依據盧森堡金融業監管委員會(Commission de Surveillance du Secteur Financier, CSSF)所採行之國際審計準則(ISAs)，及按 2016 年 7 月 23 日頒布之審計業法律進行之查核工作能完全發現已存在之誤報。誤報可能是由於舞弊或錯誤所造成，自個別或整體觀之，若能合理地預期此誤報會影響使用者依據財務報表所做出之經濟決策，則可視為重大。

本會計師除依據專業判斷和道德規範進行查核工作(係依 2016 年 7 月 23 日發佈之法律及 CSSF 所採用之國際審計準則)，亦進行下列程序：

- 辨別並評估舞弊或錯誤所造成之財務報表之重大誤報風險，設計並執行對應這些風險之查核程序，以及獲取充分且適當之查核證據作為會計師意見之基礎。舞弊可能涉及串通、偽造、蓄意遺漏、虛假陳述或忽視內部控制，故未發現到由舞弊造成之誤報風險高於由錯誤引起之重大誤報風險。
- 了解與審計相關之內部控制，以設計適當之查核程序，但並非對本基金內部控制之有效性意見。
- 評估本基金董事會所採用之會計政策之適當性以及會計估計和相關揭露之合理性。
- 對本基金董事會使用持續經營會計基礎之適當性作出結論，並根據獲得之查核證據確定是否存在相關事件或情況可能導致本基金或任何子基金之持續經營能力產生重大疑慮之重大不確定性。若本會計師認為存在重大不確定性，本會計師須於傘型基金查核會計師報告或相關財務報告揭露事項中提請注意，若該等揭露不具適當性，則可修改本會計師之意見。本會計師係根據最新傘型基金查核會計師報告之查核證據做出結論。但未來之事件或情況可能導致本基金或任何子基金停止持續經營。

- 評估財務報表之整體表述、結構及內容，包括揭露，以及財務報表是否以公正表述之方式陳述基礎交易和事件。

除其他事項外，本會計師與管理階層溝通查核之計劃範圍和時間安排，以及重要查核結果，包括本會計師查核過程發現之任何內部重大控制缺失。

The sales prospectus, the PRIIPs KID (Packaged Retail and Insurance-based Investment Products Key Information Document), the articles of association of the Company, the annual and semi-annual reports as well as the portfolio movements of the Company mentioned in this publication are available free of charge at the sales agencies and at the registered office of the Company.

Features of the Company

UBS (Lux) Bond SICAV (hereinafter called the “Company”) offers investors various subfunds (“umbrella structure”) which invest in accordance with the investment policy described in the sales prospectus. The specific details on each subfund are defined in the sales prospectus, which will be updated on the launch of each new subfund.

The Company was incorporated on 7 October 1996, as an open-end investment company in the legal form of a “société d’investissement à capital variable” (SICAV) in accordance with Part I of the Luxembourg Law of 30 March 1988 relating to undertakings for collective investment and became subject to the law of 20 December 2002 in November 2005. Since 1 July 2011 the Company is subject to the amended law of 17 December 2010. With effect from 15 June 2011, the Company has appointed UBS Fund Management (Luxembourg) S.A. as its Management Company.

The Articles of Association were published in the “Mémorial, Recueil des Sociétés et Associations” (hereinafter referred to as “Mémorial”) on 8 November 1996 with amendments on 17 November 1997 and announced by way of a notice of deposit on 30 December 2005. The consolidated version is deposited at the Trade and Companies Register (Registre de Commerce et des Sociétés) in Luxembourg for inspection. Any amendments are published in the “Recueil Electronique des Sociétés et Associations” (“RESA”) by way of a notice of deposit and in the manner described in the section entitled “Regular reports and publications” of the sales prospectus. Amendments become legally binding following their approval by the general meeting of shareholders.

The entirety of the individual subfunds net assets forms the total net assets of the Company, which corresponds, at all times, to the share capital of the Company and consist of fully paid in and non-par-value shares (the “shares”).

At general meetings, shareholders have the right to one vote per share held, irrespective of the difference in value of shares in the respective subfunds. Shares of a particular subfund carry the right of one vote per share held when voting at meetings affecting this subfund.

The Company forms a legal entity. With respect to the shareholders, each subfund is regarded as being independent from the others. The assets of a subfund can be used to offset only the liabilities which the subfund concerned has assumed.

The Company is empowered, at all times, to liquidate existing subfunds and/or to establish new subfunds as well as different share classes with specific characteristics within these subfunds. The sales prospectus will be updated each time a new subfund or an additional share class is launched.

The Company is unlimited with regard to duration and total assets.

As at 31 May 2023, the following subfunds are active:

UBS (Lux) Bond SICAV	Currency of account of the subfunds

Various share classes can be offered for the subfunds. Information on which share classes are available for which subfund can be obtained from the Administrative Agent or at “<http://www.ubs.com/funds>”.

Shares are issued as registered shares only.

“P”

Shares in classes with “P” in their name are available to all investors. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2’000, DKK 700, EUR 100, GBP 100,

HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"N"

Shares in classes with "N" in their name (shares with restrictions on distribution partners or countries) are issued exclusively through distributors authorised by UBS Asset Management Switzerland AG and domiciled in Spain, Italy, Portugal and Germany, or in other distribution countries insofar as this has been decided by the Company. No entry costs shall be charged for these classes, even if they have additional characteristics. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"K-1"

Shares in classes with "K-1" in their name are available to all investors. Their smallest tradable unit is 0.001. The minimum investment amount is equivalent to the initial issue price of the unit class and is applicable on the level of the clients of financial intermediaries. This minimum investment amount must be met or exceeded with every subscription order that is placed. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 5 million, BRL 20 million, CAD 5 million, CHF 5 million, CZK 100 million, DKK 35 million EUR 3 million, GBP 2.5 million, HKD 40 million, JPY 500 million, NOK 45 million, NZD 5 million, PLN 25 million, RMB 35 million, RUB 175 million, SEK 35 million, SGD 5 million, USD 5 million or ZAR 40 million.

"K-B"

Shares in classes with "K-B" in their name are exclusively reserved for institutional investors who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised distribution partners on investing in one or more subfunds of this umbrella fund. The costs for asset management are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700 EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"K-X"

Shares in classes with "K-X" in their name are exclusively reserved for investors who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Company, administrative agent

and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"F"

Shares in classes with "F" in their name are exclusively reserved for UBS Group AG affiliates. The maximum flat fee for this class does not include distribution costs. These shares may only be acquired by UBS Group AG affiliates, either for their own account or as part of discretionary asset management mandates concluded with UBS Group AG companies. In the latter case, the shares will be returned to the Company upon termination of the mandate at the prevailing net asset value and without being subject to charges. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"Q"

Shares in classes with "Q" in their name are exclusively reserved for financial intermediaries that (i) make investments for their own account, and/or (ii) receive no distribution fees in accordance with regulatory requirements, and/or (iii) can only offer their clients classes with no retrocessions, where these are available in the investment fund in question, in accordance with written agreements or agreements on fund savings plans concluded with their clients. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the subfund. The Company and the Management Company are not liable for any tax consequences that may result from a forcible redemption or exchange. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1'000.

"QL"

Shares in classes with "QL" in their name are exclusively reserved for selected financial intermediaries that: (i) have received approval from the Management Company prior to first subscription, and (ii) receive no distribution fees in accordance with regulatory requirements and/or can only offer their clients classes with no retrocessions, where these are available in the investment fund in question, in accordance with written agreements

concluded with their clients. The Management Company will require a minimum investment of CHF 200 million (or the equivalent in another currency). The Management Company may waive the minimum investment temporarily or permanently. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the subfund. The Company and the Management Company are not liable for any tax consequences that may result from a forcible redemption or exchange.

The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"I-A1"

Shares in classes with "I-A1" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"I-A2"

Shares in classes with "I-A2" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000. The minimum subscription amount for these shares is CHF 10 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above; or
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one its authorised contractual partners) or on the written approval of UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 30 million (or foreign currency equivalent); or

- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

The Management Company may waive the minimum subscription if the total assets under management at UBS or the holdings of UBS collective investment schemes by institutional investors exceed CHF 30 million within a specified period.

"I-A3"

Shares in classes with "I-A3" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000. The minimum subscription amount for these shares is CHF 30 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above; or
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one its authorised contractual partners) or on the written approval of UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 100 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

The Management Company may waive the minimum subscription if the total assets under management at UBS or the holdings of UBS collective investment schemes by institutional investors exceed CHF 100 million within a specified period.

"I-A4"

Shares in classes with "I-A4" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit of these shares is 0.001. Unless the Management Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RUB 3'500, SEK 700, SGD 100,

USD 100 or ZAR 1'000. The minimum subscription amount for these shares is CHF 100 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above; or
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one its authorised contractual partners) or on the written approval of UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 500 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

The Management Company may waive the minimum subscription amount if the total assets managed by UBS or the amount held in UBS collective investment schemes for institutional investors is more than CHF 500 million within a defined period. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the sub-fund. The Company and the Management Company are not liable for any tax consequences that may result from a forcible redemption or exchange.

"I-B"

Shares in classes with "I-B" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more sub-funds of this umbrella fund. A fee covering the costs for fund administration (comprising the costs of the Company, the administrative agent and the Depositary) is charged directly to the subfund. The costs for asset management and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"I-X"

Shares in classes with "I-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds

of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"U-X"

Shares in classes with "U-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more sub-funds of this umbrella fund. The costs for asset management, fund administration (comprising the costs of the Company, the administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. This share class is exclusively geared towards financial products (i.e. funds of funds or other pooled structures under various legislative frameworks). Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 10'000, BRL 40'000, CAD 10'000, CHF 10'000, CZK 200'000, DKK 70'000, EUR 10'000, GBP 10'000, HKD 100'000, JPY 1 million, NOK 90'000, NZD 10'000, PLN 50'000, RMB 100'000, RUB 350'000, SEK 70'000, SGD 10'000, USD 10'000 or ZAR 100'000.

Additional characteristics:

"UKdist"

The aforementioned share classes can be issued as those with "UKdist" in their name. In these cases, the Company intends to distribute a sum that corresponds to 100% of the reportable income within the meaning of the UK reporting fund rules when the share classes are subject to these reporting fund rules. The Company does not intend to make taxable values for these share classes available in other countries, as they are intended for investors whose investment in the share class is liable to tax in the UK.

Currencies

The share classes may be denominated in AUD, BRL, CAD, CHF, CZK, DKK, EUR, GBP, HKD, JPY, NOK, NZD, PLN, RMB, RUB, SEK, SGD, USD or ZAR. For share classes issued in the currency of account of the subfund, this currency will not be included in the share class name. The currency of account features in the name of the relevant subfund.

“hedged”

For share classes with “hedged” in their name and with reference currencies different to the subfund’s currency of account (“classes in foreign currencies”), the risk of fluctuations in the value of the reference currency is hedged against the subfund’s currency of account. The amount of the hedging shall in principle be between 95% and 105% of the total net assets of the share class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of share classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits. The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the subfund’s currency of account.

“portfolio hedged”

For share classes with “portfolio hedged” in their name, the currency risk of the subfund’s investments is hedged against the reference currency of the share class as follows: Systematically, between 95% and 105% of the proportion of investments in developed nation foreign currencies relative to the share class’ total net assets is hedged, except where this is unfeasible or not cost-effective. Emerging market foreign currency investments are not hedged. Changes in the market value of the subfund’s investments, as well as subscriptions and redemptions of share classes, can cause the hedge to temporarily exceed the range specified by the Portfolio Manager. The Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits. The hedging described is used to hedge the currency risk resulting from investments denominated in a currency other than the share class’ reference currency, as described above.

“BRL hedged”

The Brazilian real (ISO 4217 currency code: BRL) may be subject to exchange control regulations and repatriation limits set by the Brazilian government. Prior to investing in BRL classes, investors should also bear in mind that the availability and tradability of BRL classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in Brazil. The risk of fluctuations is hedged as described above under “hedged”. Potential investors should be aware of the risks of reinvestment, which could arise if the BRL class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a share class and/or the subfund in accordance with the section “Liquidation and merger of the Company and its subfunds; merger of subfunds” of the sales prospectus.

“RMB” and “RMB hedged”

Investors should note that the renminbi (“RMB”) (ISO 4217 currency code: CNY), the official currency of the People’s Republic of China (the “PRC”), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

For share classes denominated in RMB and/or RMB hedged (the “RMB classes”), the net asset value is calculated in offshore RMB.

However, for the UBS (Lux) Bond SICAV – China Fixed Income (RMB) and UBS (Lux) Bond SICAV – China Flexible (RMB) subfunds the net asset value of the RMB classes is calculated in onshore RMB. No currency conversion takes place in the case of cross-border transfers between offshore and onshore RMB resulting from subscriptions or redemptions of the RMB classes. As such, the amount in RMB does not change, as offshore RMB and onshore RMB refer to the same currency.

Onshore RMB is not a freely convertible currency and is subject to foreign exchange control policies and repatriation and conversion restrictions imposed by the PRC government. Offshore RMB, on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD.

Convertibility between offshore RMB and onshore RMB is a regulated process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore supervisory and governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of RMB are not clearly regulated. Furthermore, investors should be aware that offshore RMB and onshore RMB have different exchange rates against other currencies. The value of offshore RMB can potentially differ significantly from that of onshore RMB due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of RMB against other currencies could adversely affect the value of investors’ investments in the RMB classes if denominated in another currency. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from RMB into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no

guarantee can be given that RMB or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which RMB and/or RMB classes may be made available or traded. If the currency of account of the relevant subfunds offering the RMB classes were in a currency other than RMB, the ability of the relevant subfund to make redemption payments in RMB would be subject to the subfund's ability to convert its currency of account into RMB, which may be restricted by the availability of RMB or other circumstances beyond the control of the Company.

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a share class and/or the subfund in accordance with the section "Liquidation of the Company and its subfunds; merger of subfunds". The risk of fluctuations for RMB-hedged share classes is hedged as described above under "hedged".

"acc"

The income of share classes with "-acc" in their name is not distributed unless the Company decides otherwise.

"dist"

The income of share classes with "-dist" in their name is distributed unless the Company decides otherwise.

"qdist"

Shares in classes with "-qdist" in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) ("capital"). Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"mdist"

Shares in classes with "-mdist" in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital

result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to invest in accumulating (-acc) rather than distributing (-dist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation. The maximum issuing commission for shares in classes with "-mdist" in their name is 6%.

"2%", "4%", "6%", "8%"

Shares in classes with "2%" / "4%" / "6%" / "8%" in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective share class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These share classes are suitable for investors who wish for more stable distributions, unrelated to past or expected returns or income of the relevant subfund.

Distributions may thus also be made from the capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist, -qdist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist, -qdist, -mdist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"seeding"

Shares with "seeding" in their name are only offered for a limited period of time. Further subscriptions are prohibited after the end of this period, unless otherwise decided by the Company. However, shares can still be redeemed in accordance with the conditions for share redemptions. Unless otherwise decided by the Company, the smallest tradeable unit, the initial issue price and the minimum subscription amount shall correspond to the characteristics of the share classes listed above.

The financial year of the Company ends on 31 May.

The ordinary general meeting takes place annually on 24 November at 11.30 a.m. at the registered office of the Company. If 24 November happens to be no working day in Luxembourg, the ordinary general meeting takes place on the next following working day.

Information on whether a subfund of Company shares are listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

The issue and redemption of shares of Company shares are subject to the regulations prevailing in the country concerned.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports are available free of charge to shareholders at the registered office of the Company and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

Audit report

To the Shareholders of
UBS (Lux) Bond SICAV

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of UBS (Lux) Bond SICAV (the “Fund”) and of each of its sub-funds as at 31 May 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 May 2023;
- the combined statement of operations for the Fund and the statement of operations for each of the sub-funds for the year then ended;
- the combined statement of changes in net assets for the Fund and the statement of changes in net assets for each of the sub-funds for the year then ended;
- the statement of investments in securities and other net assets of each of the sub-funds as at 31 May 2023; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

¹ The share class I-B-dist was in circulation until 1.3.2023. Due to this fact, there is no data for the calculation of the performance available in 2023.

Historical performance is no indicator of current or future performance.
The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.
The subfund has no benchmark.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, the wider global backdrop was affected by significant volatility (especially over the first nine months), percolating into the emerging markets (EM). Inflation fighting by major central banks took the center stage. In the US, the Fed raised its policy rate by 4.25%, from 1.0% at the start of the reporting year to 5.25% at the end of the financial year. The US Treasury yields, from which much of the global fixed income is priced, rose significantly in the first half of the financial year and remained range-bound in the second half of the year. Furthermore, towards the last quarter of the financial year, the collapse of two mid-sized lenders in the US and the acquisition of Credit Suisse by UBS led to worries over the health of the banking system on both sides of the Atlantic. Global markets have since calmed.

While several central banks in EM started hiking rates earlier than developed market central banks, they continued tightening monetary conditions during the reporting year as inflation remained elevated across EM. China's economy re-opened, paving the way towards economic recovery post the Covid pandemic. However, concerns remain about the vigor of China's economic recovery as the Chinese property sector continues to face headwinds and industrial production remains weak. The best performing sovereign bond markets during the period were El Salvador, Tajikistan, and Ethiopia with each generating a positive performance. On the other hand, sovereign bonds issued by Ukraine, Ecuador, and Lebanon fared worse during the period with each posting a negative performance. In EM corporates, the best performing industries were Consumer, Transport and Metals & Mining. The worst performers were Real Estate and TMT.

The subfund generated a positive performance during the financial year. Spread carry contributed positively to performance. US duration positioning contributed negatively to performance. The duration of the subfund declined during the financial year as time elapsed and the subfund moved closer to the final maturity date. The subfund has followed a diversified approach, investing

across a range of emerging market issuers and countries with a general buy and hold until maturity approach. In particular, investments in India, Mongolia, and Turkey contributed to performance while investments in Lebanon, China and Ukraine detracted from performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.
The subfund has no benchmark.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, the wider global backdrop was affected by significant volatility (especially over the first nine months), percolating into the emerging markets (EM). Inflation fighting by major central banks took the center stage. In the US, the Fed raised its policy rate by 4.25%, from 1.0% at the start of the financial year to 5.25% at the end of the financial year. The US Treasury yields, from which much of the global fixed income is priced, rose significantly in the first half of the financial year and remained range-bound in the second half of the year. Furthermore, towards the last quarter of the financial year, the collapse of two mid-sized lenders in the US and the acquisition of Credit Suisse by UBS led to worries over the health of the banking system on both sides of the Atlantic. Global markets have since calmed.

While several central banks in EM started hiking rates earlier than developed market central banks, they continued tightening monetary conditions during the financial year as inflation remained elevated across EM. China's economy re-opened, paving the way towards economic recovery post the Covid pandemic. However, concerns remain about the vigor of China's economic recovery as the Chinese property sector continues to face headwinds and industrial production remains weak. The best performing sovereign bond markets during the period were El Salvador, Tajikistan, and Ethiopia with each generating a positive performance. On the other hand, sovereign bonds issued by Ukraine, Ecuador, and Lebanon fared worse during the period with each posting a negative performance. In EM corporates, the best performing industries were Consumer, Transport and Metals & Mining. The worst performers were Real Estate and TMT.

The subfund generated a positive performance during the financial year. Spread carry contributed positively to performance. US duration positioning contributed negatively to performance. The duration of the subfund declined during the financial year as time elapsed and the subfund moved closer to the final maturity date. The subfund has followed a diversified approach, investing across a range of emerging market issuers and countries with a general buy and hold until maturity approach. In particular, investments in Turkey and Mongolia contributed to performance while investments in China and Ukraine detracted from performance.

¹ For the period from 30.6.2020 to 11.3.2022 the share class I-B-dist was in circulation. Due to this fact, there is no data for the calculation of the performance available in 2023.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

The subfund has no benchmark.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, developed market government bond yields increased particularly as inflation reached multi-decade highs and central banks globally recalibrated monetary policy. Prior to the financial year, global central banks had mostly maintained policy rates at very low levels but began shifting to tighter monetary policy and increasing policy rates throughout the financial year to combat inflation. Interest rates increased sharply as a result reflecting expectations for tighter monetary policy. Credit spreads across most sectors including investment grade, high yield, emerging markets, Asia credit, securitized debt, and EUR corporate debt finished the period at higher levels, with spreads widening in part driven by the volatility induced by a shift in monetary policy and higher interest rates.

The subfund delivered a negative performance during the financial year. Both the increase in developed market interest rates as well as a widening of credit spreads across most sectors including investment grade, high yield, emerging markets, Asia credit, securitized debt, and EUR corporate debt were the primary drivers of performance over the course of the period. The cost of hedging some non EUR positions to EUR also detracted. Higher yields contributed positively but not enough to offset the negative effects from interest rates and credit spread movements. The subfund has followed a diversified approach, investing across a range of sectors and regions with a fixed maturity approach. The option-adjusted duration of the subfund at the end of the financial year was lower than at the beginning of the period as underlying holdings moved closer to final maturity with the fund duration finishing the period at 1.7 years.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

The subfund has no benchmark.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, US Treasury yields increased particularly as inflation reached multi-decade highs in the US and the Fed maintained a more hawkish monetary policy. Prior to the financial year, the Fed had mostly maintained rates at very low levels but began shifting to tighter monetary policy and increasing rates throughout the financial year to combat inflation. US Treasury yields increased sharply as a result reflecting expectations for tighter monetary policy. Credit spreads widened across most sectors including investment grade, high yield, emerging markets, Asia credit, securitized debt, and EUR corporate debt, which finished the period at higher levels, with spreads widening in part driven by the volatility induced by a shift in monetary policy and higher interest rates.

The subfund delivered a positive performance during the financial year. The impact of higher yields helped offset both the increase in US Treasury yields as well as a modest widening of credit spreads across most sectors including investment grade, high yield, emerging markets, Asia credit, securitized debt, and EUR corporate debt, which were the primary drivers of performance over the course of the period. The subfund has followed a diversified approach, investing across a range of sectors and regions with a fixed maturity approach. The option-adjusted duration of the subfund at the end of the financial year was lower than at the beginning of the period as underlying holdings moved closer to final maturity with the fund duration finishing the period at 1.65 years.

⁴ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year from 1 June 2022 to 31 May 2023, the performance in Asia diverged across the credit spectrum with investment grade generating a positive performance while high yield generated a negative performance. This was against a backdrop of central banks across the world hiking interest rates. Notably, the US Federal Reserve raised interest rates by 25bp in Q1 2022, its first hike since 2018, followed by aggressive hikes bringing a total increase of 475bp by 31 March 2023.

The Ukraine-Russia war contributed to broad-based risk aversion and elevated inflation prints across the world; the markets began to price in faster-than-expected rate hikes by central banks. The markets remained volatile for the rest of the financial year on the back of increasing recession risks. In Q1 2023, concerns over financial sector stability caused volatility in the markets stemming from the failure of a few US banks; it took government intervention to stabilize the market.

In addition, the Chinese real estate sector fell into further distress. Over the course of the financial year, several property developers with weaker credit profiles and tighter liquidity defaulted on their liabilities, as they were unable to roll over bonds at the time of maturity. These developments led to a sector-wide challenge of a lack of liquidity and confidence, with the primary market remaining mostly shut for most real estate companies. Covid-related restrictions also contributed to the negative pressure on property sales. In late 2022, with policy shifts from the Chinese government, most notably in November, the People's Bank of China (PBoC) and China Banking Regulatory Commission (CBRC) issued a 16-point plan aimed at supporting the domestic property market and value chain, as well as the easing of the Covid policy in December 2022. A 20-point plan helped stage a strong rally in the Chinese property bond market, as well as the broader Chinese and Asia credits.

As the economy started reopening, economic activity and consumption continued to recover at a faster pace than expected. Recently released data confirms that China's early cycle economic recovery is on track. Q1 2023 GDP numbers surprised on the upside, rising 4.5% on a year-on-year basis. Domestic consumption was strongly up with clothing, cosmetics, jewelry, and catering sales all rising by double digits. Industrial production has also improved with demand recovery in the domestic and export markets.

Fund performance over the financial year was correspondingly negative, reflecting the broad weakness across the Asian USD high yield bond market.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.

Report of the Portfolio Manager

In the financial year from 1 June 2022 to 31 May 2023, the performance in Asia diverged across the credit spectrum with investment grade generating a positive performance while high yield generated a negative performance. This was against a backdrop of central banks across the world hiking interest rates. Notably, the US Federal Reserve raised interest rates by 25bp in Q1 2022, its first hike since 2018, followed by aggressive hikes bringing a total increase of 475bp by 31 March 2023.

The Ukraine-Russia war contributed to broad-based risk aversion and elevated inflation prints across the world; the markets began to price in faster-than-expected rate hikes by central banks. The markets remained volatile for the rest of the financial year on the back of increasing recession risks. In Q1 2023, concerns over financial sector stability caused volatility in the markets stemming from the failure of a few US banks; it took government intervention to stabilize the market.

In addition, the Chinese real estate sector fell into further distress. Over the course of the financial year, several property developers with weaker credit profiles and tighter liquidity defaulted on their liabilities, as they were unable to roll over bonds at the time of maturity. These developments led to a sector-wide challenge of a lack of liquidity and confidence, with the primary market remaining mostly shut for most real estate companies. Covid-related restrictions also contributed to the negative pressure on property sales. In late 2022, with policy shifts from the Chinese government, most notably in November, the People's Bank of China (PBoC) and China Banking Regulatory Commission (CBRC) issued a 16-point plan aimed at supporting the domestic property market and value chain, as well as the easing of Covid policy in December 2022. A 20-point plan helped stage a strong rally in the Chinese property bond market, as well as the broader Chinese and Asia credits.

As the economy started reopening, economic activity and consumption continued to recover at a faster pace than expected. Recently released data confirms that China's early cycle economic recovery is on track. Q1 2023 GDP numbers surprised on the upside, rising 4.5% on a year-on-year basis. Domestic consumption was strongly up with clothing, cosmetics, jewelry, and catering sales all rising by double digits. Industrial production has also improved with demand recovery in the domestic and export markets.

Fund performance over the financial year was marginally positive, reflecting the performance of the broad Asian USD investment grade bond market.

¹³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year from 1 June 2022 to 31 May 2023, onshore China bonds posted a positive performance in CNY terms. From a total performance perspective, China onshore bonds stood out among global counterparts as an outperformer that produced positive performance despite the sharp rise in global yields. Over the financial year, contrary to global central banks' moves, the 10-year Chinese Government bond yields fell by 8bp from 2.79% to 2.71%.

In late 2022, the government moved faster than expected to unwind its zero-Covid policy. Policymakers downgraded Covid management controls and scrapped quarantine and PCR testing requirements for inbound travelers from 8 January, removing two of the last tenets of zero-Covid. Economic activity rebounded initially along with risk assets but doubts around the sustainability of growth weakened sentiment in the market. Chinese government bonds rallied subsequently to close the financial year.

The People's Bank of China (PBoC) adopted a more neutral to dovish stance on monetary policy as China's policy stance towards the real estate sector as well as Covid lockdowns during 2022 contributed to a volatile financial year and a sell-off in China's risk assets over the course of the financial year.

Fund performance was correspondingly positive over the financial year.

¹ For the period from 8.10.2021 to 2.3.2022 the share class I-A3-dist was in circulation. Due to this fact, there is no data for the calculation of the performance available in 2023.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

The subfund has no benchmark.

Report of the Portfolio Manager

UBS (Lux) Bond SICAV – China High Yield (USD) was launched in September 2021. In the financial year from 1 June 2022 to 31 May 2023, performance in the China USD high yield (HY) credit space was strongly negative over the financial year. The price pressure was largely driven by the challenges in the China property sector.

Over the course of the financial year, several property developers with weaker credit profiles and tighter liquidity defaulted on their liabilities, as they were unable to roll over bonds at the time of maturity. These developments led to a sector-wide challenge of a lack of liquidity and confidence, with the primary market remaining mostly shut for most real estate companies. Covid-related restrictions also contributed to the negative pressure on property sales. In late 2022, with policy shifts from the Chinese government, most notably in November, the People's Bank of China (PBoC) and China Banking Regulatory Commission (CBRC) issued a 16-point plan aimed at supporting the domestic property market and value chain, as well as the easing of the Covid policy in December 2022. A 20-point plan helped stage a strong rally in the Chinese property bond market, as well as the broader Chinese and Asia credits.

As the economy started reopening, economic activity and consumption continued to recover at a faster pace than expected. Recently released data confirms that China's early cycle economic recovery is on track. Q1 2023 GDP numbers surprised on the upside, rising 4.5% on a year-on-year basis. Domestic consumption was strongly up with clothing, cosmetics, jewelry, and catering sales all rising by double digits. Industrial production has also improved with demand recovery in the domestic and export markets. The fund's performance over the financial year was correspondingly negative.

¹ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.
The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.

Report of the Portfolio Manager

During the financial year from 1 June 2022 to 31 May 2023, the convertible bond performance was mainly driven by higher interest rates on the one hand and relatively stable equity and credit markets on the other hand. Despite the relatively stable markets on a year-on-year basis the path was volatile due to a vast amount of negative news regarding the conflict in Ukraine, inflationary pressures, and volatile energy prices. Convertible bond valuations by themselves were slightly stronger over the period. On the new issue side, since the beginning of 2023 we have experienced a very vibrant market which provided us with a continuous flow of opportunities to look at.

As expected, the convertible bond market ended the period almost unchanged in line with its main performance drivers. The strongest contribution to performance nevertheless came from bonds that were driven higher by the strong performance of their underlying shares such as MercadoLibre and World Wrestling Entertainment convertible bonds.

¹ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.
The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, the wider global backdrop was affected by significant volatility (especially over the first nine months), percolating into the emerging markets (EM). Inflation fighting by major central banks took the center stage. In the US, the Fed raised its policy rate by 4.25%, from 1.0% at the start of the financial year to 5.25% at the end of the financial year. The US Treasury yields, from which much of the global fixed income is priced, rose significantly in the first half of the financial year and remained range-bound in the second half of the year. Furthermore, towards the last quarter of the financial year, the collapse of two mid-sized lenders in the US and the acquisition of Credit Suisse by UBS led to worries over the health of the banking system on both sides of the Atlantic. Global markets have since calmed.

While several central banks in EM started hiking rates earlier than developed market central banks, they continued tightening monetary conditions during the financial year as inflation remained elevated across EM. China's economy re-opened, paving the way towards economic recovery post the Covid pandemic. However, concerns remain about the vigor of China's economic recovery as the Chinese property sector continues to face headwinds and industrial production remains weak. The best performing sovereign bond markets during the period were El Salvador, Tajikistan, and Ethiopia with each generating a positive performance. On the other hand, sovereign bonds issued by Ukraine, Ecuador, and Lebanon fared worse during the period with each posting a negative performance. In EM corporates, the best performing industries were Consumer, Transport and Metals & Mining. The worst performers were Real Estate and TMT.

The subfund generated a negative performance during the financial year. Issue selection contributed negatively to performance while spread carry contributed positively to performance. The subfund has followed a diversified approach, investing across a range of emerging market industries and issuers. In particular, investments in Financials, Sovereigns and exposure to the China High Yield detracted from performance while investments in Agency and Utilities contributed to performance.

¹ The share class P-mdist was in circulation until 15.3.2022. Due to this fact, there is no data for the calculation of the performance available in 2023.

² The share class U-X-acc was in circulation until 19.5.2022. Due to this fact, there is no data for the calculation of the performance available in 2023.

³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, the wider global backdrop was affected by significant volatility (especially over the first nine months), percolating into the emerging markets (EM). Inflation fighting by major central banks took the center stage. In the US, the Fed raised its policy rate by 4.25%, from 1.0% at the start of the financial year to 5.25% at the end of the financial year. The US Treasury yields, from which much of the global fixed income is priced, rose significantly in the first half of the financial year and remained range-bound in the second half of the year. Furthermore, towards the last quarter of the financial year, the collapse of two mid-sized lenders in the US and the acquisition of Credit Suisse by UBS led to worries over the health of the banking system on both sides of the Atlantic. Global markets have since calmed.

While several central banks in EM started hiking rates earlier than developed market central banks, they continued tightening monetary conditions during the financial year as inflation remained elevated across EM. China's economy re-opened, paving the way towards economic recovery post the Covid pandemic. However, concerns remain about the vigor of China's economic recovery as the Chinese property sector continues to face headwinds and industrial production remains weak. The best performing sovereign bond markets during the period were El Salvador, Tajikistan, and Ethiopia with each generating a positive performance. On the other hand, sovereign bonds issued by Ukraine, Ecuador, and Lebanon fared worse during the period with each posting a negative performance. In EM corporates, the best performing industries were Consumer, Transport and Metals & Mining. The worst performers were Real Estate and TMT.

The subfund generated a negative performance during the financial year. Exposure to Russia contributed negatively to performance. The subfund has followed a diversified approach, investing across a range of emerging market countries, issuers and currencies.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

Over the financial year, from 1 June 2022 to 31 May 2023, the EUR corporate bond market delivered a negative performance. Yields across fixed income markets increased during the financial year as Central Banks embarked upon aggressive monetary tightening cycles designed to counteract rising inflation. In Europe, the ECB raised its policy rate by 375bp to 3.75% in its most aggressive hiking cycle since its formation. Other Central Banks across both developed and emerging markets also tightened policy aggressively, causing a significant repricing of yields higher across European and global fixed income markets, particularly during the first half of the financial year.

As hiking cycles ran their course, investors turned their attention to the conclusion of tightening cycles and potential rate cuts. Yields remained volatile but no longer as one directional as during the first half of the financial year. In particular, late Q1/early Q2 saw bouts of extreme volatility as the collapse of several mid-sized lenders in the US and the acquisition of Credit Suisse by UBS led to concerns over the health of the banking system on both sides of the Atlantic. These concerns have since moderated, but the direction of inflation, monetary policy, and hence global bond yields remains uncertain.

The subfund delivered an absolute negative performance over the financial year. From a rating perspective we maintained a preference for BBB rated bonds but reduced their extent. With regard to sectors maintained we continue to favor subordinated financials whilst remaining cautious on industrials. The option-adjusted duration of the subfund at the end of the financial year was lower than a year prior finishing at 4.4 years.

Historical performance is no indicator of current or future performance.
The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.
The subfund has no benchmark.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, US Treasury yields increased particularly as inflation reached multi-decade highs in the US and the Fed maintained a more hawkish monetary policy. Prior to the financial year, the Fed had mostly maintained rates at very low levels but began shifting to tighter monetary policy and increasing rates throughout the financial year to combat inflation. US Treasury yields increased sharply as a result reflecting expectations for tighter monetary policy. Credit spreads across most sectors including investment grade, high yield, and Asia high yield finished the period at higher levels. Asia investment grade spreads tightened over the period. Spread widening was in part driven by the volatility induced by a shift in monetary policy and higher interest rates and fundamental concerns in certain segments of the Asia credit market.

The subfund delivered a positive performance during the financial year. The impact of higher yields helped offset both the increase in US Treasury yields as well as a modest widening of credit spreads across the investment grade, high yield, and Asia credit sectors. The fund's relatively low duration helped insulate it from interest rate increases and volatility. The subfund has followed a diversified approach, investing across a range of sectors and regions with a fixed maturity approach with primary allocations to developed market investment grade, high yield and Asia credit. The option-adjusted duration of the sub-fund at the end of the financial year was lower than at the beginning of the period as underlying holdings moved closer to final maturity with the fund duration finishing the period at 0.6 years.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

The subfund has no benchmark.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, US Treasury yields increased particularly as inflation reached multi-decade highs in the US and the Fed maintained a more hawkish monetary policy. Prior to the financial year, the Fed had mostly maintained rates at very low levels but began shifting to tighter monetary policy and increasing rates throughout the financial year to combat inflation. US Treasury yields increased sharply as a result reflecting expectations for tighter monetary policy. Short-term interest rates also increased following the path of the Fed higher. The global high yield market experienced spread widening in part driven by elevated volatility from sharply higher interest rates and tighter monetary policy. Both US and Asia high yield spreads widened, while EUR high yield spreads widened only slightly over the financial year.

The subfund delivered a positive performance during the financial year. The floating rate nature of the strategy was a positive contributor as short-dated government bond yields moved sharply higher over the course of the financial year. Higher yields also benefited and were additive to the overall performance. On the negative side, global high yield spreads widened over the period which served as the primary detractor during the financial year. The subfund maintained a very low duration over the course of the financial year. The subfund follows a diversified approach investing across a number of industries and regions within the global high yield market.

¹ For the period from 13.8.2020 to 30.8.2021 the share class I-A3-acc was in circulation. Due to this fact, there is no data for the calculation of the performance available.

² The share class (CHF hedged) U-X-acc was in circulation until 18.10.2021. Due to this fact, there is no data for the calculation of the performance available.

³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, the Global corporate bond market delivered a negative performance. Yields across fixed income markets increased during the financial year as Central Banks embarked upon aggressive monetary tightening cycles designed to counteract rising inflation. In the US, the Federal Reserve raised the Fed Funds rate by 425bp to 5.00 – 5.25% in its most aggressive hiking cycle since the 1980s, sending yields on US Treasuries to decade-highs. Other Central Banks across both developed and emerging markets also tightened policy aggressively, causing a significant repricing of yields higher across global fixed income markets, particularly during the first half of the financial year.

As hiking cycles ran their course, investors turned their attention to the conclusion of tightening cycles and potential rate cuts. Yields remained volatile but no longer as one directional as during the first half of the financial year. In particular, late Q1/early Q2 saw bouts of extreme volatility as the collapse of several mid-sized lenders in the US and the acquisition of Credit Suisse by UBS led to concerns over the health of the banking system on both sides of the Atlantic. These concerns have since moderated, but the direction of inflation, monetary policy, and hence global bond yields remains uncertain.

The subfund delivered an absolute negative performance over the financial year. From a regional perspective we maintained a preference for euro over US dollar-denominated corporates and with regard to sectors we continue to favor subordinated financials whilst remaining cautious on industrials. The option-adjusted duration of the subfund at the end of the financial year was lower than a year prior finishing at 6.3 years.

¹ For the period from 2.7.2020 to 12.4.2022 the share class I-A2-acc was in circulation. Due to this fact, there is no data for the calculation of the performance available.

² Due to the recent launch, there is no data for the calculation of the performance available.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

The subfund has no benchmark.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, yields across fixed income markets increased as Central Banks embarked upon aggressive monetary tightening cycles designed to counteract rising inflation. In the US, the Federal Reserve raised the Fed Funds rate by 425bp to 5.00 – 5.25% in its most aggressive hiking cycle since the 1980s, sending yields on US Treasuries to decade-highs. Other Central Banks across both developed and emerging markets also tightened policy aggressively, causing a significant repricing of yields higher across global fixed income markets, particularly during the first half of the financial year. As hiking cycles ran their course, investors turned their attention to the conclusion of tightening cycles and potential rate cuts. Yields remained volatile but no longer as one directional as during the first half of the financial year. In particular, late Q1/early Q2 saw bouts of extreme volatility as the collapse of several mid-sized lenders in the US and the acquisition of Credit Suisse by UBS led to concerns over the health of the banking system on both sides of the Atlantic. These concerns have since moderated, but the direction of inflation, monetary policy, and hence global bond yields remains uncertain.

The subfund delivered a positive total performance over the financial year. Duration management was the key positive contributor during the period. Positioning the strategy close to the minimum of the permitted duration range at the beginning of the period as yields rose and adding duration towards the end of 2022 as yields peaked was the key positive driver. Within credit sectors, exposure to high yield Corporates, Securitized and Emerging Market Debt sectors was a detractor from total returns as spreads widened. The duration of the strategy is currently 4.6 years as we look to increase strategy duration at higher yields. We are long duration in markets where we think central banks are close to the end of their tightening cycle and markets that provide attractive risk-adjusted yields balanced with negative duration where yields are lower and have more room to rise or central banks haven't started tightening yet. We own a diversified basket of EM issuers with reasonably good fundamentals where we see attractive risk-adjusted carry, with limited default risk and defensive and selective allocations to investment grade and high yield corporates, while maintaining ample liquidity to take advantage of future dislocations.

² For the period from 9.2.2022 to 21.4.2022 the share class I-X-acc was in circulation. Due to this fact, there is no data for the calculation of the performance available.

³ The share class (EUR hedged) I-X-acc was in circulation until 2.11.2021. Due to this fact, there is no data for the calculation of the performance available in 2023.

⁴ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, yields across fixed income markets increased as Central Banks embarked upon aggressive monetary tightening cycles designed to counteract rising inflation. In the US, the Federal Reserve raised the Fed Funds rate by 425bp to 5.00 – 5.25% in its most aggressive hiking cycle since the 1980s, sending yields on US Treasuries to decade-highs. Other Central Banks across both developed and emerging markets also tightened policy aggressively, causing a significant repricing of yields higher across global fixed income markets, particularly during the first half of the financial year. As hiking cycles ran their course, investors turned their attention to the conclusion of tightening cycles and potential rate cuts. Yields remained volatile but no longer as one directional as during the first half of the financial year. In particular, late Q1/early Q2 saw bouts of extreme volatility as the collapse of several mid-sized lenders in the US and the acquisition of Credit Suisse by UBS led to concerns over the health of the banking system on both sides of the Atlantic. These concerns have since moderated, but the direction of inflation, monetary policy, and hence global bond yields remains uncertain.

The subfund delivered a negative total performance and versus the Bloomberg Global inflation linked 1-10 years (USD hedged) index over the financial year. Duration management was the key positive contributor during the period. Positioning the strategy underweight duration at the beginning of the period as yields rose and adding duration towards the end of 2022 as yields peaked was the key positive driver. Within sector management our off-benchmark exposure to credit sectors was a detractor from benchmark relative returns. We are strategically leaning towards a bullish duration view as we see a high probability that the monetary tightening cycle has entered its tail end. As a result we want to position the portfolio ahead. Economic fundamentals still remain supportive for investment grade bonds but monetary tightening and less liquidity support should lead to moderately wider credit spreads. We are therefore cautious on adding allocation to corporate credit sectors. In addition to holdings in agencies, supranationals and investment grade corporates, we see selective opportunities in highly rated emerging market sovereign and corporate bonds.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

The subfund has no benchmark.

Report of the Portfolio Manager

In the financial period, from 31 October 2022 to 31 May 2023, the global corporate bond market delivered a positive performance. Yields across fixed income markets increased during the financial period as Central Banks embarked upon aggressive monetary tightening cycles designed to counteract rising inflation. In the US, the Federal Reserve raised the Fed Funds rate to 5.00 – 5.25% in their most aggressive hiking cycle since the 1980s, sending yields on US Treasuries to decade-highs. Other Central Banks across both developed and emerging markets also tightened policy aggressively, causing a significant repricing of yields higher across global fixed income markets, particularly during the first half of the financial year. As hiking cycles ran their course, investors turned their attention to the conclusion of tightening cycles and potential rate cuts. Yields remained volatile but no longer as one directional into 2023. In particular, late Q1/early Q2 saw bouts of extreme volatility as the collapse of several mid-sized lenders in the US and the acquisition of Credit Suisse by UBS led to concerns over the health of the banking system on both sides of the Atlantic. These concerns have since moderated, but the direction of inflation, monetary policy, and hence global bond yields remains uncertain.

The subfund delivered an absolute positive performance from inception to end-October 2022. From a regional perspective, we prefer USD over EUR-denominated corporates and with regard to quality, our highest allocation is BBB-rated securities. The option-adjusted duration of the subfund at the end of the financial year was 2.7 years.

UBS (Lux) Bond SICAV – Global Short Term Flexible (USD)
Annual report and audited financial statements as of 31 May 2023

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, yields across fixed income markets increased as Central Banks embarked upon aggressive monetary tightening cycles designed to counteract rising inflation. In the US, the Federal Reserve raised the Fed Funds rate by 425bp to 5.00 – 5.25% in its most aggressive hiking cycle since the 1980s, sending yields on US Treasuries to decade-highs. Other Central Banks across both developed and emerging markets also tightened policy aggressively, causing a significant repricing of yields higher across global fixed income markets, particularly during the first half of the financial year. As hiking cycles ran their course, investors turned their attention to the conclusion of tightening cycles and potential rate cuts. Yields remained volatile but no longer as one directional as during the first half of the financial year. In particular, late Q1/early Q2 saw bouts of extreme volatility as the collapse of several mid-sized lenders in the US and the acquisition of Credit Suisse by UBS led to concerns over the health of the banking system on both sides of the Atlantic. These concerns have since moderated, but the direction of inflation, monetary policy, and hence global bond yields remains uncertain.

The subfund delivered a positive total performance in absolute terms but underperformed the Bloomberg Global Aggregate 1-3 years TR (USD hedged) index over the financial year. Duration management was the key positive contributor during the period. Positioning the strategy underweight duration at the beginning of the period as yields rose and adding duration towards the end of 2022 as yields peaked was the key positive driver. Within sector management our off-benchmark exposure to High Yield Corporates and Emerging Markets Debt was a detractor from benchmark relative returns. We are strategically leaning towards a bullish duration view as we see a high probability that the monetary tightening cycle has entered its tail end. As a result we want to position the portfolio ahead. Economic fundamentals still remain supportive for investment grade bonds but monetary tightening and less liquidity support should lead to moderately wider credit spreads. We are therefore cautious on adding allocation to corporate credit sectors. In addition to holdings in agencies, supranationals and investment grade corporates, we see selective opportunities in highly rated emerging market sovereign and corporate bonds.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, the Green Social Sustainable bond market delivered a negative performance. Yields across fixed income markets increased during the financial year as Central Banks embarked upon aggressive monetary tightening cycles designed to counteract rising inflation. In the US, the Federal Reserve raised the Fed Funds rate by 425bp to 5.00 – 5.25% in its most aggressive hiking cycle since the 1980s, sending yields on US Treasuries to decade-highs. Other Central Banks across both developed and emerging markets also tightened policy aggressively, causing a significant repricing of yields higher across global fixed income markets, particularly during the first half of the financial year.

As hiking cycles ran their course, investors turned their attention to the conclusion of tightening cycles and potential rate cuts. Yields remained volatile but no longer as one directional as during the first half of the financial year. In particular, late Q1/early Q2 saw bouts of extreme volatility as the collapse of several mid-sized lenders in the US and the acquisition of Credit Suisse by UBS led to concerns over the health of the banking system on both sides of the Atlantic. These concerns have since moderated, but the direction of inflation, monetary policy, and hence global bond yields remains uncertain.

The subfund delivered an absolute negative performance over the financial year. From a regional perspective we maintained a preference for euro over US dollar-denominated corporates. With regard to sectors we continue to favor utilities whilst remaining cautious on industrials. From a rating perspective we maintained a preference for BBB rated bonds but reduced their extent. The option-adjusted duration of the subfund at the end of the financial year was lower than a year prior finishing at 5.3 years.

Historical performance is no indicator of current or future performance.
The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.
The subfund has no benchmark.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, US Treasury yields increased particularly as inflation reached multi-decade highs in the US and the Fed maintained a more hawkish monetary policy. Prior to the financial year, the Fed had mostly maintained rates at very low levels but began shifting to tighter monetary policy and increased rates throughout the financial year to combat inflation. US Treasury yields increased sharply as a result reflecting expectations for tighter monetary policy. The US high yield market experienced spread widening in part driven by elevated volatility from sharply higher interest rates as well as tighter monetary policy.

The subfund delivered a positive performance during the financial year. The benefit from higher yields more than offset both the increase in short-dated US Treasury yields and the move wider in short-dated high yield credit spreads and detracted from the overall return during the period. The subfund's relatively low duration helped withstand rising rates and interest rate volatility. The subfund has followed a diversified approach investing across a range of industries and issuers with a focus on shorter-dated issues. Fund duration at the end of the period was 1.7 years slightly lower than a year prior. From a credit quality perspective the fund focused on higher-rated, sub-investment grade issuers (BB and B rated bonds) with opportunistic exposure to lower rated issuers.

¹ The share class (CHF hedged) U-X-acc was in circulation until 18.10.2021. Due to this fact, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

Over the financial year, from 1 June 2022 to 31 May 2023, the EUR corporate bond market delivered a negative performance. The financial year was characterized by significant higher risk-free yields at the short end of the euro curve and slightly wider corporate spreads over government. Given the high inflation numbers, the ECB started last summer to normalize its monetary policy by hiking interest rates from -0.5% to 3.25%.

The subfund produced a negative absolute performance over the past financial year given rising interest rates and wider credit spreads. Our sector management had a negative impact on relative performance. We have mainly had a slightly short duration stance, which had a positive impact on relative performance.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

² The share class U-X-acc was in circulation until 8.11.2021. Due to this fact, there is no data for the calculation of the performance available.

³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, the US corporate bond market delivered a positive performance.

Yields across fixed income markets increased during the financial year as Central Banks embarked upon aggressive monetary tightening cycles designed to counteract rising inflation. In the US, the Federal Reserve raised the Fed Funds rate by 425bp to 5.00 – 5.25% in its most aggressive hiking cycle since the 1980s, sending yields on US Treasuries to decade-highs. Other Central Banks across both developed and emerging markets also tightened policy aggressively, causing a significant repricing of yields higher across global fixed income markets, particularly during the first half of the financial year.

As hiking cycles ran their course, investors turned their attention to the conclusion of tightening cycles and potential rate cuts. Yields remained volatile but no longer as one directional as during the first half of the financial year. In particular, late Q1/early Q2 saw bouts of extreme volatility as the collapse of several mid-sized lenders in the US and the acquisition of Credit Suisse by UBS led to concerns over the health of the banking system on both sides of the Atlantic. These concerns have since moderated, but the direction of inflation, monetary policy, and hence global bond yields remains uncertain.

The subfund delivered an absolute positive performance over the financial year. The subfund follows a diversified approach, investing across a range of industries and issuers. From a rating perspective we maintained a cautious stance towards A and BBB rated bonds but have a preference for HY and AAA/AA. With regard to sectors we added exposure to financials and in particular subordinated bonds whilst remaining cautious on industrials. The option-adjusted duration of the subfund was broadly unchanged at 1.9 years.

¹ For the period from 19.1.2021 to 17.8.2021 the share class I-B-dist was in circulation. Due to this fact, there is no data for the calculation of the performance available.

² The share class U-X-acc was in circulation until 9.11.2021 - reactivated 28.2.2023. Due to this fact, there is no data for the calculation of the performance available.

³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, US Treasury yields increased particularly as inflation reached multi-decade highs in the US and the Fed maintained a more hawkish monetary policy. Prior to the financial year, the Fed had mostly maintained rates at very low levels but began shifting to tighter monetary policy and increasing rates throughout the financial year to combat inflation. US Treasury yields increased sharply as a result reflecting expectations for tighter monetary policy. The US investment grade corporate market experienced modest spread widening in part driven by elevated volatility from sharply higher interest rates as well as tighter monetary policy.

The subfund delivered a negative performance during the financial year. The increase in US Treasury yields was the primary driver of the return for the financial year. Modest spread widening was a slight detractor. The benefit of higher yields helped offset some of the negative performance from rising rates. The subfund has followed a diversified approach, investing across a range of industries and issuers in the investment grade corporate bond market. The option-adjusted duration of the subfund at the end of the financial year was lower than a year prior finishing at 7.1 years. Security selection added to relative performance for the subfund.

¹ The share class (EUR hedged) I-B-acc was in circulation until 14.11.2022. Due to this fact, there is no data for the calculation of the performance available.

² For the period from 22.9.2020 to 30.9.2021 the share class (ZAR hedged) P-mdist was in circulation. Due to this fact, there is no data for the calculation of the performance available.

³ The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, US Treasury yields increased particularly as inflation reached multi-decade highs in the US and the Fed maintained a more hawkish monetary policy. Prior to the financial year, the Fed had mostly maintained rates at very low levels but began shifting to tighter monetary policy and increased rates throughout the financial year to combat inflation. US Treasury yields increased sharply as a result reflecting expectations for tighter monetary policy. The US high yield market experienced spread widening in part driven by elevated volatility from sharply higher interest rates as well as tighter monetary policy. The US high yield market delivered negative total returns during the period as a result of the move higher in interest rates and the widening of US high yield credit spreads.

The subfund delivered a negative performance during the financial year. Both the increase in US Treasury yields and the move wider in high yield credit spreads detracted from the overall return during the period. Higher yields benefited and helped offset the effect from interest rates and credit spreads. The subfund has followed a diversified approach investing across a range of industries and issuers within the USD high yield market. Fund duration at the end of the period was 3.6 years, lower from a year prior.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

² The subfund is actively managed. The index is a point of reference against which the performance of the subfund may be measured.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares. The performance data were not audited.

Report of the Portfolio Manager

In the financial year, from 1 June 2022 to 31 May 2023, US Treasury yields increased particularly as inflation reached multi-decade highs in the US and the Fed maintained a more hawkish monetary policy. Prior to the financial year, the Fed had mostly maintained rates at very low levels but began shifting to tighter monetary policy and increasing rates throughout the financial year to combat inflation. US Treasury yields increased sharply as a result reflecting expectations for tighter monetary policy. The US investment grade corporate market experienced modest spread widening in part driven by elevated volatility from sharply higher interest rates as well as tighter monetary policy. The intermediate US investment grade corporate market delivered slightly positive total performance during the period as elevated yields helped offset the effect of higher rates and slightly wider credit spreads.

The subfund delivered a negative performance during the financial year across most share classes due to the deduction of fees as gross returns were close to flat. Both the increase in US Treasury yields and the move wider in investment grade corporate credit spreads detracted from the overall return during the period. Higher yields contributed and were additive to the overall performance. The subfund has followed a diversified approach, investing across a range of industries and issuers within the intermediate (1-10 year) portion of the investment grade corporate bond market. The option-adjusted duration of the subfund at the end of the financial year was lower than a year prior finishing at 4.1 years.

Notes to the Financial Statements

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the Net Asset Value

The net asset value and the issue, redemption and conversion price per share of each subfund or share class are expressed in the reference currency of the subfund or share class concerned and are calculated every business day by dividing the overall net assets of the subfund attributable to each share class by the number of shares in circulation in this share class of the subfund.

A “business day” is a normal bank business day in Luxembourg (i.e. a day when the banks are open during normal business hours), except for 24 and 31 December; individual, non-statutory days of rest in Luxembourg; and days on which stock exchanges in the main countries in which the respective subfund invests are closed, or on which 50% or more of the investments of the subfund cannot be adequately valued.

“Non-statutory days of rest” are days on which banks and financial institutions are closed. Furthermore, for the subfund UBS (Lux) Bond SICAV – China Fixed Income (RMB), days on which the stock exchanges in the People’s Republic of China or Hong Kong are closed are not deemed business days for this subfund.

The percentage of the net asset value attributable to each share class of a subfund changes each time shares are issued or redeemed. It is determined by the ratio of the shares in circulation in each share class to the total number of subfund shares in circulation, taking into account the fees charged to that share class.

b) Valuation principles

- Liquid funds – whether in the form of cash, bank deposits, bills of exchange and sight securities and receivables, prepaid expenses, cash dividends and declared or accrued interest that has not yet been received – are valued at their full value unless it is unlikely that this value will be fully paid or received, in which case their value is determined by taking into consideration a deduction that seems appropriate in order to portray their true value.
- Securities, derivatives and other investments listed on a stock exchange are valued at the last known market prices. If these securities, derivatives or other

assets are listed on several stock exchanges, the last available price on the stock exchange that represents the major market for this investment will apply.

In the case of securities, derivatives and other assets not commonly traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Company may value these securities and investments based on these prices.

Securities, derivatives and other investments not listed on a stock exchange but which are traded on another regulated market which operates regularly and is recognised and open to the public are valued at the last available price on this market.

- Securities and other investments that are not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Company according to other principles chosen by it in good faith on the basis of the likely sales prices.
- Derivatives not listed at a stock exchange (OTC-derivatives) are valued on the basis of independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valuation price obtained will be verified by means calculation methods recognised by the Company, based on the market value of the underlying instrument from which the derivative is originates.
- Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCI) are valued at their last-known net asset value. Certain units or shares of other UCITS and/or UCI can be valued on the basis of an estimation of their value that has been provided by reliable service providers, which are independent from the portfolio manager or the investment advisor (value estimation).
- Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. The valuation based on the curves refers to the interest rate and credit spread components. The following principles are applied in this process: for each money market instrument, the interest rates nearest the residual maturity are interpolated. The interest rate calculated in this way is converted into a market price by adding a credit spread that reflects the underlying borrower.
- Securities, money market instruments, derivatives and other assets denominated in a currency other than the reference currency of the relevant subfund and not hedged by foreign-exchange transactions, are valued at the middle-market rate of exchange

(midway between the bid and offer rate) known in Luxembourg or, if not available, on the most representative market for this currency.

- Fixed-term deposits and fiduciary investments are valued at their nominal value plus accumulated interest.
- The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations (based on models and market data made available by Bloomberg), and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the applicable UBS Valuation Policy.

The Company is authorised to apply other generally recognised and verifiable valuation criteria in order to achieve an appropriate valuation of the net assets if, due to extraordinary circumstances, a valuation in accordance with the aforementioned regulations proves to be unfeasible or inaccurate.

In extraordinary circumstances, additional valuations can be carried out over the course of the day. These new valuations will then be authoritative for subsequent issues and redemptions of shares.

Due to fees and charges as well as the buy-sell spread for the underlying investments, the actual costs of buying and selling assets and investments for a subfund may differ from the last available price or, if applicable, the net asset value used to calculate the net asset value per share. These costs have a negative effect on the value of a subfund and are termed "dilution". To reduce the effects of dilution, the Board of Directors may at its own discretion make a dilution adjustment to the net asset value per share.

Shares are generally issued and redeemed based on a single price: the net asset value. To reduce the effects of dilution, the net asset value per share is nevertheless adjusted on valuation days as described below; this takes place irrespective of whether the subfund is in a net subscription or net redemption position on the relevant valuation day. If no trading is taking place in any subfund or class of a subfund on a particular valuation day, the unadjusted net asset value per share is applied. The circumstances in which such a dilution adjustment takes place are determined at the discretion of the Board of Directors. The requirement to carry out a dilution adjustment generally depends on the scale of subscriptions or redemptions of shares in the relevant subfund. The Board of Directors may carry out a dilution adjustment if, in its view, the existing shareholders (in the case of subscriptions) or remaining shareholders (in the case of redemptions) could be put at a disadvantage. The dilution adjustment may take place if:

- a subfund records a steady fall (i.e. a net outflow due to redemptions);
- a subfund records a considerable volume of net subscriptions relative to its size;
- a subfund shows a net subscription or net redemption position on a particular valuation day; or
- In all other cases in which the Board of Directors believes a dilution adjustment is necessary in the interests of the shareholders.

When a valuation adjustment is made, a value is added to or deducted from the net asset value per share depending on whether the subfund is in a net subscription or net redemption position; the extent of the valuation adjustment shall, in the opinion of the Board of Directors, adequately cover the fees and charges as well as the spreads of buy and sell prices. In particular, the net asset value of the respective subfund will be adjusted (upwards or downwards) by an amount that (i) reflects the estimated tax expenses, (ii) the trading costs that may be incurred by the subfund, and (iii) the estimated bid-ask spread for the assets in which the subfund invests. As some equity markets and countries may show different fee structures on the buyer and seller side, the adjustment for net inflows and outflows may vary. The adjustments are generally limited to a maximum of 2% of the prevailing net asset value per share at the time. The Board of Directors may decide to temporarily apply a dilution adjustment of more than 2% of the prevailing net asset value per share at the time in respect of any subfund and/or valuation date in exceptional circumstances (e.g. high market volatility and/or liquidity, exceptional market conditions, market disruption, etc.), provided the Board of Directors can justify that this is representative of the prevailing market conditions and that it is in the best interest of the shareholders. This dilution adjustment will be calculated in accordance with the method determined by the Board of Directors. Shareholders will be informed via the usual communication channels when the temporary measures are introduced and when they end.

The net asset value of each class of the subfund is calculated separately. However, dilution adjustments affect the net asset value of each class to the same degree in percentage terms. The dilution adjustment is made at subfund level and relates to capital activity, but not to the specific circumstances of each individual investor transaction.

For all subfunds the Swing Pricing methodology is applied.

If there were Swing Pricing adjustments to the net asset value at the end of the financial year, this can be seen from the three year comparison of the net asset value information of the subfunds. The issue and redemption price per share represents the adjusted net asset value.

c) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

d) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

e) Valuation on options

Outstanding options traded on a regulated market are valued on the settlement price or the last available market price of the instruments. Options which are not listed on an official stock exchange (OTC options) are marked to market based upon daily prices obtained from Bloomberg option pricer functionality and checked against third party pricing agents. The realized gains or losses on options and the change in unrealized appreciation or depreciation on options are disclosed in the statement of operations and in the changes in net assets respectively under the positions realized gains (losses) on options and Unrealized appreciation (depreciation) on options.

Options are included in the investments in securities.

f) Fair Value pricing principle

The fair value pricing principle applies for funds with main investments in Asian markets. The fair value principle takes into account important movements not reflected in the last available Exchange closing prices, by reevaluating all underlying assets of the Fund portfolio with snapshot prices at a specified time. The net asset value is then calculated based on these re-evaluated prices. The fair value principle is applicable only in case the deviation of a Fund specific benchmark exceeds 3%.

g) Net realized gains (losses) on sales of securities

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

h) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate on the day of acquisition.

i) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction day.

j) Combined financial statements

The combined financial statements are expressed in USD. The various items of the combined statement of net assets and the combined statement of operations at 31 May 2023 of the investment company are equal to the sum of the corresponding items in the financial statements of each subfund converted into USD at the following exchange rates.

The following exchange rates were used for the conversion of the combined financial statements as of 31 May 2023:

Exchange rates		
USD 1 =	CNY	7.104400
USD 1 =	EUR	0.937998

For the liquidated or merged subfunds, the exchange rate used for the conversion of the combined financial statements is the one as at liquidation or merger date.

k) "Mortgage-backed securities"

The Company, in accordance with its investment policies, may invest in "mortgage-backed securities". A "mortgage-backed security" is a participation in a pool of residential mortgages which is consolidated into the form of securities. The principal and interest payments on the underlying mortgages are passed through to the holders of the "mortgage-backed security" of which the principle reduces the cost basis of the security. The payment of principal and interest may be guaranteed by quasi-governmental agencies of the United States. A gain or loss is calculated on each paydown associated with each payment of principal. This gain or loss has been included in "Net realized gain or loss on sales of securities" in the statement of operations. In addition, prepayments of the underlying mortgages may shorten the life of the security, thereby affecting the Company's expected yield.

l) Receivable on securities sales,

Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

m) Swaps

The Company may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

Changes in unrealized profits and losses are reflected in the statement of operations under the changes in "Unrealized appreciation (depreciation) on swaps".

Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on swaps" in the statement of operations.

n) Cross-subfunds investments

As per 31 May 2023 the subfunds of UBS (Lux) Bond SICAV – Asian High Yield (USD), UBS (Lux) Bond SICAV – Emerging Economies Corporates (USD), UBS (Lux) Bond SICAV – Emerging Economies Local Currency Bond (USD), UBS (Lux) Bond SICAV – Floating Rate Income (USD), UBS (Lux) Bond SICAV – Global Dynamic (USD), UBS (Lux) Bond SICAV – Global Inflation-linked (USD), UBS (Lux) Bond SICAV – Global Short Term Flexible (USD), UBS (Lux) Bond SICAV – USD Corporates (USD) and UBS (Lux) Bond SICAV – USD Investment Grade Corporates Sustainable (USD) had the following investments in other subfunds of UBS (Lux) Bond SICAV:

The Company pays a maximum monthly flat fee for share classes "P", "K-1", "F", "Q", "QL", "I-A1", "I-A2", "I-A3" and "I-A4" calculated on the average net asset value of the subfunds.

Out of the aforementioned flat fee the following fees are paid:

1. For the management, administration, portfolio management and distribution of the Company (if applicable), as well as for all the tasks of the Depositary, such as the safekeeping and supervision of the Company's assets, the handling of payment transactions and all other tasks listed in the section "Depositary and main paying agent" of the sales prospectus, a maximum flat fee based on the net asset value of the Company is paid from the Company's assets, in accordance with the following provisions: This fee is charged to the Company's assets on a pro rata basis upon every calculation of the net asset value and is paid on a monthly basis (maximum flat fee).

This fee is shown in the Statement of Operations as "Flat fee".

The relevant maximum flat fee will not be charged until the corresponding share classes have been launched. An overview of the maximum flat fees can be seen in the section "The subfunds and their special investment policies" of the sales prospectus.

2. The maximum flat fee does not include the following fees and additional expenses which are also charged to the Company:

- a) all additional expenses related to management of the Company's assets for the sale and purchase of assets (bid/offer spread, brokerage fees in line with the market, commissions, fees, etc.). These expenses are generally calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of shares, are covered by the application of the Swing Pricing pursuant to the section entitled "Net asset value, issue, redemption and conversion price" of the sales prospectus;
- b) fees of the supervisory authority for the establishment, modification, liquidation and merger of the Company, as well as all fees of the supervisory authorities and any stock exchanges on which the subfunds are listed;
- c) auditor's fees for the annual audit and certification in connection with the establishment, modification, liquidation and merger of the Company, as well as any other fees paid to the auditor for the services it provides in relation to the administration of the Fund and as permissible by law;

- d) fees for legal and tax advisers, as well as notaries, in connection with the establishment, registration in distribution countries, modification, liquidation and merger of the Company, as well as for the general safeguarding of the interests of the Company and its investors, insofar as this is not expressly prohibited by law;
- e) costs for the publication of the Company's net asset value and all costs for notices to investors, including translation costs;
- f) costs for the Company's legal documents (prospectuses, KID, annual and semi-annual reports, as well as all other documents legally required in the countries of domiciliation and distribution);
- g) costs for the Company's registration with any foreign supervisory authorities, if applicable, including fees, translation costs and fees for the foreign representative or paying agent;
- h) expenses incurred through use of voting or creditors' rights by the Company, including fees for external advisers;
- i) costs and fees related to any intellectual property registered in the Company's name or usufructuary rights of the Company;
- j) all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary for protecting the interests of the investors;
- k) if the Management Company participates in class-action suits in the interests of investors, it may charge the Company's assets for the expenses arising in connection with third parties (e.g. legal and Depositary costs). Furthermore, the Management Company may charge for all administrative costs, provided these are verifiable and disclosed, and taken into account in the disclosure of the Company's total expense ratio (TER);
- l) Fees, costs and expenses payable to the directors of the Company (including reasonable out-of-pocket expenses, insurance coverage and reasonable travel expenses in connection with meetings of the Board and remuneration of directors).

These commissions and fees are shown in the Statement of Operations as "Other commissions and fees".

3. The Management Company may pay retrocessions in order to cover the distribution activities of the Company.

All taxes levied on the income and assets of the Company, particularly the *taxe d'abonnement*, will also be borne by the Company.

For purposes of general comparability with fee rules of different fund providers that do not have a flat fee, the term "maximum management fee" is set at 80% of the flat fee.

For share class “I-B”, a fee is charged to cover the costs of fund administration (comprising the costs of the Company, the administrative agent and the Depositary). The costs for asset management and distribution are charged outside of the Company under a separate contract concluded directly between the investor and UBS Asset Management Switzerland AG or one of its authorised representatives.

Costs relating to the services performed for share classes I-X, K-X and U-X for asset management, fund administration (comprising the costs of the Company, the administrative agent and the Depositary) and distribution are covered by the compensation to which UBS Asset Management Switzerland AG is entitled to under a separate contract with the investor.

Costs relating to the services to be performed for share classes “K-B” for asset management purposes are covered by the compensation to which UBS Asset Management Switzerland AG or one of its authorised distribution partners is entitled under a separate contract with the investor.

All costs which can be allocated to individual subfunds will be charged to these subfunds.

Costs which can be allocated to share classes will be charged to these share classes. If costs pertain to several or all subfunds/share classes, however, these costs will be charged to the subfunds/share classes concerned in proportion to their relative net asset values.

In the subfunds that may invest in other UCI or UCITS under the terms of their investment policies, fees may be incurred both at the level of the subfund as well as at the level of the relevant target fund. The upper limit for management fees of target funds in which the assets of the subfunds are invested amounts to a maximum of 3%, taking into account any trail fees.

In the case of investments in units of funds managed directly or indirectly by the Management Company or another company related to it by common management or control, or by a substantial direct or indirect holding, the subfund making the investment may not be charged with any of the target fund’s issue or redemption commissions.

Details on the ongoing charges of the Company can be found in the KID.

Note 3 – Taxe d’abonnement

In accordance with the law and the regulations currently in force, the Company is subject in Luxembourg to the subscription tax at the annual rate of 0.05% or a reduced tax d’abonnement amounting to 0.01% p.a. for some share classes, payable quarterly and calculated

on the basis of the net assets of the Company at the end of each quarter.

The tax d’abonnement is waived for that part of the net assets invested in units or shares of other undertakings for collective investment that have already paid the tax d’abonnement in accordance with the statutory provisions of Luxembourg law.

Note 4 – Other income

Other income mainly consist of income resulting from Swing Pricing.

Note 5 – Income Distribution

The general meeting of shareholders of the respective subfunds shall decide, at the proposal of the Board of Directors and after closing the annual accounts per subfund, whether and to what extent distributions are to be paid out by each subfund or share class. The payment of distributions must not result in the net assets of the Company falling below the minimum amount of assets prescribed by law. If a distribution is made, payment will be effected no later than four months after the end of the financial year.

The Board of Directors is authorized to pay interim dividends and to suspend the payment of distributions.

Note 6 – Commitments on Financial Futures, Options and Swaps

Commitments on Financial Futures, Options and Swaps subfund and respective currency as of 31 May 2023 can be summarised as follows:

a) Financial Futures

– Short Duration High Yield Sustainable (USD)	- USD	6 926 020.15 USD
– USD High Yield (USD)	- USD	39 270 716.93 USD

Note 7 – Soft commission arrangements

If permitted by the laws governing the Portfolio Manager, the Portfolio Manager and its affiliates may enter into soft commission arrangements with certain brokers which they engage in security transactions on behalf of the subfunds under which certain goods and services used to support

investment decision making will be received without a direct payment in return. Such commissions are defined as soft dollars by the Hong Kong Securities and Futures Commission. This is only done when the transaction execution is consistent with the best execution standards, and it has been determined in good faith that the brokerage fee is reasonable in relation to the value of the execution and/or brokerage services provided by the broker.

Goods and services received solely included research services. The relative costs or benefits of research received from brokers are not allocated among particular clients or funds because it is believed that the research received is, in the aggregate, of assistance in fulfilling the Portfolio Manager and its affiliates' overall responsibilities to their clients or funds they manage. During the year from 1 June 2022 to 31 May 2023 there were no transactions executed with brokers having soft commission arrangements in place and therefore no related commissions have been paid by the subfunds for these transactions.

Note 8 – Total Expense Ratio (TER)

This ratio was calculated in accordance with the Asset Management Association Switzerland (AMAS) / Swiss Funds & Asset Management Association (SFAMA) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

TER for the last 12 months:

The effective flat fee may change during the reporting period (see note 2).

The TER for classes of shares which were active less than a 12 month period are annualised.

Transaction costs, interest costs, securities lending costs and any other costs incurred in connection with currency hedging are not included in the TER.

Note 9 – Portfolio Turnover Rate (PTR)

The portfolio turnover has been calculated as follows:

$$\frac{\text{(Total purchases + total sales) – (total subscriptions + total redemptions)}}{\text{Average of net assets during the period under review}}$$

The portfolio turnover statistics are the following for the period under review:

UBS (Lux) Bond SICAV	Portfolio Turnover Rate (PTR)
– 2023 (USD)	26.77%

¹ liquidated on 13 December 2022

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs will be included in the purchase and sale price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each Fund.

Note 11 – Related party transactions

Connected persons in the context of this note are those defined in the SFC Code on Unit Trusts and Mutual Funds. All transactions entered into during the year between the subfunds and its connected persons were carried out in the normal course of business and on normal commercial terms.

a) Transactions on securities and derivative financial instruments

The volume of securities and derivative financial instruments undertaken via a broker that is an affiliate of the Management Company (except options), the Portfolio Manager, the Depositary or the Board of Directors for the financial year from 1 June 2022 to 31 May 2023 for the following subfunds licensed for sale in Hong Kong is:

UBS (Lux) Bond SICAV	Volume of transactions in Securities and derivative financial instruments with related parties	As a % of the total of security transactions
– Asian High Yield (USD)	3 039 232 908.76 USD	38.59%
– Asian Investment Grade Bonds Sustainable (USD)	345 493 922.47 USD	66.26%
– China Fixed Income (RMB)	0.00 CNY	0.00%
– USD High Yield (USD)	327 440 452.16 USD	13.65%

UBS (Lux) Bond SICAV	Commissions on transactions in Securities and derivative financial instruments with related parties	Average rate of commission
– Asian High Yield (USD)	25 464.65 USD	0.00%
– Asian Investment Grade Bonds Sustainable (USD)	3 330.26 USD	0.00%
– China Fixed Income (RMB)	0.00 CNY	0.00%
– USD High Yield (USD)	3 588.20 USD	0.00%

As disclosed in Note 10 – Transaction Costs, the transaction costs for fixed-income investments, exchange traded futures contracts and other derivative contracts are included in the purchase and sale price of the investment and are therefore not listed individually here.

UBS (Lux) Bond SICAV	Volume of transactions in other securities (except equities, equity-like securities and derivative financial instruments) with related parties	As a % of the total of security transactions
– Asian High Yield (USD)	95 706 882.56 USD	1.22%
– Asian Investment Grade Bonds Sustainable (USD)	2 597 650.00 USD	0.50%
– China Fixed Income (RMB)	0.00 CNY	0.00%
– USD High Yield (USD)	0.00 USD	0.00%

According to normal Market practice, no commissions have been charged to the Company on transactions on “other securities (except equities and equity-like securities)” with related parties.

Such transactions were entered in the ordinary course of business and on normal commercial terms.

For the conversion of the volume of transactions with related parties into subfund currency, the exchange rates of the financial statements as of 31 May 2023 were used.

b) Transactions in Shares of the Company

Connected persons may invest in a new subfund / share-class for the purpose of providing seed capital (“Direct Investment”), with the intent of remaining invested until the subfund / shareclass has substantial net assets. Such investments are at arm’s length and comply with all late trading / market timing prevention requirements. No connected person may invest for the purpose of exercising management or control over any Fund or the Company.

As of 31 May 2023, the Management Company and its affiliates / persons had not contributed any seed capital to the subfunds / share classes registered in Hong Kong.

UBS (Lux) Bond SICAV
Annual report and audited financial statements as of 31 May 2023

UBS (Lux) Bond SICAV	Share class	Market value	% Net fund assets
– Asian Investment Grade Bonds Sustainable (USD)	P-acc	9 039.00	0.01%

c) Holding of the Directors

The Management Company and its connected persons are allowed to subscribe for, and redeem, shares in the subfunds.

The Directors of the Management Company and the Directors of the Company had no holdings in the subfunds licensed for sale in Hong Kong as at 31 May 2023.

Note 12 – Liquidation

The subfund UBS (Lux) Bond SICAV – Multi Income (USD) was liquidated as at 13 December 2022.

Remaining cash as of 31 May 2023: 4 988.71 USD

Note 13 – Defaulted securities

There are a number of bonds that - at the year-end – are in default, hence they are not paying the coupon/principal as specified in the offering documents. For these bonds pricing quotes exist, a final payment is expected and they are disclosed in the portfolio. Furthermore, there are bonds that have defaulted in the past where no pricing quotes exists and no final payment is expected. These bonds have been fully written off by the fund. They are monitored by the management company that will allocate any return that might still arise from these bonds to the subfunds. They are not shown within the portfolio but separately in this note.

Regarding UBS (Lux) Bond SICAV – Convert Global (EUR), the following bond “NMC HEALTH JERSEY LTD-REG-S *DEFAULTED* 1.87500% 18-30.04.25” (nominal: 35 800 00.00) defaulted and has been converted into a loan displayed in the portfolio of the financial statements under the following “NMC HEALTH JERSEY LTD-REG-S 1.87500% 18-30.04.25” (nominal: 9 348 347.38).

Note 14 – Subsequent event

The end of term for the subfund UBS (Lux) Bond SICAV – 2023 (USD) is 21 November 2023.

Note 15 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the shareholders, the Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Company and/or the Depositary can elect to make themselves subject to the jurisdiction of the countries in which Company shares were bought and sold.

The English version of these financial statements is the authoritative version and only the English version was audited by the auditors. However, in the case of shares sold to investors from the other countries in which Company shares can be bought and sold, the Company and the Depositary may recognize approved translations (i.e. approved by the Company and the depositary) into the languages concerned as binding upon themselves and the Company.

Note 16 – OTC-Derivatives and Securities Lending

If the Company enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Company enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Company is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Company. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepository/correspondent bank network may result in the rights or recognition of the Company in connection with the security to be delayed, restricted or even eliminated, which would force the Company to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Company may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch acts as securities lending agent.

OTC-Derivatives*

The OTC-derivatives of the below subfunds with no collateral have margin accounts instead.

¹ liquidated on 13 December 2022

Appendix 1 – Global Exposure (unaudited)

Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is applied pursuant to the applicable laws and regulatory provisions.

Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

Appendix 3 – Securities Financing Transaction Regulation (SFTR) (unaudited)

a) The Company engages in Securities Financing Transactions (hereafter “SFT”) (as defined in Article 3 of Regulation (EU) 2015/2365). Securities Financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions through its exposure on reverse repurchase agreements during the year. In accordance with Article 13 of the Regulation, information on securities lendings are detailed below:

Global Data

The following table details the value of securities lending as a proportion of the subfund’s Net Asset Value as well as a proportion of the total lendable securities, as at 31 May 2023.

UBS (Lux) Bond SICAV	Securities lent in % of Net Assets	Securities lent in % of Total Lendable Securities
– 2023 (USD)	6.35%	8.53%
– 2024 (USD)	18.64%	18.75%
– 2025 I (EUR)	12.62%	12.52%
– 2025 I (USD)	8.51%	8.59%
– Asian High Yield (USD)	19.50%	21.17%
– Asian Investment Grade Bonds Sustainable (USD)	29.05%	30.54%
– China High Yield (USD)	31.15%	33.27%
– Emerging Economies Corporates (USD)	32.28%	35.00%
– Emerging Economies Local Currency Bond (USD)	1.30%	1.34%
– EUR Corporates Sustainable (EUR)	22.94%	24.87%
– Fixed Maturity Series 1 (USD)	3.06%	3.17%
– Floating Rate Income (USD)	14.14%	14.97%
– Global Corporates (USD)	13.35%	13.92%

Appendix 3 – Securities Financing Transaction Regulation (SFTR) (unaudited)

Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depositary.

Service providers that provide securities lending services to the Company have the right to receive a fee in line with market standards in return for their services. The amount of this fee is reviewed and adapted, where appropriate, on an annual basis. Currently, 60% of the gross revenue received in the context of securities lending transactions negotiated at arm's lengths is credited to the relevant subfund, while 40% of the gross revenue are retained as costs/fees by UBS Europe SE, Luxembourg Branch acting as securities lending agent and UBS Switzerland AG providing securities lending services. All costs/fees of running the securities lending programme are paid from the securities lending agents' portion of the gross income. This includes all direct and indirect costs/fees generated by the securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.

Appendix 4 – Remuneration Policy (unaudited)

The Board of Directors of UBS Fund Management (Luxembourg) S.A. (the “Management Company” or the “AIFM”) has adopted a remuneration framework (the “Framework”) whose objectives are on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under:

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the “UCITS Law”) transposing the UCITS Directive 2009/65/EC (the “UCITS Directive”) as amended by Directive 2014/91/EU (the “UCITS V Directive”);
- (ii) the Alternative Investment Fund Managers Directive (“AIFMD”) 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA’s guidelines on sound remuneration policies under the UCITS Directive - ESMA/2016/575 and ESMA’s guidelines on sound remuneration policies under the AIFMD - ESMA/2016/579 both published on 14 October 2016;
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EC of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) Regulation (EU) 2019/2088 of the European parliament and of the council of 27 November 2019 on sustainability-related disclosures in the financial services sector (“SFDR”);
- (viii) the CSSF Circular 14/585, transposing the ESMA Guidelines 2013/606 on remuneration policies and practices (MiFID ESMA Guidelines).

and on the other hand, to comply with the UBS Group AG (the “UBS Group”) Total Reward Principles.

The Framework is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Framework of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at <https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html>.

The Framework is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/the AIFM. Last approval by the Board of Directors took place on 23 September 2022. The changes made to the Framework relate to the extension of the Management Company/the AIFM license to cover non-core services investment advice and reception and transmission of orders in relation to financial instruments.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration framework and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

Appendix 4 – Remuneration Policy (unaudited)

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

Remuneration of Management Company/AIFM staff

The aggregate amounts of total remuneration, split into fixed and variable, paid by the Management Company/the AIFM to its staff and its Identified Staff during the financial year ended as at 31 December 2022 are as follows:

EUR 1 000	Fixed remuneration	Variable remuneration	Total remuneration	No of beneficiaries
All staff	10 669	1 787	12 456	100
- whereof Identified Staff	4 644	985	5 629	33
- thereof Senior Management*	2 341	714	3 055	11
- thereof Other Identified Staff	2 303	271	2 574	22

* Senior Management includes the CEO, the Conducting Officers, the Head of Compliance and the Independent Director.

Remuneration of delegates staff

As market or regulatory practice develops UBS Asset Management may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBS fund disclosures in that same year.

For the year ending 31 December 2022, the aggregate total remuneration paid by the delegated Investment Manager to its Identified Staff in relation to the Fund amounted to EUR 2 449 168 of which EUR 1 732 831 represented the variable remuneration (9 beneficiaries).

* The investments underlying this subfund do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Taxonomy).

The investment process integrates material sustainability and/or Environmental, Social and Governance (ESG) considerations. ESG integration is driven by taking into account material ESG risks, which could impact investment returns, and implementing ESG strategies that enhance returns rather than being driven by specific ethical principles or norms. The analysis of material sustainability/ESG considerations can include many different aspects, for example; the carbon footprint, reducing consumption and waste, employee [and/or tenant] health and well-being, supply chain management, fair customer treatment and governance processes of a company. The Portfolio Manager may still make investments with a higher ESG risk profile where the Portfolio Manager believes the potential compensation and ability to mitigate outweighs the risks identified. Therefore, ESG Integrated Funds do not have a sustainable focus as the primary objective, but they are investment funds that primarily aim at maximizing financial performance whereby ESG aspects are an important factor incorporated into the investment process and ongoing asset management.

The subfund does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (SFDR Art. 7).

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Bond SICAV – Asian High Yield (USD)
Legal entity identifier: 5493003OFW5AUJYPQN78

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristic is promoted by the financial product:

A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in issuers with sustainability profiles in the top half of the UBS ESG Consensus score scale.

The extent to which the environmental and/or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

During the reference period, the UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 4.89
- UBS consensus score of the benchmark: 4.68

40.99% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

----- How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

----- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

What were the top investments of this financial product?

Largest Investments	Sector	% Net Assets*	Country
United States Treasury Bill	Countries & Central Government	4.32	United States of America
Industrial & Commercial Bank of China Ltd	Banks & credit institutions	3.64	China
Sri Lanka Government International Bond	Countries & Central Government	2.94	Sri Lanka

* Minor differences with “Statement of Investments in Securities” might occur due to rounding in production system

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

What was the proportion of sustainability-related investments?

Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Asset allocation

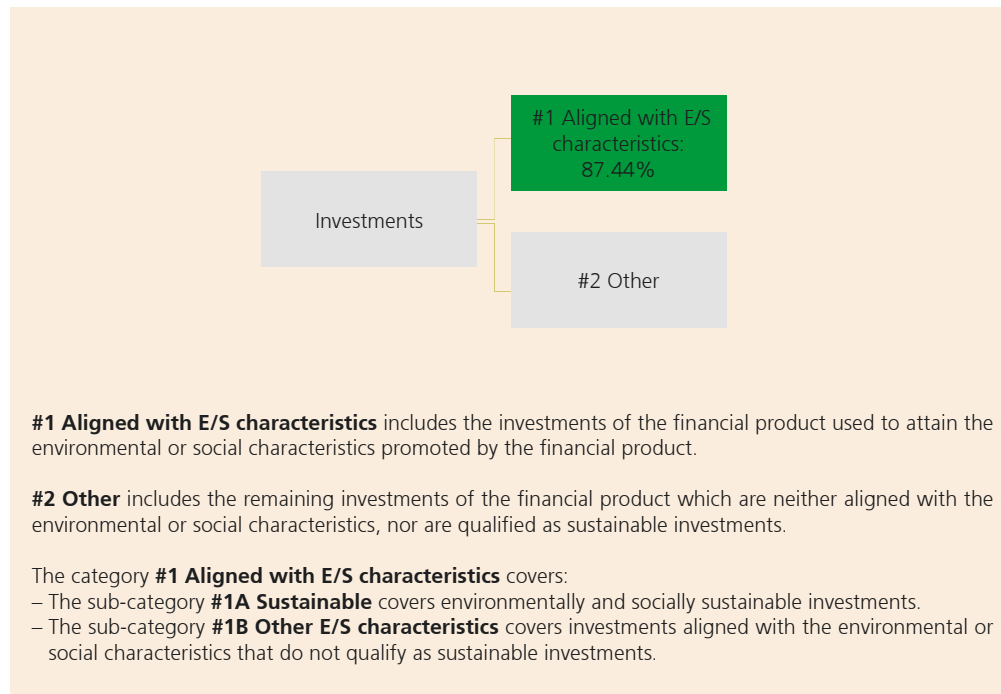

describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the asset allocation?

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

● **What was the share of socially sustainable investments?**

Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Bond SICAV – Asian Investment Grade Bonds Sustainable (USD)
Legal entity identifier: 549300SZWE50SJLLTL56

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 21.72% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.

The extent to which the environmental and/or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

During the reference period, the UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 5.47
- UBS consensus score of the benchmark: 4.75

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 183.66 tonnes CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 435.96 tonnes CO₂ per million dollars revenues.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

┆---- How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

┆---- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Asset allocation describes the share of investments in specific assets.

● What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 21.72%.

● What was the asset allocation?

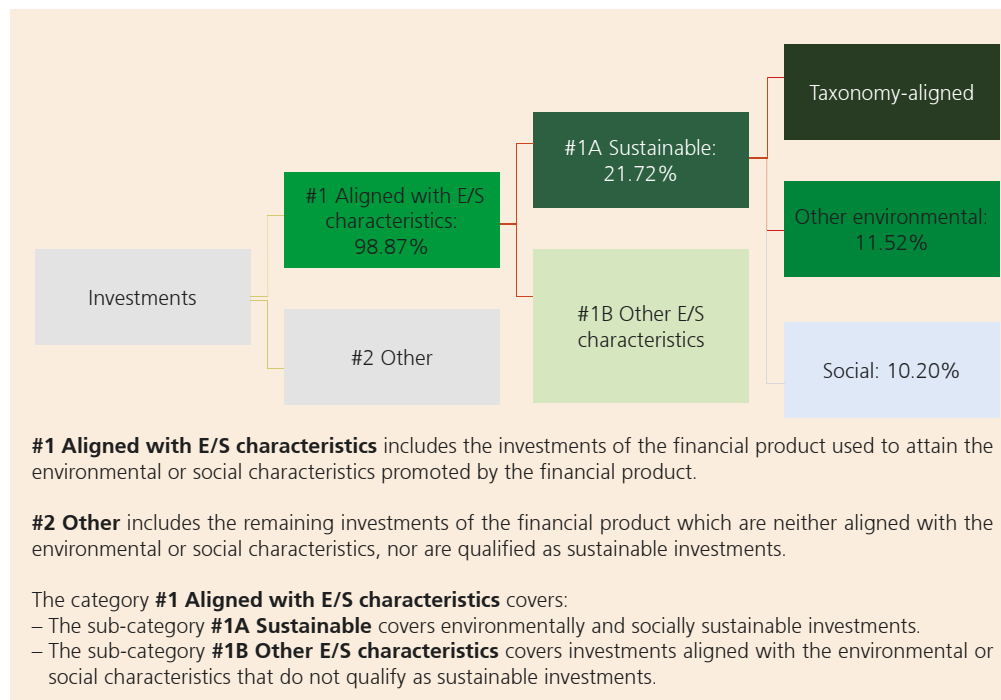

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The financial product invests in economic activities which are environmentally sustainable but not EU Taxonomy aligned, this is due to the absence of the required implementing legislation and in particular the absence of the necessary taxonomy-related data provided by the investee companies and of a well-defined calculation methodology. The financial product targets a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy greater than 0%.

● **What was the share of socially sustainable investments?**

The financial product targets a minimum share of socially sustainable investments greater than 0%.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Bond SICAV – Convert Global (EUR)
Legal entity identifier: 5493008BX00T3X4QQV05

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 12 October 2022 onwards, the following characteristics were promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of the subfund invested in companies with sustainability profiles in the top half of the subfund's investment universe (ranked by the UBS ESG consensus score).
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

From 12 October 2022 onwards, characteristic 1:

- The UBS ESG consensus score of the financial product was higher than that of its benchmark.
 - UBS consensus score of the financial product: 5.80
 - UBS consensus score of the benchmark: 5.44
- 67.08% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

From 12 October 2022 onwards, characteristic 2:

- The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.
 - Weighted Average Carbon Intensity (WACI) of the financial product: 156.75 tonnes CO₂ per million dollars revenues.
 - Weighted Average Carbon Intensity (WACI) of the benchmark: 208.12 tonnes CO₂ per million dollars revenues.

Not a low absolute carbon profile, as a low absolute carbon profile is defined as below 142.71 tonnes of CO₂ emissions per million US dollars of revenues.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

----- How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

----- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

┆---- How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

┆---- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Companies violating the United Nations Global Compact (UNGC) principles, which do not demonstrate credible corrective action will be excluded from the investment universe.

Asset allocation describes the share of investments in specific assets.

● What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 45.65%.

● What was the asset allocation?

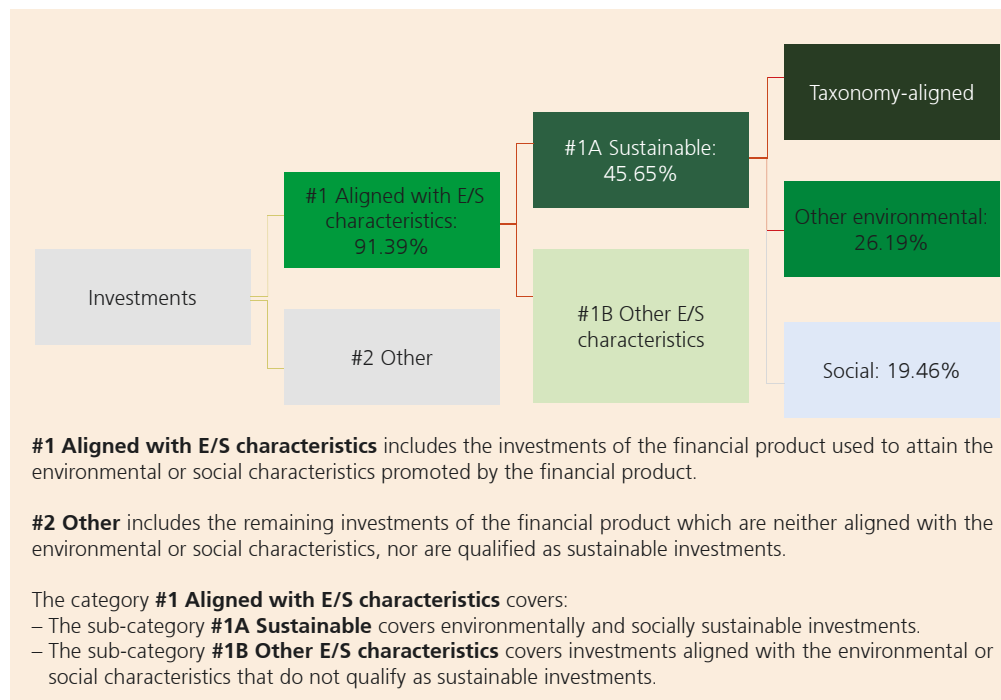

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product invests in economic activities which are environmentally sustainable but not EU Taxonomy aligned, this is due to the absence of the required implementing legislation and in particular the absence of the necessary taxonomy-related data provided by the investee companies and of a well-defined calculation methodology. The financial product targets a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy greater than 0%.

What was the share of socially sustainable investments?

The financial product targets a minimum share of socially sustainable investments greater than 0%.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Bond SICAV – Global Corporates (USD)
Legal entity identifier: 54930056U01IZDXUJ005

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristic is promoted by the financial product:

A sustainability profile that is higher than its benchmark’s sustainability profile or a minimum of 51% of assets invested in issuers with sustainability profiles in the top half of the UBS ESG Consensus score scale.

The extent to which the environmental and/or social characteristics promoted by this financial product were met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

During the reference period, the UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 6.45
- UBS consensus score of the benchmark: 6.40

79.20% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

----- How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

----- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 12 October 2022 onwards, the following characteristics were promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in issuers with sustainability profiles in the top half of the UBS ESG Consensus score scale.
- 2) The percentage of subfund assets invested in sovereign bonds from issuers showing "controversies" on the UBS ESG Risk Dashboard is lower than the percentage in the benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

From 12 October 2022 onwards, characteristic 1:

- The UBS ESG consensus score of the financial product was lower than that of its benchmark.
 - UBS consensus score of the financial product: 6.89
 - UBS consensus score of the benchmark: 7.03
- 73.42% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

From 12 October 2022 onwards, characteristic 2:

- The percentage of subfunds assets invested in sovereign bonds from issuers showing “controversies” on the UBS ESG Risk Dashboard is higher than that of its benchmark.
 - Assets invested in sovereign bonds from issuers showing “controversies” of the financial product: 0.00%
 - Assets invested in sovereign bonds from issuers showing “controversies” of benchmark: 0.00%

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 12 October 2022 onwards, the following characteristics were promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in issuers with sustainability profiles in the top half of the UBS ESG Consensus score scale.
- 2) The percentage of subfund assets invested in sovereign bonds from issuers showing "controversies" on the UBS ESG Risk Dashboard is lower than the percentage in the benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

From 12 October 2022 onwards, characteristic 1:

- The UBS ESG consensus score of the financial product was lower than that of its benchmark.
 - UBS consensus score of the financial product: 7.12
 - UBS consensus score of the benchmark: 7.38
- 88.06% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

From 12 October 2022 onwards, characteristic 2:

- The percentage of subfunds assets invested in sovereign bonds from issuers showing “controversies” on the UBS ESG Risk Dashboard is higher than that of its benchmark.
 - Assets invested in sovereign bonds from issuers showing “controversies” of the financial product: 0.00%
 - Assets invested in sovereign bonds from issuers showing “controversies” of benchmark: 0.00%

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

----- How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

----- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

What was the proportion of sustainability-related investments?

Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Asset allocation

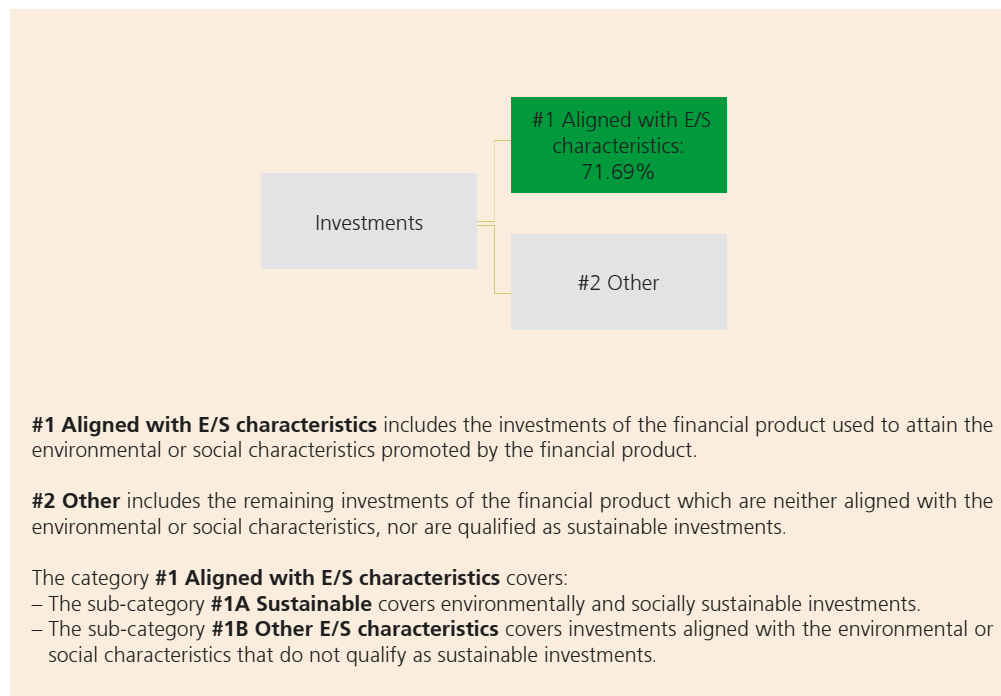

describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the asset allocation?

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

● **What was the share of sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.**

Not applicable.

● **What was the share of socially sustainable investments?**

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Bond SICAV – Global SDG Corporates Sustainable (USD)
Legal entity identifier: 391200DD2LAPGC17ZD37

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 58.09% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 26 October 2022 onwards, the following characteristic is promoted by the financial product:

Invest at least 80% of the assets worldwide in corporate bonds from developed market or emerging market issuers that promote one or more United Nations Sustainable Development Goals (SDGs), such as SDG 7 (Affordable and Clean Energy), SDG 9 (Industry, Innovation and Infrastructure), SDG 3 (Good Health and Well-Being) and SDG 6 (Clean Water and Sanitation), as well as “green”, “social”, “sustainable” bonds from companies (including supranational and agency bonds), the proceeds of which will be used for eligible environmental and social projects.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

● **How did the sustainability indicators perform?**

From 26 October 2022 onwards, 86.70% of the assets worldwide were invested in corporate bonds from developed market or emerging market issuers that promote one or more United Nations Sustainable Development Goals (SDGs), such as SDG 7 (Affordable and Clean Energy), SDG 9 (Industry, Innovation and Infrastructure), SDG 3 (Good Health and Well-Being) and SDG 6 (Clean Water and Sanitation), as well as in “green”, “social”, “sustainable” bonds from companies (including supranational and agency bonds).

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

----- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

----- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Asset allocation describes the share of investments in specific assets.

● What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 58.09%.

● What was the asset allocation?

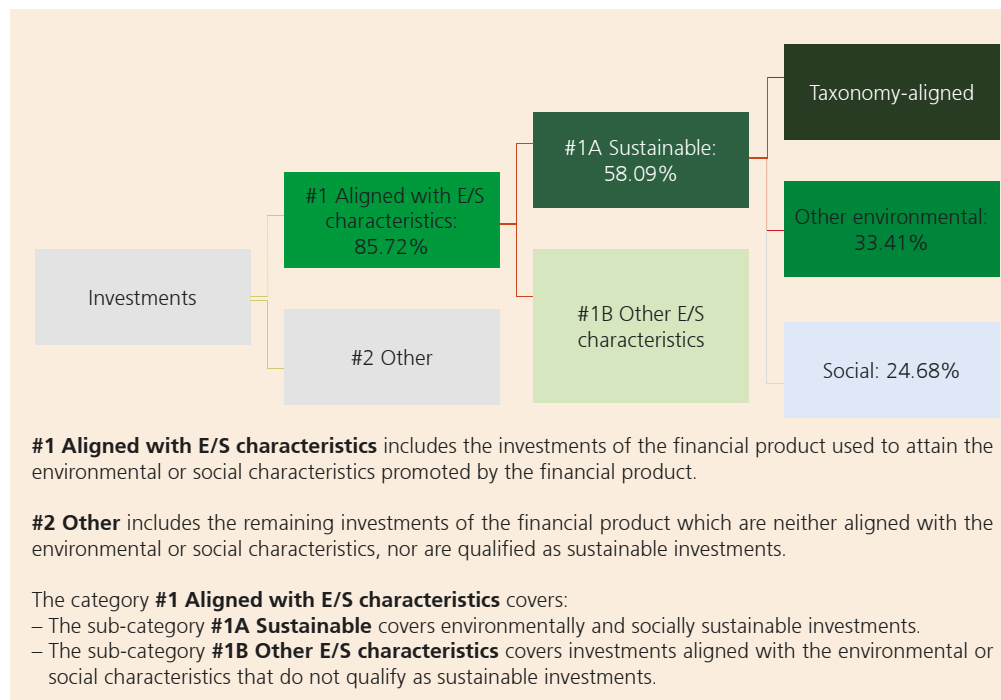

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

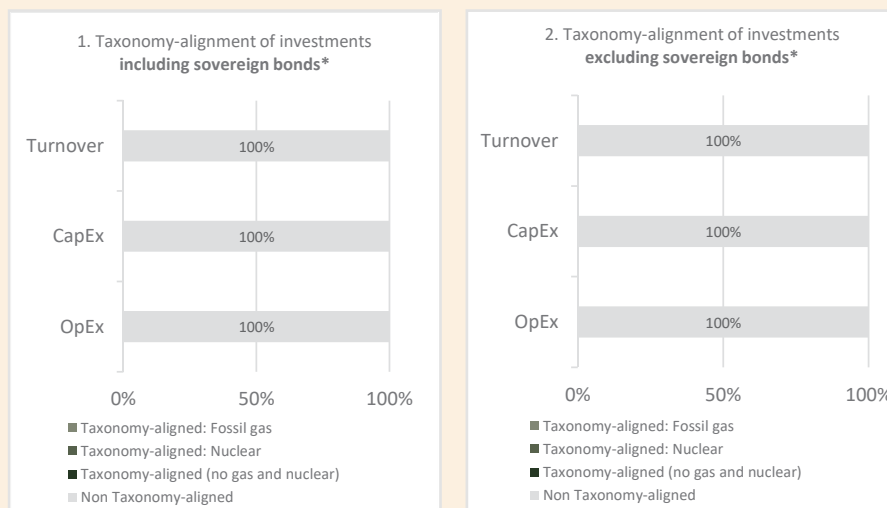

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The financial product invests in economic activities which are environmentally sustainable but not EU Taxonomy aligned, this is due to the absence of the required implementing legislation and in particular the absence of the necessary taxonomy-related data provided by the investee companies and of a well-defined calculation methodology. The financial product targets a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy greater than 0%.

● **What was the share of socially sustainable investments?**

The financial product targets a minimum share of socially sustainable investments greater than 0%.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Bond SICAV – Global Short Term Flexible (USD)
Legal entity identifier: 5493001GWYOZAX60FV90

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 12 October 2022 onwards, the following characteristics were promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in issuers with sustainability profiles in the top half of the UBS ESG Consensus score scale.
- 2) The percentage of subfund assets invested in sovereign bonds from issuers showing "controversies" on the UBS ESG Risk Dashboard is lower than the percentage in the benchmark.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark’s profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

From 12 October 2022 onwards, characteristic 1:

- The UBS ESG consensus score of the financial product was higher than that of its benchmark.
 - UBS consensus score of the financial product: 6.80
 - UBS consensus score of the benchmark: 6.59
- 81.93% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

From 12 October 2022 onwards, characteristic 2:

- The percentage of subfunds assets invested in sovereign bonds from issuers showing “controversies” on the UBS ESG Risk Dashboard is higher than that of its benchmark.
 - Assets invested in sovereign bonds from issuers showing “controversies” of the financial product: 0.00%
 - Assets invested in sovereign bonds from issuers showing “controversies” of benchmark: 0.00%

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

----- How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

● **What was the share of socially sustainable investments?**

Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Bond SICAV – Green Social Sustainable Bonds (EUR)
Legal entity identifier: 549300QRLQHB53UP7O78

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 73.18% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristic is promoted by the financial product:

Invest at least two thirds of the assets in “green”, “social”, “sustainable” bonds, the proceeds of which are used for eligible environmental and social projects, in “sustainability-linked” bonds that include environmental, social and governance-related key performance indicators to which the issuers are committed, as well as in bonds from issuers that generate more than 50% of their revenue from activities that contribute to resolving environmental and social challenges.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

● **How did the sustainability indicators perform?**

During the reference period, 88.69% of the financial products assets were invested in “green”, “social”, “sustainable” bonds.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

----- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

----- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Companies violating the United Nations Global Compact (UNGC) principles, which do not demonstrate credible corrective action will be excluded from the investment universe.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

Largest Investments	Sector	% Net Assets*	Country
United States Treasury Note/Bond	Countries & Central Government	5.02	United States of America
International Bank for Reconstruction & Development	Supranational organisations	4.39	United States of America

Intesa Sanpaolo SpA	Banks & credit institutions	1.12	Italy

* Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

Asset allocation describes the share of investments in specific assets.

● What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 73.18%.

● What was the asset allocation?

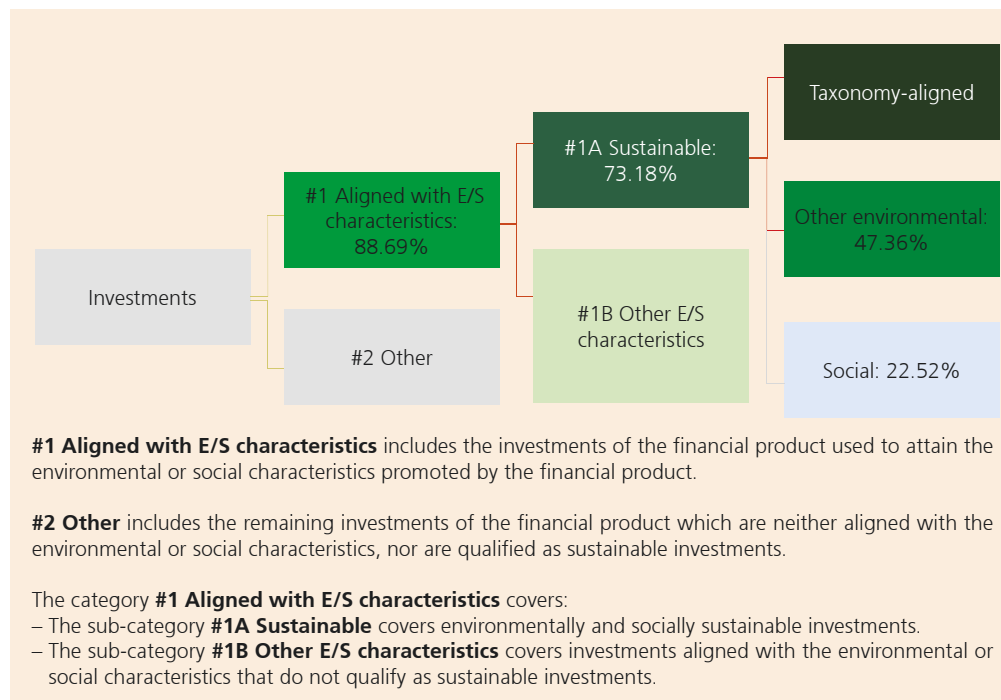

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The financial product invests in economic activities which are environmentally sustainable but not EU Taxonomy aligned, this is due to the absence of the required implementing legislation and in particular the absence of the necessary taxonomy-related data provided by the investee companies and of a well-defined calculation methodology. The financial product targets a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy greater than 0%.

● **What was the share of socially sustainable investments?**

The financial product targets a minimum share of socially sustainable investments greater than 0%.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

The actively managed subfund uses the benchmark ICE Green, Social and Sustainable Bond Custom Index EUR hedged (Bloomberg Ticker: Q5BL), which is designed to promote ESG characteristics.

● How does the reference benchmark differ from a broad market index?

The Reference Benchmark Index covers only qualified green, social or sustainable bonds, whereas the broad market index measures investment grade debt publicly issued in major domestic and eurobond markets, which do not need to have a clearly designated use of proceeds.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The table below shows how the financial product and the reference benchmark performed as per end of the reference period on the environmental or social characteristic:

Indicator	(Portfolio) Investment contributing to E/S	(Reference ESG Benchmark) Investment contributing to E/S
UBS (Lux) Bond SICAV - Green Social Sustainable Bonds (EUR)	88.69%	97.07%

● How did this financial product perform compared with the reference benchmark?

The table below shows how the financial product and the reference benchmark performed as per end of the reference period on the environmental or social characteristic:

Indicator	(Portfolio) Investment contributing to E/S	(Reference ESG Benchmark) Investment contributing to E/S
UBS (Lux) Bond SICAV - Green Social Sustainable Bonds (EUR)	88.69%	97.07%

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

- ***How did this financial product perform compared with the broad market index?***

The Reference Benchmark Index covers only qualified green, social or sustainable bonds, whereas the broad market index measures investment grade debt publicly issued in major domestic and eurobond markets, which do not need to have a clearly designated use of proceeds.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Bond SICAV – Short Duration High Yield Sustainable (USD)
Legal entity identifier: 549300B9Y4PBRWQIEF74

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 20.56% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.

The extent to which the environmental and/or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

During the reference period, the UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 5.18
- UBS consensus score of the benchmark: 4.98

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 86.74 tonnes CO2 per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 106.72 tonnes CO2 per million dollars revenues.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

┆---- How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

┆---- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Bond SICAV – Short Term EUR Corporates Sustainable (EUR)
Legal entity identifier: 549300F3WN30GRS1AJ03

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 40.71% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.

The extent to which the environmental and/or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

During the reference period, the UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 7.17
- UBS consensus score of the benchmark: 6.91

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 81.34 tonnes CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 108.32 tonnes CO₂ per million dollars revenues.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

┆---- How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

┆---- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Companies violating the United Nations Global Compact (UNGC) principles, which do not demonstrate credible corrective action will be excluded from the investment universe.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

Largest Investments	Sector	% Net Assets*	Country
BNP Paribas SA	Banks & credit institutions	3.23	France
ING Groep NV	Banks & credit institutions	2.55	Netherlands
Banque Federative du Credit Mutuel SA	Banks & credit institutions	2.30	France
BMW Finance NV	Financial & investment companies	2.29	Netherlands
Credit Suisse Group AG	Banks & credit institutions	2.25	Switzerland
BPCE SA	Banks & credit institutions	2.11	France
Credit Agricole SA	Banks & credit institutions	2.10	France
Cooperatieve Rabobank UA	Banks & credit institutions	2.00	Netherlands

Citigroup Inc	Banks & credit institutions	1.76	United States of America
TotalEnergies SE	Petroleum	1.75	France
Banco Santander SA	Banks & credit institutions	1.75	Spain

* Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

Asset allocation describes the share of investments in specific assets.

● What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 40.71%.

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The financial product invests in economic activities which are environmentally sustainable but not EU Taxonomy aligned, this is due to the absence of the required implementing legislation and in particular the absence of the necessary taxonomy-related data provided by the investee companies and of a well-defined calculation methodology. The financial product targets a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy greater than 0%.

● **What was the share of socially sustainable investments?**

The financial product targets a minimum share of socially sustainable investments greater than 0%.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Bond SICAV – Short Term USD Corporates Sustainable (USD)
Legal entity identifier: 549300JC0NCH4DVR5250

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 26.28% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.

The extent to which the environmental and/or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

During the reference period, the UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 6.94
- UBS consensus score of the benchmark: 6.26

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 88.69 tonnes CO₂ per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 166.47 tonnes CO₂ per million dollars revenues.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

┆---- How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

┆---- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. Asset allocation describes the share of investments in specific assets.

● What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 26.28%.

● What was the asset allocation?

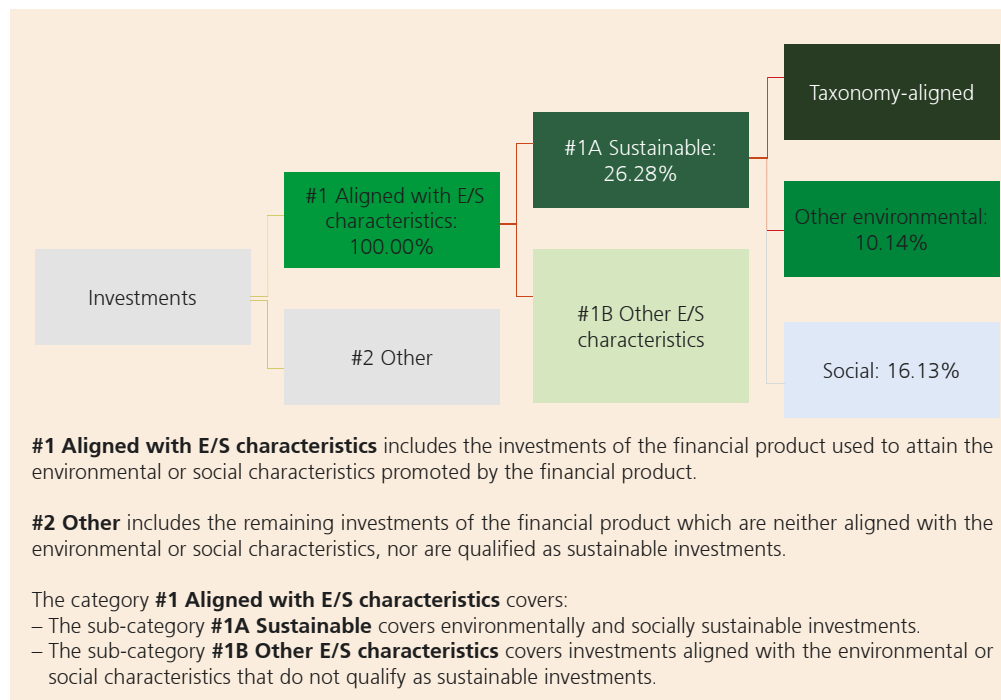

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product invests in economic activities which are environmentally sustainable but not EU Taxonomy aligned, this is due to the absence of the required implementing legislation and in particular the absence of the necessary taxonomy-related data provided by the investee companies and of a well-defined calculation methodology. The financial product targets a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy greater than 0%.

What was the share of socially sustainable investments?

The financial product targets a minimum share of socially sustainable investments greater than 0%.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Bond SICAV – USD Corporates (USD)
Legal entity identifier: WKG5L8WHJEBPPES0NJ68

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristic is promoted by the financial product:

A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in issuers with sustainability profiles in the top half of the UBS ESG Consensus score scale.

The extent to which the environmental and/or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

During the reference period, the UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 6.52
- UBS consensus score of the benchmark: 6.24

88.10% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

----- How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

----- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

What were the top investments of this financial product?

Mitsubishi UFJ Financial Group Inc	Financial & investment companies	1.40	Japan
AbbVie Inc	Pharmaceuticals, cosm & med prod	1.26	United States of America

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

* Minor differences with “Statement of Investments in Securities” might occur due to rounding in production system

What was the proportion of sustainability-related investments?

Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Asset allocation

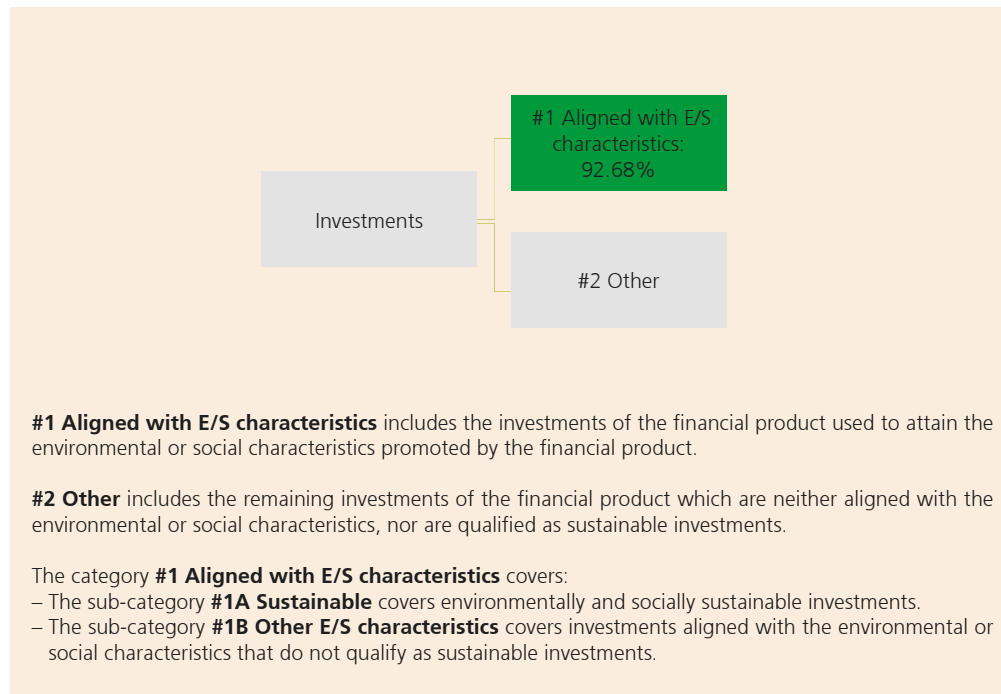

describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the asset allocation?

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

● **What was the share of socially sustainable investments?**

Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Bond SICAV – USD Investment Grade Corporates Sustainable (USD)

Legal entity identifier: 5493004V19YQWEMGY865

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <p><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 29.41% of sustainable investments</p> <p><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input checked="" type="checkbox"/> with a social objective</p> <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.

The extent to which the environmental and/or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

During the reference period, the UBS ESG consensus score of the financial product was higher than that of its benchmark.

- UBS consensus score of the financial product: 6.39
- UBS consensus score of the benchmark: 6.24

The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.

- Weighted Average Carbon Intensity (WACI) of the financial product: 164.70 tonnes CO2 per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 206.29 tonnes CO2 per million dollars revenues.

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

Investments are positively screened according to the environmental and/or social characteristics promoted by the financial product.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

┆---- How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

┆---- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the investment universe.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

The exclusions include thermal coal mining and thermal coal-based energy production & oil sands, the portfolio manager selects investments based upon a lower absolute or relative scope 1+2 carbon intensity. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

The Portfolio Manager employs a proprietary ESG Risk Dashboard, the Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the “UBS ESG Risk Signal”. This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

Companies violating the United Nations Global Compact (UNGC) principles, which do not demonstrate credible corrective action will be excluded from the investment universe.

* Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

Asset allocation describes the share of investments in specific assets.

● What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 29.41%.

● What was the asset allocation?

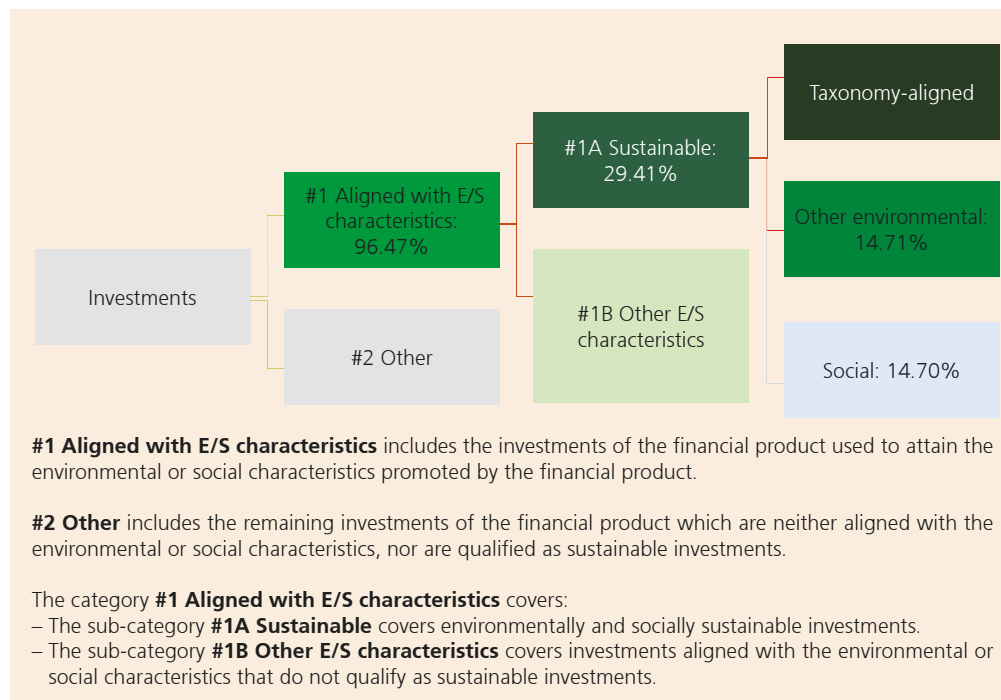

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

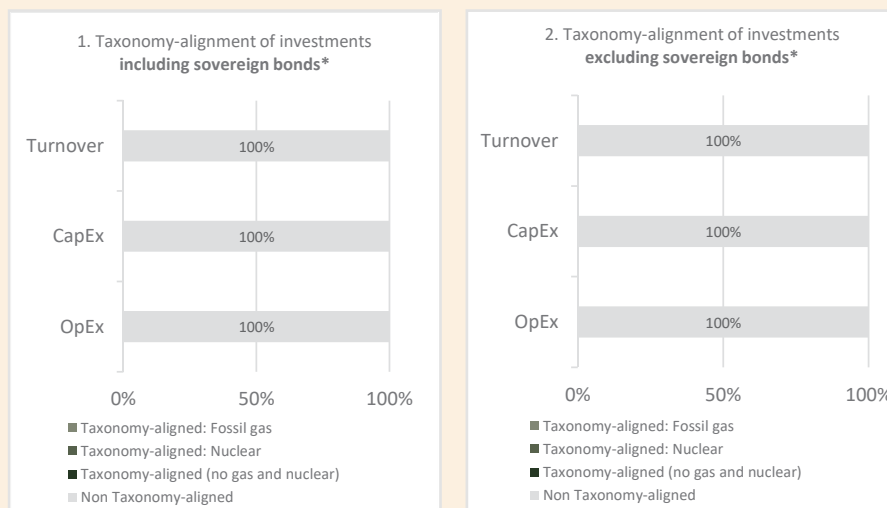

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. This is the first reference period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product invests in economic activities which are environmentally sustainable but not EU Taxonomy aligned, this is due to the absence of the required implementing legislation and in particular the absence of the necessary taxonomy-related data provided by the investee companies and of a well-defined calculation methodology. The financial product targets a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy greater than 0%.

What was the share of socially sustainable investments?

The financial product targets a minimum share of socially sustainable investments greater than 0%.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
